Undergraduate Catalog	8	Archaeological Studies Major - Bachelor of Science (BS)	84
About UW-La Crosse	9	Archaeological Studies Major: Cultural Anthropology Emphasis - Bachelor of Arts (BA)	87
Missions	10	Archaeological Studies Major: Cultural Anthropology Emphasis - Bachelor of Science (BS)	90
Accreditation	11	Archaeological Studies Minor	93
State Authorization	11	Anthropology Minor	93
Administration and Board of Regents	11	Archaeology Honors Program	94
University Academic Calendar	12	Cultural Anthropology Honors Program	94
Majors, minors, and Other Programs	13	Art (ART)	95
Admissions - Undergraduate	21	Art Major - Bachelor of Arts (BA)	96
Admissions Policies: First Year Students	21	Art Major - Bachelor of Science (BS)	98
Admissions Polices: Transfer Students & Transfer Credits	22	Art Education (Grades K-12) Major - Bachelor of Science (BS)	101
Admissions Policies: International Students	23	Art History Minor	103
Admissions Policies: Special Non-Degree Students	24	Art Minor	104
Admissions Policies: Second Degree Students	24	Art Therapy Minor	104
Admissions Policies: Re-Entry and Re-Admission	24	Photography Minor	105
Admissions Policies: High School Students & ECCP Program	24	Broadfield Social Studies	105
Expenses, Financial Aid, & Scholarships - Undergraduate	26	Broadfield Social Studies Education (Grades 4-12) Major - Bachelor of Science (BS)	106
Expenses - Undergraduate	26	Broadfield Social Studies Education (Grades 4-12) Major: History Concentration - BS	108
Financial Aid & Scholarships - Undergraduate	27	Broadfield Social Studies Education (Grades 4-12) Major: Political Science Concentration - BS	113
Veteran benefits	30	Broadfield Social Studies Education (Grades 4-12) Major: Sociology Concentration - BS	116
Academic Policies - Undergraduate	32	Child/Youth Care (CYC)	118
Academic Eligibility - Undergraduate	32	At-Risk Child and Youth Care Minor	119
Academic Records/FERPA - Undergraduate	34	Communication Studies (CST)	119
Course Information - Undergraduate	35	Communication Studies Major: Interpersonal Communication Emphasis - Bachelor of Arts (BA)	121
Credit for Prior Learning - Undergraduate	37	Communication Studies Major: Interpersonal Communication Emphasis - Bachelor of Science (BS)	124
Grading System and Policies - Undergraduate	40	Communication Studies Major: Media Studies Emphasis - Bachelor of Arts (BA)	126
Graduation/Commencement - Undergraduate	42	Communication Studies Major: Media Studies Emphasis - Bachelor of Science (BS)	129
Registration and Schedules - Undergraduate	43	Communication Studies Major: Organizational and Professional Communication Emphasis - BA	131
Student Conduct	46	Communication Studies Major: Organizational and Professional Communication Emphasis - BS	134
Withdrawal Policies - Undergraduate	46	Communication Studies Major: Public Communication and Advocacy Emphasis - Bachelor of Arts (BA)	136
Cooperative Education and Internships	49	Communication Studies Major: Public Communication and Advocacy Emphasis - Bachelor of Science (BS)	139
Campus Organizations and Activities	50		
Campus Resources	50		
On-campus Life	60		
Degree Requirements - Undergraduate	64		
General Education Program	70		
College of Arts, Social Sciences, and Humanities (CASSH)/School of Visual and Performing Arts (VPA)	75		
Archaeology and Anthropology (ARC/ANT)	79		
Archaeological Studies Major - Bachelor of Arts (BA)	80		

Communication Studies Minor: Interpersonal Communication Emphasis	141	Spanish Education Major (Grades K-12) - Bachelor of Science (BS)	191
Communication Studies Minor: Media Studies Emphasis	142	Spanish Education (Grades K-12) and TESOL (Grades K-12) Major - Bachelor of Science (BS)	195
Communication Studies Minor: Organizational and Professional Communication Emphasis	142	Chinese Studies Minor	198
Communication Studies Minor: Public Communication and Advocacy Emphasis	143	French Minor	198
Digital Media Studies and Design Minor	143	German Studies Minor	199
Leadership Development Minor	144	Spanish Minor	199
Economics (ECO)	145	Chinese Proficiency Certificate	200
Economics Major - Bachelor of Arts (BA)	145	French Proficiency Certificate	200
Economics Major - Bachelor of Science (BS)	148	Russian Studies Certificate	200
Economics Minor	150	Spanish for Business and Organizations Certificate	201
Economics Honors Program	150	Spanish for the Health Professions Certificate	201
English (ENG)	150	Alvida Ahlstrom Honors Program	202
English Major: Literary and Cultural Studies Emphasis - Bachelor of Arts (BA)	151	History (HIS)	202
English Major: Medical Professions Emphasis - Bachelor of Arts (BA)	155	History Major with Regional Emphasis - Bachelor of Arts (BA)	203
English Major: Medical Professions Emphasis - Bachelor of Science (BS)	157	History Major with Regional Emphasis - Bachelor of Science (BS)	207
English Major: Writing and Rhetoric Studies Emphasis - Bachelor of Arts (BA)	160	History Major with Topical Emphasis - Bachelor of Arts (BA)	210
English Education (Grades 4-12) Major - Bachelor of Science (BS)	162	History Major with Topical Emphasis - Bachelor of Science (BS)	214
Creative Writing Minor	165	History Major with World History Emphasis - Bachelor of Arts (BA)	219
English Language and Literature Minor	166	History Major with World History Emphasis - Bachelor of Science (BS)	223
Linguistics Minor	167	History Minor	226
Literary and Cultural Studies Minor	168	International and Global Studies (INS)	227
Professional and Technical Writing Certificate	169	International and Global Studies Minor	227
Professional and Technical Writing Minor	169	Latina/o and Latin American Studies	228
English Honors Program	170	Liberal Studies (LS)	229
Gerontology (GTL)	170	Military Science (MS)	229
Gerontology Certificate	171	Military Science Minor	230
Global Cultures and Languages (GCL)	171	Music (MUS)	230
French Major - Bachelor of Arts (BA)	173	Music Major: Performance Emphasis - Bachelor of Arts (BA)	233
French Major with Business Concentration - Bachelor of Arts (BA)	175	Music Major: Performance Emphasis - Bachelor of Science (BS)	235
French Education (Grades K-12) Major - Bachelor of Science (BS)	177	Music Major: Music Theory Emphasis - Bachelor of Arts (BA)	237
French Education (Grades K-12) and TESOL (Grades K-12) Major - Bachelor of Science (BS)	180	Music Major: Music Theory Emphasis - Bachelor of Science (BS)	240
German Studies Major - Bachelor of Arts (BA)	183	Music Major: Jazz Performance Emphasis - Bachelor of Arts (BA)	242
German Studies Major with Business Concentration - Bachelor of Arts (BA)	186	Music Major: Jazz Performance Emphasis - Bachelor of Science (BS)	245
Spanish Major - Bachelor of Arts (BA)	188	Music Major: Piano Pedagogy - Bachelor of Arts (BA) ...	247

Music Major: Piano Pedagogy - Bachelor of Science (BS)	249	Human Rights and Criminal Justice Certificate	302
Music Education Major: Choral and General Music Emphasis (Grades K-12) - Bachelor of Science (BS)	252	Society, Health, and Medicine Certificate	302
Music Education Major: Instrumental and General Music Emphasis (Gr K-12) - Bachelor of Science (BS)	255	Sociology Honors Program	303
Music Minor	258	Sustainability and Environmental Studies Program (ENV) ...	303
Music Performance Minor	258	Sustainability and Environmental Studies Minor	303
Philosophy (PHL)	258	Theatre and Dance (THA)	304
Philosophy Major - Bachelor of Arts (BA)	259	Theatre Arts Major: Arts Administration Emphasis - Bachelor of Arts (BA)	305
Philosophy Major - Bachelor of Science (BS)	261	Theatre Arts Major: Arts Administration Emphasis - Bachelor of Science (BS)	308
Ethics Minor	263	Theatre Arts Major: Design/Technical Emphasis - Bachelor of Arts (BA)	310
Philosophy Minor	264	Theatre Arts Major: Design/Technical Emphasis - Bachelor of Science (BS)	312
Philosophy Honors Program	264	Theatre Arts Major: General Emphasis - Bachelor of Arts (BA)	315
Political Science and Public Administration (POL/PUB)	264	Theatre Arts Major: General Emphasis - Bachelor of Science (BS)	317
Political Science Major - Bachelor of Arts (BA)	265	Theatre Arts Major: Musical Theatre Emphasis - Bachelor of Arts (BA)	320
Political Science Major - Bachelor of Science (BS)	268	Theatre Arts Major: Musical Theatre Emphasis - Bachelor of Science (BS)	322
Public Administration Major - Bachelor of Arts (BA)	270	Theatre Arts Major: Performance Emphasis - Bachelor of Arts (BA)	324
Public Administration Major - Bachelor of Science (BS)	273	Theatre Arts Major: Performance Emphasis - Bachelor of Science (BS)	327
Criminal Justice Minor	275	Theatre Arts Major: Stage Management Emphasis - Bachelor of Arts (BA)	329
Legal Studies Minor	276	Theatre Arts Major: Stage Management Emphasis - Bachelor of Science (BS)	332
Political Science Minor	277	Dance Minor	334
Public Administration Minor	277	Theatre Arts Minor: Arts Administration Emphasis	334
Political Science and/or Public Administration Honors Program	277	Theatre Arts Minor: Design/Technical Emphasis	334
Psychology (PSY)	277	Theatre Arts Minor: General Emphasis	335
Psychology Major - Bachelor of Arts (BA)	279	Theatre Arts Minor: Performance Emphasis	335
Psychology Major - Bachelor of Science (BS)	282	Theatre Arts Minor: Stage Management Emphasis	335
Psychology Minor	285	College of Business Administration (CBA)	337
Neuroscience Interdisciplinary Minor	285	Accountancy (ACC)	339
Psychology Honors Program	285	Accountancy Major - Bachelor of Science (BS)	340
Race, Gender, and Sexuality Studies (ERS/RGS)	286	Accountancy Minor	342
Race, Gender, and Sexuality Studies Major - Bachelor of Arts (BA)	288	Business Administration	342
Race, Gender, and Sexuality Studies Major - Bachelor of Science (BS)	291	Business Administration Minor	342
Social Justice Minor	294	Economics (ECO)	342
Race, Gender, and Sexuality Studies Minor	294	Economics Major - Bachelor of Science (BS)	343
Hmong and Hmong-American Studies Certificate	295	Economics Minor	345
Sociology and Criminal Justice (SOC)	296	Economics Honors Program	345
Sociology Major - Bachelor of Arts (BA)	297	Finance (FIN)	345
Sociology Major - Bachelor of Science (BS)	299		
Criminal Justice Minor	301		
Sociology Minor	302		

Finance Major - Bachelor of Science (BS)	346	Biology Minor	409
Finance Major: Risk, Insurance, and Financial Planning Concentration - Bachelor of Science (BS)	348	Chemistry and Biochemistry (CHM)	409
Information Systems (IS)	350	Biochemistry Major (with ASBMB certification) - Bachelor of Science (BS)	410
Business Analytics Major - Bachelor of Science (BS)	351	Chemistry Major - Bachelor of Science (BS)	413
Information Systems Major - Bachelor of Science (BS)	353	Chemistry Major (with ACS Certification) - Bachelor of Science (BS)	415
Business Analytics Minor	355	Chemistry Major with Business Concentration - Bachelor of Science (BS)	418
Information Systems Minor	356	Chemistry Major with Environmental Science Concentration - Bachelor of Science (BS)	419
International Business (IB)	356	Chemistry Major: Science Education (Grades 4-12) Concentration - Bachelor of Science (BS)	421
International Business Major - Bachelor of Science (BS)	357	Dual Degree Program in Chemistry and Engineering	424
International Business Minor	359	Chemistry Minor	425
Management (MGT)	359	Clinical Laboratory Science (CLI)	426
Management Major - Bachelor of Science (BS)	360	Clinical Laboratory Science - Bachelor of Science (BS)	426
Healthcare Analytics Management Minor	363	Dual Degree Program in Clinical Laboratory Science and Clinical Microbiology	429
Marketing (MKT)	363	Computational Science (CMP)	432
Marketing Major - Bachelor of Science (BS)	364	Computational Science Minor	433
Sustainable Business	366	Computer Science & Computer Engineering (CS/CPE/CT) ...	433
Sustainable Business Minor	366	Computer Engineering Major - Bachelor of Science (BS)	434
College of Science and Health (CSH)	367	Computer Science Major - Bachelor of Science (BS)	436
Biology (BIO)	374	Computer Science Major - Computer Engineering Technology Emphasis - Bachelor of Science (BS)	439
Biology Major - Bachelor of Arts (BA)	375	Computer Science Major: Cybersecurity Emphasis - Bachelor of Science (BS)	440
Biology Major - Bachelor of Science (BS)	378	Dual Degree Program in Computer Science and Engineering	443
Biology Major: Aquatic Science Concentration - Bachelor of Arts (BA)	381	Dual Degree Program in Computer Science and Master of Software Engineering	445
Biology Major: Aquatic Science Concentration - Bachelor of Science (BS)	383	Dual Degree Program in Computer Science: Cybersecurity and Master of Software Engineering	447
Biology Major: Biomedical Science Concentration - Bachelor of Arts (BA)	385	Computer Science Minor	450
Biology Major: Biomedical Science Concentration - Bachelor of Science (BS)	388	Exercise and Sport Science (ESS)	450
Biology Major: Environmental Science Concentration - Bachelor of Arts (BA)	390	Exercise and Sport Science Major: Exercise Science Fitness Track - Bachelor of Science (BS)	452
Biology Major: Environmental Science Concentration - Bachelor of Science (BS)	392	Exercise and Sport Science Major: Exercise Science Pre- Professional Track - Bachelor of Science	454
Biology Major: Molecular Genetics and Cell Biology Concentration - Bachelor of Arts (BA)	395	ESS Major: Physical, Adapted, and School Health Education (Grades K-12) - Bachelor of Science (BS)	457
Biology Major: Molecular Genetics and Cell Biology Concentration - Bachelor of Science (BS)	397	Exercise and Sport Science Major: Sport Management Emphasis - Bachelor of Science (BS)	459
Biology Major: Plant and Fungal Biology Concentration - Bachelor of Arts (BA)	399	Dual Degree Program in ESS: Pre-Professional Track and Athletic Training	461
Biology Major: Plant and Fungal Biology Concentration - Bachelor of Science (BS)	401	Coaching Competitive Athletics Concentration	464
Biology Major: Science Education (Grades 4-12) Concentration (BS)	404		
Dual Degree Program in Biology and Physical Therapy	407		

Geography and Environmental Science (GEO/ESC)	465	Microbiology Minor	512
Geography Major: Environmental Science Concentration - Bachelor of Arts (BA)	466	Microbiology Honors Program	512
Geography Major: Environmental Science Concentration - Bachelor of Science (BS)	468	Nuclear Medicine Technology (NMT)	512
Geography Major: Geographic Information Science Concentration - Bachelor of Arts (BA)	470	Nuclear Medicine Technology Major - Bachelor of Science (BS)	513
Geography Major: Geographic Information Science Concentration - Bachelor of Science (BS)	473	Nutrition (NUT)	515
Geography Major: Humans and the Environment Emphasis - Bachelor of Arts (BA)	475	Nutrition Minor	515
Geography Major: Humans and the Environment Emphasis - Bachelor of Science (BS)	477	Physics (PHY)	516
Earth Science Minor	479	Physics Major - Bachelor of Arts (BA)	517
Geoarchaeology Minor	480	Physics Major - Bachelor of Science (BS)	518
Geographic Information Science Minor	480	Physics Major with Applied Emphasis - Bachelor of Science (BS)	520
Human and Environmental Geography Minor	480	Physics Major with Astronomy Emphasis - Bachelor of Arts (BA)	522
Geographic Information Science Certificate	481	Physics Major with Astronomy Emphasis - Bachelor of Science (BS)	524
Geography and Environmental Science Honors Program	481	Physics Major with Biomedical Concentration - Bachelor of Science (BS)	526
Health Professions (HP)	481	Physics Major with Business Concentration - Bachelor of Science (BS)	528
Mathematics and Statistics (MTH/STAT)	482	Physics Major with Computational Physics Emphasis - Bachelor of Science (BS)	530
Mathematics Major - Bachelor of Arts (BA)	483	Physics Major with Optics Emphasis - Bachelor of Science (BS)	532
Mathematics Major - Bachelor of Science (BS)	485	Physics Major: Science Education (Grades 4-12) Concentration - Bachelor of Science (BS)	533
Mathematics Major with Applied Emphasis (BS)	487	Dual Degree Program in Physics and Engineering	536
Mathematics Education (Grades 4-12) Major - Bachelor of Science (BS)	489	Dual Degree Program in Physics and Physical Therapy	538
Statistics Major - Bachelor of Science (BS)	492	General Science for Teachers Minor	540
Statistics Major with Concentration in Actuarial Science - Bachelor of Science (BS)	494	Physics Minor	541
Dual Degree Program in Mathematics and Engineering	496	Physics Minor with Astronomy Emphasis	541
Dual Degree Program in Statistics and Applied Statistics	497	Physics and Astronomy Honors Program	541
Communication, Writing, and Critical Reasoning Minor	499	Public Health and Community Health Education (HED/CHE/PH/HWM/SHE)	541
Mathematics Minor	500	Public Health and Community Health Education Major - Bachelor of Science (BS)	543
Mathematics for Teachers Minor	500	Radiologic Science (DMS/RT/RAD)	545
Statistics Minor	501	Radiologic Science Major: Diagnostic Medical Sonography with Echocardiography/Vascular Emphasis - BS	546
Mathematics Honors Program	501	Radiologic Science Major: Diagnostic Medical Sonography with General/Vascular Emphasis - BS	549
Microbiology (MIC)	501	Radiologic Science Major: Radiation Therapy Emphasis - Bachelor of Science (BS)	551
Microbiology Major - Bachelor of Science (BS)	502	Radiologic Science Major: Radiologic Technology Emphasis - Bachelor of Science (BS)	554
Microbiology Major: Biomedical Concentration - Bachelor of Science (BS)	505	Recreation Management and Therapeutic Recreation (REC/RTH/MIND)	556
Microbiology Major: Business Concentration - Bachelor of Science (BS)	507		
Microbiology Major: Environmental Science Concentration - Bachelor of Science (BS)	509		

Recreation Management Major: Generalist Emphasis - Bachelor of Science (BS)	557	Art (ART) - Courses	627
Recreation Management Major: Community-Based Recreation Emphasis - Bachelor of Science (BS)	559	Biology (BIO) - Courses	633
Recreation Management Major: Outdoor Recreation Emphasis - Bachelor of Science (BS)	561	Business Administration (BUS) - Courses	640
Recreation Management Major: Tourism and Event Management Emphasis - Bachelor of Science (BS)	563	Business Law (BLAW) - Courses	641
Recreational Therapy Major - Bachelor of Science	565	Chemistry (CHM) - Courses	641
Dual Degree Program in Recreation Mgmt: Community-Based Recreation B.S. & Recreation Management M.S.	567	Child/Youth Care (CYC) - Courses	645
Dual Degree Program in Recreation Management: Generalist B.S. & Recreation Management M.S.	570	Chinese (CHI) - Courses	645
Dual Degree Program in Recreation Management: Outdoor Recreation B.S. & Recreation Management M.S.	572	Clinical Laboratory Science (CLI) - Courses	646
Dual Degree Program in Recreation Mgmt: Tourism & Event Management B.S. & Recreation Management M.S.	575	Communication Studies (CST) - Courses	648
Dual Degree Program in Recreational Therapy B.S. and M.S.	577	Community Health Education (CHE) - Courses	653
Inclusive Recreation Minor	580	Computational Science (CMP) - Courses	655
Recreation Management Minor	580	Computational Thinking (CT) - Courses	655
Recreation Management Minor for Recreational Therapy Majors	581	Computer Engineering (CPE) - Courses	655
Tourism and Event Management Minor	581	Computer Science (CS) - Courses	657
School of Education (SOE)	582	Cooperative Education and Internship (CEI) - Courses	661
Educational Studies (EDS)	593	Curriculum and Instruction (CI) - Courses	661
Early Childhood Education (Birth-Grade 3) Major - Bachelor of Science (BS)	594	Diagnostic Medical Sonography (DMS) - Courses	661
Elementary/Middle Education Major (Grades K-9) - Bachelor of Science (BS)	596	Early Childhood Education (ECE) - Courses	665
Elementary/Middle Education (K-9) and French Education (K-12) Major - Bachelor of Science (BS)	599	Economics (ECO) - Courses	667
Elementary/Middle Education (K-9) and Spanish Education (K-12) Major - Bachelor of Science (BS)	602	Educational Foundations (EFN) - Courses	669
Elementary/Middle Education (K-9) and Special Education (K-12) Major - Bachelor of Science (BS)	606	Educational Studies (EDS) - Courses	670
Elementary/Middle Education (Grades K-9) and TESOL (Grades K-12) Major - Bachelor of Science (BS)	609	English (ENG) - Courses	673
Teaching English to Speakers of Other Languages (TESOL) Minor	613	English as a Second Language (ESL) - Courses	681
Graduate & Extended Learning - Undergraduate	615	Environmental Studies (ENV) - Courses	684
Murphy Library	616	Ethnic and Racial Studies (ERS) - Courses	685
Library Department	617	Exercise and Sport Science (ESS) - Courses	685

Undergraduate Catalog

of policies, requirements, regulations, and procedures in a form helpful to you during your college career.

This catalog is a record of undergraduate programs, courses, policies, staff, and facilities as of July 2023. Changes that occur after the July publication date will be included in the next catalog.

Welcome

Welcome to the University of Wisconsin-La Crosse. We're delighted that you have selected our campus for your education and look forward to working with you as you pursue your goals.

This catalog is your guide to planning for your degree. You'll find it helpful now through commencement; virtually every question you might have about UWL is answered in this book. I encourage you to read and continually refer to this essential publication. In addition, you should talk frequently with your college and departmental advisors to ensure that you are taking the right steps toward your educational goals.

Best wishes for success in your academic pursuits!

Joe Gow
Chancellor

Student responsibilities and this catalog

All departments, schools and colleges within the university establish certain requirements that must be met before a degree program is completed. These requirements concern such things as curricula and courses, majors and minors, and residence at the university. Advisors, department chairpersons, academic staff members and deans are available to help you understand and meet these requirements, but you are responsible for fulfilling them. At the end of your selected course of study, the faculty decides whether you will receive a degree. If requirements of graduation have not been satisfied, the degree will not be granted. For this reason, it is important for you to become acquainted with university requirements and regulations, to continue to keep information about them throughout your college career, and to be responsible for the completion of all requirements.

Also, it is necessary, in the general administration of the university, to establish broad policies and to provide certain regulations and procedures by which they may be carried out. It is important that you understand the policies and know the regulations and procedures that you are expected to follow. This catalog will serve as your curriculum guide throughout your education at UWL, provided you maintain uninterrupted attendance and complete your degree within six calendar years. In compiling our catalog, we have used the most current and accurate information available to us at this time. However, we reserve the right to add, revise, or delete any of the information at any time and without giving prior notice. Often when changes are made, you may follow either your original catalog or the catalog containing the changed curriculum requirements, whichever you prefer; however, you must choose one catalog or the other, not a mixture of the two. At times, changes are applicable to all students, regardless of what catalog you are following. This decision, which is in the best interest of your education, may be based on accreditation or certification requirements, campus or UW System policies, or program quality. Curriculum changes are reflected in your advisement report, which makes it the most up-to-date source of information. Changes, such as prerequisites and credits, which affect individual courses, are applicable to all students.

This catalog does not establish a contractual relationship. It summarizes the total requirements you must meet before qualifying for a degree, and is presented, therefore, not only to enable prospective students and others to learn about UWL, but also to provide a statement

About UW-La Crosse

- UW-La Crosse: a profile (p. 9)
- Freedom of thought and expression (p. 9)
- Civil rights (p. 9)
- Accommodation of religious beliefs (p. 9)
- Accessibility for individuals with disabilities (p. 10)

UW-La Crosse: a profile

The University of Wisconsin-La Crosse continues to position itself among the country's elite public universities. The university is the state's top-ranked public higher education institution by the *U.S. News & World Report* for Best Regional Universities in the Midwest. It has been ranked among the top Midwestern public institutions for more than two decades.

The student body of nearly 10,500 from 44 states and 25 countries is impressive. UWL's retention rate is an outstanding 84% and the current six-year graduation rate is 73%, well above the national average.

UWL offers 102 undergraduate academic programs in 30 disciplines, 30 graduate programs, and 2 doctoral programs. A 19:1 student-faculty ratio means small classes, with an average of 29 students. 78% of full-time faculty hold doctoral or terminal degrees. Students learn directly from professors, including the recipient of the 2021 Board of Regents Teaching Excellence Award - a distinction given to just two instructors across the UW System.

The university is organized into three academic colleges and two schools: the College of Business Administration, College of Science and Health, College of Arts, Social Sciences, and Humanities, the School of Visual and Performing Arts (housed within the College of Arts, Social Sciences, and Humanities), and the School of Education. Teacher education is a campus-wide commitment. Descriptions of the departments and programs within the colleges as well as general information, college curriculum requirements, and any requirements that apply to specific colleges can be found in the undergraduate (<http://catalog.uwlax.edu/undergraduate/>) and graduate (<http://catalog.uwlax.edu/graduate/>) catalogs or through UWL's Academics (<https://www.uwlax.edu/info/academics/>) page. Descriptions of pre-professional programs are included in the College of Science and Health. Wisconsin teacher licensure information is included in the School of Education section.

The university's intercollegiate athletic teams, the Eagles, compete in 21 sports, predominately in the NCAA Division III, and as of March 31, 2022, have earned 71 national titles, 37 since 2001. The university is proud of the Veterans Memorial Field Sports Complex, a \$16.6 million athletic complex completed in 2009 and funded entirely by private donations. The site is home to the annual WIAA State High School Track & Field Championships and has hosted the NCAA III National Track & Field Championships numerous times — most recently for the 2018 NCAA III Men's and Women's Track & Field Championships.

The campus lies in a residential section of the city of La Crosse (population 52,680, metro 139,627). La Crosse is a major point of interest on the Great River Road that winds north and south through 10 states along the Mississippi River. The city is nestled on the east bank of the river below towering 500-foot bluffs separated by steep-walled ravines known as coulees. See more about the city and area at Explore La Crosse (<http://www.explorelacrosse.com/>).

UWL offers much to western Wisconsin by hosting cultural events, regional and national conferences, and prominent speakers. UWL works

cooperatively with other area education and medical institutions to foster cutting-edge health care in the region, as well as a state-of-the-art health research and education facility.

The university's history dates back to 1909 when the La Crosse Normal School opened its doors as a teacher training school. It became a state teachers college in 1927, a state college in 1951, and a state university in 1964. The university became part of the University of Wisconsin System in 1971. Discover more at the University of Wisconsin-La Crosse (<https://www.uwlax.edu/#welcoming>).

Freedom of thought and expression

The mission of the University of Wisconsin-La Crosse is to provide "a challenging, dynamic, and diverse learning environment in which the entire university community is fully engaged in supporting student success." In pursuit of this mission, UWL encourages and protects diverse perspectives, the free flow of ideas, and open discussion among students, faculty, staff, and other members of the campus community. Constructive engagement with differing perspectives in a climate of free inquiry is essential to the pursuit of knowledge. UWL is committed to providing all members of the University community the broadest possible latitude to speak, write, listen, challenge and learn.

Encountering new, different or opposing perspectives can be challenging and uncomfortable; this is a necessary feature of the UWL educational experience. Thus, all members of the campus community are encouraged to engage with diverse viewpoints in a manner that affirms our community and furthers our mission, to be thoughtful when participating in the exchange of ideas, and to hold themselves accountable for the impact of their expression on others.

For more information and resources, please see the UWL Civil Discourse and Free Speech (<https://www.uwlax.edu/chancellor/civil-discourse-and-free-speech/>) web page, and the University of Wisconsin System Regent Policy Document 4-21, Commitment to Academic Freedom and Freedom of Expression (<https://www.wisconsin.edu/regents/policies/commitment-to-academic-freedom-and-freedom-of-expression/>).

Civil rights

The University of Wisconsin-La Crosse is committed to providing equal education and employment opportunity regardless of race, sex, color, creed, religion, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital, parental status, gender identity, gender expression, or veteran status. Pursuant to Title IX of the Educational Amendments of 1972, discrimination on the basis of sex is prohibited in any educational program or activity receiving federal financial assistance. Pursuant to Title VI of the Civil Rights Act of 1964, discrimination on the basis of race, color or national origin is prohibited. Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 prohibit discrimination on the basis of physical or mental disability. Equal educational opportunity includes: admission, recruitment, extracurricular programs and activities, housing facilities, access to course offerings, counseling and testing, financial assistance, employment, health and insurance services, and athletics. Sexual harassment is a form of sex discrimination that is unlawful and contrary to the fundamental standards of a university community. All grievances, questions or requests for information should be referred to the Office of Equity & Affirmative Action (<https://www.uwlax.edu/equity/>), 145 Graff Main Hall.

Accommodation of religious beliefs

It is the policy of the Board of Regents that students' sincerely held religious beliefs shall be reasonably accommodated with respect to

all examinations and other academic requirements. Pursuant to UWS 22 (https://docs.legis.wisconsin.gov/code/admin_code/uws/22/), the claim of a religious conflict should be accepted at face value, and any student with a conflict between an academic requirement and any religious observance must be given an alternative means of meeting the academic requirement. The student must notify the instructor within the first three weeks of class (within the first week of summer session and short courses) of the specific days/dates for which the student will request relief. Instructors may schedule a make-up examination or other academic requirement before or after the regularly scheduled examination or other academic requirement. Complaints may be filed with the Office of Equity & Affirmative Action (<https://www.uwlax.edu/equity/>).

Accessibility for individuals with disabilities

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination on the basis of disability. Ongoing efforts are being made to ensure that facilities and programs are accessible to all students with disabilities. All students must identify and present documentation (no older than three years) of their disabilities to the ACCESS Center in order to receive ongoing accommodations.

