I. Approval of April 11, 2023, minutes

M/S/P to approve minutes.

Statements made before continuing with the rest of the agenda.

UCC Chair Rebekah Fowler summarized statement about EDS course prefix change to SOE:

We will not be considering the prefix change from EDS to SOE at this time. Concerns that were brought up by CSH College Committee: process rushed at the end of the year, no specific learning outcomes from programs, who is responsible for InTASC standards being assessed, and SOE affiliated faculty are being left out of the curriculum process.

This is not the charge of this committee, UCC is here to approve programs and courses. It is not UCC's role to serve as proxy faculty for those impacted by curricular changes. Provost Morgan has agreed that there is a need for discussions and the creation of proper procedures for courses with prefixes not housed in a particular department. This will be discussed in the Fall.

Interim Associate Dean Adrienne Loh's summarized statement:

This change has been in process for two years and has involved faculty in discussions. DPI requires that programs are aligned with InTASC standards and there is a comprehensive assessment system in SOE that collects data and reports on InTASC standards for all programs. This is a process that gets a yearly review. Faculty are extensively involved in this process. Also, all SOE programs recently had to go through revision, and as part of the approval process, program faculty had to identify content specific learning outcomes (standards), and provide evidence that their program was aligned to those standards. In the fall, this discussion will be continued with the new Associate Dean of School of Education.