Direct student services to those with physical, sensory or learning disabilities/ADHD include, but are not limited to: classroom note takers, tutors, class preregistration, taped textbooks, academic advising, individual/group counseling and equipment loan. Specific requests for assistance or information should be directed to the coordinator of the ACCESS Center (<http://www.uwlax.edu/access-center/>), 124 Wimberly Hall.

Missions

UW-La Crosse's institutional priorities are guided by the UWL Select Mission, Vision, and Values statements, adopted by the UWL Joint Planning & Budget Committee in March 2015. As part of the University of Wisconsin System, UWL is also guided by the UW System Mission Statement and the Core Mission of the University Cluster Institutions, which applies to all the comprehensive universities in the UW System. At the core of all the mission statements is "The Wisconsin Idea," the principle that the knowledge of the university should be extended to the entire state.

The University of Wisconsin - La Crosse: Mission, Vision, and Values

Adopted by the UWL Joint Planning & Budget Committee, March 2015

Mission

The University of Wisconsin-La Crosse provides a challenging, dynamic, and diverse learning environment in which the entire university community is fully engaged in supporting student success. Grounded in the liberal arts, UWL fosters curiosity and life-long learning through collaboration, innovation, and the discovery and dissemination of new knowledge. Acknowledging and respecting the contributions of all, UWL is a regional academic and cultural center that prepares students to take their place in a constantly changing world community. The university offers undergraduate programs and degrees in the arts and humanities, health and sciences, education, and business administration. The university offers graduate programs related to areas of emphasis and strength within the institution, including business administration, education, health, the sciences, and the social sciences.

Vision

The University of Wisconsin-La Crosse aims to foster within each student the curiosity, creativity, and tenacity necessary to solve the regional, national, and international challenges of the 21st century. The university's official motto *mens corpusque* ("mind and body") will continue to guide our direction as a student-centered university committed to a quality education for the whole person. As such, it will continue to provide opportunities both inside and outside the classroom for the development of sound mental, emotional, and ethical skills, as well as general well-being. Our students, faculty, and staff will experience the world through constantly evolving technologies and cultures. Thus, the skills of effective communication, critical thought, leadership, and an appreciation for diversity must be the hallmarks of a UWL education.

Values

Fassett Cotton, our institution's first leader, serving from 1909-1924, conceived the original University of Wisconsin-La Crosse educational philosophy of the total development of the individual. Later, history professor and Dean of the College of Arts, Letters, and Sciences, William M. Laux (1922-1967), suggested the symbols of our official university seal along with the accompanying Latin phrase, *mens corpusque* ("mind and body"), to exemplify our collective commitment to a high quality education for the whole person. **The University of Wisconsin-La Crosse values:**

- The *mens corpusque* educational philosophy that recognizes each student as a whole person and aspires to enhance both mind and body through the noble search for knowledge, truth, and meaning central to a wide range of high quality learning experiences and scholarly pursuits.
- Diversity, equity, and the inclusion and engagement of all people in a safe campus climate that embraces and respects the innumerable different perspectives found within an increasingly integrated and culturally diverse global community.
- A high quality of life and work balance, incorporating best practices for shared governance and the acquisition and efficient management of resources, equitable compensation, general wellness, and social, environmental, and economic sustainability.
- Civic engagement and a renewed commitment to the *Wisconsin Idea*, in which our socially responsible campus serves as a resource for our increasingly intertwined local, state, and global communities, collaborating and sharing resources and expertise to improve the human condition.

The University of Wisconsin System Mission

The mission of the System is to develop human resources, to discover and disseminate knowledge, to extend knowledge and its application beyond the boundaries of its campuses, and to serve and stimulate society by developing in students heightened intellectual, cultural, and humane sensitivities; scientific, professional, and technological expertise; and a sense of value and purpose. Inherent in this mission are methods of instruction, research, extended education, and public service designed to educate people and improve the human condition. Basic to every purpose of the System is the search for truth.

Core Mission of the University Cluster Institutions

1. Offer associate and baccalaureate degree level and selected graduate programs within the context of its approved mission statement.

2. Offer an environment that emphasizes teaching excellence and meets the educational and personal needs of students through effective teaching, academic advising, counseling, and university-sponsored cultural, recreational, and extracurricular programs.
3. Offer a core of liberal studies that supports university degrees in the arts, letters, and sciences, as well as specialized professional/technical degrees at the associate and baccalaureate level.
4. Offer a program of pre-professional curricular offerings consistent with the university's mission.
5. Expect scholarly activity, including research, scholarship, and creative endeavor, that supports its programs at the associate and baccalaureate degree level, its selected graduate programs, and its approved mission statement.
6. Promote the integration of the extension function, assist the University of Wisconsin-Madison Extension in meeting its responsibility for statewide coordination, and encourage faculty and staff participation in outreach activity.
7. Participate in inter-institutional relationships in order to maximize educational opportunity for the people of the state effectively and efficiently through the sharing of resources.
8. Embrace and encourage student, staff, and faculty diversity in all areas and demonstrate a commitment to equity, diversity, and inclusion.
9. Support activities designed to promote the economic development of the state.

Accreditation

The University of Wisconsin-La Crosse is **accredited by**:

- The Association to Advance Collegiate Schools of Business (AACSB)
- Accreditation Council for Occupational Therapy Education
- Accreditation Review Committee on Education of the Physician Assistant
- American Society for Biochemistry and Molecular Biology
- Commission on Accreditation of Athletic Training Education
- Commission on Accreditation for Physical Therapy Education
- Council on Accreditation of Parks, Recreation, Tourism and Related Professions
- Council on Education for Public Health
- Joint Review Committee on Educational Programs in Radiologic Technology
- Joint Review Committee on Educational Programs in Nuclear Medicine Technology
- National Association of Schools of Music
- National Association for School Psychologists
- Higher Learning Commission (<https://www.hlcommission.org/>) (312.263.0456)
- Wisconsin Department of Public Instruction

State Authorization

UWL complies with regulations in other states to offer online education and clinical placement opportunities to students. This is often referred to as "state authorization."

UWL is part of the State Authorization Reciprocity Agreement (<https://nc-sara.org/>) (SARA).

California Residents: University of Wisconsin-La Crosse does not require licensure to offer courses and externships/clinicals in California.

File a Complaint

In compliance with U.S. Department of Education regulations, UWL provides information to students about their rights to make a complaint about the institution.

To file a complaint against the University of Wisconsin-La Crosse directly, students may learn about the UW System Complaint Process (<https://www.uwlax.edu/finaid/resources/uw-system-complaint-process/>) for resolving complaints and complete the form (<https://www.wisconsin.edu/student-complaints/complaint-form/>) at the UW System website.

Professional Licensure Notice

If a student is planning to apply for licensure in a state other than Wisconsin after completion of their program, the student should refer to the Professional Licensure Disclosure (<https://www.uwlax.edu/info/professional-licensure-disclosure/>) website and contact the other state's appropriate licensing board to determine whether the UWL program meets licensure requirements in that state.

Please note that licensure requirements are always subject to change. Although the University of Wisconsin-La Crosse will confirm the licensure requirements on a routine basis, we strongly recommend that you inquire with the state board to confirm that you understand and will meet the requirements for licensure before enrolling in your program of choice.

Additionally, you should note that licensing requirements vary by state and relocating could impact whether you will meet eligibility requirements for licensure. Check with the state licensing board where you desire licensure before relocating to ensure that you will be eligible for licensure or reciprocity.

For individual Professional Licensure Disclosures, student location is determined by the active local address in the Student Information System (WINGS). All students are prompted to update their local address in the Student Information System (WINGS) each term.

Administration and Board of Regents

University of Wisconsin-La Crosse administration

Office of the Chancellor

- Chancellor – Joe Gow

Division of Academic Affairs

- Provost & Vice Chancellor, Academic Affairs – Betsy Morgan
- Associate Vice Chancellor, Academic Affairs – Sandy Grunwald
- Director of Murphy Library – John Jax
- Director of International Education and Engagement – Karolyn Bald
- Graduate & Extended Learning Dean – Meredith Thomsen

College of Business Administration

- Dean – Taggart Brooks
- Associate Dean – Gwen Achenreiner, Interim

College of Arts, Social Sciences, and Humanities School of Visual and Performing Arts

- Dean – Karl Kunkel
- Associate Dean – Marie Moeller

College of Science and Health

- Dean – Ju Kim
- Associate Dean, Interim – Robert Allen
- Associate Dean, Interim - Whitney George

School of Education

- Dean – Marcie Wycoff-Horn
- Associate Dean – Pao Lor

Division of Student Affairs

- Vice Chancellor, Student Affairs – Vitaliano Figueroa
- Assistant Vice Chancellor, Admissions & Recruitment – Corey Sjoquist
- Dean of Students – Kara Ostlund

Division of Diversity & Inclusion

- Vice Chancellor, Diversity & Inclusion – Barbara Stewart, Interim
- Assistant Vice Chancellor, Diversity & Inclusion – Stacy Narcotta-Welp
- Director of Title IX and Compliance – Rachel Cromheecke, Interim
- Director of the Center for Informative Justice - Ashley Nowak

Division of Administration and Finance

- Vice Chancellor, Administration and Finance – Bob Hetzel
- Director, Budget Office – Emily Roraff
- Controller, Business Services – Mark Haakenson
- Director, Facilities Management – Scott Brown
- Director/Chief Human Resources Officer – Craig Bickley, Interim
- Associate Vice Chancellor-IT and Chief Information Officer – David Kim
- Director, Planning & Construction – Scott Schumacher
- Chief of Police – Allen Hill
- Director, Administrative Services – Robin Tuxen

Division of University Advancement

- Vice Chancellor, University Advancement/UWL Foundation President – Greg Reichert

University of Wisconsin System Board of Regents

The University of Wisconsin-La Crosse is governed by the Board of Regents of the University of Wisconsin System. The Board of Regents as of July 2023:

- Karen Walsh, Madison, President
- Amy Blumenfeld Bogost, Madison, Vice President
- Angela Adams, Milwaukee
- Bob Atwell, Green Bay
- Evan Brenkus, Oneida
- Héctor Colón, Milwaukee
- Mike Jones, Milwaukee

- Jim Krueser, Kenosha
- Edmund Manydeeds III, Eau Claire
- John W. Miller, Milwaukee
- Cris Peterson, Grantsburg
- Joan Prince, Milwaukee
- Ashok Rai, Green Bay
- Jennifer Staton, Parkside
- Mark Tyler, Emerald Township
- Jill Underly, Madison
- Dana Wachs, Eau Claire
- Kyle M. Weatherly, Milwaukee

University of Wisconsin System administration

- Jay O. Rothman, President
- Jess Lathrop, Chief of Staff
- Johannes Britz, Senior Vice President, Academic and Student Affairs (Interim)
- David Brukardt, Vice President, University Relations
- Sean Nelson, Vice President, Finance and Administration

University Academic Calendar

The academic calendar is based on semesters. Semester I (September through mid-December) and Semester II (January through mid-May) each contains 14 weeks of instruction plus one week of final exams. The standard class period is 55 minutes. Numerous workshops and special courses are offered throughout the year and may meet in an abbreviated time frame. Grades can be posted after a course has ended; however, official grade point averages are updated at the end of the term only.

There are two additional terms, winter intersession and summer. Winter intersession provides an intensive three-week term in January. The summer term consists of three four-week sessions, beginning in late May and ending in mid-August. The university provides many courses ranging from general education offerings to specialized courses for majors. There also are undergraduate and graduate level certification and update courses for school professionals and others. Undergraduate degree-seeking students are encouraged to use the summer session to work out irregularities in their programs, to add courses beyond minimum requirements and to make up deficiencies. Complete graduate programs are available for those who wish to attend in summers only. A select number of programs require year-round attendance.

Academic calendar for current year (<http://www.uwlax.edu/Records/Dates-and-deadlines/>)

Majors, Minors, and Other Programs

Browse the alphabetical list of majors, minors, and other programs in the grid below or select a particular college or school to find the undergraduate programs that relate to a particular college/school.

UWL Colleges and Schools

- College of Business Administration (CBA) (p. 337)
- College of Arts, Social Sciences, and Humanities (CASSH) (p. 75)
 - School of Visual and Performing Arts (VPA) (p. 75)
- College of Science and Health (CSH) (p. 367)
- School of Education (SOE) (p. 582)

Alphabetical list of majors, minors, and other programs

UWL offers several different graduate degrees and certificates covering a wide range of disciplines. Graduate programs are included in the below list, and more details can be found in the graduate catalog (<http://catalog.uwlax.edu/graduate/programrequirements/>).

A complete list of dual degree programs and undergraduate pre-professional tracks are listed at the end. Dual degree programs are also in the main list. Pre-professional tracks are not majors and therefore are not in the main list.

¹ Emphasis available only with M.S. ESS Phy Ed Teaching program. The M.S. Phy Ed Program with the Adventure/Outdoor Pursuits Emphasis is offered in both in-person and hybrid/blended formats.

² Open for non-CBA majors only.

³ The engineering program & the second Bachelor of Science degree are offered through a partnering institution. Contact the UWL department offering the dual degree program to find out more.

⁴ Certificate also available.

⁵ Concentration only. Open to all majors.

⁶ Online program only.

⁷ Graduate certificate only.

⁸ Program includes emphasis options in Adapted Physical Education and Adventure/Outdoor Pursuits. The M.S. with Adventure/Outdoor Pursuits Emphasis is offered in both in-person and hybrid/blended formats.

⁹ Graduate certificate. Only open to degree-seeking UWL graduate students.

¹⁰ Open to degree-seeking, undergraduate students only. Available as certificate only.

¹¹ All courses included in this major's requirements may be taken online.

¹² Inperson and online options available.

¹³ Hybrid/blended (in-person and online courses) and online programs available.

¹⁴ Middle/high school education majors housed in the respective content department. Departments include: Biology, Chemistry, English, History, Mathematics, Political Science, Physics, and Sociology.

¹⁵ Grades K-12 education majors housed in the respective content department. Departments include: Art, Exercise and Sport Science, Music, and Global Cultures and Languages (French & Spanish).

¹⁶ Online, hybrid, and face-to-face options available.

¹⁷ Reading Teacher (1316) Certificate available.

¹⁸ Reading Specialist (5017) add-on certification available.

¹⁹ Graduate certificate only. Only completing the graduate certificate qualifies candidates for teacher certification in this area.

admissions@uwlax.edu

www.uwlax.edu/admissions (<http://www.uwlax.edu/admissions/>)

No person will be denied admission to the university or to any of its programs or activities (either academic or non-academic, curricular or extracurricular) because of gender, race, color, creed, religion, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital or parental status, or relationship to employees of this university.

Visiting the campus

The Admissions Office (<http://www.uwlax.edu/Admissions/>) provides several visit opportunities including campus tours, Admissions Information Sessions, Campus Close-Ups, and individual appointments for prospective first year, transfer, graduate, and international students.

Tours of the campus are conducted Monday through Friday at 11:00 a.m. and 2:15 p.m. when school is in session. Summer term tours are at 11:00 a.m. only. All scheduled 75-minute walking tours originate from the Admissions Office in the Student Union.

Admissions Information Sessions are one-hour presentations by an admissions counselor designed to provide an overview of UWL and the first year admissions process. These sessions are followed by a 75-minute walking tour of campus, led by a member of the Vanguard organization. Admissions Information Sessions are available on selected dates during the fall and spring semesters and daily in July and August.

Campus Close-Ups are held five times during the academic year. Campus Close-Ups provide prospective first year students and families the opportunity to learn more about UW-La Crosse, including our academic programs, financial aid, and the admissions process. Members of the Vanguard organization lead a panel discussion about campus life, and the day concludes with a 75-minute walking tour of campus led by a current student. The only cost for attending Campus Close-Up is lunch. The program begins at 9:30 a.m. and concludes at 3:30 p.m.

Individual appointments with admissions counselors are available from September through June and are designed for prospective first year students who are unable to attend an Admissions Information Session or a Campus Close-Up.

Individual appointments with a transfer admissions counselor are recommended for transfer students who have not yet applied for admission. The appointment will include information about the application process and admission guidelines. **Please note:** Admitted transfer students who have questions regarding registration and academic advising are encouraged to contact the dean's office of the college to which they are assigned.

For more visit information, please explore the Visit Us (<http://www.uwlax.edu/Admissions/Visit-us/>) section of the Admissions website. If you have questions, please email admissions@uwlax.edu or call the Admissions Office at 608.785.8939.

Admissions Policies: First Year Students

Applications (<https://apply.wisconsin.edu/>) for admission must be submitted electronically.

Applications for the fall semester are accepted beginning August 1 of the previous year. All complete applications received by February 1 will receive full consideration for admission. After February 1, applications will be considered on a space-available basis. Applications for spring semester are accepted beginning April 1 of the previous year.

To be considered for admission, individuals must submit the following items to the Admissions Office, UW-La Crosse, 2320 Student Union, 1725 State Street, La Crosse, WI 54601 USA:

1. Completed UW System application (<https://apply.wisconsin.edu/>)
2. High school transcript
 - a. Prior to enrollment, an official final high school transcript is required. Official transcripts must be sent directly from the issuing institution(s) or through an electronic secure document sending service. Transcripts that are marked "Issued to Student" or that are hand delivered by a student will not be accepted unless the transcript remains sealed in the original envelope from the issuing institution(s).
3. Non-refundable application fee
4. Current courses in progress for academic/senior year (if applicable)
5. Official college transcript(s) (if applicable)
 - a. Official transcripts must be sent directly from the issuing institution(s) or through an electronic secure document sending service. Transcripts that are marked "Issued to Student" or that are hand delivered by a student will not be accepted unless the transcript remains sealed in the original envelope from the issuing institution(s).
 - b. Official college transcripts are required for all college course completed, including those taken during high school.

First year admission requirements

Applicants for admission as new first year students must satisfy the following minimum requirements to be considered:

1. Graduation from a recognized high school or the equivalent.
 - a. A recognized high school is
 - i. Accredited by a regional accrediting association or state university
 - ii. Recognized or accredited by a state department of public instruction or its equivalent
 - b. An applicant who has not graduated from a recognized high school must provide evidence of satisfactory completion of the requirements for a high school equivalency certificate or a diploma from a recognized high school, school system, or state department of public instruction based on the GED examination, the Wisconsin High School Equivalency Diploma, or other established criteria. Applicants from alternative educational backgrounds, including home-schooled students, should contact the Admissions Office for specific information. Additional documents, testing, and a personal interview may be required.
2. Completion of the following 17 high school credits is minimal preparation and is required for admission consideration. Applicants are strongly recommended to take advanced courses beyond the required 17 high school credits. Students admitted on the basis of

a high school equivalency diploma are considered to have fulfilled these minimum subject matter requirements.

- a. Four credits of English.
- b. Three credits of mathematics, specifically algebra, advanced algebra, and geometry.
- c. Three credits of natural science with two credits from biology, chemistry, physics, earth science, or advanced courses in these disciplines. (Integrated Science I and II courses will be counted on a one-for-one basis.)
- d. Three credits of social science (i.e., anthropology, economics, history [U.S. or world], political science [civics/government], psychology, or sociology).
- e. Four academic credits from the above and/or in the fine arts, computer science, world language, or other academic areas.

Candidates for admission must satisfy requirements 1 and 2.

All applications receive a comprehensive review. Due to enrollment limitations and the competitive nature of admission to the university, admission consideration will be primarily based on rigor of courses, high school rank, and grade point average. While academic preparation is the primary criterion used in the admissions review process, other secondary factors may contribute to the strength of an application. These may include ACT/SAT scores, demonstrated leadership, extracurricular involvement, special talent, personal statement, recommendations, and/or adding a diverse dimension to our campus community.

The following is a general profile of our admitted first years for fall 2022. This is reported for the middle 50% range, so 25% of admitted first years fall above this range and 25% of admitted first years fall below this range.

- Class Rank: 70th to 90th percentile
- 3.46 - 3.87 GPA (4.0, unweighted scale)
- ACT Composite: 23 - 27

Credit for prior learning

Students may earn university credit through a variety of options, including retroactive credit, Advanced Placement, and institutional assessment. See the Admissions Office for more information on specific types of credit for prior learning (<https://www.uwlax.edu/admissions/ap-ib-clep-credit/>). Some departments include more information on their department pages in regard to their own policy and procedures.

UWL has an academic policy on how credit for prior learning is earned and recorded on a student's transcript. For the full undergraduate credit for prior learning policy (p. 37), see the academic policies section.

Mathematics and English placement

Placement into the appropriate level of English and mathematics courses is determined by using scores earned on the University of Wisconsin Placement Exams. Students cannot take classes above their placement level. Course registration in either discipline is limited to those students who have demonstrated their competency through the examinations. Placement exam results expire two years from the date of the exam, after which the placement exam must be retaken.

More information about math and English placement can be found in the remedial math and ENG 100 policy (p. 35).

Admissions Policies: Transfer Students and Transfer Credits

Application procedures/requirements

Applications (<https://apply.wisconsin.edu/>) for admission are to be sent electronically. The university will begin accepting transfer applications on August 1 for the summer and fall terms. Applications may be submitted beginning April 1 for the winter and spring terms. To be considered for admission, the following items must be submitted to the Admissions Office, UW-La Crosse, 2320 Student Union, 1725 State Street, La Crosse, WI 54601 USA:

1. A completed UW System application. (<https://apply.wisconsin.edu/>)
2. An official high school transcript if applicant has earned less than 60 transferable semester credits.
 - a. Official transcripts must be sent directly from the issuing institution(s) or through an electronic secure document sending service. Transcripts that are marked "Issued to Student" or that are hand delivered by a student will not be accepted unless the transcript remains sealed in the original envelope from the issuing institution(s).
3. All official college transcripts.
 - a. This includes transcripts for credit earned at that applicant's current institution and any previous institutions (including college credit earned while in high school). Official transcripts must be sent directly from the issuing institution(s) or through an electronic secure document sending service. Transcripts that are marked "Issued to Student" or that are hand delivered by a student will not be accepted unless the transcript remains sealed in the original envelope from the issuing institution(s).
4. A list of courses in progress, if currently enrolled, with course numbers, titles, and the number of credits for each course.
5. A non-refundable application fee, unless directly transferring from a UW System campus within one year.
6. ACT/SAT scores (not generally required if applicant has completed a minimum of 18 transferable credits).

Admission guidelines

All applications receive a comprehensive review. Applicants with at least a 2.25 cumulative grade point average in all previous transferable college level work will be considered stronger candidates for admission. Applicants with a cumulative grade point average between a 2.00 and a 2.24 will be considered for admission on a space available basis. In addition to grade point guidelines, applicants must be in good standing at their previous institution(s) to be admitted to UWL. Applicants who were not admissible as new first years must earn at least 18 transferable semester credits to be considered for admission as a transfer student.

Due to enrollment limitations and the competitive nature of admission to the university, admission consideration will be primarily based on academic preparation. While academic preparation is the primary criterion used in the admissions review process, other non-academic secondary factors may contribute to the strength of an application. These may include qualities such as demonstrated leadership, extracurricular involvement, special talent, personal statement, recommendations, and/or adding a diverse dimension to our campus community.

Admission to the university does not assure admission to specific degree programs. All transfer students must meet the same criteria (i.e.,

grade point average, course requirements, etc.) for admission to specific majors or programs as continuing students.

UW System guaranteed transfer admission

UW System students who intend to continue their undergraduate education at the University of Wisconsin-La Crosse will be guaranteed admission provided they meet the following criteria:

1. Submit a UW System application to the UWL Admissions Office.
2. Start college as a first year at a UW System campus.
3. Earn a minimum of 24 transferable degree credits.
4. Be in good standing and earn a minimum 2.00 cumulative grade point average.

The Guaranteed Transfer Agreement Program guarantees admission to the institution and does not assure admission to specific degree programs. Transfer students must meet the same criteria (i.e., grade point average, course requirements, etc.) for admission to specific majors or programs as continuing UWL students.

Academic advising and registration

After being admitted to the university, the Admissions Office will evaluate the courses taken to determine the number of credits that will be granted in transfer. This will be used to determine classification as first year, sophomore, junior, or senior. Information will be sent regarding registration and academic advising in April for those students admitted to the summer or fall semester and in November for those students admitted to the winter term or spring semester. In preparing to register, transfer students are encouraged to contact the academic advisor/academic services director for the assigned college or school. College or school assignments are noted in the letter of admission. In the process of academic advising, should a student disagree with how a course(s) transfers or how a course(s) applies toward a program of study, a transfer re-evaluation request may be made. Consult with the academic services director of the college or school in which the student is enrolled. If the student is undecided about a major, the student may talk to an advisor in the Academic Advising Center.

Undergraduate credit for prior learning policies

UW-La Crosse appreciates and values students' learning experiences outside of the confines of UWL's sponsored credit instruction and uses a student-centered approach to recognize, evaluate and award credit for that knowledge. Students may be awarded credit for their university-level learning through a variety of ways including but not limited to transfer coursework, credit by national exam, military experience and training, industry-certified and assessed credentials or licensures, and UWL administered prior learning assessments. These methods of gaining credit for prior learning (CPL) foster educational attainment and can shorten time to degree or credential completion.

The University of Wisconsin-La Crosse has established a undergraduate credit for prior learning policy (p. 37) to recognize, evaluate and award credit for learning outside of UWL.

Taking a non-UWL course while at UWL

If a student is currently enrolled at UWL and intends to take course work elsewhere either in a summer term or during an academic year, the student should review the recommended steps (<https://www.uwlax.edu/records/student-resources/taking-a-non-uwl-class/>) before registering

for the desired class. The student should complete an "Off-Campus Course Evaluation Form," which is used to evaluate the course for transferability before taking the course.

Students planning to transfer UWL credits to other universities should check with the receiving institution regarding the transferability of credit.

Admissions Policies: International Students

International applicants seeking undergraduate admission to UWL should follow the instructions below.

Application and fee: Applicants must complete the UW System online application (<https://apply.wisconsin.edu/>) and pay the undergraduate application fee.

Academic records: Official, certified, or attested copies of academic records from all secondary and post-secondary institutions attended are required, even if the program was not completed. Documents issued in languages other than English must be accompanied by certified English translations. Official transcripts must be sent directly from the issuing institution(s) or through an electronic secure document sending service. Transcripts that are marked "Issued to Student" or that are hand delivered by a student will not be accepted unless the transcript remains sealed in the original envelope from the issuing institution(s).

- **Transfer students:** Course descriptions, course outlines, or syllabi may be requested in order to complete a transfer credit evaluation.

Proof of English language proficiency: Applicants for undergraduate study who are not native speakers of English must meet one of the following for admission:

- Official TOEFL score of at least 73 iBT or 550 pBT - Institution Code: 1914.¹
- Official IELTS score of at least 6.0.¹
- Official PTE Academic score of at least 54.¹
- Official Duolingo English Test (DET) score of at least 100.¹
- Graduation from a U.S. high school or secondary school in a country where English is the official language of education immediately prior to enrollment at UWL.
 - Applicant must have studied in the English-speaking country for a minimum of three consecutive years, not including terms that required English as a second language study.
- Completion of at least 2 years of academic study at an accredited/recognized institution of higher education in a country where the official language of education is English immediately prior to enrollment at UWL.
- Other examinations and educational experiences considered on a case-by-case basis and approved through university governance.

¹ Scores cannot be more than two years old.

Proof of funding: A bank statement and affidavit or letter of support is required for students requesting an F-1 visa. Funding must be equal or greater than International Education & Engagement's estimated costs (<https://www.uwlax.edu/cost/#tab-113814>) for one year (two semesters) of undergraduate study. Students who are requesting F-2 visas for dependents (spouse and/or children) must submit additional proof of funding and passport copies for each dependent.

Passport copy: Submit a photocopy of the biographical data page in the applicant's passport. If the applicant is admitted to a program, this will ensure that immigration documents are issued accurately.

Application materials can be sent to:

Admissions Office
2342 Student Union
University of Wisconsin-La Crosse
1725 State Street
La Crosse, WI 54601
USA

For more information on international student admissions, visit the Admissions Office (<http://www.uwlax.edu/Admissions/International-student/>).

Admissions Policies: Special Non-Degree Students

Students desiring to audit or take selected courses for credit, but who do not expect to earn a degree at this university, may enroll as special non-degree students. Applications (<https://apply.wisconsin.edu/>) for admission are to be sent electronically. Complete transcripts of high school and college records need not be submitted; however, in some circumstances to determine eligibility for admission, the Admissions Office may request that the student submit academic records. A high school diploma or its equivalent is required. Students may be admitted to undergraduate status on a degree basis at a later date provided they submit an application as a degree seeking student, send complete transcripts of previous work, and meet admission requirements.

After admission as a degree seeking student, course work as a special non-degree student will be evaluated. Credit may be granted for courses completed during the initial period of special status, although there is no assurance that work as a special student will be credited toward degree completion. If regular undergraduate status is achieved by following this procedure, no student will be allowed to revert to a special non-degree status to avoid conforming to any prescribed course of study.

Students disqualified for entrance or continuance at another collegiate institution are not eligible to enroll as special non-degree students at the University of Wisconsin-La Crosse.

Students who already have a college degree and desire to undertake further study to earn a second undergraduate major, to qualify for teaching certification, or to remove deficiencies must complete the UW System application (<https://apply.wisconsin.edu/>) and submit one official transcript of all previous college work.

Information regarding undergraduate enrollment in graduate courses (p. 46) may be found within the "Academic Policies" section.

Admissions Policies: Second Degree Students

A student who holds a bachelor's degree may be admitted to the university to earn a second bachelor's degree. Students must complete the UW System application (<https://apply.wisconsin.edu/>) and have one official transcript sent from each university attended. Students will need to consult with the dean's office for the college to which they are assigned (see letter of admission) to determine which courses are needed to earn a second undergraduate degree. Details covering the

requirements for a second bachelor's degree may be found in the degree requirements (p. 64) section of the catalog.

Admissions Policies: Re-Entry and Re-Admission

Re-entry

If a student voluntarily interrupts university work while in good academic standing, that student may be granted re-entry status by submitting an online application (<https://apply.wisconsin.edu/>) to the Admissions Office. It is advantageous to apply early in order to be approved to register as soon as possible. If a student has been out of school voluntarily for a year or more, or involuntarily for any amount of time, the student will be subject to the requirements of the catalog in effect upon return. If the student has been gone voluntarily for one semester, the student remains under the "old" catalog. Students granted re-entry status who were on scholastic probation or other conditional status at the time of last attendance at UWL retain such status as a condition of re-entry.

If a student has attended another institution(s) after leaving UWL, official transcripts of that academic record(s) should be mailed directly from the issuing institution(s) or sent through an electronic secure document sending service to the Admissions Office at the time they apply for re-entry. Transcripts that are marked "Issued to Student" or that are hand delivered by a student will not be accepted unless the transcript remains sealed in the original stamped envelope from the issuing institution(s).

Eligibility for re-entry is based upon previous work at this university and any others attended since leaving UWL. A student must be eligible to return to the institution last attended. Re-entry transfers must meet the same GPA requirements for admission as other transfer students.

Re-admission after academic suspension

If a student desires re-admission after having been suspended from UWL for scholastic (p. 32) or other reasons, the student must first appeal to the dean of the UWL school or college in which that student was last enrolled, and then submit an online application (<https://apply.wisconsin.edu/>) for admission.

Students academically suspended must follow catalog requirements in effect at the time of re-admission. It is advantageous to apply for re-admission early in order to facilitate registration in a timely manner. The appropriate dean will apprise the Admissions Office of the student's eligibility for re-admission. During times of controlled or limited enrollment, preference will be given to students re-entering in good standing.

Admission Policies: High School Students & ECCP Program

Concurrent high school/UWL enrollment and Early College Credit Program

UWL offers enrollment options to high school students who wish to pursue university course work while completing their studies in high school. Special admission is granted only to those highly qualified applicants who demonstrate that they can benefit from entrance into college.

Early College Credit Program (2017 Wisconsin Act 59) stipulates that high school students at public and private high schools in Wisconsin can earn college credit through the Early College Credit Program. A student selected for the program may be permitted to enroll at UW-La Crosse to take one or more courses for which the student may earn high school credit, post-secondary credit, or both. Payment of tuition and fees is determined by the high school. Cost is 1/3 of regular tuition and fees.

Registration for courses as a high school student is subject to course, program, and institutional enrollment limits.

Admission requirements for concurrent high school/UWL enrollment

All applications receive a comprehensive review.

1. Admission consideration for high school juniors and seniors will be primarily based on:
 - a. Rigor of high school coursework
 - b. High school class rank and/or high school grade point average
 - c. Completion of appropriate preparatory high school coursework for college courses
2. High school sophomores with exceptional academic preparation may be considered for admission.
3. Due to enrollment limitations, specific criteria for admission will be determined by the Admissions Office each semester.

Application procedures for concurrent high school/UWL enrollment

1. Submit a UW System application (<https://apply.wisconsin.edu/>). Students apply as a "special non-degree" student. The application fee is not required.
2. Submit a completed Early College Credit Program and High School Special Agreement Form (<https://uwhelp.wisconsin.edu/prep-for-college/credits/>).
3. Submit an official high school transcript and, if applicable, ACT/SAT scores.
4. UW Placement Test (p. 22) scores and AP Test (p. 38) scores (if applicable) must be submitted for math, world languages, English, computer science, and some science courses prior to registration.

All required materials (1-3) should be sent to the Admissions Office via email to admissions@uwlax.edu or by postal mail to the Admissions Office, UW-La Crosse, 2320 Student Union, 1725 State Street, La Crosse, WI 54601 USA.

Expenses, Financial Aid, and Scholarships - Undergraduate

Paying for tuition is a significant concern for most students, and the university continually strives to provide options for those who may be struggling or who have questions. The following offices or groups are available to help students overcome the challenge of paying for college.

(Links in the following list go to the office's outside website. Links in the site map below go to the topic's catalog page.)

- Financial Aid Office (<http://www.uwlax.edu/finaid/>)
- UWL Foundation (<https://www.uwlax.edu/foundation/>)
- It Make\$ Cents! (<https://www.uwlax.edu/it-makes-cents/>)
- Veterans Educational Benefits Office (<http://www.uwlax.edu/veteran-services/>)
- Cashier's Office (<http://www.uwlax.edu/cashiers/>)

In addition to the contacts above, this catalog provides information about the expenses incurred at the university followed by some specific options on how to pay for the cost. This section aims to provide students with an overview of fees and billing, financial aid options, scholarship possibilities, and educational benefits for veterans.

Expenses

- Tuition and fees (p. 26)
- Student billing (electronic) & guest access (p. 26)
- How to pay (p. 26)
- Installment billing & late fee (p. 26)
- Segregated fees (p. 27)
 - Textbooks (p. 27)
 - Health service (p. 27)
- Residence halls (p. 27)
- UWL dining services (p. 27)

Financial aid & scholarships

- Eligibility requirements (p. 27)
- Application procedures (p. 28)
- Notification dates (p. 28)
- Financial aid programs (p. 28)
- Satisfactory academic progress policy (p. 28)
- Evaluation process (p. 29)
- Appeal process (p. 30)
- Additional information about financial aid (p. 30)
- Education abroad program cost and financial aid (p. 54)
- Scholarships (p. 30)
- The University of Wisconsin-La Crosse Foundation, Inc. (p. 30)

Veteran benefits

- Veteran educational benefits (p. 30)
- Priority registration for service members (p. 31)

Expenses - Undergraduate

- Tuition and fees (p. 26)
- Student billing (electronic) & guest access (p. 26)
- How to pay (p. 26)

- Installment billing & late fee (p. 26)
- Segregated fees (p. 27)
 - Textbooks (p. 27)
 - Health service (p. 27)
- Residence halls (p. 27)
- UWL dining services (p. 27)

Tuition and fees

The university establishes a tuition and fee schedule for each academic year. The tuition and fees for each term are published by the Cashier's Office (<https://www.uwlax.edu/cashiers/tuition-and-billing/tuition-and-fee-information/>). If there are questions about charges on a student's WINGS account, contact the Cashier's Office, 121 Graff Main Hall. The Board of Regents reserves the right to change tuition and fees without published notice.

New students (including transfers) are required to pay a **non-refundable (enrollment) tuition deposit** before registering for classes.

All students are charged a **non-refundable registration fee** each term they register for one or more courses. If a student drops all classes before the term begins, the student is still responsible for this fee. The fee will be reflected on the next billing statement. The exact amount of the fee is listed in the cost to attend (<https://www.uwlax.edu/cost/>) UWL.

Student bills and parents/guest access

Billing reminders are sent via email to the student's campus email from the email address studentAR@uwlax.edu (around 5 p.m.). **It is the responsibility of the student to check their campus email and make sure the bill is routed to the proper individual for making payment.** Students are able to give parents/guests access to their billing statements in CashNet by following the steps below.

Access to view/pay bill in CashNet:

1. The student logs into WINGS (<https://wings.uwlax.edu/>) with their NetID username and password.
2. Under the "Finances" on the homepage, the student selects "Grant Access to View/Pay Bill." Once that is selected, the student is taken to the CashNet site outside of WINGS.
3. The student scrolls down to the "Parent Pins" section and clicks on "Add New." The student chooses a unique login name for the person they are giving access to, enters the person's email address, and picks a temporary password for the account. Then the student clicks "OK" to create the account.
4. Upon completion, parents/guests will be notified of their unique login information. Additional instructions on how to pay can be found on the Cashier's website (<https://www.uwlax.edu/cashiers/>) under the "Payment Options" button.

How to pay a bill

Payment can be made electronically through the WINGS (<https://wings.uwlax.edu/>) Student Center. Detailed payment directions for a student or parent/guest can be found in the payment options (<https://www.uwlax.edu/cashiers/tuition-and-billing/payment-options/>) listed on the Cashier's website.

Installment billing & finance charges

Semester charges for tuition, room, and board are due no later than the posted due date. Finance charges are based on the outstanding amount and will be reflected one month later on your WINGS account. Please

refer to the Cashier's Office (<http://www.uwlax.edu/cashiers/>) for billing due dates and additional information. All outstanding balances must be paid in full before a student will be allowed to register for future terms.

Segregated fees

The semester bill includes instructional fees (tuition) and segregated fees. The tuition charge is established by the Board of Regents, and the fees are determined by the student government with the support of campus administration. The fees fund student services including the Health Center, textbook rental, student centers, the childcare center, and activities such as athletics, intramurals, and other organized activities.

Textbooks

Undergraduate course textbooks are available on a rental basis through the Textbook Rental Service (<http://www.uwlax.edu/textbook-rental/>). Textbook rental for undergraduates is included in the semester segregated fee. Undergraduates may purchase rental textbook titles through the University Bookstore on a special order basis. Students enrolled in graduate courses are expected to purchase their textbooks, which are available through the University Bookstore (<http://www.uwlax.edu/bookstore/>).

Health service

If a student meets student health service requirements and pay the segregated fee at registration, the student is eligible to receive outpatient care, physical therapy, radiography, and laboratory service in the Health Center. Students carrying seven credits or more are automatically charged the segregated fee. Students carrying less than seven credits may choose to pay a health service fee. A description of health care facilities and medical requirements for entering students can be found in the Student Health Center (<http://www.uwlax.edu/student-health-center/>).

The following services are not provided: medicines, eye refraction, care of families of married students, medical and surgical consultation outside of the Health Center, ambulance service, emergency room visits, hospitalization, house calls or after hours visits, dental visits, premarital examinations, pregnancy care, infertility studies, sterilization procedures, or abortion.

Students should check their current insurance policies to make sure they have adequate coverage for services not provided by the Health Center. If a student does not have health insurance coverage, the student may enroll in a student group insurance plan. If the student's current policy will expire during the school year, the student should plan to purchase student group insurance at the beginning of the semester in which existing coverage will cease.

Residence halls

According to the Board of Regents policy, freshman and sophomores who are not veterans, married, or living with parents or guardians, shall be required to live in a university-operated residence hall when accommodations are available. Due to housing capacity, we only require first year students to live on campus. First year students who have a permanent home address within 25 miles of campus are exempt from this requirement. Requests for exceptions to this policy must be made in writing to the Director of Residence Life.

Once a student has been accepted to UWL and has paid the enrollment deposit, the student will be sent an email with instructions for completing the housing contract and application (<https://www.uwlax.edu/reslife/apply-for-housing/application-process/>), including paying a housing deposit. Residence hall facilities, regulations,

and programs are described in the Residence Life (p. 57) section of this catalog.

UWL dining services

All students living in a traditional residence hall must purchase one of the traditional dining plans (<https://www.uwlax.edu/university-centers/services/dining-services/dining-plans/>). These include the Stryker Classic and the Stryker Deluxe.

The Stryker Classic includes 19 meal swipes per week and \$115.00 in Dining Dollars per semester, and the Stryker Deluxe includes 21 meal swipes per week and \$150.00 Dining Dollars per semester. The Stryker Deluxe also includes 30 block meals per semester. Meal swipes can be used in the Whitney Center dining venues and designated venues in the Student Union. Block meals can be used at any dining location on campus.

Students living in Reuter can select either of the above options, but can also sign up for the Reuter Plan, which includes 45 block meals and \$115.00 Dining Dollars per semester.

Should a student find that the dining plan originally selected is not working, they may request to change it in the first two weeks of classes. If they would like to increase the plan, that can be done at any point in the semester. This can be done by visiting the Eagle ID/Dining Plan office (<https://www.uwlax.edu/university-centers/services/dining-services/dining-plans/>) at 1131 Student Union.

There are limited options and hours during summers and winter intersession. Please contact the Eagle ID/Dining Plan Office at 608.785.8891 or uwlcardoffice@uwlax.edu for hours.

Financial Aid and Scholarships - Undergraduate

- Eligibility requirements (p. 27)
- Application procedures (p. 28)
- Notification dates (p. 28)
- Financial aid programs (p. 28)
- Satisfactory academic progress policy (p. 28)
- Evaluation process (p. 29)
- Appeal process (p. 30)
- Additional information about financial aid (p. 30)
- Education abroad program cost and financial aid (p. 54)
- Scholarships (p. 30)
- The University of Wisconsin-La Crosse Foundation, Inc. (p. 30)

Eligibility requirements

Most financial aid programs are based on financial need. This is demonstrated by applying a federal need analysis formula to the student and family financial information provided on the Free Application for Federal Student Aid (FAFSA). Exceptions to the financial need requirement include the Wisconsin Academic Excellence scholarship, Return to Wisconsin scholarships, some UWL Foundation University scholarships, private scholarships, Federal Unsubsidized loans, and Federal Parent PLUS loans.

Admission to the university is a prerequisite to consideration for financial aid. Special non-degree students are not eligible for aid unless they are working toward an approved license or certificate.

Students must demonstrate satisfactory academic progress (p. 28) in order to receive aid. Several other federal and state requirements need to be met in order to receive financial aid. These include proper citizenship status, registration with the Selective Service System (for state grant eligibility), and not being in default on any federal student loan.

Unless previously negotiated, all aid awards are based on full-time student status. Students carrying less than a full-time load will have their aid reduced accordingly.

Application procedures

All financial aid applicants must file the Free Application for Federal Student Aid (<https://studentaid.gov/h/apply-for-aid/fafsa/>) (FAFSA) which is available October 1 each year. File the FAFSA by February 1 for priority consideration, although applications are accepted throughout the academic year. A paper version of the FAFSA is available by calling 1.800.433.3243 or selecting "FAFSA: Apply for Aid" at Federal Student Aid (<https://studentaid.gov/>).

Students whose application is selected for verification by the United States Department of Education or the Financial Aid Office will be required to submit student and parent federal income tax return transcripts (copies of tax returns do not meet this requirement) to the Financial Aid Office. Other documents may also be required.

Notification dates

Students who complete their application by the February 1 priority date can usually expect to receive a financial aid offer by mid-June. Students who complete their application after February 1 will receive a financial aid offer as soon as possible after June. Applications received after June 1 may not be processed in time for students to receive their aid by the start of the fall semester. These students should be prepared to pay their initial expenses from their own resources.

Financial aid programs

FEDERAL PELL GRANT: These need-based grants are available to qualified undergraduate students.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT: These need-based grants are available to qualified undergraduate students.

WISCONSIN HIGHER EDUCATION GRANT: These need-based grants are available to qualified undergraduate students who are Wisconsin residents.

TALENT INCENTIVE PROGRAM GRANT: These need-based grants are available to qualified undergraduate students who are Wisconsin residents and demonstrate exceptional financial need.

FUND FOR WISCONSIN SCHOLARS: These need-based grants are available to select group of qualified lower income undergraduate students who are recent graduates of Wisconsin public high schools.

RETURN TO WISCONSIN SCHOLARSHIPS: These scholarships provide a 25% discount of non-resident tuition to children and grandchildren of UWL graduates.

NON-RESIDENT FEE WAIVERS: These need-based grants are available to residents of states other than Wisconsin and Minnesota.

WISCONSIN GI BILL TUITION WAIVER: This program is available to eligible veterans who entered active duty as a Wisconsin resident, or a spouse or dependent of a deceased or disabled eligible veteran.

WISCONSIN STUDY ABROAD GRANT: These need-based grants are available to Wisconsin residents who study abroad through the UWL Office of International Education and Engagement.

WISCONSIN ACADEMIC EXCELLENCE SCHOLARSHIP: This program is available to top students at Wisconsin high schools. The program is administered by local school boards, the Wisconsin Department of Public Instruction, and the Wisconsin Higher Educational Aids Board.

LAWTON UNDERGRADUATE MINORITY RETENTION GRANT: These grants are available to statutorily defined ethnic minority sophomores, juniors, and seniors who are in good standing academically and are residents of Wisconsin or Minnesota.

NATIVE AMERICAN INDIAN GRANTS (FEDERAL/TRIBAL/WISCONSIN): Native American students should file an application with their tribe.

I-ENGAGE SCHOLARSHIP: These programs are student funded and offer funds to international students and students studying abroad. Students should file an application with the Office of International Education & Engagement. Submission of a services plan does not necessarily guarantee that the student will receive an Academic Initiative Award.

FEDERAL SUBSIDIZED LOAN: This loan is available to students who demonstrate financial need. Students borrow from the Department of Education and the federal government pays the interest while the student is in school. Interest is at a fixed rate. Repayment begins six months after the student ceases to be at least a half-time student.

FEDERAL UNSUBSIDIZED LOAN: This loan does not require that the student demonstrate financial need as a result of filing the FAFSA. The terms are the same as the Federal Subsidized Loan except that the student is responsible for all interest charges from the date of disbursement of the loan forward. Interest is at a fixed rate that is determined each spring for the upcoming year.

FEDERAL PARENT PLUS LOAN: Parents of dependent undergraduate students are eligible to borrow from the Department of Education under this program. Apply online at studentaid.gov (<https://studentaid.gov/>). Parents must be credit-worthy.

FEDERAL WORK-STUDY PROGRAM: This need-based program provides on-campus and off-campus employment to qualified students.

STUDENT HELP: Students who do not qualify for Federal Work-Study can work on campus on the regular student help payroll. These students should apply at academic departments and administrative units. Students can also search for part time off-campus jobs in the local community at the online Job Board. Apply at the Handshake job board (<https://uwlax.joinhandshake.com/login/>).

UWL FOUNDATION SCHOLARSHIPS: The UWL Foundation awards several hundred scholarships each year to new incoming and continuing students. For more information or an application, contact the UWL Foundation scholarship coordinator at 608.785.8760 or visit UWL Foundation (<https://www.uwlax.edu/foundation/>). More information below.

PRIVATE SCHOLARSHIPS: Students may want to search for private scholarships at the Scholarship Resource Center (<http://www.uwlax.edu/scholarships/>) website. Other sources include their local communities, places of employment, clubs, organizations, etc.

Satisfactory academic progress policy

Federal Law mandates that post secondary institutions participating in Federal Financial Aid Programs have in place and monitor an academic progress policy for financial aid. The components to the UW-La Crosse

Satisfactory Academic Progress (SAP) Policy for financial aid are as follows: Grade point average (GPA), Pace (67% Rule), and Maximum Time Frame (150% Rule).

1. Grade Point Average (GPA):

All undergraduate students receiving financial aid must maintain a 2.0 UWL cumulative GPA, while graduate students receiving financial aid must maintain a UWL cumulative GPA of 3.0. Note that this GPA requirement is different from the Retention, Probation and Suspension requirements listed in the Undergraduate catalog. Students receiving financial aid must follow both. Transfer credits are not included in the UWL cumulative GPA calculation. Grades of W and P are not factored into this calculation once a cumulative GPA is established. Students enrolled in both undergraduate and graduate courses must meet the requirements of the degree seeking career, while students seeking a certificate will be required to follow the undergraduate GPA requirements.

2. Pace (67% Rule):

All full-time and part-time undergraduate and graduate students at UW-La Crosse who receive financial aid must stay on pace to graduate on time. Pace is calculated by dividing the cumulative number of credits a student successfully completed by the cumulative number of credits they have attempted. (See note regarding completed and attempted credits). When this calculation falls below 67%, a student is no longer on pace to graduate on time. Transfer credits that count toward a student's program are considered within this calculation as credits attempted and credits earned.

3. Maximum Time Frame (150% Rule):

An eligible undergraduate, graduate, or second degree seeking student can receive Federal financial aid while attempting up to, but not exceeding, 150% of the published normal completion length of the student's program, regardless of enrollment status. For example, a student seeking a degree which requires 120 credit hours could receive financial aid while attempting 180 credit hours ($120 \times 150\% = 180$). Credits transferred to UW-La Crosse, and any credits attempted at UWL, with or without the benefit of student financial aid, must be taken into consideration. Financial aid will be suspended when our office determines that a student cannot mathematically complete their degree within this time frame.

Evaluation process

These components are evaluated every payment period (fall/spring/summer) after grades are posted. The first time that a student does not meet the GPA, Pace, or is approaching the Maximum Time Frame requirement, they will be notified via campus email that they are being automatically placed on Warning Status for one payment period. By the next evaluation, the student must be meeting all components of SAP to be placed back in good standing. If not, the student's financial aid will be suspended, and they must complete an Appeal for Financial Aid Reinstatement and explain why they failed to meet SAP and what has changed that will allow them to meet SAP by the next evaluation.

All appeals must supply an academic plan showing when the student will be meeting all aspects of the SAP policy. If it will take more than one semester to be meeting the SAP policy, the academic plan must be signed by an academic advisor. Students with an undeclared major should meet with Academic Advising, and students with a declared major should meet with the dean of their college to create this plan. Whoever the student meets with must sign off on the academic plan. Templates are available at the Financial Aid Office (<http://www.uwlax.edu/finaid/>). If the appeal is approved, the student is placed on Academic Plan Status for one payment period, after which, the student must be meeting SAP or be following their approved academic

plan. If the student is not meeting SAP/following their approved academic plan at the next evaluation, they will be suspended again and could become ineligible to receive financial aid until they are in compliance.

Types of credit that might affect evaluation process:

- **Credits Completed:** The successful completion of a credit attempted is credit for which a grade of A, AB, B, BC, C, D, S, or P is received. The grade of "D" for a graduate student is not considered a successful completion of the credit(s) attempted.
- **Attempted Credits:** The grades of A, AB, B, BC, C, D, S, P, U, F, I, W, WP, WF, EP, EF, NA, and NR are considered credits attempted. Attempted credits are calculated after the 100% adjustment to tuition and fees period (typically the 10th day of classes).
 - Any credit drop after the 100% adjustment to tuition and fees, without an equal number of credits being added the same date of the drop, or at a later date, will count as credit(s) attempted and credit(s) not earned. Credit drops affect the Pace and Maximum Time Frame components.
 - Withdrawal from the university (all classes) as of the first day of classes will count as credit(s) attempted and credits(s) not earned unless all aid is cancelled and returned. A withdrawal affects the Pace and Maximum Time Frame components. The GPA component is affected if the withdrawal is in the student's first term.
- **Incompletes:** Count as credit(s) attempted and credit(s) not earned until a passing grade is posted. It is the student's responsibility to notify the Financial Aid Office of any change in grade using an Appeal for Financial Aid Reinstatement Form and attaching a copy of the student's most recent, unofficial UWL transcript. If the incomplete appeal results in the student being eligible for financial aid again, eligibility will be reinstated as of the date the appeal is approved. Lack of action from the student will cause the student's new Pace and GPA to not be evaluated until the end of the payment period in which the incomplete grade was converted. Incompletes affect the Pace and Maximum Time Frame component.
- **Repeated Credits:** Counted as attempted credits as many times as the course is repeated. Repeating credits apply to GPA, Pace, and Maximum Time Frame Components. Please note that this is different from UWL's course repeat policy (p. 35).
- **Remedial Credits:** Counted in Pace and Maximum Time Frame. Grades of "F" are calculated into GPA.
- **Test Credits:** Counted in Pace and Maximum Timeframe. These include AP, CLEP, DANES, DSST, and IB test credits.

For help calculating UWL cumulative GPA, use the Semester GPA Calculator (<https://www.uwlax.edu/exercise-sport-science/gpa-calculators/>). Only credits earned at UWL should be included in the GPA calculation. Do not include transfer credit, AP credit, or retroactive credit.

Other factors that might effect evaluation process:

- **Audited Courses:** Not funded by financial aid and not considered under any aspect of the SAP Policy unless a student changes their course to audit after the 100% adjustment to tuition and fee period. This would affect Pace and Maximum Time Frame.
- **Consortium Agreements:** Credits count in the Pace and Maximum Time Frame components.
- **Double Major:** Students pursuing a first and second major at the same time will only be allowed 150% of the credits needed towards their first major. This could result in needing to appeal Maximum Time Frame.
- **Winter Intersession:** If a student attends a Winter Intersession course that positively affects their SAP Status (bringing their GPA

or Pace calculation into an acceptable range) it is the student's responsibility to notify the Financial Aid Office of that change on an Appeal for Financial Aid Reinstatement Form.

Additional terminology

- **Payment Period:** fall semester/spring semester/summer (if attended).
- **Warning Status:** assigned to one payment period, to a student who fails to make SAP after any payment period.
- **Suspension:** assigned to a student who fails to meet SAP in the payment period after being placed on Warning Status. Student must complete appeal process to reinstate financial aid eligibility.
- **Probation Status:** assigned for one payment period, to a student who has appealed and has had eligibility for financial aid reinstated. Specific terms are given to students with this status. For example, student may have to complete a certain percentage of credits attempted in the next payment period.

Appeal process

Students with extenuating circumstances that prevented them from making SAP have the right to appeal their situation. Extenuating circumstances include, but are not limited to, student injury or illness, death of a student's relative or other reasons resulting in undue hardship to the student. Students must complete the financial aid appeal and have it approved in order to receive aid after being placed on financial aid suspension. The deadline to appeal is the first day of the last month in the term (December 1st for Fall terms, May 1st for Spring terms, and August 1st for Summer terms). Exceptions can be made at the discretion of the SAP appeal committee to consider appeals completed after the deadline. The link to the appeal form can be found in the student's WINGS account on their to do list as long as a FAFSA has been completed for the year.

Students only need to complete a statement explaining what prevented them from meeting the requirements of the SAP policy, and what has changed so that what prevented them from being successful before will not hinder them moving forward. Per Federal regulations, an appeal may only be approved if the student shows that they will be able to meet SAP at the next evaluation, or the appeal committee develops a plan for the student that, if followed, will ensure the student is able to meet all components of the SAP policy by a specific point in time. Incomplete or inaccurate appeals will not be approved.

A committee of financial aid staff will act on the appeal and notify the student with the decision of the committee and the terms of their probation, if approved, via campus email. All decisions are final. There is no limit on the number of appeals allowed; however, students requesting numerous appeals may be denied. If a financial aid appeal is denied, the student may attend UWL without the benefit of federal financial aid. When all components of the SAP policy are being met again, the student will automatically become eligible for federal student aid again.

Additional information about financial aid

- It is the student's responsibility to make sure the application is complete and moving through the processing system.
- Funding levels and regulations are subject to change at any time per state or federal budgetary and legislative mandates.
- Students who withdraw, either officially or unofficially, may need to repay money to federal and state financial aid programs and will be required to pay any resulting balance due to the university.
- Students considering education abroad opportunities (p. 54) may need additional financial aid.

- For additional information, visit the Financial Aid Office (<http://www.uwlax.edu/finaid/>). For questions, call 608.785.8604 or e-mail finaid@uwlax.edu.
- Federal financial aid regulations limit the number of times a single course can be aided. Once a student has passed a class, that class can only be funded with financial aid once more. Please note this is different from the academic policy at UW-La Crosse.

Scholarships

Many scholarships (<https://www.uwlax.edu/scholarships/scholarships/foundation-scholarships/>) and awards have been established by alumni, faculty and staff, parents, students, businesses, and organizations. Recipients are selected by scholarship committees on the basis of an application, grade point average, and other materials as deemed appropriate by departmental committees. Scholarships are presented to students whose qualifications best fit the stipulations of the donor. Approximately one million dollars is awarded each year. Amounts vary annually based on funding from gifts or investment earnings available from a fund. Almost all scholarships are contingent upon full-time enrollment both fall and spring semesters at UWL. Scholarships and awards for the academic year are usually paid in two payments, the first half in the fall semester and the other half in the spring semester.

Scholarship applications are available to currently enrolled students or admitted incoming students on the UWL Foundation Office (<https://www.uwlax.edu/foundation/>) website. All applications (unless otherwise indicated) must be submitted to the UWL Foundation Office. Applications are submitted to various offices that offer scholarships based on academic majors; please refer to the scholarship website. The deadline for scholarship applications is February 1 each year. Scholarships and awards are announced during college and general events the last week in April. Visit the University of Wisconsin-La Crosse Foundation, Inc. for information about the scholarships they administer (<https://uwlax.academicworks.com/>) or call 608.785.8760.

The University of Wisconsin-La Crosse Foundation, Inc.

The University of Wisconsin-La Crosse Foundation, Inc. (<https://www.uwlax.edu/foundation/>), is an independent non-profit, tax-exempt Wisconsin corporation and a tax-exempt public charity under Section 501(c)(3) of the Internal Revenue Code. Created in 1967 to promote the welfare of the University of Wisconsin-La Crosse, it accomplishes this by encouraging, soliciting, receiving, managing, and administering gifts from alumni, friends, businesses, and other programs that advance the mission of the University. Gifts to the Foundation are tax deductible to the fullest extent of the law as applied to the individual circumstances of each donor.

Veteran Benefits - Undergraduate

The university is fully approved for the education of veterans and veterans' dependents under both federal and state programs. New students who qualify for benefits should report to the Veteran Educational Benefits Office (<https://www.uwlax.edu/veteran-services/>) in 223 Graff Main Hall, before or during registration. After this initial contact, registered students should keep the Veteran Educational Benefits Office apprised of their status and needs each semester.

Students must submit a Certificate of Eligibility for federal education benefits to the Veteran Educational Benefits Office and complete a certification request form (<http://www.uwlax.edu/Veteran-Services/Certification-request/>) (cert request) before the Veteran Service Coordinator certifies the student's credits to the federal Veterans

Administration. The university certifies the credit load to the Veterans Administration (VA) based on the certification request. Only courses that satisfy degree requirements can be certified for VA educational benefits.

Payments of veterans' benefits depend on the number of credits carried. Students should carry at least 12 credits during the fall and spring semesters, and six credits during summer term, to receive full benefits under most programs. Payment will be awarded according to the schedule below. Contact the Veterans Benefits Coordinators (<https://www.uwlax.edu/veteran-services/our-people/>) for summer term rules.

Table to determine % of benefits

Undergraduate credits	Enrollment/benefits status
12+	Full-time
9-11	3/4 time
6-8	1/2 time

More information can be found in the Veterans Educational Benefits Office (<http://www.uwlax.edu/veteran-services/>) and the Office of Records and Registration (<https://www.uwlax.edu/records/student-resources/veteran-students/>).

Veterans Choice Act Section 702 & 301 and the Colonel John M. McHugh Fairness for Survivors Act of 2021

Section 702 of the Veterans Access, Choice and Accountability Act of 2014 (Choice Act), requires the VA to disapprove programs of education for payment of benefits under the Post-9/11 GI Bill® or Montgomery GI Bill®-Active Duty at public institutions of higher learning (IHLs) if the school charges qualifying veterans and dependents tuition and fees in excess of the rate for resident students for terms beginning after July 1, 2015. Section 301 modified the Choice Act to include Vocational Rehabilitation & Employment (VR&E) for "covered individuals" beginning after March 31, 2019. Beginning August 1, 2022: The Colonel John M. McHugh Tuition Fairness for Survivors Act of 2021 (Public Law 117-68) amended Section 702 to include Chapter 35 beneficiaries.

To remain approved for the VA's GI Bill programs, schools must charge in-state tuition and fee for covered individuals. A "covered individual" is defined in the Choice Act as:

- A veteran using who lives in the state in which the IHL is located (regardless of their formal state of residence), is using Post 9/11 GI Bill® (Chapter 33), Montgomery GI Bill®-Active Duty benefits (Chapter 30), Veterans Readiness & Employment (Chapter 31), or Dependents Education Assistance (Chapter 35) and enrolls in the school.
- A spouse or child using transferred Post 9/11 GI Bill® or Dependents Education Assistance (Chapter 35) benefits who lives in the state in which the IHL is located (regardless of their formal state of residence) and enrolls in the school.
- A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship who lives in the state in which the IHL is located (regardless of their formal state of residence) and enrolls in the school.
- A spouse or child using transferred Post 9/11 GI Bill® benefits who lives in the state in which the IHL is located (regardless of their formal state of residence) and the transferor is a member of the uniformed service who is serving on active duty.

To qualify as a covered individual, students must complete the following:

- Submit a Certificate of Eligibility for Post 9/11 (Chapter 33), MGIB (Chapter 30), or DEA (Chapter 35) or an authorization for VR&E (Chapter 31)
- Complete a cert request that allows certification to the VA to use benefits during that semester or term
- Enter a Wisconsin address in WINGS

When federal payment by VR&E or Post 9/11 GI Bill is delayed

Individuals who are entitled to veteran educational assistance under Chapter 31 (Veteran Readiness and Employment) or Chapter 33 (Post 9/11 GI Bill®) shall submit a certificate of eligibility (COE) and submit a written request (cert request) to use the entitlement not later than the first day of the course of education.

While payment from the VA is pending, UWL will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or to UWL facilities, or the requirement that a student borrow additional funds because of the student's inability to meet their financial obligations to the institution due to the delayed disbursement of a payment to be provided by a federal payment (VA).

UWL may require the amount of tuition and fees owed above the expected federal educational assistance to be paid according to the UWL payment due dates.

Priority registration for service members

The State of Wisconsin grants priority registration for students who have served or are serving on active duty under honorable conditions in the United States armed forces, including Reservists and members of the National Guard. At the University of Wisconsin-La Crosse, priority registration allows service members to register at the front of their class, meaning that a service member of sophomore standing will be able to register before other sophomores. To receive this benefit, a DD-214 or a Notice of Basic Eligibility (NOBE) must be filed with the Veterans Educational Benefit Coordinator prior to registration.

Academic Policies - Undergraduate

Academic policies define what the institution expects from the students and what students may expect from the institution in terms of academic behavior. Undergraduate academic policies are developed and approved through the university's governance system by the Committee on Academic Policies and Standards (CAPS). CAPS membership includes representation from both faculty and students. The appeal of any academic policy listed below must begin with the college dean's office. An appeal decision by CAPS is final.

Below is a guide to help navigate through the undergraduate academic policies.

Academic eligibility

- Academic standing and progress policy (p. 32)
- Summary table of standings and GPAs (p. 33)
- Committee on Academic Policies and Standards (CAPS) (p. 33)

Academic records/FERPA

- Access to academic records (p. 34)
- Name and address changes (p. 34)
- Federal Educational Rights and Privacy Act (FERPA) (p. 34)

Course information

- Course repeat policies (p. 35)
- Remedial math placement (p. 35)
- ENG placement (p. 35)
- Cross-listed courses (p. 36)
- Course numbering (p. 36)
- Course prerequisites (p. 36)
- Course modes of instruction (p. 36)
- Curriculum requirements (p. 36)
- Undergraduate Curriculum Committee (p. 36)
- List of course prefixes (p. 36)

Credit for prior learning policy

- Credit by transfer (p. 37)
- Retroactive credit (p. 38)
- Credit by national/international exam (p. 38)
- Credit for military training and service (p. 39)
- Credit for professional/industry learning (p. 39)
- Credit by institutional prior learning assessment (p. 39)
- Additional limitations and exceptions (p. 40)
- Transcription of credit for prior learning (p. 40)

Fees

- Fee information can be found in expenses (p. 26).

Grading system, grading policies, and final exams

- University grading system (p. 40)
- Pass/fail policy (p. 41)
- Final exams (p. 41)

- Incomplete (I) grade (p. 42)
- Change of final grade (p. 42)
- Appeal of final grade (p. 42)
- Report of final grades (p. 42)
- Deans' Lists (p. 42)

Graduation/commencement

- Undergraduate resident requirement (p. 42)
- Four-year graduation agreement (p. 42)
- Graduation fee (p. 43)
- Submitting an intent to graduate (p. 43)
- Commencement participation (p. 43)
- Commencement honors (p. 43)
- Graduation honors (p. 43)
- Mailing diplomas (p. 43)

Registration and scheduling

- Registration process (p. 43)
- Schedule changes after semester begins (p. 44) (drop/add/change of schedule policy)
- Class drops at an instructor's discretion (p. 44)
- Class drops after the change of schedule period: see the individual class withdrawal policy (p. 46) in the university's withdrawal policies
- Student credit load (p. 44)
- Student classifications (p. 44)
- Class start policy (p. 44)
- Class attendance (p. 45)
- Audit policy (p. 46)
- Changing major, minor, program, college, or school (p. 45)
- Undergraduate enrollment in graduate courses (p. 46)

Student conduct

- Student disciplinary procedures (p. 46)
- Student honor code (p. 46)

Withdrawal

- Individual class withdrawal/drop (p. 46)
- Withdrawal from UWL (p. 47)
- Medical withdrawal (p. 47)
- Military duty withdrawal from UWL (p. 47)
- Short term military absence (p. 48)

Academic Eligibility - Undergraduate

- Academic standing and progress policy (p. 32)
- Summary table of standings and GPAs (p. 33)
- Committee on Academic Policies and Standards (CAPS) (p. 33)

Academic standing and progress

UWL is committed to student success. Generally, students are considered to be in good academic standing when their cumulative

resident GPA is 2.00 or higher. A resident GPA refers to the GPA based on grades earned in UWL courses only.

Academic standing is determined twice each year, once at the end of the fall semester and once at the end of the spring semester. An academic semester refers to the fall or spring semester not to winter or summer sessions.

The policies below outline progressive university response to situations when students' GPAs fall below the minimum standard.

Academic warning

An academic warning occurs when a student's semester GPA is between 1.00 and 1.99, unless the student's cumulative GPA indicates probation or suspension. The student will receive an electronic notification and have an advising hold placed on their registration. The intent of the academic warning is to provide students with extra support to ensure academic success.

A student could receive more than one academic warning while in college. Academic warnings are not notated on transcripts. Students who receive an academic warning are in good standing but are required to meet with their assigned advisor to release the advising hold.

Probation

Students will be placed on formal probation with notification and transcript notation at the end of any semester in which they fail to achieve good academic standing defined as a cumulative resident GPA 2.0 or higher. Probation is determined by a student's cumulative resident GPA; whereas, an academic warning is determined by a student's semester resident GPA. The student will receive an electronic notification and have an advising hold placed on their registration.

The maximum period of probation without suspension is two consecutive semesters. A student could be placed on probation more than once while in college; however, two consecutive semesters on probation without regaining good standing will result in suspension (see below). Students will be removed from probation automatically upon regaining good academic standing.

Students on probation are required to meet with their assigned advisor to release the advising hold.

Probation takes precedence over academic warning.

Suspension

A student will be suspended from the University under either or both of the following conditions:

1. At the end of a probation period, the student has failed to regain good academic standing.
2. At the end of any semester, the student has a semester GPA of less than 1.00. This regulation applies regardless of the student's resident cumulative GPA.

A student who has been suspended is ineligible to continue at the University for the period of one academic semester (fall or spring).

Students who are suspended receive an electronic notification that outlines appeal options that start at the college or school level.

Students must appeal for readmission to the Dean's Office of the appropriate college or school. Students who have been suspended and then are readmitted at a later date shall be given one semester of probation to attain good standing or will again be suspended.

A student suspended from UWL may encounter difficulty in attempting to enroll at another institution. Should a student complete courses at another institution while suspended, UWL may not allow credits for those courses.

Summary table

Good Standing	Warning	Probation	Suspension
Cumulative and semester GPAs \geq 2.00	Cumulative GPA and semester GPA 1.00-1.99	Cumulative GPA less than 2.00. Probation takes precedence over warning	<ol style="list-style-type: none"> 1. Semester GPA below 1.00 2. Failure to regain good standing after two consecutive semesters on probation 3. Failure to regain good standing the semester immediately following readmission from suspension

Clarification of terms

Warning

1. Without penalty—*not recorded on transcript*
2. Registration block applied for subsequent semester
3. Student must meet with their primary advisor and is introduced to UWL support resources
4. Warnings may be issued more than once to a student during their academic career

Probation

1. Penalty—*Probation status noted on student's transcript*
2. Student receives electronic notification of change in status and is informed regarding probation period advising process
3. Once on probation, student has two consecutive semesters in which to return to good standing; failure to do so leads to suspension
4. During the probation period, the student must meet with their primary advisor and is introduced to UWL support resources

Suspension

1. Penalty—*Suspension status noted on student's transcript*
2. Student receives electronic notification of change in status and is informed regarding appeal process
3. Students wishing to appeal their suspension do so through their College/School Dean's Office; if permission to return is granted, student returns on probation—appeal to the Committee on Academic Policies & Standards (CAPS) open to those whose appeal is denied
4. Suspension period is for one semester
5. A student has one semester in which to regain good standing after successfully appealing their suspension

Committee on Academic Policies and Standards (CAPS)

CAPS is the faculty committee for formulating and reviewing local policies and standards concerning admissions and academic activity for

undergraduate students; ensuring equitable application of the standards by the colleges and schools; supervising the administration of these standards; and developing procedures for hearing student appeals and petitions on academic matters. Membership of the committee consists of nine faculty and three students. The Registrar or designee serves as administrative consultant.

A full copy of the CAPS bylaws is in the Faculty Senate's articles and bylaws (<https://www.uwlax.edu/faculty-senate/articles-bylaws-and-policies/>).

Academic Records/FERPA - Undergraduate

Access to academic records

Academic records are confidential between the student and the university. Students may request transcripts of their permanent academic records at any time, provided they are not financially encumbered to the university. Transcripts may be requested **in person**, online (<https://www.credentials-inc.com/CGI-BIN/dvcgitp.pgm?ALUMTRO003919>), or by writing (<https://www.uwlax.edu/globalassets/offices-services/records/forms/MailTranscriptForm.pdf>) to the Office of Records and Registration. There is a fee for official transcripts. Transcripts will not be released without the student's authorizing signature. Under no circumstances will partial transcripts be issued.

Name and address changes

It is the student's responsibility to keep appropriate offices advised of changes. Campus (local) or permanent home (legal) addresses may be changed through the student's WINGS Student Center. Official name changes must be done in the Office of Records and Registration, 117 Graff Main Hall, with proper identification and documentation.

Family Educational Rights and Privacy Act (FERPA)

Notice of rights of access to student records and definition of directory information under the U.S. Family Educational Rights and Privacy Act of 1974, as amended.

UWL informs students of the Family Educational Rights and Privacy Act of 1974 as amended (FERPA) in all catalogs and online semester timetables. This Act, with which the university intends to comply fully, was designed to protect the privacy of education records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. Students have the right to file complaints with the FERPA Compliance Office concerning alleged failures by the university to comply with the Act.

"Education records" are any record maintained by the university which is directly related to the student, such as individually identifiable transcript information. In compliance with the provisions of the Act, UW-La Crosse discloses information from a student's education record only with the written consent of the student or under one of the few exceptions allowed by law.

The university has posted its full FERPA policy (<http://www.uwlax.edu/Records/FERPA/>) online. The Office of Records and Registration maintains a directory of records, which lists all education records maintained on UWL students by office.

Directory information

Some information in a student's education record is designated by the university as public or "directory information." Such information may be disclosed by the institution for any purpose, at its discretion, unless the student has restricted disclosure.

- Name(s)
- Local and home addresses
- Local and home telephone numbers
- UWL email address
- School/college
- Enrollment status
- Enrollment dates
- Academic level (first year, sophomore, junior, senior)
- Previous institution(s) attended
- Past and present participation in officially recognized sports and activities
- Physical factors (height, weight for athletes)
- Program(s) of study
- Awards and honors (such as Dean's List)
- Expected graduation date
- Degree(s) and credential(s) earned and date(s) awarded

In addition to student data elements, UWL has designated photographs and video that are taken of students on campus and at university-sponsored activities as information that may appear in university publications, brochures, websites, social media, etc., without the written consent of students.

Our class sessions may be audio-visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded.

Restricting disclosure of directory information

Currently enrolled students may restrict disclosure of directory information under FERPA. To restrict disclosure, students may log into their WINGS student center personal settings prior to the end of the second week of each semester or the end of the first week of a summer term. The university assumes that failure on the part of any student to restrict their directory information, within the time period mentioned above, indicates individual approval for disclosure.

If the student chooses to restrict their directory information, there are some considerations:

- Student name/address is excluded from the UWL online directory.
- Verification of enrollment, graduation, or degrees awarded will not be provided to third parties, including potential employers and insurance companies.
- Student name will not appear in the commencement program.
- Dean's List notifications will not be sent to local newspapers.

For more information, review the university's policy and implementation of the Family Education Rights and Privacy Act (<http://www.uwlax.edu/Records/FERPA/>) (FERPA) or visit the Office of Records and Registration.

Course Information - Undergraduate

- Course repeat policies (p. 35)
- Remedial math placement policy (p. 35)
- ENG placement policy (p. 35)
- Cross-listed courses policy (p. 36)
- Course numbering policy (p. 36)
- Course prerequisites (p. 36)
- Course modes of instruction (p. 36)
- Curriculum requirements (p. 36)
- Undergraduate Curriculum Committee (p. 36)
- List of course prefixes (p. 36)

Courses listed in this catalog are subject to change through normal academic procedures. New programs/courses and changes in existing coursework are initiated by departments or individual programs and approved by the appropriate academic dean, the Undergraduate Curriculum Committee, and the Faculty Senate. Additions to the curriculum for the ensuing years are published in the official Undergraduate Curriculum Committee minutes (<https://www.uwlax.edu/faculty-senate/committees/faculty-committees/curriculum/#tm-undergraduate-curriculum-ucc>) by Faculty Senate and are on file with the Office of Records and Registration.

Many course descriptions list the semester/year during which a course is normally offered. This serves as a guide; however, actual offerings may vary depending on staffing levels and enrollment demands.

Undergraduate course repeat policy

Courses may be repeated for credit if they are officially designated as repeatable for credit in the course catalog, i.e., performance studio, independent study, practicum, etc.

Courses that are not designated as repeatable for credit and in which a student has earned a grade of "C" or better at UWL may not be repeated at UWL. However, a student could choose to repeat the course at another institution. When a course is repeated, the original attempt and grade earned will remain on the permanent academic record; however, the highest grade earned is used to calculate the UWL cumulative grade point average, and the lower grade is dropped from the UWL cumulative grade point average calculation. If a student withdraws from a course taken as a "repeat," the original grade earned will remain in the UWL cumulative grade point average calculation. Courses deemed equivalent through transfer can only count once toward credits earned and GPA. A student may choose to repeat a course at another institution, including when the original grade earned is a "C" or better, but that transfer repeat course will not be used in the UWL resident GPA or count toward the UWL academic standing for that term.

Repeating a course in residence at UWL, instead of through another institution, is usually in the best interest of the student because the credits earned will count toward the degree and an improved grade in residence will increase the UWL cumulative grade point average. If a student chooses to repeat a course four or more times, the student must meet with the Dean of the College or School where the

course is housed prior to the start of the term, or the student may be administratively withdrawn from the course. Minimum UWL in-residence credit requirements for degrees continue to apply. The student's UWL GPAs are permanently recorded on the transcript at the time their degree is awarded. Repeating a course after graduation will not affect the recorded degree GPA.

Repeatable for credit undergraduate courses

A course marked "repeatable for credit" may be repeated for credit only once unless otherwise specified. See the undergraduate course repeat policy (p. 35) for information on repeating a course to improve one's grade.

Remedial math placement policy

The UW System remedial education policy was approved by the Board of Regents in November 1988. Remediation data supports the notion that a high percentage of students needing remediation in the skills area (English/math) continue to be successful college students.

Placement and registration in math courses is determined by using the scores earned on the Wisconsin Regional Placement Exams (WRPT) and the American College Test (ACT). Students not demonstrating adequate competency in math will be required to enroll in a remedial math course(s).

MTH 050 Basic Algebra and MTH 051 Topics in Intermediate Algebra are remedial courses designed for students whose test scores indicate a low probability for success in college-level courses. Students are required to complete one or more of these courses before they can take a math course that counts toward the General Education Program's Mathematical Systems requirement. In addition, students who place into MTH 051 may be required to enroll in this course for their major(s). These credits do not count toward graduation. MTH 050 and MTH 051 are letter-graded ("F" counts as credits attempted and is averaged into GPA; other grades do not).

Students required to take MTH 050 must complete the requirement prior to earning 30 degree credits. There is no prerequisite to enroll in MTH 050. However, students must have taken a placement test in order to enroll in MTH 051.

English placement policy

Placement and registration in ENG 110 College Writing (3 cr.) is determined by using the scores earned on the Wisconsin Regional Placement Exams (WRPT) and the American College Test (ACT). Students not demonstrating adequate competency in English will be required to enroll in ENG 100 and ENG 110 concurrently (six credits).

ENG 100 College Writing Workshop (3 cr.) is a non-remedial course designed to give students additional practice in and strategies for developing writing skills in post-secondary academic contexts. Students taking ENG 100 and ENG 110 together will have enhanced support in writing composition to help them successfully complete the General Education Program's Literacy requirement in their first Fall semester. ENG 100 and ENG 110 are letter graded with the grades calculated into the GPA. These credits count toward graduation.

Students required to take ENG 100 must complete the requirement prior to earning 60 degree credits. They will not be allowed to register in higher level English courses until they have successfully completed this requirement.

Cross-listed courses

A course offered by more than one department that has the same course description, credits, and title but different prefixes (e.g., ECO/THA 376; BIO/MIC 714) is a cross-listed course. Students may earn credit only once for taking a cross-listed course.

Undergraduate course numbering policy

Courses with numbers in the 100/200 series are primarily for first years and sophomores; those in the 300/400 series, which normally carry a prerequisite, are primarily for juniors and seniors. Many courses in the 500 series are "slash" courses; they are graduate courses with a companion number in the 400 series and are open to upper level undergraduates who have earned at least 60 credits and graduate students. Students may not earn credit in a slash course at both the undergraduate and graduate levels. All courses with numbers in the 600, 700, 800, or 900 series are for graduate students only.

Undergraduate students must earn at least 40 credits in the 300/400 numbered courses. See university degree requirements (p. 64) for more information.

Course prerequisites

Course prerequisites, listed in the course description, indicate the academic preparation required for successful completion of the course. Occasionally students may have sufficient knowledge to enter courses without the formal prerequisites. In these circumstances, students may ask instructors for consent to enroll; all instructors retain the right to admit any student to their classes, subject to departmental policy. Students who do not meet the stated prerequisite(s) or the required class standing must obtain permission to enroll in a class. Students will not receive credit for courses for which they do not have the appropriate class standing, specified prerequisites, or permission to override the requirements.

Course modes of instruction

1. **Face-to-Face (F2F) or In-Person or On Campus:** Course in which content delivery, course activities, and assessments take place in a physical classroom.
2. **Hybrid:** Course in which content delivery, course activities, and assessments take place in a physical classroom and online. This combination of online and in-person elements is based on meaningful learning strategies that best serve an instructor's pedagogical goals and objectives. This classification signals to students that there is an expectation of both physical presence and online learning in the instructor's design of the course. While a percentage is not mandated, hybrid courses are traditionally 30% to 50% of seat time replaced with online components. Hybrid courses include a class note available to students at registration, which indicates anticipated in-person and online class time.
3. **Online courses (fully)** - students do not meet in person at a physical site. All content and course activities take place online.
 - a. **Synchronous** - some or all of the elements of the class occur in real time. Elements can be required (e.g., a lecture or exam) or optional (e.g., office hours or discussion times). The course should be listed as online in the timetable and a meeting date/time should be noted.
 - b. **Asynchronous** - although there are deadlines for students by which they need to complete work, there are no requirements for a specific date/time when the student must be available.

4. **Independent Study** - individual reading or research under the guidance of a faculty member.

Curriculum requirements

A statement of various major and minor course requirements (the curriculum) accompanies the list of courses offered in each department and/or program, with a few exceptions. In addition to major and minor course requirements, students also must meet general education requirements (p. 70), the applicable college/school requirements, and university degree requirements (p. 64) in order to earn an undergraduate degree.

Undergraduate Curriculum Committee

The Undergraduate Curriculum Committee (UCC) is the curriculum review faculty body for all academic programs at the baccalaureate level. Membership of this committee consists of nine faculty, with proportional representation by college, and three students. The Provost/Vice Chancellor, Registrar, Director of the Library, and academic deans, or their designees serve as administrative consultants.

A full copy of the UCC bylaws is in the Faculty Senate's articles and bylaws (<https://www.uwlax.edu/faculty-senate/articles-bylaws-and-policies/>).

Course prefixes

The following is a list of course prefixes used by departments and programs at UWL. Both undergraduate and graduate prefixes are included.

ACC: Accountancy
 ANT: Anthropology
 ARA: Arabic
 ARC: Archaeology
 ART: Art
 ATS: Athletic Training
 BIO: Biology
 BLAW: Business Law
 BUS: Business Administration
 CEI: Cooperative Education and Internships
 CHE: Community Health Education
 CHI: Chinese
 CHM: Chemistry
 CI: Curriculum and Instruction
 CLI: Clinical Laboratory Science
 CMP: Computational Science
 CPE: Computer Engineering
 CS: Computer Science
 CST: Communication Studies
 CT: Computational Thinking
 CYB: Cybersecurity
 CYC: Child Youth Care
 DMK: Digital Marketing
 DMS: Diagnostic Medical Sonography
 DOS: Medical Dosimetry
 DS: Data Science
 ECE: Early Childhood Education
 ECO: Economics
 EDM: Educational Media
 EDS: Education Studies
 EDU: Education
 EFN: Educational Foundations
 ENG: English
 ENV: Environmental Studies

ERS: Ethnic and Racial Studies
 ESL: English as a Second Language
 ESS: Exercise and Sport Science
 FIN: Finance
 FNT: Financial Technology
 FRE: French
 FYS: First-Year Seminar
 GCL: Global Cultures and Languages
 GEO: Geography
 GER: German
 GRC: Graduate Registration Continuation
 HCA: Healthcare Administration
 HED: Health Education
 HIMT: Health Information Management and Technology
 HIS: History
 HMG: Hmong
 HP: Health Professions
 HPR: Health, Physical Education, & Recreation
 HWM: Health & Wellness Management
 IB: International Business
 INS: International Studies
 IS: Information Systems
 ITM: Information Technology Management
 JPN: Japanese
 LS: Liberal Studies
 MIC: Microbiology
 MIND: Mindfulness
 MGT: Management
 MKT: Marketing
 MS: Military Science
 MTH: Mathematics
 MUA: Applied Music
 MUS: Music
 NEU: Neuroscience
 NMT: Nuclear Medicine Technology
 NUT: Nutrition
 OT: Occupational Therapy
 PAS: Physician Assistant Studies
 PH: Public Health
 PHL: Philosophy
 PHY: Physics
 POL: Political Science
 PSY: Psychology
 PTS: Physical Therapy
 PUB: Public Administration
 RAD: Radiologic Technology
 RDG: Reading
 REC: Recreation Management
 RGS: Race, Gender, and Sexuality Studies
 RT: Radiation Therapy
 RTH: Therapeutic Recreation
 RUS: Russian
 SAA: Student Affairs Administration
 SHE: School Health Education
 SOC: Sociology
 SOE: School of Education
 SPA: Spanish
 SPE: Special Education
 SPY: School Psychology
 STAT: Statistics
 THA: Theatre Arts
 TSL: Teaching English to Speakers of Other Languages
 UWL: University-wide Learning
 WGS: Women's, Gender, and Sexuality Studies

(See graduate catalog (<http://catalog.uwlax.edu/graduate/>) for graduate courses and program descriptions.)

Credit for Prior Learning Policy - Undergraduate

UW-La Crosse appreciates and values students' learning experiences outside of the confines of UWL's sponsored credit instruction and uses a student-centered approach to recognize, evaluate and award credit for that knowledge. Students may be awarded credit for their university-level learning through a variety of ways including but not limited to transfer coursework, credit by national exam, military experience and training, industry-certified and assessed credentials or licensures, and UWL administered prior learning assessments. These methods of gaining credit for prior learning (CPL) foster educational attainment and can shorten time to degree or credential completion.

Each UWL academic department is encouraged to identify or develop an assessment tool for awarding credit for each course the department determines to be introductory and eligible for CPL, including courses applicable to the Skills Component of the General Education Program. Students should work with Admissions, their advisor, or dean's office to identify possible pathways to gaining credit for their university-level knowledge.

Credit by transfer

The University of Wisconsin System Undergraduate Transfer Policy (<https://www.wisconsin.edu/uw-policies/uw-system-administrative-policies/uw-system-undergraduate-transfer-policy/>) provides guidance to UW institutions regarding the admission and credit evaluation of transfer students from UW institutions, the Wisconsin Technical College System, and other accredited colleges and universities. Key aspects of the policy, as well as other general transfer information, can be found within the policy.

Credits considered for transfer to UWL must have been earned at regionally or nationally accredited institutions, e.g., Higher Learning Commission/North Central Association. In addition to institutional accreditation, the quality, comparability, and applicability of the credits are examined to determine transferability to UWL. Transfer credit is allowed for appropriate college-level courses completed at four-year colleges and universities as well as from two-year colleges and vocational/technical schools with accredited college parallel programs. Credits in vocational/technical programs other than college parallel programs typically will not transfer to this university (see WTCS Transfer Policy below for more information).

Transfer of low grades

A course in which a low grade (e.g., C-, D, D-) was earned and accepted by this university may be applied to general education and/or core requirements but will be subject to re-evaluation at a later date if the student chooses to major, minor or focus in the subject area or discipline in which the low grade was earned and a higher grade is required to meet program requirements.

General education waiver policy

Students who have completed the following may transfer to UWL as having satisfied the General Education Program:

- Bachelor's degree from a regionally accredited college or university;

- Associate of Arts or Associate of Science degree from a regionally accredited college or university including but not limited to:
 - Associate of Arts and Science degree from a University of Wisconsin System Branch Campus;
 - Associate of Arts or Associate of Science degree from a Wisconsin Technical College System institution with an accredited college parallel program.
- The Minnesota Transfer Curriculum (MnTC).

Students admitted with a bachelor's degree or an associate degree are still required to meet all core, professional, ethnic studies, prerequisite, major and minor requirements. The university reserves the right to review the student's associate degree and require additional general education courses.

Wisconsin Technical College System (WTCS) Transfer Policy

In accordance with UW System undergraduate transfer policy, students transferring from a Wisconsin Technical College System (WTCS) accredited liberal arts/collegiate transfer program to UWL may generally transfer up to 72 credits. UWL may accept additional credits toward the degree where appropriate. Students must follow UWL's established minimum credits earned in residence requirement for undergraduate graduation.

UWL may grant transfer credit for general education (i.e., in communications, behavioral sciences, social sciences, mathematics, and natural science) offered within a WTCS applied associate degree program. In determining transferability of these courses, UWL will consider the quality and comparability of the coursework and its applicability to degree requirements.

Transcripts from transfer students

UWL accepts transcripts sent directly from the issuing institution(s) or through an electronic, secure document sending service. Transcripts that are marked "Issued to Student" or that are hand delivered by a student will not be accepted unless the transcript remains sealed in the original stamped envelope from the issuing institution(s).

International coursework

International institutions must be recognized by the appropriate authority in the country, such as the Ministry of Education. Course descriptions from all university-level courses are required. If detailed course descriptions are not provided, transfer credit will not be awarded. Please note that English language courses are not transferable to UWL, as they are not offered at university-level in the United States.

Conversion of quarter-hours and units

All transfer credit processed from quarter-hour institutions will be converted to semester credits at UWL. Similarly, course work measured in units will be converted to semester credits. This will ensure students will receive the equivalent number of credits. To make the quarter-hour to semester-hour conversion, UWL multiplies quarter credits by 0.666. For example, if a student has 40 quarter credits ($40 \times 0.666 = 26.64$), the student will receive 27 semester credits.

Transfer resources and articulation agreements

The University of Wisconsin System maintains the Transfer Wisconsin (<https://www.wisconsin.edu/transfer/>) website. The site includes the Transferology (<https://www.transferology.com/school/uwlax/>) credit

transfer tool which provides information about how courses transfer in the University of Wisconsin, Wisconsin Technical College, and Wisconsin Tribal College systems. In addition, the site includes transfer guides, articulation agreements, the Universal Credit Transfer Agreement (UCTA) and Transfer Plans.

Universal Credit Transfer Agreement

The Universal Credit Transfer Agreement (<https://www.wisconsin.edu/transfer/universal-transfer/>) (UCTA) provides a set of courses that are transferable between all University of Wisconsin System institutions and Wisconsin Technical College System (WTCS) districts and typically satisfy general education or general degree requirements.

Articulation agreements

UW La Crosse faculty and staff work jointly to identify pathways for students using labor market data, job protection data and course capacity information with domestic and international partner institutions. All current articulation agreements can be found on the Academic Affairs (<https://www.uwlax.edu/academic-affairs/resources/articulation-agreements/>) webpage. For additional information, contact the UWL Admissions Office.

Retroactive credit

Students who enter UWL with advanced preparation in world languages (p. 171) and mathematics (p. 482) may receive credit for that preparation by passing an appropriate advanced-level UWL course with a grade of "B" or better. See Admissions retroactive credit (<https://www.uwlax.edu/admissions/ap-ib-clep-credit/#tm-12695>) for more specific information.

All students who plan to continue a language already studied in high school must take the UW System Placement Test to determine the appropriate class level. The UWL Admissions Office will send Placement Test information to all accepted new first-year students. A student may receive retroactive credit provided a grade of "B" or better is earned in the student's first university course above the introductory level in a particular language. Retroactive credit may be given in one or more languages. No retroactive credit is given for any phonetics course.

Credit by national/international exam

UWL offers credit for a variety of exams, including Advanced Placement, International Baccalaureate, and the College-Level Examination Programs (<https://www.uwlax.edu/admissions/ap-ib-clep-credit/>). Official transcripts from the exam board must be submitted to the Admissions Office for evaluation to determine how academic credit will be awarded. See the Admissions website (<https://www.uwlax.edu/admissions/ap-ib-clep-credit/>) for common course equivalencies based on individual exam scores.

Advanced Placement

Students who have participated in the Advanced Placement Program (AP) in high school and have received scores of 3, 4, or 5 will receive academic credit. Official transcripts of AP work must be submitted to the Admissions Office directly from the College Board for evaluation to determine how academic credit will be awarded. UWL's AP School Code is 1914. Contact the AP Testing Center at: apcentral.collegeboard.com/ home or by phone at (888) 225-5427 for more information.

CLEP

The College Level Examination Program (CLEP) is a national program administered through the College Board. UWL will follow The American Council on Education (ACE) guidelines and recommendations for minimum scores for awarding credit in all subject examinations.

Students should contact the Counseling and Testing Center 608.785.8073 for information about CLEP, and to order the exam. Students who have taken CLEP exams at other approved sites may submit the results to the Admissions Office for evaluation to determine if academic credit will be awarded. Transcripts must be submitted directly from the College Board to the Admissions Office. More information is available on the CLEP website (<https://clep.collegeboard.org/>).

A-Level exams

In many cases, students may receive advanced standing credit for some A-level exams. After a student has been admitted, the Admissions Office will perform an evaluation of credit for A-Level exam results. To grant the credit, we require an official copy of the A-Level exam certificate from the examination board. Credits will not be posted from Results Slips or internal school transcripts.

International Baccalaureate

UWL will accept all International Baccalaureate (IB) Higher Level (HL) examinations with a score of 4 or greater. IB Standard Level (SL) examinations will receive credit if listed on the Admissions website (<https://www.uwlax.edu/admissions/ap-ib-clep-credit/#tm-international-baccalaureate-ib->). Official IB transcripts should be submitted to the Admissions Office for evaluation.

DSST/DANTES

The DSST is a national, standardized exam evaluated by the American Council on Education Credit Evaluation Service (ACE). DANTES Subject standard tests provide students the opportunity to demonstrate college-level learning by taking exams that assess knowledge and skills taught in college courses if they achieve the minimum score required by UWL on the exams. Students must submit an official transcript to the Admissions Office for evaluation. More information is available on the DSST (<https://getcollegecredit.com/>), Prometric (<https://www.prometric.com/>), and Admissions websites.

Credit for military training and service

Students at UWL may earn credit for the completion of basic training and advanced individual training. Military service school credit may be granted in transfer based upon recommendations of the American Council on Education. Credit for vocational/technical training or in a military occupational specialty will not be accepted. The Joint Services Transcript (JST) is the basic document used to evaluate transfer credits. To request an official copy of their transcript, students should visit the Joint Services Transcript (<https://jst.doded.mil/official.html>) site. Air Force enlisted personnel will continue to receive their official professional military education transcript from the Community College of the Air Force (CCAF) (<https://www.airuniversity.af.edu/Barnes/CCAF/Display/Article/803247/community-college-of-the-air-force-transcripts/>).

Credit for military training and service is guided by WI Act 59 and WI Act 147. Students are strongly encouraged to consult with Admissions or their dean's office for applicability of awarded credits to their program and the UWL Veteran Services Office before making determinations regarding prior military credit. Students who are given credits that may not pertain directly to their program could be disadvantaged for financial aid purposes or other designations.

According to WI Act 59, Section 623m. 36.31 (4), upon receiving from the federal department of defense a student's official JST or CCAF transcripts, the institution or college campus in which the student is enrolled shall do the following:

- a. Accept all American Council on Education credit recommendations included in the official Joint Services Transcript

and award academic credit to the student in accordance with these recommendations.

- b. Accept all credits included in the Community College of the Air Force transcript and award academic credit to the student accordingly.

Institutions will award credit according to these guidelines:

- The educational quality of the learning experience the student seeks to transfer;
- The comparability of the nature, content and level of the learning experience to that offered by the receiving Institutions; and
- The appropriateness and applicability of the learning experience to the programs offered by the receiving institution, in light of the student's educational goals.

According to WI Act 147, students may choose whether or not to accept the credits from their JST or CCAF transcript awarded by UWL. Furthermore, an institution or college campus may not award academic credit to a student for each course for which the student, upon consultation with the institution's or college campus's staff, objects to the awarding of credit for that course.

Credit for professional/industry learning

In some disciplines, industry-certified training programs, assessments, or licensures may allow for credits awarded toward a student's specific degree requirements. These industry certified credentials must be verifiable and are up to individual UWL departments to determine validity and applicability to a student's program of study. Additional documentation or assessments may be required to validate learning and will be determined on a case-by-case basis. A list of UWL courses or programs recognizing or granting credit for professional/industry learning can be found on the Admissions website. Students should work with their dean's office or the appropriate academic department for more information or to request professional/industry learning to be reviewed for potential credit.

Credit by institutional prior learning assessment

UWL departments and faculty have developed a variety of assessment tools to evaluate student learning specific to those departments. Assessments may include written exams, skills demonstrations, portfolio presentations or a combination of these. A small non-refundable fee will be charged for each assessment and is payable to the Cashiers Office. The fee must be paid prior to attempting the assessment and will go to the department offering the assessment.

Students interested in completing an institutional prior learning assessment should check with the department and their dean's office to make arrangements for completing the assessment. Students may not complete an institutional assessment for credit more than once unless they can provide sufficient rationale that additional learning has occurred since the last attempt.

Portfolio

UWL students may seek credit for prior learning through a rigorous portfolio and evaluation process. The academic department or faculty must approve the use of the portfolio for credit prior to the student engaging in the portfolio process. Each portfolio is evaluated by a qualified content matter expert based on the published standards and learning outcomes of the course for which credit is being requested.

The prior learning portfolio is a collection of evidence or artifacts that directly supports a claim for credit for a specific course. Required documentation may vary depending on the course for which a student seeks credit.

A current list of UWL courses using the portfolio review process to grant credit for prior learning can be found on the Admissions website. For courses not listed here, students should contact the academic department to determine if the portfolio process is an option.

Additional limitations and exceptions

Credits awarded through credit for prior learning do not count toward UWL's residence requirements. A minimum of 30-degree credits must be registered for and earned through UWL for a baccalaureate degree. A minimum of 15 credits must be registered for and earned through UWL for an associate degree. Individual departments may have more strict residency requirements. Please see UWL's undergraduate residence requirement policy (p. 42) and individual department websites for more information.

Specific degree requirements differ among the various UWL schools and colleges. Credit will be applied toward degree requirements appropriately, depending upon which major and/or degree the student intends to complete based on the specific UWL department rules and regulations. To learn more about degree and major requirements, students should consult the undergraduate catalog (<http://catalog.uwlax.edu/undergraduate/>) or the appropriate undergraduate major. Admission to UWL does not assure admission to specific degree programs. All transfer students must meet the same criteria as continuing students (e.g., grade point average, course requirements, etc.) for admission to specific majors or programs.

Transferring in CPL

Credit for prior learning that is internally reviewed, assessed and transcribed as a course equivalent by any University of Wisconsin institution will be considered for applicable credit by UWL as well. All other CPL awarded credits by non-UW institutions may need additional explanation or evaluation by UWL subject matter experts and may require additional fees.

Transfer out CPL

For students who choose to transfer to another University of Wisconsin institution, that receiving institution will review UWL granted credits and determine how the credit will apply to their degree, guided by their institutional policies. Non-University of Wisconsin institutions may or may not review UWL granted credits. Students considering transferring to a non-UW System institution should contact that institution for their policies regarding granting credit for prior learning.

Transcription of credit for prior learning

Credits awarded for prior learning will be posted on a student's transcript listed under the appropriate heading (e.g., Transfer Credits, Test Credits, Other Credits). After being admitted to UWL, the Admissions Office will evaluate a student's submitted credit for prior learning documents. Awarded credits will be posted to the term that corresponds with the admitted term or when the transfer course was completed. If a student pursues credit for prior learning at a later time, the credits awarded will be transcribed to the term the exam or assessment was evaluated.

Transfer courses earned are listed under the heading "Transfer Credits" on the student's transcript along with the grades earned and are recorded in terms of UWL courses. The student's record shows courses, grades, and credits. Credits earned through AP, CLEP and IB are listed

under the heading "Test Credits" on the student's transcript. All other credit awarded through the credit for prior learning process is listed under the heading "Other Credits." If a student attempts an institutional assessment and is unsuccessful, no record of the attempt will be noted on the student's UWL transcript.

Course credit earned via credit for prior learning does not carry grade points and does not factor into the UWL resident grade point average. Exceptions to this policy are necessary for admission into certain programs/majors or for eligibility requirements such as for athletics. Credits for CPL may be used for satisfactory academic progress (<https://www.uwlax.edu/finaid/resources/policies/satisfactory-academic-progress-policy/>) calculations for financial aid. Course credit earned via credit for prior learning does not factor into UWL enrollment status.

*Note: This policy was last updated in fall 2022 and will be reviewed on a 3-5 year basis.

Grading System, Grading Policies, and Final Exams - Undergraduate

- University grading system (p. 40)
- Pass/fail policy (p. 41)
- Final exams policy (p. 41)
- Incomplete (I) grade policy (p. 42)
- Change of final grade policy (p. 42)
- Appeal of final grade policy (p. 42)
- Report of final grades policy (p. 42)
- Deans' Lists policy (p. 42)

University grading system

Scholastic standing is determined by the grade point system. Grade points are used to determine an official scholastic average for each student. A semester grade point average is calculated by dividing the grade points earned by the number of credits attempted that semester. The cumulative average is the total number of grade points earned divided by the total number of credits attempted. GPAs are not rounded; they are truncated at two digits and a zero is added as the third digit for all students.

UWL grade point averages are determined only by grades in UWL courses. Probationary status and grade point deficiencies of students already matriculated at UWL may not be improved by enrolling in courses at other institutions.

Grading scale

Effective January 1994, the university adopted a seven-step grading scale with point values assigned as follows:

Letter	GPA
A	4.00 grade points/credit
AB	3.50 grade points/credit
B	3.00 grade points/credit
BC	2.50 grade points/credit
C	2.00 grade points/credit
D	1.00 grade points/credit
F	0.00 counted as credits attempted

Additional university grades and grade points used but not part of the grading scale:

Letter	GPA
I	incomplete / 0 (not counted as credits attempted)
IP	in progress / 0 (not counted as credits attempted)
W, WP	withdraw passing / 0 (not counted as credits attempted)
WF	withdraw failing / 0 (counted as credits attempted, averaged into GPA)
EP ¹	emergency withdrawal / passing / 0 (not counted as credits attempted)
EF ¹	emergency withdrawal / failing / 0 (not counted as credits attempted)
AS	audit satisfactory / 0 (not counted as credits attempted)
AU	audit unsatisfactory / 0 (not counted as credits attempted)
S ²	satisfactory / 0 (counted as credits attempted)
U	unsatisfactory / 0 (not counted as credits attempted)
P ²	pass / 0 (counted as credits earned)
F	fail / 0 (counted as credits attempted; averaged into GPA)
F01 - F14	not active / 0 (counted as credits attempted; averaged into GPA). Student did not withdraw from the course officially, but failed to participate in course activities through the end of the period. There is insufficient evidence to make possible a meaningful evaluation of academic performance. The appropriate grade from the F01 to F14 range will appear as an "F" on the student record.
NR	no report / 0 (not averaged into GPA; the "NR" grade is posted for all missing grades)
PR ³	in progress for dissertation, thesis, seminar paper, culminating projects / 0 (not counted as credits attempted)

¹ The faculty Committee on Academic Policies and Standards (p. 33) has established EP and EF as grades that are to be utilized only for the emergency medical withdrawal of students and military call-ups. These grades will be recorded on the permanent academic record to indicate level of performance at the time of withdrawal; however, such grades will not be averaged into the student grade point average.

² A grade of "P" or "S" awarded at the undergraduate level is equivalent to a grade of "C" or better.

³ The "PR" grade is only used at the graduate level.

University pass/fail policy

1. Credits taken on a P/F basis will not be averaged into a grade point average if "P" is filed by the instructor. The credits will count as credits earned. An "F" will be averaged in and will be counted as credits attempted.
2. Specific courses are approved for pass/fail grading. Students do not have the option to request a graded course be taken as P/F.
3. A maximum of 21 credits of P/F course work can be used toward an **undergraduate** degree.
4. UWL does not accept **graduate** transfer credit from other institutions in which a grade of "pass" was earned.

Students should realize that P/F graded courses might not be accepted in transfer to other institutions of higher learning. Professional schools are especially reluctant to accept P/F graded course work.

Some employers, principals, and/or superintendents may be unable to acknowledge credits or reward employees, especially graduate students working on advanced degrees, when course work has been taken under the P/F grading system.

Final exams policy

A finals week exists to allow students time to read, review, write, integrate, synthesize, and collaborate to maximize the student learning outcomes of courses. Instructors are encouraged to use finals week for significant papers, assignments, exams (cumulative or not; take-home or in class), etc. in order to allow students the maximum time to distribute their workload and attend to quality. For the sake of student learning, the last week of classes should not be used as a proxy for finals week.

A final examination will be given in each course within a special examination period except for one-credit courses, which will have exams scheduled at the last regular meeting of the class. The examination periods, dates, and times are found in the Office of Records and Registration's Final Exam Schedule (<http://www.uwlax.edu/Records/Final-Exam-Schedule/>). Final exams for online courses will be administered by the published end date of the course. The nature and relative importance assigned to the final examination is determined by the instructor in charge of each course.

Any changes to the final examination policy above, including the published schedule, must be approved by the department chair and the dean of the school or college and will only be granted under extraordinary circumstances. Instructors may send requests to change an examination time via email to the chair of their department. If the department chair approved of the request, the chair will then forward the request to the dean.

No student will be required to take more than three final exams on the same day. If a night class is not involved, instructors of the fourth and subsequent exams on that day will be obliged to reschedule that student's exam if the Office of Record and Registration certifies that such an overload exists. If a night class is involved, the night class and the student's first two exams of the day will remain as scheduled and the other instructors will be obliged to reschedule their exams for that student.

Study Day: No final examination shall be given to any student on Study Day. Study Day is a day to prepare for the final examination period. No student activities of any sort with the exception of optional review sessions for final examinations shall be scheduled on Study Day. This includes make-up classes or tests, committee meetings involving students, and athletic practices or events.

University incomplete (I) grade policy

An incomplete (I) is a temporary grading symbol (not a final course grade) that may be reported for a student who carried a subject through the last date that one may withdraw from a course and then, because of illness or other unusual and substantiated cause beyond the student's control, was unable to take the final examination or complete a limited amount of remaining course work.

In no case may an incomplete be recorded by an instructor for a student who, through personal fault, has failed either to complete the requirements of the course on time or failed to report for the final examination as scheduled.

Before an incomplete is reported, there should be, in the judgment of the instructor, a reasonable probability that the student can complete the course successfully without attending class sessions again.

An incomplete (I) will be removed when the student submits all work due. An incomplete must be removed and a final grade recorded in the Office of Records and Registration no later than one calendar year (12 months) following the term in which the Incomplete was incurred, whether or not the student is enrolled. If the student has graduated, an incomplete will be changed according to this policy; however, the graduation GPA will not change.

In order to remove an incomplete, the student must make arrangements with the instructor for the satisfactory completion of the work remaining to be done in the course. This work was indicated on the "Incomplete Grade Request" that was submitted by the student and the instructor when the "I" was originally requested.

When the work has been completed, the instructor submits a final grade, which must also be approved by the department chair and the student's dean. If the deadline for completion is not met, a grade of "F" will be recorded automatically at the time stated above. If the instructor indicated a grade other than "F" on the information sheet that was filed, that grade will be used instead of "F."

Note: A student should never register again for any course to remove a previously recorded incomplete unless the "I" grade has been converted to "F." This conversion of the "I" must be done prior to re-enrollment. For undergraduates, the highest grade earned in repetition will be accepted in the GPA. For graduates, the most recent grade earned will be calculated in the GPA. See the undergraduate (<http://catalog.uwlax.edu/undergraduate/academicpolicies/courseinformation/#course-repeat-policy>) and graduate (<http://catalog.uwlax.edu/graduate/academicpolicies/courseinformation/#repeat-policy>) course repeat policies for more information.

Change of final grade policy

An instructor may request to change a final grade for an undergraduate course three semesters immediately following the close of the semester in which the grade is first recorded, excluding summer. The instructor and department chair authorize the change through the change of grade process. Approval from the dean of the college/school associated with the student's primary major is required as well as processing by the Office of Records and Registration.

A change of grade after three semesters may be made only upon approval of the faculty Committee on Academic Policies and Standards (CAPS). Requests must be made in writing and must be supported in writing by the instructor and the department chair. These documents are forwarded to the student's academic dean for presentation to the faculty committee.

Final grades are not changed after the degree has been recorded.

Appeal of final grade policy

All departments have established policies and procedures which enable students to appeal final grades. These policies and procedures outline the progression of a formal appeal and specify who, if anyone, is empowered to change a final grade. All appeals for a final grade change must be initiated in writing through the department in question during the semester immediately following the semester in which the grade was earned. A copy of each department's policies and procedures are filed in the office of the appropriate dean.

Report of final grades policy

Official grades are submitted at the end of each term and are available to students through the WINGS Student Center. Academic action is taken at the end of each semester. Grades are not mailed; they are available electronically via the WINGS Student Center.

Students with unsatisfactory grades are expected to seek counseling and help with their studies. Available resources include the instructor(s), advisor, and department tutors. Student services staff, particularly Counseling and Testing Center personnel, will provide assistance on a confidential basis. First years, especially, are encouraged to seek help at the earliest sign of academic difficulty. The university assumes that students will communicate regularly with interested parties (e.g. parents) with respect to academic status and progress.

Deans' Lists

To be eligible for inclusion on any honors list compiled and published by a dean's office at the end of each semester, students must have earned not less than a 3.50 semester grade point average and have carried a minimum of 12 semester undergraduate degree credits.

Graduation/Commencement - Undergraduate

- Undergraduate residence requirement policy (p. 42)
- Four-year graduation agreement policy (p. 42)
- Graduation fee (p. 43)
- Submit an intent to graduate (p. 43)
- Commencement participation (p. 43)
- Commencement honors policy (p. 43)
- Graduation honors policy (p. 43)
- Mailing diplomas (p. 43)

Undergraduate residence requirement for graduation

A minimum of 30 credits applied to the bachelor's degree must be resident credits, which are credits registered for and earned at the University of Wisconsin-La Crosse. Resident credit includes UWL courses offered through distance or online formats.

Four-year graduation agreement

Entering first years are offered the opportunity to participate in an agreement that ensures graduation within four years of initial enrollment. If a student satisfies all of the conditions of the agreement, but degree completion is delayed because the university did not fulfill its requirements of the agreement, then UWL relieves the student of tuition for the required course(s) remaining after the four-year time

period. Not all UWL academic programs are included as part of this formal agreement. More information about the conditions of the four-year agreement is available from the dean's office in each college. The agreement must be signed within the first seven weeks of the student's initial enrollment when a student meets with a four-year agreement advisor.

Graduation fee

Upon completion of 95 semester credits toward the bachelors degree, a student is billed a graduation fee. This is a one-time fee assessed regardless of whether or not the student chooses to attend the commencement ceremony. Students earning a second degree are also assessed the graduation fee. The current fee amount (<https://www.uwlax.edu/cost/>) is available online. There is an additional charge for the keepsake cap, gown, and hood for those attending the ceremony.

Submit an intent to graduate

All students must notify the university when they plan to graduate by submitting their term of graduation. Students should select the term in which they plan to successfully complete the last requirements for their degree. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1. Programs with student teaching, internship, or preceptorship requirements in the final term of study may have earlier submission deadlines. Undergraduate students who are currently enrolled may submit their intent to graduate (<https://www.uwlax.edu/wings/>) through their WINGS Student Center and select "Apply for Graduation." Students who are no longer enrolled should contact the Academic Services Director of their college/school for advising.

Commencement participation

Participation in commencement signifies that course work and all other degree requirements have been satisfied. Students who have not completed all degree requirements, but have a compelling reason to participate in commencement exercises early, may request permission to do so. Permission must be obtained from their college dean's office at least a month prior to commencement. Commencement ceremonies occur each year in December and May.

Commencement honors

Commencement honors determine which students may wear an honor cord, also known as a *fourragère*, during commencement exercises. Commencement honors are noted beside students' names in commencement programs.

Calculations for commencement honors and highest honors are based on grade point averages earned at the end of the last term in residence prior to the term of graduation. To be eligible as a baccalaureate candidate, a student must have earned no fewer than 45 semester credits in residence at UWL prior to the beginning date of the term in which the student intends to graduate and 30 credits as an associate candidate. A student must have a cumulative grade point average of 3.50 to wear the honor cord or at least 3.75 to wear the cord designating highest honors. Only resident credits are used in the GPA calculation. Commencement honors are calculated for baccalaureate and associate degree candidates only.

Graduation honors

Graduation honors are posted on permanent academic records if students have earned no fewer than 60 semester credits in residence for a baccalaureate degree and 30 credits in residence for an associate degree at UWL. A student must have a cumulative grade point average

of 3.50 for graduation with honors or at least 3.75 for graduation with highest honors at the end of the student's last term in residence. Only resident credits are used in the GPA calculation. Graduation honors are calculated for baccalaureate and associate degree candidates only.

Mailing diplomas

Diplomas are mailed approximately six weeks after the ending date of the semester of graduation, to the current legal (home) address on the university computer system unless the Office of Records and Registration has been notified differently.

Registration and Schedules - Undergraduate

- Registration process (p. 43)
- Schedule changes (p. 44) (drop/add/change of schedule policy)
- Class drops at an instructor's discretion policy (p. 44)
- Class drops after the change of schedule period: see the individual class withdrawal policy (p. 46) in the university's withdrawal policies.
- Student credit load policy (p. 44)
- Student classifications (p. 44)
- Class start policy (p. 44)
- Class attendance policy (p. 45)
- Changing major, minor, program, college, or school (p. 45)
- Undergraduate enrollment in graduate courses policy (p. 46)
- Audit policy (p. 46)

Registration process

The university has online registration via the WINGS Student Center (<https://wings.uwlax.edu/>). Registration for the winter and spring terms begins in November; summer registration begins a week before fall registration in late March. A student's enrollment date and time is located on their WINGS Student Center. The student may register at that assigned time or any time after, through the fifth day of classes (third day for a summer term) unless enrollment limits have been met. From the sixth to the tenth day of the semester, a student may register with approval from the instructor and/or department. The drop/add/change of schedule policy (p. 44) has more details on the deadlines for schedule changes.

The online Schedule of Classes (<http://www.uwlax.edu/Records/registration/>) and WINGS Class Search have the published schedule for the upcoming terms. Directions on how to register in WINGS can be found on the WINGS Help site (<https://www.uwlax.edu/wings/>). The registration system will not permit a student to enroll in a class for which a prerequisite is not in progress at UWL or has not been completed, if there is a time conflict, if the class is closed, or if the additional credits will put the student's credit load over 18 credits for undergraduates or 15 credits for graduates. Some graduate programs require graduate students to register through their advisors instead of using the WINGS system. Course-related policies that affect registration, including the course repeat policy and the different modes of instruction, can be found in the course information section of the undergraduate (p. 35) and graduate (<http://catalog.uwlax.edu/graduate/academicpolicies/courseinformation/>) catalogs.

Continuing students must not have any holds that block registration, including financial holds, on their account in order to register. In addition, all students are charged a **non-refundable registration fee** each term they register for one or more courses. The Cashier's Terms and

Conditions Agreement (<https://www.uwlax.edu/cashiers/tuition-and-billing/terms-conditions/>) covers this fee, and the exact amount is listed in the cost to attend (<https://www.uwlax.edu/cost/>) UWL. If a student drops all classes before the term begins, the student is still responsible for this fee.

University drop/add/change of schedule policy

The period of time between a student's initial registration for any term through the first 10 days of classes during an academic semester is considered to be the "drop/add/change of schedule" period. Classes shorter than the traditional full semester length offered during a semester or during an intersession have drop/add schedules that reflect deadlines pro-rated from a full semester based on the length of the class.

Dropping a class

For schedule changes associated with dropping classes, neither the advisor's permission nor the instructor's permission is required during this period and a student may drop classes without affecting the permanent academic record. After the drop/add/change of schedule period, if a student withdraws from a course, the individual class withdrawal policy (p. 46) applies.

Adding a class

For schedule changes associated with adding courses, if the desired section is not closed, no permissions are needed during the first five days of classes for full semester courses. From the sixth day through the tenth day of classes for full semester courses, permission from the instructor is required and departmental permission may also be required. After the close of the add/drop/change of schedule period, classes cannot be added except in unusual cases and then only with the consent of the instructor, department chair, and the dean's office.

University class drops at an instructor's discretion policy

A student enrolled in any course is expected to be in attendance from the first day or to have notified the instructor or Student Life that attendance is not possible. A student registered in a section who fails to attend the first two class sessions or provide proper notification may be dropped from the course at the discretion of the instructor.

An instructor who wishes to drop a student from a course during the first five days of instruction should complete a drop/add form and submit it to the Office of Records and Registration during the "drop/add/change of schedule" period. A decision by an instructor to drop a student from a class may not be appealed to any other individual or body in the university. A student should not assume that an instructor will use the discretionary drop if the student does not attend class. It is a student's responsibility to withdraw from a class.

Undergraduate student credit load policy

The standard undergraduate load is 15 credits per semester. Credit loads of 19 or more constitute an "overload" and may be carried only if an application is made in writing and approved by the dean of the school or college in which the applicant is enrolled. Overloads are not approved for first semester first years or for any student with a cumulative grade point average less than a 3.25.

The standard undergraduate load during a 12-week summer term is 12 semester credits. This is the maximum number of credits that can be earned during the summer term. For winter intersession, a student may earn, as a maximum, the number of credits corresponding to the number of weeks in any interim session (i.e., three weeks: three credits).

To be considered full-time, undergraduate students must carry a minimum of 12 semester credits during the semester and six credits during summer term. Half-time is based on six credits for a semester and three credits for summer term. Credits carried on an audit basis do not count as part of a load to establish full-time or half-time status for any type of eligibility - sports, loans, etc. To qualify for federal student financial aid in the summer, students need to carry 12 credits to be full-time and six credits to be part-time.

University of Wisconsin Independent Learning courses taken during a regular term are considered part of an individual's load for one term only. These courses, if properly approved, may count toward the undergraduate degree but are not averaged into the cumulative grade point average.

Student classifications

Classification	Credits
First Year	0-29 semester credits
Sophomore	30-59 credits
Junior	60-89 credits
Senior	90 credits or more

Other:

- graduate student
- special non-degree student
- student seeking certificate
- second degree student

In addition to the above classifications, undergraduate students often are classified by the college in which they are enrolled:

- College of Business Administration
- College of Arts, Social Sciences, and Humanities
 - School of Visual and Performing Arts
- College of Science and Health
- School of Education

Class start policy

The official start of an undergraduate class is the start date as displayed in WINGS. With few exceptions, undergraduate classes at UWL will not start before the official start date of each term. Although instructors may provide class materials and readings to be completed by the first day of class, aside from the expectations below, students cannot be required to complete written assignments, quizzes or tests prior to the official start date of the class.

Unless waived (by the dean of the college or school), the time commitment for pre-class preparation for students should be explicitly displayed in the document, be carefully designed not to interfere with students' current academic courses, and should not exceed 10% of the overall credit hour time commitment of the class. Occasionally situations exist where either face-to-face or online preparation for a class is necessary prior to the official start of the term (for instance, study abroad courses, research, and independent study). In these situations, a document with all assignments, due dates, and necessary

resources must be approved by the appropriate academic dean and provided for each student upon registration. Graduate students are exempt from this policy.

Class attendance policy

Because class participation is an integral component of the development of a successful learning community, all students are expected to attend all class sessions of courses in which they are enrolled. While attendance is expected, it is recognized that absences are at times unavoidable. If an absence is necessary, a student should take responsibility for contacting their instructor(s) as soon as possible to discuss the ramifications of being away from class.

It is important for the student to realize that when classes are missed they may be at a disadvantage as it is often not feasible for the instructor to reconstruct activities that took place in the classroom, laboratory, or field during the absence. Additionally, missing any classes may result in lower grades because the student may miss foundational material needed to succeed in the class. Even under the best of circumstances, extended absences can be problematic, with the real possibility that the student may not be able to complete the course successfully. Students with a documented disability requesting an accommodation related to attendance must request accommodation through the ACCESS Center.

Authorized absences and how they differ from other absences

Absences that fall under one of the following categories are considered authorized:

1. participation in an approved field trip listed in the catalog as a requirement for a course in which the student is enrolled; or
2. participation in an authorized extra-curricular activity such as a university athletic event or artistic performance; or
3. active military service (<http://catalog.uwlax.edu/undergraduate/academicpolicies/withdrawal/#short-term>); or
4. accommodation of students' religious beliefs (<http://catalog.uwlax.edu/undergraduate/aboutuwlax/#religious-beliefs>); or
5. bereavement (such as the death of a close family member); or
6. illness, injury, or emergency of such severity as to prevent the student from being able to attend class.

A student should communicate directly with the instructor when an absence falls under one of the approved six categories. Instructors have discretion regarding requests for absences that do not fall under one of the approved six categories.

Course policies and communication

Both students and their instructors have responsibilities related to course policies and communication of absences.

Course policies regarding absences

Instructors may initiate their own policy regarding attendance. If an instructor teaches more than one section of a course, the same policy should be used for all sections. Attendance policies should be clearly articulated in a course syllabus. Instructors are expected to announce their attendance policy to each class, but it is the responsibility of the student to know the policies of the instructor contained in the syllabus. Instructors may choose to request HIPPA-compliant documentation for authorized absences. Instructors may not require documentation that describes the nature of the student's medical condition. Requests for

documentation should be restricted to information that can be readily obtained, is not unacceptably intrusive, and is culturally appropriate.

Communication regarding absences

Notifying instructors and arranging make-up work in cases involving authorized absences of students from class are the responsibility of the student. A student who is absent is responsible for notifying the instructor as soon as possible and may not be penalized for authorized absences if appropriate HIPPA-compliant documentation is provided in a timely fashion to the instructor to verify the reason for the absence. Students may not be required to provide documentation describing the nature of the student's medical condition.

In serious situations where the student is incapacitated and temporarily unable to perform the aforementioned responsibilities, family members may contact the Student Life Office for assistance with these matters. The Student Life Office will then provide notification (not verification) of the absence to the instructors. Arrangements for make-up work, make-up exams, or possible assignment adjustments are the responsibility of the student. Students should read their syllabi carefully and direct any attendance-related questions to the instructor of that course.

In the case of severe illness, injury, or emergency, instructors should be kept apprised of the student's absence timeline through direct communication with the student and/or via the Student Life Office, which will assist students and communicate with instructors as needed.

When absences are authorized, instructors are obligated to work with students to determine the best way for students to resume participation in the class without a direct penalty. The instructor is responsible for providing reasonable accommodation or opportunities to make up course obligations that have an impact on the course grade. It is expected that reasonable requests to make up exams and assignments will be accommodated. However, if the absences are lengthy, the student, instructor, and the Student Life Office should work together to determine if it will be possible for the student to successfully complete the course.

In all cases of absence, authorized or otherwise, the student is responsible for completing missed work. The instructor is not required to do extra teaching.

Changing major, minor, program, college or school

Based on their chosen major, undergraduate students are assigned to a college or school within the university for advisement, registration, and record-keeping purposes. Admission and other requirements vary among the schools and colleges and their programs. A student may change their major, minor, or program if the student meets the prescribed admission, curriculum, or other requirements of the new program, college, or school. Changes are initiated at the dean's office of the college or school to which a student wishes to change. Students may change a program at any time; however, students are encouraged to make changes early in a term for advising purposes. Frequently, additional credits and time are needed to complete graduation requirements after a change of program, college, or school. Students who decide to make such changes are responsible for familiarizing themselves with the requirements.

University undergraduate enrollment in graduate courses policy

Undergraduate students with senior status (at least 90 credits) who have at least a 3.00 cumulative grade point average, may enroll in a maximum of six graduate credits. These graduate level credits may not be used to satisfy requirements for a bachelor's degree. Exceptions to these requirements must be approved by the Graduate Council.

Maximum student credit load for dual enrollment (graduate/undergraduate) is 15 credit hours for a semester and eight credit hours for a summer term (standard university overload approval process applies).

Students must submit a graduate special non-degree application to the Admissions Office prior to registering for a graduate course. Undergraduate tuition and fees are charged. Students in dual-degree programs must complete the graduate program application process and pay graduate tuition fees. Students are expected to purchase texts for graduate courses.

University audit policy

Students may audit courses under the following arrangements:

1. Students must receive consent of the department chair and the instructor offering the course.
2. No change from audit to credit will be permitted after the first week of classes. No change from credit to audit will be permitted after the official last day to drop a class. (See the individual class withdrawal policy (<http://catalog.uwlax.edu/undergraduate/academicpolicies/withdrawal/#withdrawal-classes>) for deadline details.)
3. No credit will be granted for any course that is audited. "Audit" will appear on the student's permanent academic record. The "AS/AU" grading system is used for auditors. The grade will not affect a student's GPA.
4. An audited course may be repeated for credit in another semester or term.
5. Appropriate tuition and fees are to be paid for the course.
6. Courses being audited are not usable to establish full-time or part-time status for any type of eligibility, such as for athletic participation, student grants/loans, or loan deferment.
7. Courses being audited may not be taken in excess of student load limits for credit generating courses without special "overload" permission from the student's academic dean.
8. A course previously completed for credit may be audited in another term.

Student Conduct

Student disciplinary procedures

In 1989, the Board of Regents adopted an administrative code Chapter UWS 14, which covers academic misconduct. Its principles state, "The Board of Regents, administrators, faculty, academic staff, and students of the University of Wisconsin System believe that academic honesty and integrity are fundamental to the mission of higher education and of the University of Wisconsin System. The university has a responsibility to promote academic honesty and integrity and to develop procedures to deal effectively with instances of academic dishonesty. Students are responsible for the honest completion and representation of their work, for the appropriate citation of sources, and for respect of others'

academic endeavors. Students who violate these standards must be confronted and must accept the consequences of their actions."

The Board has also adopted Chapter UWS 17, last revised in 2009, which covers non-academic misconduct. In it, they state, "The missions of the University of Wisconsin System and its individual institutions can be realized only if the university's teaching, learning, research and service activities occur in living and learning environments that are safe and free from violence, harassment, fraud, theft, disruption and intimidation. In promoting such environments, the university has a responsibility to address student nonacademic misconduct; this responsibility is separate from and independent of any civil or criminal action resulting from a student's conduct. This chapter defines nonacademic misconduct, provides university procedures for effectively addressing misconduct, and offers educational responses to misconduct. The University of Wisconsin System is committed to respecting students' constitutional rights. Nothing in this chapter is intended to restrict students' constitutional rights, including rights of freedom of speech or to peaceably assemble with others."

The procedures in both Chapters 14 and 17 describe the actions that the university may take in response to student misconduct; they define the conduct that is prohibited; and they outline the procedures that are to be used to resolve allegations of misconduct. The UWL student disciplinary procedures are identical to those in UWS 14 and UWS 17. These documents can be found in the UWL Student Handbook (<https://www.uwlax.edu/student-life/student-resources/student-handbook/>), also available in the Office of Student Life. It also includes UWS Chapter 18, "Conduct on University Lands," which describes prohibited behavior and parking regulations.

Student honor code

We, the students of UW-La Crosse, believe that academic honesty and integrity are fundamental to the mission of higher education. We, as students, are responsible for the honest completion and representation of our work and respect for others' academic endeavors. We, as students and responsible citizens of the City of La Crosse, will aim to uphold the integrity of the university throughout the La Crosse community. It is our individual responsibility as students to uphold these ethical standards and to respect the character of the individuals and the university.

Withdrawal Policies - Undergraduate

- Individual class withdrawal/drop policy (p. 46)
- Withdrawal from UWL policy (p. 47)
- Medical withdrawal policy (p. 47)
- Military duty withdrawal from UWL policy (p. 47)
- Short term military absence policy (p. 48)

Individual class withdrawal policy

Any student may withdraw from a class until two weeks beyond mid-term of a full semester class. All withdrawals from classes after the term's drop/add/change of schedule period are recorded with a "W" on the student's permanent academic record along with the official date of withdrawal. (See the university drop/add/change of schedule policy (p. 44) for details on the add/drop/change of schedule period.) Classes shorter than the full term length offered during a semester or

during an intersession have withdrawal time limits established on a basis prorated to withdrawal dates for a full semester class.

The student must obtain either the advisor's or the instructor's permission to withdraw after the drop/add/change of schedule period has ended. No student is permitted to withdraw from a class later than two weeks beyond mid-term of a semester for a full semester course. Only a grade of "F" or "I" may be recorded for any student who continues past this time period and fails to complete a class. See the withdrawal from UWL policy (p. 47) for exceptions.

Failure to follow the prescribed procedures and to observe the prescribed time limits for withdrawal from classes will result in the recording of failing grades in discontinued classes. If a student withdraws from a course taken as a "repeat," the original grade earned will remain in the overall grade point average calculation.

Withdrawal from UWL policy

Withdrawal from the university is a matter of major importance. Students considering withdrawal from school, should discuss the matter with an academic advisor, program director, and/or dean prior to initiating action. The official date of withdrawal from all classes will be recorded on the permanent academic record if the student withdraws after classes begin.

Contact the Student Life Office (<https://www.uwlax.edu/student-life/our-services/student-support/withdrawal/>) (608.785.8062; studentlife@uwlax.edu; 149 Graff Main Hall) to schedule an appointment and initiate a withdrawal. The Student Life Office provides a checklist which withdrawing students are expected to follow carefully. Withdrawal procedures must be fully completed before a withdrawal becomes official.

An official withdrawal entitles a student to a refund of fees when the withdrawal date falls within a refund period. The official date of withdrawal is the date the withdrawal form is received in the Records and Registration Office. A "W" (Withdrawal) will appear on the student's academic transcript if the withdrawal date falls after the drop/add/change of schedule period and prior to two weeks after mid-term of a given semester. A grade of "WP" or "WF" will appear if the withdrawal date falls more than two weeks after mid-term. A grade of "WF" will be averaged into the GPA. Withdrawal from the university is not allowed after the three-quarter point of the term. Students who withdraw after classes have begun will be charged a withdrawal fee (<https://www.uwlax.edu/cashiers/withdrawing-from-uwl/>).

An unofficial withdrawal will result in recording failing grades in discontinued courses and in encumbering of student records if the following obligations to the university have not been met: release from graduate assistantship obligations, if appropriate; returning books to textbook service and Murphy Library; returning other university supplies and/or equipment issued during preceding periods of regular enrollment; clearing a record through an exit interview in the Financial Aid Office, if applicable; and securing a final clearance in the Cashier's Office with respect to any refund(s) which may be due or obligations unfulfilled regarding university fees, housing or food service arrangements, or accounts, and relinquishing the student identification card.

In some cases, students may request an emergency medical withdrawal (p. 47) from the university.

Note: Pursuant to the regulations of Title IV of the Federal Higher Education Act of 1965, as amended, students who receive student financial aid and receive all F1-F14 grades (recorded as F's) will be subject to the federal Title IV Return of Funds Policy. These students

may be required to return funds to the student financial programs and may also be liable for repayments directly to UW-La Crosse.

Medical withdrawal policy

6. Policy Statement Bookmark Anchor

A medical withdrawal is granted in instances where a student is faced with a serious or unexpected condition that completely precludes the student from being able to function as a student and in which the regular university withdrawal process is not appropriate.

A request may be granted to students who experience a serious or unexpected physical or behavioral health condition; who may need to provide care to an immediate family member who is experiencing a serious or unexpected physical or behavioral health condition; or who have experienced the death of an immediate family member. In the case of pre-existing, recurring, or chronic health conditions, documentation must show that the recurrence or worsening of the condition(s) began after initiation of the term for which the withdrawal is requested. Approval will be granted on a case-by-case basis.

Whenever possible, requests for medical withdrawal should begin in the Student Life Office and occur during the term in which the medical condition arose. Students may apply for a retroactive medical withdrawal up to one year after the end of the term in question. The withdrawal request must be supported by a letter from a health care provider which describes the limitations on the student's continued participation in courses. In the case of death of an immediate family member, an obituary or other official record of death may be requested as documentation. When appropriate, Student Life will consult with the Student Health Center, the appropriate academic dean, the Dean of Graduate Studies and Extended Learning, the appropriate graduate program director, and all of the student's instructors. When the withdrawal is completed, the Records and Registration Office will notify instructors if a grade is required.

For courses in which the student has withdrawn, the permanent academic record will show no credits were earned. The last date of class attendance shall be considered the official withdrawal date to be used by the Records and Registration Office for recording academic record class drops and term withdrawals. The status of the student's grades at the time of the withdrawal will be posted. The record will show one of the following grades submitted by the instructor: "EP" (emergency withdrawal passing) or "EF" (emergency withdrawal failing). Such grades will not be included in the computation of the term or cumulative grade point average.

Any exception to the policies of the medical withdrawal must be appealed through the Student Life Office to the University's Committee on Academic Policies and Standards (p. 33) (CAPS) or Graduate Council (<http://catalog.uwlax.edu/graduate/academicpolicies/academiceligibility/#graduate-council>). A decision by CAPS or Graduate Council is final.

Military duty withdrawal from the university

Military duty withdrawal applies to those students who are ordered to active duty (i.e., active duty Reserve, National Guard), not to individuals who voluntarily enlist. A copy of the orders/activation papers must be submitted to Student Life, 149 Graff Main Hall. The staff in that office will provide assistance and guidance with the withdrawal process, which may occur at any time. Depending on when the withdrawal is effective, options are available for complete or partial withdrawal with grades

of "EP" and "EF" for accepting normal letter grades, or for "Incomplete" grades.

Refunds will be calculated based on dates and options selected. More information and procedures can be found in the university's full Military Duty Withdrawal Policy (<https://www.uwlax.edu/records/student-resources/veteran-students/#tm-military-duty-withdrawal-policy>).

Short term military absence policy

Military students and their immediate family members who are enrolled as students shall not be penalized for class absence due to unavoidable or legitimate required military obligations, or medical appointments at a VA facility, not to exceed 10% of instruction hours. Special permission may be granted by the instructor to exceed 10%. Students are responsible for notifying faculty members of such circumstances as far in advance as possible and for providing documentation (military orders or VA appointment letter) to the Veteran Educational Benefit Office to verify the reason for the absence. The faculty member is expected to provide reasonable accommodations or opportunities to make up exams or other course assignments that have an impact on the course grade. Students are not relieved from completing assignments or group work. For longer term absences that will exceed the 10% of instruction hours, students should be referred to the Military Withdrawal from the University Policy (<https://www.uwlax.edu/records/student-resources/veteran-students/#tm-military-duty-withdrawal-policy>).

More information and procedures can be found in the university's full Short Term Military Absence Policy (<https://www.uwlax.edu/records/student-resources/veteran-students/#tm-short-term-military-absence-policy>).

Cooperative Education and Internships

Internships help students integrate the classroom with practical experience through work related to their academic and occupational goals. These experiences, for which a student can receive credit, include working for regional, national, and international businesses, government agencies, and community and non-profit organizations.

To participate in the Cooperative Education and Internship Program, students must meet grade point average and course prerequisites. Students must be at their internship site during the academic term for which they are registered for internship credit. Thirty internship credits may be taken and recorded on the academic record; however, no more than 15 credits are applicable to a degree. Students should contact the Career Services Office (<https://www.uwlax.edu/aaccs/>) to learn more.

UWL's full internship policy (<https://www.uwlax.edu/records/academic-policies/#tab-50345>) is posted online.

See below for a list of UWL academic departments offering internship credit and the corresponding course, and see the Courses tab for the courses used in university-wide internships and off-campus cooperative internships. For more information, contact the specific department or Career Services (<https://www.uwlax.edu/aaccs/>), 1209 Centennial Hall, 608.785.8514.

This section does not apply to internships in teacher certification programs, health, exercise and sport science non-teaching programs, nutrition, recreation, or graduate programs.

Departmental internships

Click on the course for the course descriptions and possible prerequisites, which are also listed under the appropriate departmental and/or program section.

- Accounting - ACC 450 College of Business Administration Internship
- Anthropology - ANT 450 Internship in Anthropology
- Archaeology - ARC 450 Internship in Archaeology
- Art - ART 450 Internship in Art
- Biology - BIO 450 Internship in Biology
- Chemistry or Biochemistry - CHM 450 Internship in Chemistry or Biochemistry
- Communication Studies - CST 450 Internship in Communication Studies
- Economics - ECO 450 College of Business Administration Internship
- English - ENG 450 English Internship, ENG 452 Professional and Technical Writing Practicum
- Finance - FIN 250 Finance Internship, FIN 450 College of Business Administration Internship
- Geography/Environmental Science - GEO 450 Internship in Geography and Earth Science
- Global Cultures and Languages - FRE 450 National/International Intern Program/GER 450 National/International Intern Program/SPA 450 National/International Intern Program (listed separately under French, German, and Spanish)
- History - HIS 450 History Internship/Field Experience
- Information Systems - IS 250 Information Systems Internship, IS 451 CBA Management Information Systems Internship
- International Business - IB 450 International Business Internship
- Management - MGT 450 College of Business Administration Internship, MGT 452 College of Business Administration International Internship
- Marketing - MKT 450 Advanced Marketing Internship
- Microbiology - MIC 450 Internship in Microbiology
- Physics - PHY 450 Physics and Astronomy Internship
- Political Science - POL 450 Internship in Political Science, POL 451 Internship in Criminal Justice, PUB 450 Internship in Public Administration
- Psychology - PSY 450 Internship in Psychology
- Race, Gender, and Sexuality Studies - RGS 450 Internship in Race, Gender, and Sexuality Studies
- Sociology and Criminal Justice - SOC 450 Internship in Sociology, SOC 451 Internship in Criminal Justice
- Sustainability/Environmental Studies - ENV 450 Internship in Environmental Studies
- Teaching English to Speakers of Other Languages - TSL 450 TESOL National/International Internship Program
- Theatre and Dance - THA 450 Internship in Theatre Arts

Campus Organizations and Activities

A university education consists of more than what goes on in the classroom. A great deal of learning takes place through involvement in organizations, research, and community service. Students have an abundance of choices to develop leadership skills, form relationships, volunteer, make a difference, and have fun.

Campus resources include helpful information about UWL academic organizations along with some community resources. The **on-campus life** section has information on how students can get involved and make the most of their college experience.

Campus Resources

- Veterans Educational Benefits (p. 60)

Academic advising resources

Advisors are assigned to each student based on academic major. Advisor assignments can be found in the WINGS Student Center. Advisors may be consulted for major and career choices and concerns, course sequencing and selection, and a variety of other issues. Students should schedule a minimum of one conference per semester with their advisors. Frequently this is done when planning next semester's class schedule.

Other advising resources include the Academic Advising Center & Career Services Office, and the Counseling and Testing Center. The staff in these offices provide academic, career and personal counseling, and make referrals when appropriate. These resources, particularly the Academic Advising Center, are useful for students who have not declared an academic major or are uncertain about a major or career.

Another good resource for advising is the Academic Services Office for the student's assigned college/school. These offices are based in the college/school's offices and process change of major/minor forms and work with advisor changes. The Academic Services Directors of each college/school represent the Dean on all student academic issues and exceptions and are knowledgeable about university academic policies, academic procedures, and degree requirements. The directors resolve Advisement Report issues and verify the completion of all requirements for graduation.

The Advisement Report (AR) is an important advising tool and is available in the WINGS Student Center under "Academic Requirements." The AR identifies requirements that have been completed and those that remain. Using the AR is the best way to ensure that a student is taking the exact courses needed for graduation. Students thinking of changing their program of study may wonder how the change affects their progress. A student may set up and run a simulated or "What-If" Advisement Report based on alternate programs of study. This provides an opportunity to determine how one's courses fit into a different major and what requirements would need to be met. ARs are available in the student's online WINGS Student Center. Questions about how courses apply in the AR should be directed to the student's college/school Academic Services Director.

Academic Advising Center

1209 Centennial Hall
608.785.6950
advising@uwlax.edu

www.uwlax.edu/aaccs/ (<https://www.uwlax.edu/aaccs/>)

The University of Wisconsin-La Crosse Academic Advising Center is committed to providing all students proactive, developmental academic advising grounded in teaching and based on valuing a liberal arts education. Through this process, students develop the skills and self knowledge to be adaptable and reflective life-long learners. We seek to empower students to pursue the knowledge and experience necessary to make informed academic and career decisions congruent with their values and identity, leading to success at UWL and beyond.

Undeclared majors: Much of the center's work is focused on students who have not decided on an academic major. In addition to a staff of professional advisors, there are resources to assist with academic and career decision-making, including web-based assessments and other programs that can help students explore their interests, values, skills, potential majors and occupations. Staff members meet individually and in group advising sessions to assist students with their majors

and career choices, course registration, Advisement Reports, general education requirements and academic policies and procedures.

Declared majors: The Academic Advising Center staff supports the advising that is carried out by faculty and academic staff in the colleges, departments, and other academic units. While students who have declared their major/minor should meet every semester with their assigned advisor, they are also welcome to utilize the services of the Academic Advising Center.

Pre-Health Student Resource Center: The Pre-Health Student Resource Center (PHSRC) advises students in any pre-health track or students who are exploring health-related academic paths. Advisors in the PHSRC can help students explore, learn about recommended or required coursework for admission to health-related programs, and learn how to network and gain related experience.

The ACCESS Center

124 Wimberly Hall
608.785.6900
ACCESSCenter@uwlax.edu

www.uwlax.edu/access-center/ (<http://www.uwlax.edu/access-center/>)

The ACCESS Center provides services to students attending The University of Wisconsin-La Crosse who have a documented disability.

The ACCESS Center staff will meet with students and - based on documentation - determine appropriate academic accommodations to help you accomplish your academic goals and give you the support you need through graduation.

If you have a physical, sensory, psychological, or learning disability that is challenging you, get the support and assistance you deserve to help make the most of your education and campus life activities.

Campus safety and parking

Police Services
605 17th St. N.
608.789.9000
www.uwlax.edu/police/ (<http://www.uwlax.edu/police/>)

The University Police Department exists for the protection of people and property within and adjacent to the university community. The staff of certified (commissioned) police officers strives to provide a safe and secure campus environment. This is done through enforcement as well as engaging in activities with the Student Life Office and Residence Life Office to promote safety and responsible behavior. The officers are available 24 hours a day, seven days a week.

The Student Life Office provides the annual security report and crime statistics (<https://www.uwlax.edu/student-life/student-resources/annual-security-report/>).

Parking Services
605 17th St. N.
608.785.8061
parking@uwlax.edu

www.uwlax.edu/parking/ (<http://www.uwlax.edu/parking/>)

This unit is located in the Police Services building connected to the parking ramp. On campus parking is very limited. All parking permits are sold on a priority basis, depending on students' year in school. Resident parking lots are for students living on campus. Commuter parking lots are for off campus students, staff, and visitors. Daily and hourly parking

is available in the commuter lots via the pay stations or the Passport parking app. We utilize License Plate Recognition (LPR) technology so your license plate is your permit.

Career Services

1209 Centennial Hall
608.785.8514
career@uwlax.edu

www.uwlax.edu/aaccs/ (<https://www.uwlax.edu/aaccs/>)

The Career Services Office assists students in finding meaningful careers. We seek to empower students to pursue the knowledge and experience necessary to make informed academic and career decisions congruent with their values and identity, leading to success at UWL and beyond. The following services are available to assist in this process:

Career advising: Students can meet individually with a career advisor to discuss career exploration, job and internship search strategies, resume and cover letter writing, interviewing skills, and graduate school application process.

Networking events: Each year, Career Services coordinates several major career events that allow students to meet employers on an informal basis to discuss career options, internship positions, and employment opportunities.

Online services: From the Career Services' webpage, students can view and apply for regularly updated internships and jobs, sign up for on-campus interviews and upload resumes for employers to view online. The webpage also provides a complete schedule of Career Services sponsored career fairs, events and workshops, extensive "how to" information for resume writing, cover letter writing and interviewing, links to the top job websites and major employer websites, graduate and professional school information, links to career guidance information, and an annually updated report on employment information of recent UWL graduates.

On-campus interviewing: Employers from business, industry, government, and education visit the campus to interview students for employment opportunities.

Internship program: Internships help students integrate the classroom with practical experience through work related to their academic and occupational goals. These experiences, for which a student can receive credit, include working for regional, national, and international businesses, government agencies, and community organizations.

To gain academic credit for an internship, students must meet grade point average and course prerequisites. Students must be at their internship site during the academic term for which they are registered for academic credit. Thirty credits may be taken and recorded on the academic record; however no more than 15 credits are applicable to a degree. Students should contact the Career Services Office to learn more.

Departmental internships also are offered. See Cooperative Education and Internships (p. 49) for a list of the departments.

Center for Transformative Justice

1120 Centennial Hall
608.785.5094
transformative@uwlax.edu

www.uwlax.edu/center/transformativ-justice/ (<https://www.uwlax.edu/center/transformativ-justice/>)

Formed in 2005 as a project of Plan 2008, the Center for Transformative Justice enriches the campus community through explorative and restorative social justice education. We serve the campus by implementing critical frameworks to better understand the lived experiences of individuals, and their intersectional identities, to build a more equitable learning environment. Using the stories students share with us, we aim to provide programming and spaces that address inequities and barriers students experience.

Our values:

- **Integrity:** Investigate and address community issues that impact marginalized people to restore justice.
- **Connection:** Develop relationships that leverage empathy, compassion, and trust to participate in challenging conversations on equity, diversity, and inclusion.
- **Respect:** Learning to appreciate individuals for who they are, and the identities they hold, that make them valued members of our community.
- **Exploration:** Learning about other cultures and their experiences by engaging in new relationships, conversations, and activities that differ from our own.

A couple of our most recognized efforts include:

- Campus Thread
- Social justice programming
- Community building and support
- Bias response
- Campus climate research
- Reflection room

Child Center

Eagle Rec Center

608.785.8813

www.uwlax.edu/campus-child-center/ (<http://www.uwlax.edu/campus-child-center/>)

The Campus Child Center was established in 1985 and provides care for the children of University of Wisconsin-La Crosse students, staff, faculty, and alumni. The Center has built and maintained a reputation for providing quality care to the families they serve. For more information, visit the Campus Child Center (<http://www.uwlax.edu/campus-child-center/>).

Cooperative Program with Viterbo University

The University of Wisconsin-La Crosse and Viterbo University, also located in La Crosse, have an agreement for inter-institutional cooperation. The program is designed to enhance the educational opportunities for students of both institutions and to optimize the use of personnel, financial, and physical resources. Authorized students from each institution will be allowed to enroll in selected courses at the other institution.

Specific conditions:

1. Enrollment of any student in any course will be contingent upon the written permission of both institutions.

2. Students must be enrolled as full-time students at their home institution to be eligible for participation in the program.
3. Priority will be given to students from the home institution in courses where enrollments are limited.
4. Students will be allowed to carry a maximum of six credits at the sister institution.
5. Payment of general tuition and fees will be made at the institution at which the student is enrolled full-time.
6. Any special course fees, i.e. for laboratories, physical education, etc., will be paid at the institution at which the course is taken.
7. Only under special circumstances will students be allowed to enroll in courses at the sister institution that are available at the home institution. This will be determined on a case-by-case basis.
8. Summer and winter terms are excluded from the agreement.

If you are interested in participating in the program, contact the Cooperative Program Advisory Coordinator in the College of Science and Health, 105 Graff Main Hall.

Counseling & Testing Center

2106 Centennial Hall

608.785.8073

www.uwlax.edu/counseling/ (<http://www.uwlax.edu/counseling-testing/>)

The Counseling & Testing Center (CTC) offers a wide range of mental health support designed to help college students adjust to the university environment and cope with emotional and psychological difficulties. The CTC utilizes a brief, solution-focused and strengths-based counseling model founded in our staff's diverse theoretical orientations and disciplines. Therapy is focused on helping students resolve or effectively manage a specific problem or challenge, or to make a desired change. Professional staff consists of licensed mental health professionals including psychologists and professional counselors, as well as supervised professionals-in-training. Counseling services are funded by student segregated fees and are available to all currently enrolled students. Information shared in counseling sessions is confidential in accordance with Wisconsin Statutes.

To learn more about our services and concerns that we commonly treat, see our Scope of Service (<https://www.uwlax.edu/counseling-testing/about-us/>).

Our Testing Center upholds the Wisconsin Idea that education should influence people's lives beyond the boundaries of the classroom and administers testing programs to UWL Students and the La Crosse community. These include ACT, SAT, and UW Placement Tests. We have a computer testing center for ACTFL, CLEP, DSST, ETS, Kryterion, MAT, Measure Learning, NTN, PAN, Pearson, Prometric, and PSI. We are a member of the National College Testing Association and provide proctoring for correspondence and online courses, and those needing professional certification or licensure exams for employment. For more information on proctoring, visit the National College Testing Association (<https://www.ncta-testing.org/>).

Fostering Success for Independent Scholars

2131 Centennial Hall

608.785.8535

sss@uwlax.edu

www.uwlax.edu/student-support-services/fostering-success-for-independent-scholars/ (<https://www.uwlax.edu/student-support-services/fostering-success-for-independent-scholars/>)

Fostering Success for Independent Scholars is a collaboration between Student Support Services and the Financial Aid Office. It is funded by a University of Wisconsin System grant. The program is for students who lack the traditional family support afforded to most of their peers. Typically, students who qualify have multiple adverse childhood experiences including, but not limited to:

- Foster care
- Orphanhood
- Guardianship
- Unhoused or at risk of being unhoused (homeless)
- Neglect, abuse, and/or abandonment (FAFSA Dependency Override)

Fostering Success ensures students have the resources, support, and guidance necessary for their success. This program provides:

- Scholarship (\$500-700/year)
- Emergency funds
- Access to a wide variety of personal items & supplies (https://uwlax.sharepoint.com/:w:/s/StudentSupportService/EZoguRZ5WtFJsj04svE35S4BEra_dWjeQQwlOD6OeMS20w/?e=6J3DhS)
- Help in applying for assistance programs (https://uwlax.sharepoint.com/:w:/s/StudentSupportService/ETOnCR0_hZtOo7Uc_NviO3IBpSCT63geFcSrR20tmWMnA/?e=X5jKPx) like BadgerCare, FoodShare, Affordable Connectivity Program, etc.
- Logistical help with critical transportation needs (getting to/from work, campus, etc)
- Financial assistance to attend events related to academic, career, and personal development and cultural activities
- Help applying for and understanding student financial aid
- All basic student success services (advising, tutoring, programming, grant aid, peer mentoring, free printing, and more)

If a student believes they qualify for the Fostering Success for Independent Scholars program, they may apply here (<https://powerforms.docusign.net/b35be0a3-d722-4aef-b05a-a05f8efed377?env=na3-eu1&acct=c20133ee-cdfb-4642-9ccc-674890e137de>), or contact Student Support Services or the Financial Aid Office.

Information Technology Services (ITS)/ Help Desk

Information Technology Services

Wing Technology Center

www.uwlax.edu/its/ (<http://www.uwlax.edu/its/>)

Eagle Help Desk

103 Wing Technology Center

608.785.8774

helpdesk@uwlax.edu

www.uwlax.edu/its/Eagle-Help-Desk/ (<https://www.uwlax.edu/its/client-services-and-support/eagle-help-desk/>)

Information Technology Services (ITS) supports and enhances teaching, learning, research, and the student experience by providing technology-based services, innovative solutions, and responsive support to our students, faculty, staff, and the university community. Our services

include computer labs and classrooms, distance/online learning, video conferencing, lecture capture, Eagle Help Desk, network, and software services including Microsoft365. Students can access their academic information, tuition, and fees and register for classes online using WINGS. Many courses offer online resources through Canvas, the campus supported learning management system. Many of these resources are available on or off campus through a web browser. Computing and network information resources are widely used to support instruction, research, student services, and communication and to create a community of shared inquiry. Principles of responsible use, to which all users are bound, are included in the student (<https://www.uwlax.edu/its/knowledge-base/student-technology-guide/>) and staff (<https://www.uwlax.edu/its/knowledge-base/faculty-and-staff-technology-guide/>) handbooks.

ITS computing labs (<https://www.uwlax.edu/its/computer-classrooms-labs-and-technology/>) are located in Murphy Library. The labs have computers using Windows and Macintosh operating systems. A wide variety of application software including Microsoft Office is available. Pay-for-print laser printing is available in ITS computing rooms, and the Eagle Help Desk has more information about printing on campus (<https://www.uwlax.edu/its/client-services-and-support/pay-for-print/>).

The Eagle Help Desk provides free technical assistance. Assistance is available by phone, email, live chat, web, or on a walk-in basis. For self-help and more support resources, please visit the Help Desk (<https://www.uwlax.edu/its/client-services-and-support/eagle-help-desk/>).

The campus network reaches all buildings, including residence halls. Residence halls have individual network connections in each room; plus, a computer lab in each hall is available to residents. Wireless network connectivity is available in all academic buildings, residence halls, and many public areas on campus, both inside and outside, for students with mobile computers.

International Education & Engagement (IEE)

1140 Centennial Hall

608.785.8016

international@uwlax.edu

www.uwlax.edu/international-education/ (<http://www.uwlax.edu/international-education/>)

International Student & Scholar Services

International Education & Engagement (IEE) is dedicated to serving the internationalization efforts at the University of Wisconsin-La Crosse. International Student & Scholar Services (ISSS) serves UWL's international community by providing comprehensive services to international students and scholars through immigration advising; assisting departments to bring international researchers and scholars in collaborative projects on campus; and offering events and programs on campus that bridge understanding and linkages between the United States and international communities on campus and in the community.

Our professional ISSS advisers and coordinators are professionally trained to provide information about non-immigrant visa rules and regulations for students and scholars holding F and J visas. Our advisors and coordinators are also trained to provide counseling to international students and scholars about academic, personal, and cultural matters, as well as cross-cultural adjustment concerns. Our dedicated staff administers comprehensive guidance to international

students, beginning with new student orientation through advising on work opportunities upon graduation.

Education abroad & study away programs

IEE is UWL's comprehensive resource for education abroad/away opportunities worldwide and to other parts of the U.S. IEE offers a full range of advising and support services to students, including program selection, academic planning, financial planning, registration, credit, cultural adjustment, travel planning, and reentry.

Through our international university partnerships, faculty-led study abroad programs, and partnerships with study abroad/away program providers, UWL students have an opportunity to find a program that matches their academic, financial, and personal needs. UWL encourages students to study abroad/away to enrich their university experience and enhance career opportunities. Education abroad/away programs provide special opportunities for advanced study of all disciplines as well as programs that include service-learning, internship, or volunteer experiences.

Education abroad/away program categories

1. Exchange programs allow students to enroll directly at a foreign host university for a semester or year while allowing an international student from the host university to enroll at UWL. Exchange students enroll in university courses and participate as regular students at the host university. Students in these programs pay UWL resident tuition plus additional fees – exchange programs are a very affordable way to study abroad.
2. UWL is also a member of National Student Exchange (NSE), a member-based organization that allows students to study away at another U.S. or U.S. territory university and a few institutions in Canada. UWL students pay UWL tuition while studying in another part of the United States or Canada.
3. Direct-Enroll study abroad programs also allow students to enroll directly in courses at a foreign university. Students participating in a direct-enroll program pay host university discounted tuition/fees and UWL administrative fees.
4. Provider programs are study abroad companies that offer international programs for students. Their sites may be affiliated with a foreign university or designed as a study center exclusively for students. These programs offer comprehensive on-site support for students.
5. Faculty-led programs are short-term credit bearing programs (summer, winter intersession, or spring break) led by UWL faculty which allow students to focus on specific issues, themes, or world regions. Destinations vary each academic year.
6. Service learning programs are non-credit bearing experiences that offer students the opportunity to take part in a volunteer or service-learning project abroad.
7. International Undergraduate Research (<https://www.uwlax.edu/urc/>)

For more information about the many different programs available, please visit International Education & Engagement (<https://www.uwlax.edu/international-education/>).

Education abroad program academic requirements

Selection of the appropriate program for each student requires careful consideration of the academic, personal, and financial factors that determine a successful international experience. Group and individual advising sessions with the IEE advisers assist students in choosing an appropriate program. Applicants for education abroad programs are expected to have a good record of academic achievements. UWL

requires a minimum grade point average (GPA) of 2.50 for most programs and successful completion of one semester on campus. However, some programs may require a higher GPA and class standing in order to be eligible.

Academic credit for study abroad programs is subject to the approval of transfer by specific departments. Credits from study abroad are calculated in a separate transfer GPA and are averaged with the overall (cumulative) GPA to create a "combined" GPA. Programs offering UWL resident credit, such as faculty-led programs where courses are taught by UWL faculty, will be included in the overall (cumulative) GPA.

Students wishing to participate in non-UWL study abroad programs may do so pending review and approval by International Education & Engagement and their academic department.

Education abroad program cost and financial aid

The university makes every effort to provide academically sound exchange and study abroad/away programs at reasonable costs. Exchange program fees may be based on tuition, room, and board at UWL with some additional administrative fees. Direct-enroll study abroad program fees are set by the sponsoring institution. Provider programs have a set program price that includes tuition and fees. The cost of education abroad (<https://www.uwlax.edu/international-education/education-abroad/afford/>) is not included in the 12-18 credit tuition plateau rate (<https://www.uwlax.edu/cost/>). Any additional course enrollment in the same term as the education abroad enrollment will be charged the appropriate additional tuition/fee rates. Students may apply for financial aid to assist with the cost of the programs. Wisconsin residents may also be eligible for a need-based grant of up to \$2,000. Veterans' benefits may apply; however, students should check with the UWL Veteran Services Office to see which benefits are applicable. In addition to financial aid, International Education & Engagement has information on scholarship opportunities and grants that may be used to offset the cost of studying abroad.

La Crosse Exercise and Health Program (LEHP)

221 Mitchell Hall
608.785.8683

www.uwlax.edu/La-Crosse-Exercise-and-Health/ (<https://www.uwlax.edu/center/la-crosse-exercise-and-health/>)

The LEHP program, in conjunction with the La Crosse area medical profession, comprises two community service units, Adult Fitness and Cardiac Rehabilitation, as well as professional units in Research and Educational Services. Based on laboratory evaluations, individualized programs of diet and exercise are developed by UWL faculty and technicians in cooperation with area medical personnel. Graduate assistants and undergraduate fitness majors assist during exercise periods in the Mitchell Hall pool and field house or during individual testing sessions in the Human Performance Laboratory. The LEHP offers an opportunity for practical experience, particularly to students who major in exercise and sport science and health education. Both the graduate degree program in clinical exercise physiology and the undergraduate program in exercise and sport science-fitness emphasis enroll students who rely heavily on the LEHP units for their clinical work and supervision opportunities.

La Crosse Medical Health Science Consortium, Inc.

3065 Health Science Center
608.785.5150

www.lacrosseconsortium.org (<http://www.lacrosseconsortium.org/>)

The La Crosse Medical Health Science Consortium (LMHSC) is an alliance of UWL, Viterbo University, Western Technical College, Mayo Clinic Health System-Franciscan Healthcare, Gundersen Health System, the La Crosse County Health Department, and the School District of La Crosse. These medical and higher education partners formed the Consortium in 1993 to provide a means for working collaboratively to provide better healthcare, strengthen the healthcare workforce, and encourage strong health science research initiatives. The Consortium continues to work toward these goals through collaborative projects in population health improvement, nursing, clinical placements, cultural competency, and workforce issues. Its mission is to foster collaboration for healthier communities.

The Consortium is located in, and operates, the Health Science Center (HSC), which opened in 2000. The HSC was built with the support of the five founding partners, the State of Wisconsin, and generous private donations. It houses classrooms, teaching laboratories, research labs, faculty offices, and meeting rooms used by UWL, Western, and Gundersen. It is also home to the Student Health Center, which serves both UWL and Western students, and the Health Science Academy, a health professions partnership with the La Crosse School District.

Legal Aid Service

The Student Association annually contracts with local attorneys to help students who need legal advice. By contacting Student Life, 608.785.8062, you can make an appointment to see an attorney on campus. All information between attorney and student is kept confidential. It should be noted that legal service is limited to advice, not court appearances. For further information contact Student Life (<https://www.uwlax.edu/student-life/our-services/legalservices/overview/>), 149 Graff Main Hall, studentlife@uwlax.edu.

Murphy Library

Murphy Library is the campus center for academic inquiry. Located in the heart of campus, the library provides access to a vast and diverse collection of electronic and print resources; facilities designed to flexibly accommodate a variety of learning needs; and technologies that complement and enhance the acquisition, synthesis, and use of information. Murphy Library is rich in international and multicultural materials, supporting campus diversity and inclusivity by providing books, multimedia collections, and e-resources that represent a broad spectrum of groups, cultures, and viewpoints.

The library offers access to over 191,000 full-text journals, magazines, and newspapers available electronically, and over 300 scholarly databases on a vast array of subjects. Our growing collection of e-books currently numbers in the tens of thousands of volumes, all of which are available campus-wide, and in most cases, off-campus as well. All of these materials can be located using Search@UW (<https://www.uwlax.edu/murphylibrary/>), our integrated search system that brings together print materials, full-text electronic materials, and request forms into a single interface. Search@UW also allows users to find materials in local and regional catalogs along with resources for finding materials held in libraries worldwide. By cooperative agreement, students may use the libraries of Viterbo University, Western Technical College, the La Crosse Public Library, and area medical centers. A service called Resource Sharing allows UWL faculty, staff, and students access to millions of items throughout the University of Wisconsin System, and the Interlibrary Loan service provides access to additional materials from around the world.

The library building, itself, offers open, welcoming spaces for study and collaboration as well as quiet space, group study rooms, and a coffee café. The book and microform collections are complemented by map collections, the pre K-12 Curriculum Center, leisure reading materials, and a media area. Our multimedia collections consist of streaming video as well as physical audio-visual materials located on the main floor. The library is also a selective depository for state and federal government documents. In the library's Special Collections and Area Research Center, users can find university archives, rare books, oral history interviews, a large historic photographic collection, books on Wisconsin history, and a regional depository of manuscripts and public records from the Wisconsin Historical Society. Additionally, Murphy Library houses UWL's largest general computer access lab, plus has loanable laptops, digital video cameras, and other technology related equipment available for checkout.

Librarians can help students navigate the ever-evolving information landscape to find the quality information they need; teach students how to find relevant and appropriate information resources; and guide students how to best utilize the services of the entire library to achieve success in their academic pursuits. Librarians are available at the research assistance desk as well as by phone, email, chat, or via an individual research consultation appointment.

For more information, please visit Murphy Library (<http://www.uwlax.edu/murphylibrary/>).

Mississippi Valley Archaeology Center (MVAC)

Archaeology Center and Laboratories Building
608.785.8464
mvac@uwlax.edu

www.uwlax.edu/mvac/ (<https://www.uwlax.edu/mvac/>)

MVAC is an archaeological research, preservation and public education unit of the Department of Archaeology and Anthropology that conducts excavations, surveys, pre-collegiate education, and public programs. MVAC preserves sites and collections and works with archaeologists in the Archaeology/Anthropology Department to provide opportunities for student participation in archaeological research and pre-professional training and experience. The archaeology laboratory is a location for much course-related student research and contains space to curate artifacts recovered from field projects. Field studies are conducted regularly to learn about the prehistoric and early historic cultures of the upper Mississippi River Valley. The MVAC website contains much information on the archaeology of the upper Mississippi River and the public events and activities that MVAC sponsors.

Multicultural Student Services

1101 Centennial Hall
608.785.8225
omss@uwlax.edu

www.uwlax.edu/multicultural-student-services/ (<http://www.uwlax.edu/multicultural-student-services/>)

Multicultural Student Services uses a holistic development approach to academic excellence, leadership, and the personal/social development of African American, Indigenous/American Indian, Hispanic/Latinx, Asian American, Hmoob, biracial and multi-ethnic students at UW-La Crosse. #Multicultural Student Services advocates for the retention and graduation of multicultural students. Our mission is to foster a sense of belonging through connections, inclusion, and authenticity.

Multicultural Student Services believes in a holistic one-stop approach in developing students and creating access to pathways for academic success. We provide personal support through intentional advising/outreach and creating leadership opportunities, cultural programming, academic workshops, and mentorship. We value and advocate to support cultural awareness, identity development, and to foster connections and a greater sense of belonging. Our goal is for students to graduate from the university and prepare them to contribute to their communities and society at large.

Areas of service and outreach include: Academic Success Institute (summer bridge program); transfer student advisement, leadership development and advising for multicultural student organizations; academic and financial retention; student employment; peer tutoring; personal guidance and advocacy for students; cultural, educational, and social programming; and year-round pre-college mentoring and tutoring programs.

The Academic Success Institute (ASI)

ASI is a bridge program designed to help first year historically marginalized and systematically under-served students adjust to a rigorous college routine during the summer before the regular academic year begins. Between 15 and 20 students are enrolled for six weeks of intensive instruction in college level courses and related college experiences.

Students interested in attending the Academic Success Institute must have a need for academic support to successfully complete a college education and must also identify as being from one or more of the following groups:

1. First generation college student (neither parent earned a bachelor's degree);
2. Historically marginalized populations (African American, Native American, South-Asian American, and Latinx/Hispanic);
3. Socioeconomic status (Pell-eligible, eligible for free-reduced lunch, GEAR-UP, TRiO-Upward Bound, Talent Search, and Educational Opportunity Centers).

Submitting an application for admission to the University of Wisconsin-La Crosse is a requirement for participation. Students will also complete an ASI application and be interviewed prior to acceptance into the program. Applications for ASI are accepted until program capacity is reached (usually by April). For additional questions, please contact the Office of Multicultural Student Services, 1101 Centennial Hall, 608.785.8225.

New Student and Family Programs

2320 Student Union
608.785.8939
nsfp@uwlax.edu

www.uwlax.edu/new-student-and-family/ (<https://www.uwlax.edu/new-student-and-family/>)

New Student and Family Programs coordinates programs such as START, New Student Orientation, Welcome Week, Winter Week of Welcome, the Second Year Experience, and Family Weekend. It exists as a resource to assist in the transition of new students and their families by building partnerships through communication, programming, and resources. Please call, email, or drop-by to ask a question or to chat about your experience as a new student at UWL.

Planetarium

020 Cowley Hall
608.785.8669
www.uwlax.edu/planetarium/ (<http://www.uwlax.edu/planetarium/>)

The Planetarium has served the university, area schools, private groups, and the general public since 1966. Several thousand people attend presentations at the Planetarium each school year. Bright stars and major constellations are pointed out in the simulated sky for school groups, private groups, and public programs. Each of these programs also includes a multimedia presentation on various subjects in astronomy and space science. There are monthly public programs at 1:00 pm on Saturdays in October, November, December, February, March, and April. Album Encounters are multimedia light and laser shows set to rock music. They are at 8:00 pm on Fridays when classes are in session. For information on programs, see the UW-La Crosse Planetarium (<http://www.uwlax.edu/planetarium/>) or call 608.785.8669.

Records and Registration

117 Graff Main Hall
608.785.8951
records@uwlax.edu

www.uwlax.edu/records/ (<http://www.uwlax.edu/records/>)

Records/transcripts: Academic records are confidential between the student and the university. Students may request transcripts of their permanent academic records at any time, provided they are not financially encumbered to the university. Transcripts may be requested in person, online, or by writing to the Office of Records and Registration. Additional transcript information (<http://www.uwlax.edu/Records/Transcript-request-procedure/>) is available online. There is a fee for official transcripts. Transcripts will not be released without the student's authorizing signature. Under no circumstances will partial transcripts be issued.

Registration: The university has online registration via the WINGS Student Information System. Each student is assigned a registration time based on credits earned. The assigned time is listed on each student's WINGS Student Center. When planning a course schedule, students consult the online Schedule of Classes (<https://www.uwlax.edu/records/registration/>) for the current and next term(s). Complete instructions for registration (<http://www.uwlax.edu/Records/registration/>) and later schedule changes (<https://www.uwlax.edu/wings/>) (dropping/adding after the term has started) can be found on the Records and Registration website.

Registration for spring semester and winter intersession begins in November, summer registration begins in late March, and fall registration follows a week later. Students register at an assigned time or any time after that through the tenth day of classes unless enrollment limits have been met. Classes shorter than the traditional full semester length offered during a semester or during an intersession have drop/add schedules that reflect deadlines pro-rated from a full semester based on the length of the class. New first year students register in the summer at special registration sessions. Some departments require advising prior to registration. New students (including transfers) must pay a deposit before registration. Continuing students must not have any holds that block registration, including financial holds, on their account. The registration system will not permit a student to enroll in a class for which a prerequisite is not in progress at UWL or has not been completed. Registration is closed at the end of the second week

of classes in fall and spring semesters and pro-rated for winter and summer classes.

If the university's enrollment management plan will permit registering additional students, late registrants for a semester, summer session, or winter intersession will be accepted and enrolled under normal late registration policies and procedures.

Residence Life

Eagle Hall
608.785.8075
housing@uwlax.edu

www.uwlax.edu/reslife/ (<http://www.uwlax.edu/reslife/>)

The Office of Residence Life strives to create affirming and inclusive homes for our residents where all people can achieve academic and social success through experiential learning and building meaningful relationships.

Approximately one-third of the undergraduate students enrolled in the university reside in one of the ten residence halls with a total population of roughly 3,300. First-year students are required to live on campus and occupy two-thirds of the available beds on campus. Eight of the ten residence halls offer a traditional living experience with community bathrooms and shared lounges. Eagle Hall is a suite-style hall which houses a mix of primarily first-year and second-year students. Reuter Hall offers, mostly upper-class students, single bedrooms in a shared apartment. Visit our website for more information about each of the residence halls (<https://www.uwlax.edu/reslife/orl-resources/residence-halls/>) and the amenities they offer.

We have a team of experienced, professional staff who are directly involved in monitoring services, counseling, relationship-building, community development and accountability. Our team hosts a multitude of events, all centered around the goals of interpersonal, academic, and cultural growth. Students are encouraged to be actively involved in their living community.

Specific housing regulations are communicated to all students through our policies and procedures (<https://www.uwlax.edu/globalassets/offices-services/reslife/documents/policies-and-procedures.pdf>) and the student handbook, Eagle Eye (<https://www.uwlax.edu/student-life/student-resources/student-handbook/>). These regulations are consistent with the conduct code referred to in this catalog.

River Studies Center

105E Graff Main Hall
608.785.6970
sbdc@uwlax.edu

www.uwlax.edu/river-studies-center/ (<http://www.uwlax.edu/river-studies-center/>)

The River Studies Center, created in 1972, is a non-curricular unit established to focus on research and informational programs pertinent to the Upper Mississippi River and its related resources. During the past 45 years, the Center has expanded its research program to other aquatic resources, including rivers, streams, lakes, and wetlands across Wisconsin, the Upper Midwest, and the nation. The Center has extensive interdisciplinary collaborative partnerships with several state and federal agencies and with other universities, including the U.S.

Geological Survey, the Wisconsin Department of Natural Resources, the Minnesota Pollution Control Agency, the National Park Service, the University of Wisconsin-Madison, and the U.S. Environmental Protection Agency. The research of Center faculty addresses resource issues and environmental problems of pressing regional and national concern, such as environmental pollutants and contaminants that have caused widespread degradation of our aquatic resources. Faculty affiliated with the Center are highly competitive and successful in securing financial support for sustained aquatic environmental research. Scholarly investigations by the Center have provided research opportunities to nearly 100 graduate students and more than 250 undergraduates.

Small Business Development Center (SBDC)

120 Wimberly Hall
608.785.8782
www.uwlax.edu/sbdc/ (<http://www.uwlax.edu/sbdc/>)

The SBDC helps business owners start and grow their businesses through research, on-site programs, advising and educational programming. As one of Wisconsin's Small Business Development Centers, the SBDC taps statewide resources to help business managers solve business challenges. It provides businesses with information and guidance in starting, maintaining, and expanding a small business including innovative, high potential businesses. Funding from the Small Business Administration supports the counseling.

Case studies sometimes are conducted by advanced students under faculty supervision.

In partnership with UW-Extension, the SBDC provides non-credit continuing education programs for business people in a seven-county region. Topics include business plan development, marketing, sales, finance, human resources, and other small business concerns. The Supervisory Management Certificate Program provides practical training for both new and experienced managers. In addition, the SBDC provides speakers, programs, and trainers to individual firms and groups.

Some research, such as feasibility and impact studies, is conducted for area businesses. Local economic data is accessed through the SBDC website.

Student Health Center

1st Floor, Health Science Center
608.785.8558
shcnetworking@uwlax.edu

www.uwlax.edu/student-health-center/ (<http://www.uwlax.edu/student-health-center/>)

The Student Health Center is operated by Mayo Clinic Health System in La Crosse, and provides medical, nursing, and physical therapy services in the form of outpatient and same day care, as well as prevention of illness or injury. The staff consists of Board Certified physicians, certified nurse practitioners and physicians assistants, registered nurses, physical therapists who are also certified athletic trainers, physical therapy assistants, medical lab technologists, health information managers, and office staff. The Health Center staff members are experienced in working with the health care needs of college students and are dedicated to providing high quality care.

Services are available to students who are registered for credits each semester. The student health fee is automatically included in the student fee statement. There are user fees for services (<https://www.uwlax.edu/student-health-center/fees-costs/>) such as laboratory,

immunizations, minor procedures, and physical therapy. Select medications are also available for a small fee.

Students are not required to have insurance to receive care at the Health Center. Payment of student fees covers this cost. However, students are strongly encouraged to obtain supplemental hospital-accident insurance to cover such expenses as hospitalization, emergency services, specialist care, pharmacy, and ambulance transport. The student health fee does not cover these costs. If coverage is available through a family plan, students are urged to have the name of the insurance carrier and policy/subscriber numbers available on campus.

All information in a student's health record is entirely confidential and is not released without the student's written consent. Students may schedule an appointment to review their medical records.

Students can be seen at the Health Center by scheduled appointments and same day appointments by scheduling online or calling the clinic. Appointments are available weekdays when school is in session from 8 a.m. - 4 p.m. on Monday-Friday. Hours may be reduced during the summer term and winter intersession. A 24/7 Mayo Clinic Nurse Line (608.785.0904) is available for students for health related questions/concerns. Students who need emergency medical care when the Health Center is closed should go to the local emergency departments or walk-in clinics.

Student Life

149 Graff Main Hall
608.785.8062
studentlife@uwlax.edu

www.uwlax.edu/student-life/ (<http://www.uwlax.edu/student-life/>)

Student Life staff serve as advocates to promote the interest of students within the university. Their goal is to facilitate student success by maximizing the use of the services available and to intervene on students' behalf when requested and appropriate. Staff are prepared to address the following issues:

- advising and referral of students who experience personal crises
- investigation of student complaints (ombuds role)
- advocacy and advisement for returning adult students (non-traditional aged)

Student Life is also designated with the responsibility of enforcing the various conduct codes on campus, which can be found in the *Eagle Eye*. If you experience harassment, discrimination, assault (physical or sexual), or have questions regarding your rights and responsibilities, visit Student Life for confidential advice and guidance.

In addition, the staff provides mediation services to students who may experience interpersonal conflict(s) and are interested in working toward a resolution.

Student Life: Violence Prevention

149 Graff Main Hall
608.785.8062
www.uwlax.edu/violence-prevention/ (<http://www.uwlax.edu/violence-prevention/>)

UWL recognizes that violence in any form interferes with the work and learning taking place in our community. Often, someone who experiences a sexual assault, stalking, or violence or abuse in a relationship, may find that they have difficulty focusing on work or on their studies. Violence Prevention is here to assist with advocacy,

information, and support, so that you can make informed choices about the options available to you in these situations. Services are free, confidential, and available to all UWL students, faculty, and/or staff members.

In addition to advocacy, the Violence Prevention Specialist is available to provide education and training on campus. Contact us to learn more or to schedule a classroom presentation or training session.

Student Life: Wellness and Health Advocacy

149 Graff Main Hall
608.785.8977
wellness@uwlax.edu

www.uwlax.edu/wellness/ (<http://www.uwlax.edu/wellness/>)

The mission of Wellness and Health Advocacy is to provide the UWL campus community with culturally competent health education, health promotion programming, alcohol and other drug education/prevention, and community engagement. It is our goal to engage in partnerships across the campus community that support and empower students to make choices and create lifelong habits that promote health and well-being across all seven dimensions.

As each individual in the campus community is unique, with different goals, values, strengths, and experiences, so are their perceptions of and potentials for wellness. Wellness and Health Advocacy respects and values these differences and will provide tools, education, guidance, and support to cultivate an inclusive environment in which the potential for health flourishes for everyone.

Student Support Services

2131 Centennial Hall
608.785.8535
sss@uwlax.edu

www.uwlax.edu/student-support-services/ (<http://www.uwlax.edu/student-support-services/>)

Student Support Services (SSS) is a federally funded TRIO program that has been serving UWL students since 1978. Each year, the program provides free services to 350 students who meet federal eligibility requirements. To apply (<https://www.uwlax.edu/globalassets/offices-services/student-support-services/sss-getting-started.pdf>), a student must be a citizen or national of the United States, or meet the residency requirements for federal student financial assistance. A student must also meet one of the following criteria to be considered eligible for services:

1. First generation college student (neither parents nor guardians graduated from a four-year college or university); OR
2. Receive a substantial amount of financial aid and meet Department of Education guidelines for income eligibility; OR
3. Have a documented diagnosed physical and/or learning disability.

Services provided through the program include:

- Individualized success coaching, advising, and mentoring: students are assigned an SSS advisor and a peer mentor for help successfully navigating academic, personal, and financial issues, as well as help with career readiness and graduate school admissions. Students work with SSS staff to create individual success plans. Based on plans, staff connect students to the resources available that meet their unique needs.

- **Unlimited, free on-demand tutoring:** students have access to professional specialists and peer tutors in math, science, and writing. SSS will also arrange for individualized tutoring in subjects not currently staffed.
- **Grant aid awards:** students who are SSS participants and are Pell-eligible can apply to receive extra grant aid.
- **Student success, financial literacy, graduate school preparations, and career readiness programming:** programming is offered to SSS students to help with study skills improvement, financial literacy, career readiness, the study abroad process, applying for scholarships, graduate school, and so much more.

Tutoring Services

Murphy Learning Center
256 Murphy Library
mlc@uwlax.edu

www.uwlax.edu/murphy-learning-center/ (<http://www.uwlax.edu/murphy-learning-center/>)
www.uwlax.edu/tutoring/ (<http://www.uwlax.edu/tutoring/>)

The Murphy Learning Center

The Murphy Learning Center is a place where all UW-La Crosse students can receive free tutoring services in a variety of general education courses. The Murphy Learning Center is located in 256 and 273 Murphy Library and is staffed by peer tutors. Tutoring is available for Mathematics, Writing, Biology, Chemistry, Earth Science/Geography, Physics, Accountancy, Economics, Public Speaking, Philosophy, History and Psychology. Tutors can assist with homework, preparation for quizzes or tests, learning vocabulary, and special projects as well as gaining an understanding of the general concepts. Hours vary depending on the subject, therefore the tutoring schedule (<https://www.uwlax.edu/info/tutoring/>) is posted online. Visit the Murphy Learning Center (<http://www.uwlax.edu/murphy-learning-center/>) for more details.

Writing: The Writing Center is housed within the Murphy Learning Center. The center is open at no cost to all students who seek help with their writing in any class. Students may be referred to the center by their professors, but many students come to the center on their own. Students should make appointments to be tutored, but drop-ins are welcome if tutors are available. The Writing Center (<https://www.uwlax.edu/murphy-learning-center/subject/writing-center/>) staff assist students at any stage of the composing process: understanding an assignment, finding a topic, identifying an audience, developing materials, planning and organizing, writing a rough draft, and revising. The staff does not proofread student papers. Visit the Writing Center for more information.

Public Speaking: The Public Speaking Center (<https://www.uwlax.edu/murphy-learning-center/subject/public-speaking-center/#tab-welcome>), also housed within the Murphy Learning Center, provides support to students who need to make an oral presentation for any reason, including in-class assignments and off campus activities. The Public Speaking Center can help student with topic selection, preparation and presentation outlines, content development, delivery, presentational aids, managing speaking anxiety and increasing confidence in public speaking.

Undergraduate Research and Creativity Program

223 Graff Main Hall
608.785.8040

www.uwlax.edu/urc/ (<http://www.uwlax.edu/urc/>)

Highly motivated students can gain practical experience in their field of study at UWL by pursuing an undergraduate research/creativity project in close association with a faculty member of their choice. The undergraduate research experience is much like an apprenticeship and is most suitable for students interested in gaining additional experience in their area of discipline.

Course credit may be earned for such research or creative activity, and an undergraduate research project could serve as a basis for a departmental honors thesis. UWL faculty also may have paid summer positions available for student researchers. Because of the wide variety of possibilities for undergraduate research or creative experiences, students should speak directly with individual faculty members to determine the types of opportunities and specific projects available. In general, the procedure for carrying out an undergraduate research project involves four steps:

1. Selecting a topic of interest and developing an idea for a project.
2. Speak with faculty members about your interests and select one as a mentor to advise you in your research. Most faculty will have projects or research ideas that they would be happy to discuss with you. Be sure to understand the expectations and commitments required of you.
3. Plan the project, seek funding (whenever possible), and carry out the research/creative work.
4. Disseminate your results in the form of a presentation and/or written manuscript.

To assist students in their undergraduate scholarly activity, UWL has initiated the Undergraduate Research and Creativity Program, which makes funds available to student researchers on a competitive basis for their projects, hosts the annual Research & Creativity Symposium, and publishes the UWL Journal of Undergraduate Research. Students (with the help of their faculty mentors) may apply for funding every academic year; awards are made in the fall and spring. Project options are numerous. Proposals can be in your major or another discipline of interest, and could be multidisciplinary. Students may work independently or collaboratively on scholarly work completed in the U.S. or at an international location. Recipients are expected to complete their projects and present their work at the Research & Creativity Symposium one year after receipt of the award. It is advisable that interested students begin speaking and planning their work with faculty mentors as early in their academic career as possible. Visit Undergraduate Research and Creativity (<http://www.uwlax.edu/urc/>) for additional information and undergraduate research proposal guidelines.

UW Credit Union

First floor, Student Union
608.232.5000, Ext. #3100
www.uwcu.org (<https://www.uwcu.org/>)

Official campus provider of financial services to the UW-La Crosse community

Founded by University of Wisconsin faculty & staff over 90 years ago, UW Credit Union is a Wisconsin-based nonprofit on campus offering financial education, affordable loans and our exclusive Eagles debit card. Enjoy anytime, anywhere access with the UWCU mobile app and mobile wallet, surcharge-free campus ATMs, and a full-service branch located on the first floor of the Student Union next to the Eagle ID office. Hours: Monday - Friday, 9 a.m. to 5 p.m. Learn more at [uwcu.org](https://www.uwcu.org/) (<https://www.uwcu.org/>). Federally Insured by NCUA.

Veterans Educational Benefits

223 Graff Main Hall
608.785.8751
uwlveted@uwlax.edu

www.uwlax.edu/veteran-services/ (<http://www.uwlax.edu/veteran-services/>)

The Veteran Educational Benefits Office provides educational assistance to veterans, active duty military, National Guard and Reserve military, and military family members. Our office serves as a focal point for state and federal veteran education benefits, referral to campus and community resources, and awareness of veteran topics in order to promote academic success and support the academic and administrative activities of the University. For more information, visit Veterans Educational Benefits (<http://www.uwlax.edu/veteran-services/>).

Alumni & Friends Foundation

Cleary Alumni & Friends Center
www.uwlax.edu/foundation/about-us/alignment/ (<https://www.uwlax.edu/foundation/about-us/alignment/>)

New organization will continue to promote UWL!

For the past two years, leaders of both the UWL Foundation & UWL Alumni Association have been discussing "Optimizing Alignment" (teaming up, collaborating, joining forces) to form a new stronger operation to promote UWL. These two organizations have worked together the past 50-plus years, and we believe this new structure will help us serve our students, alumni, friends and UWL in the best way possible. Our alumni and friends deserve the absolute best, and we plan to deliver!

We have resources for you as a student, including:

- Scholarships (<https://www.uwlax.edu/scholarships/scholarships/foundation-scholarships/>) - many scholarships have been established over the years by alumni and special friends of the university in an effort to enhance students' experiences and make their education more affordable.
- Student Philanthropy Council - undergraduate volunteer organization promoting a culture of philanthropy at UWL
- Student Outreach Center - paid positions for students to contact alumni, parents, and friends by phone, email, and text to develop, build and strengthen their relationships with UWL while soliciting their financial support of the university

- Hosting Caps Off to Commencement - your one-stop shop for all of your commencement needs and hosted every semester at Cleary Alumni & Friends Center
- Connecting you with alumni in your field of study

Stay connected after you graduate - UWL Alumni & Friends Foundation provides services such as:

- Hosting networking events to bring fellow alumni together in your area
- Keeping you updated with campus news
- Planning reunions with your student organization, club, athletic team, or graduating class
- Honoring distinguished alumni and connecting award recipients with current students
- Creating opportunities for alumni and friends to give back with their time, talent, and treasure

We know you are only a student for a short time, but you will be an alum for a lifetime. Once you move-on from UWL, we hope you will come home and visit!

Departmental honors programs policy

Departmental honors programs are available in the Departments of Archaeology and Anthropology, Economics, English, Geography, Global Cultures and Languages, Mathematics, Microbiology, Philosophy, Physics, Political Science and Public Administration, Psychology, and Sociology.

Designed to provide opportunities for special in-depth research, reading and writing for majors in the departments listed above, department honors programs also emphasize independent and creative work with highly personalized student-teacher contact and discussion.

The minimum requirements for all departmental honors programs are:

1. **Admission:** junior standing, 12 credits in major, 3.25 cumulative grade point average in the major, recommendation of two faculty members from major department.
2. **Program:** completion of the regular major, one course in a seminar, independent study, research study, or other appropriate honors options within the major program of study.
3. **Evaluation:** a cumulative 3.50 grade point average at graduation in the major, distinguished performance on a paper or project (a project might be a ballet in the area of the arts, or a study of some aspect of local economic conditions in the area of business), and presentations of the paper or project to a colloquium of faculty and students in the major.

Honors programs may vary by department. See departmental listings underneath the colleges and schools.

Additionally, there are numerous student honor organizations. See the "Honor and Recognition Society" category in the online listing of recognized student organizations on MyOrgs (<https://uwlmorgs.campuslabs.com/engage/>).

Intercollegiate athletics

126 Mitchell Hall
608.785.8616
www.uwlathletics.com (<http://www.uwlathletics.com>)

The University of Wisconsin-La Crosse has a longstanding commitment to excellence in both the academic and physical development of its

students, as memorialized in the University's seal, which is emblazoned with the phrase "*mens corpusque*" ("mind and body"). The intercollegiate athletics program sponsors 21 sports competing as a member of the National Collegiate Athletic Association (NCAA) Division III, the National Collegiate Gymnastics Association (NCGA), and the Wisconsin Intercollegiate Athletic Conference (WIAC). UW-La Crosse's rich history in intercollegiate athletics is highlighted by 73 national championships, 432 conference championships, and thousands of All-American performers. Just as importantly, UW-La Crosse's student-athletes have set a high bar in the classroom, with a cumulative GPA that consistently ranks as the highest in the WIAC and, for 20 out of the last 21 years, has exceeded the GPA of UW-La Crosse's general student body. The nearly 600 student-athletes competing in UW-La Crosse's Athletics embody the program's mission: Building Champions. In Sport. In School. In Life.

UW-La Crosse Athletics is committed to equal opportunity for student-athletes and staff. The program offers 12 women's sports (basketball, cross country, golf, gymnastics, lacrosse, soccer, softball, swimming and diving, tennis, indoor and outdoor track and field, and volleyball) and nine men's sports (baseball, basketball, cross country, football, swimming and diving, tennis, indoor and outdoor track and field, and wrestling).

UWL Athletics is a member of the Division of Student Affairs and, as such, the director of athletics reports to the vice chancellor/dean of students. Two faculty athletics representatives provide academic oversight to the athletic program. In keeping with the campus commitment to shared governance, an Athletics Committee comprised of students, faculty, and staff monitors and advises the program on budgetary matters. A Student-Athlete Advisory Committee that includes representatives from every sport program meets regularly and consults with the program's leadership.

McNair Scholars Program

2101 Centennial Hall
608.785.6913

www.uwlax.edu/mcnair-scholars/ (<http://www.uwlax.edu/mcnair-scholars/>)

The Ronald E. McNair Post-Baccalaureate Achievement Program is federally funded by the United States Department of Education to provide eligible students with support and preparation for graduate school. McNair Scholars must either be low-income, first-generation college students **and/or** be members of a traditionally underrepresented group in their field (usually African American, Latina/Latino, Native American and/or Asian Pacific Islander). The program at UW La Crosse began in October 2009 and is housed in the Division of Diversity & Inclusion. The program considers students from all majors that would lead to a Ph.D. as the terminal degree.

Music activities

608.785.8409

www.uwlax.edu/music/ (<http://www.uwlax.edu/music/>)

The Department of Music welcomes all University students to participate in its performing organizations. Music ensembles function as part of the curriculum for our music majors and minors but non-music major students from all colleges and programs make up a large percentage of the participants in our ensembles. There are a variety of music ensembles available including: Orchestra, Wind Ensemble, Symphonic Band, Screaming Eagles Marching Band, Jazz Bands and combos, Concert Choir, Women's Chorus, Mannerchor, Chamber Choir, Vocal Jazz Choirs, Korean Percussion Ensemble, and various other chamber ensembles. The large ensembles regularly perform on tours within the state, nationally and internationally. Auditions are required for

admission and placement for some ensembles. Contact the Department of Music for details on audition dates, times, and repertoire. Also, for students who enjoy listening to music, the abundance of concerts presented by our ensembles throughout the academic year provide ample opportunities to attend a wide spectrum of musical events.

Recognized Student Organizations

For a current listing of over 200 UW-La Crosse Recognized Student Organizations, visit MyOrgs (<https://uwlmyorgs.campuslabs.com/engage/>).

Recreational sports

130 Recreational Eagle Center

608.785.5225

www.uwlax.edu/recsports/ (<http://www.uwlax.edu/recsports/>)

UWL students study hard, work hard, and play hard. Once you put down your books, check out what the Rec Sports Department has to offer. We have programs and facilities designed to help you stay active, meet new friends, and reduce your stress level. Programs include: intramural sports, sport clubs, group fitness classes, personal training, special events, Esports, Outdoor Connection gear rental, trips, and an indoor climbing wall.

The Recreational Eagle Center (REC) houses a climbing wall, 200-meter elevated track, two racquetball courts, six basketball courts, 10 volleyball courts, seven badminton courts, three multi-purpose rooms, a 15,000-sq. ft. fitness center, cardiovascular equipment, aerobics studio, conditioning room, locker rooms with showers, outdoor trips and rental program. The EZONE Esports & Gaming area opened Spring 2022 and offers gaming for both casual and competitive gamers on 24 high-end gaming PCs and on Xbox, PlayStation, Oculus VR, and Nintendo Switch gaming consoles. The space also includes a viewing area and a shout casting room for streaming on Twitch.

Rec Sports programs also operates out of Mitchell Hall and the Fieldhouse. Both house intramural sports games and sport club practices. Rec Sports programs include lap swimming in the Mitchell Hall pool.

Student Association and Student Government

2244 Student Union

608.785.8775

www.uwlax.edu/student-association/ (<http://www.uwlax.edu/student-association/>)

Chapter 36.09(5) of the Wisconsin State Statutes reads: "The students of each institution or campus shall have the right to organize themselves in a manner they determine and to select their representatives to participate in institutional governance." To exercise that right, the students have established the University of Wisconsin-La Crosse Student Association (UW-LSA) (<http://www.uwlax.edu/student-association/>). Each student enrolled at UWL is a member of the UW-LSA. The student government is divided into three branches: executive, legislative (Student Senate), and judicial. The executive and legislative branches are elected by the members of the UW-LSA each year. The judicial branch is appointed by the executive branch and approved by the legislative branch. The Student Association seeks to provide a student voice by advocating for student rights and responsibilities, fostering leadership, communicating student issues, and demonstrating respect for diversity in their actions.

Student-Faculty Committees

The Academic Initiatives Differential Allocation Committee (AIDAC) is responsible for the annual distribution of academic initiatives differential tuition money to programs which fall under one of four cornerstones: advising, research, internationalization and diversity. AIDAC is made up of students, faculty and staff members who must determine how to allocate the budget so as to be the best advocates of student money through program presentations and budget deliberations.

The Segregated University Fee Allocation Committee (SUFAC) recommends to the Student Senate the manner in which funds collected by the state for support of student activities are to be distributed among eligible organizations. The committee also allocates funds to eligible groups for equipment and supplies, reviews requests for the Sustainability Fund, and makes recommendations to the student senate.

The Legislative Affairs Committee is responsible for encouraging student participation in voting and other events and maintaining these by-laws of the various Student Senate committees.

The Organizations Committee is responsible for recommendations to the Student Senate for general policies concerning Recognized Student Organizations. The committee reviews new Recognized Student Organization requests, bylaw and name changes for existing Recognized Student Organizations, and grants for non-budgeted organizations. The committee is also responsible for choosing commencement speakers and reviews requests for graduation regalia applications.

The Student Services and Buildings Committee recommends policy concerning services provided to students with regard to the Student Union, Recreational Eagle Center, Health Center, Child Care Center, and Whitney Center. In addition, it is responsible for making recommendations to SUFAC for distribution of segregated fees for sport clubs, and student media.

The Marketing and Special Events Committee consists of up to four Student Senators as well as the Public Relations Director. The committee focuses on organizing and planning events sponsored by UWLSA. With the help of the Executive Cabinet, the committee also aids in facilitating creative discussion on the best way for the group to positively impact the experience of UWL students.

Student Governance Associations

Student governance extends beyond the UWL Student Association on campus. The Fraternity and Sorority Life Community is governed by The Panhellenic Council (<https://www.uwlax.edu/university-centers/orgs/fraternities-sororities/panhellenic-council/#tab-129442>) and the Interfraternity Council (<https://www.uwlax.edu/university-centers/orgs/fraternities-sororities/interfraternity-council/>).

University Centers (UC)

3200 Student Union
608.785.8888
www.uwlax.edu/university-centers/ (<http://www.uwlax.edu/university-centers/>)

University Centers is a financially self-sufficient part of the Division of Student Affairs, comprised of the Student Union and Whitney Center. The focus of the Student Union is on student involvement, development, leadership and services, while Whitney Center provides the main dining operations on campus. Our objective is to support the academic mission of the institution by providing a wide variety of engaging educational and cultural programs, while supporting students with a multitude of free or

affordable services and amenities (<https://www.uwlax.edu/university-centers/>).

- **University Reservations and Audio Visual Lighting Support (AVLS)** assists the university community by coordinating reservations, offering information for event planning, and serving as a liaison with university services. The Reservations Office offers equipment and assistance for events and meetings occurring in the Student Union. In addition, they can assist with reserving classrooms (when classes are not scheduled), fundraisers, and outdoor events. Event Support consists of experienced technicians and event planners who help Recognized Student Organizations develop and produce events of all sizes.
- The **Campus Activities Board (CAB)** is a student-run programming board that provides cultural, educational, and entertaining activities for the entire campus community. Events such as small and large concerts, comedians, craft nights, bingo, game nights, and special events are offered. CAB also provides free weekly movies in the Student Union Theater.
- **Dining Services** offers an assortment of different dining locations within the Student Union and Whitney Centers to meet the variety of needs and tastes of the campus community. Students may select from several contract dining plans, block meal plans, and cash/Campus Cash options. Students looking for a light snack or beverage between classes can visit the coffee shop located in Centennial Hall, which features a variety of sandwiches and pastries. Murphy's Mug in the library also serves a great cup of coffee, along with sandwiches and their signature cupcakes.
- The Eagle ID/Dining Plan Office (<https://www.uwlax.edu/university-centers/services/eagle-id/>) is located in the Student Union, Room 1131. Students can request information regarding their Eagle ID card, dining plans, or Campus Cash. It is also the place to have your Eagle ID card picture taken. Your Eagle ID may be used as an official ID document when voting in Wisconsin. Please be sure to sign the back of the card if intending to use it for this purpose. The ID card does not expire while the student is actively enrolled.
- Center for Organizations, Vision, & Engagement (The COVE) (<https://www.uwlax.edu/university-centers/orgs/cove/>) is the student organization suite located in 2200 Student Union. The COVE is a space for all student organizations to come together to share ideas, collaborate, and find resources specifically for student organizations. It physically houses: Campus Activities Board, COVE Graphics Garage, Leadership & Involvement Center, Green Fund, Fraternity and Sorority Life, designated Multicultural Student Organizations, the Pride Center, Student Association, and the Racquet Press. The "front porches" in each of the spaces are an extension of the organization's office space, giving students the opportunity to interact with others in a relaxed setting. Although some porches are open for any student to sit in, students are asked to respect these spaces and be mindful that organizations use this space for meetings and gatherings. Public computers and workspaces, two conference study rooms, as well as a variety of graphics supplies are also available for use within the COVE. The two student-staffed groups that operate out of the COVE are:
 - COVE Graphics Garage (<https://www.uwlax.edu/university-centers/orgs/cove-graphics/>) provides resources and opportunities not only for Recognized Student Organizations, but for all UWL students and staff. COVE Graphics Garage offers free graphic design services and low-cost printing and laminating for a variety of projects.
 - Leadership & Involvement Center offers a variety of leadership, involvement, and service opportunities for students, including support of the Ugetconnected (<https://uwlax.galaxydigital.com/>) volunteer portal and MyOrgs (<https://>

uwlmyorgs.campuslabs.com/engage/) student organization database. MyOrgs (<https://uwlmyorgs.campuslabs.com/engage/forms/>) provides resources regarding publicity guidelines, cash boxes, flyers & posters, fundraising registration forms, event funding assistance, trademark & licensing artwork approval form (t-shirt/apparel printing), and information on starting a Recognized Student Organization.

The COVE is also home to the Campus Food Pantry (<https://www.uwlax.edu/university-centers/orgs/campus-food-pantry/>), a free service provided to all faculty, staff, and students. Interested users should visit MyOrgs (<https://uwlmyorgs.campuslabs.com/engage/forms/>) to register for access to the pantry or complete the Campus Food Pantry Access Request (<https://uwlmyorgs.campuslabs.com/engage/submitter/form/collectsubmitteridentity/9ae7122c-1607-4b8f-b294-09b91705683e/>)online.

- **Ugetconnected** matches prospective volunteers with service opportunities that fit their interests, skills, and availability. Ugetconnected is a collaboration between Great Rivers United Way, University of Wisconsin-La Crosse, Viterbo University, Western Technical College, and more than 175 community agencies. Ugetconnected is a tool for UWL students to use and get involved in the community. It also produces a volunteer resume with room for site leaders to write references and recommend you for other volunteer opportunities. Service learning is a way to get involved in the La Crosse community. Login to the site (<https://uwlax.galaxydigital.com/user/login/>) with your net ID and password.
- The Fraternity and Sorority Life Community (FSL) (<https://www.uwlax.edu/university-centers/orgs/fraternities-sororities/welcome/>) The Fraternity and Sorority Life (FSL) community is rooted in the four pillars of: brotherhood/sisterhood, leadership, service, and academic excellence. These are the core, shared values that all of the social fraternities and sororities have in common. Members of the community engage in a variety of different areas of campus and community development including: partnering with our community philanthropic partner, The Children's Museum of La Crosse, individual philanthropic partnerships, participation in leadership conferences at the local and national level, community service and outreach endeavors, and academic development opportunities. The goal of the FSL community is to empower students to reach their fullest potential by living the values of their organization every day.
- **The Pride Center** The Pride Center provides education, advocacy, support, outreach, and resources to UW-La Crosse LGBTQIA+ students, faculty, staff, and their allies. We work collaboratively to improve the campus climate and to foster a sense of belonging for all LGBTQIA+ students, faculty, and staff.

University theatre

608.785.6701

Box Office: 608.785.8522

www.uwlax.edu/theatre-arts/ (<http://www.uwlax.edu/Theatre-Arts/>)

The Department of Theatre Arts produces a theatre season of seven shows in the 418-seat Toland Theatre and in the more intimate Frederick Theatre including musicals, dance performances, and a children's show. Additionally, Summer Stage, the summer theatre, produces a major musical each June-July. The theatre season is a thoughtful mix of contemporary plays, classics, musicals, and cutting edge new works. Tickets for all Toland Theatre productions may be purchased in

advance, either as season tickets or tickets for individual performances. Reservations are strongly recommended.

Any UWL student registered for at least three credits is eligible to audition and be cast in productions. The same applies to any student wanting to work backstage or in various capacities of the production team. Whether or not you are experienced in theatre, your participation is welcomed. Students work both with faculty and guest directors, designers, and choreographers on a wide variety of theatrical offerings. Opportunities to become involved are announced across campus, or you can contact the theatre department for more information.

Degree Requirements - Undergraduate

- Undergraduate program lengths (p. 64)
- Baccalaureate degree requirements (p. 64)
 - Second baccalaureate degree policy (p. 64)
 - Second major or minor policy (p. 64)
- Associate of Arts degree requirements (p. 64)
- B.A. or B.S. in general studies (p. 68)
- Special degrees (p. 69)

Undergraduate program lengths

The University of Wisconsin-La Crosse's baccalaureate degrees (Bachelor of Arts or Bachelor of Science) are typically four-year programs (120 credit minimum). The associate degree program (Associate of Arts) is typically a two-year program (60 credit minimum).

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Second baccalaureate degree policy

A graduate who has earned one baccalaureate degree at UWL and who subsequently becomes a candidate for a second baccalaureate degree must meet all core, professional, and major requirements for

the second degree and must earn at least 30 resident credits² beyond the first degree. Students with a previously earned baccalaureate degree from another regionally accredited institution must meet all core, professional, and major requirements for the second degree and must earn at least 30 resident credits beyond the first degree. Students wishing to use credits from their first degree to fulfill requirements of a second degree must obtain approval from the dean of the college in which they are enrolled. All general education requirements are satisfied by students who have completed the first baccalaureate degree. UW System policy requires that every student complete an ethnic studies course. If this was not done as part of the first degree, it must be fulfilled for the second degree.

Students cannot earn a second baccalaureate degree in the same major (different emphasis) as their first baccalaureate degree.

² Resident credit means credit registered for and earned through UWL.

Second major or minor policy

A graduate who has earned one baccalaureate degree at UWL, who wishes to complete the requirements for another major and/or minor, must meet all professional and major/minor requirements. A notation will be made on the student's transcript that an additional major/minor has been completed. Students with demonstrated evidence of a previously earned baccalaureate degree from another regionally accredited institution, who wish to complete the requirements for another major/minor at UWL, must enroll as a special non-degree student and fulfill all professional and major/minor requirements. If all required courses are earned in residence, a notation will be made on the student's transcript indicating an additional major/minor has been completed.

Associate of Arts degree requirements

Candidates for the Associate of Arts degree must complete the following:

1. Earn a total of 60 or more semester credits applicable to a bachelor's degree at UWL. At least 15 credits must be earned at UWL.
2. Achieve a 2.00 cumulative grade point average.
3. Students must earn a minimum of 42 credits of general education courses.
4. New students, and transfer students with 15 or fewer credits earned, must take a first-year seminar course (FYS 100) during one of their first two semesters at UWL.
5. Complete a minimum of 13 credits in general education skills courses. See "Skills" section below.
6. Complete a minimum of 26 credits of general education liberal studies courses. See "Liberal Studies" section below.
7. Complete one two-semester sequence of courses.
8. File an application for the associate degree with the Office of Records and Registration and pay the application fee.

First-Year Seminar

This course meets the UW System shared learning goal of "Individual, Social and Environmental Responsibility."

(Must be completed in the student's first two semesters at UWL.)

Code	Title	Credits
FYS 100	First-Year Seminar	3

Skills

Proficiency tests are available in skills courses. Contact appropriate department for information.

Literacy: Tools for skilled communication

All courses in this category meet the UW System shared learning goal of "Effective Communication."

(Six credits required)

Code	Title	Credits
ENG 110	College Writing	3
or ENG 112	College Writing AP (Advanced Placement)	
CST 110	Communicating Effectively	3

Students receiving a grade lower than a "C" in ENG 110 or ENG 112 and CST 110 must repeat the course.

Mathematical/logical systems and modern languages: Tools for structured analysis and communication

All courses in this category meet the UW System shared learning goal of "Critical and Creative Thinking Skills." The mathematics courses also meet the UW System shared learning goal of "Knowledge of the Natural World," and the language courses also meet the UW System shared learning goal of "Intercultural Knowledge and Competence."

(Minimum of seven credits required; minimum of four credits must be taken from the mathematics section below.)

Bachelor of Arts or Bachelor of Science in general studies

The General Studies Program allows students to complete a UWL Bachelor of Arts or Bachelor of Science degree through the College of Arts, Social Sciences, and Humanities (CASSH). It is designed for students who are advanced in their credits and in need of an efficient way to complete a bachelor's degree without a disciplinary focus. The

general studies major is only available to students who have been accepted to this program and is not recommended for most UWL students.

Admission

Eligibility to apply

Students can apply for admittance to the University of Wisconsin-La Crosse General Studies Program if they are:

- A current or former UWL student and
 - have earned at least 90 undergraduate credits accepted at UWL;
 - have never received a bachelor's or higher degree from any institution, including UWL;
 - are current UWL students with a declared major in any UWL school/college (CBA, CASSH, CSH, or SOE) or are former UWL students who left without completing a degree, and have not subsequently earned a bachelor's or higher degree at another institution. Former UWL students must complete and submit the UW System application as a reentry student.

Application process

A student from any UWL college/school interested in the General Studies Program must complete an application and correspond with the Academic Services Director (ASD) of the College of Arts, Social Sciences, & Humanities (CASSH), who will consult with the student's advisor, the ASD of the school/college of the student (if not CASSH), and may consult with other applicable unit(s). If the ASD denies the application, the student may appeal to the Dean of CASSH. The Dean's decision is final.

Candidates will be admitted for a Bachelor of Arts (B.A.) in general studies if their general education credits more appropriately align with the B.A. requirements of the college or a Bachelor of Science (B.S.) in general studies if their credits more appropriately align with the B.S. requirements of the college.

Requirements

To complete the General Studies Program, students

- must be admitted through the general studies application process as noted above;
- must complete all UWL requirements for a UWL bachelor's degree, including but not limited to:
 - general education requirements,
 - at least one ethnic studies (diversity) course,
 - at least 40 credits earned in 300/400-level courses. Transfer courses earned or transferred at the 300/400-level apply to this requirement.
 - 120 earned semester credits,
 - 2.0 minimum UWL cumulative GPA,
 - 2.0 minimum UWL GPA in major and/or minor,
 - at least 30 semester credits in residence at UWL,
 - the last 24 credits to be applied toward a degree must be earned as resident credits. Resident credit means credit registered for and earned through UWL. The CASSH academic dean may give permission for seniors to earn not more than the last ten credits at another institution.
- are encouraged to complete a minor or certificate if possible.

Students accepted into the program are exempt from college core requirements.

Re-entry into program

If a student in this program leaves UWL and re-enters under a new catalog year, they must be readmitted to the General Studies Program before they can finish it.

Special degrees

The awarding of a baccalaureate degree is the pinnacle of the undergraduate college experience. Occasionally events take place where the need to consider additional degree options arises in order to honor those who have provided exemplary service to the university or to extend sympathy and compassion to the families and friends of deceased students near completion of their degrees. UWL has policies for awarding honorary, extraordinary, and posthumous degrees in recognition of these exceptional situations.

See the special baccalaureate degrees full policy (http://catalog.uwlax.edu/undergraduate/degree/requirements/Special_Degree_Options_Policy.pdf) for UWL's specific procedures.

General Education Program

General education is the common educational experience for all undergraduates at UWL. It is uniquely concerned with the broad education of the whole person and plays a vital role in preparing students for life beyond the university.

The primary purpose of general education is to cultivate knowledge, skills, and dispositions essential for independent learning and thinking. As a result of general education, students will be more knowledgeable in a wide variety of subject matter areas; and also better able and more willing to ask significant questions, seek appropriate solutions to complex problems, make sound judgments and formulate rational beliefs.

To these ends, the goals of the General Education Program at UWL are to develop:

- Communication skills in reading, writing, speaking, and listening
- Skills in analytical, logical and critical thinking in various branches of knowledge accomplished in part by each student completing at least one mathematics course
- Oral and written communications skills in a second language for students who elect to do so
- Knowledge of the development and interaction of human cultures
- Understanding of concepts, ideas, and systems of thought that underlie human activities
- Understanding of and sensitivity to cultural diversity in the United States
- Understanding of the social, political, and economic frameworks of societies within the global context
- Understanding and appreciation of the arts
- Understanding of nature, including the role of science and technology in environmental and social change
- Knowledge and skills essential to physical well-being and a healthy lifestyle

The UW-La Crosse General Education Program consists of three major components: First-Year Seminar, Skills, and Liberal Studies. The First-Year Seminar introduces first-year students to the concept of a liberal arts education and teaches strategies for achieving success in college. Skills courses improve students' abilities to learn, think, and communicate effectively. Liberal studies courses engage students in the study of important areas of knowledge and experience and focus on central questions, issues, and problems we share as people and as members of the same society.

General Education Committee

The General Education Committee is responsible for coordination, review, and assessment of the general education curriculum. Membership of the committee consists of nine faculty, with proportional representation from the colleges and one student. The provost, registrar, and deans of each college serve as administrative consultants.

Outcomes

The **Student Learning Outcomes** for the UW-La Crosse General Education Program were approved by the Faculty Senate in May 2014.

Students will demonstrate knowledge and abilities related to:

1. Human cultures and the natural world;
2. Critical and creative thinking;

3. Aesthetic perspectives and meaning;
4. Effective communication;
5. Interaction in intercultural contexts;
6. Individual, social, and environmental responsibility.

Requirements

General education requirements

1. Students must earn a minimum of 42 credits of general education courses.
2. Students must earn the minimum credits within each category.
3. New students, and transfer students with 15 or fewer credits earned, must take a first-year seminar course (FYS 100) during one of their first two semesters at UWL.
4. All students must complete the literacy requirements (ENG 110 or ENG 112, and CST 110) and a general education mathematics course prior to earning 60 university credits.

First-Year Seminar (GE 00)

(Must be completed in the student's first two semesters at UWL.)

Introductory college seminars are proven to have a high impact on first-year students by introducing them to the concept of a liberal arts education and teaching strategies for achieving success in college. This course focuses on a thought-provoking topic and allows students to work closely with the instructor and other students to explore college-level inquiry. The course also includes lessons designed to support the academic transition to college, including topics such as study skills, career planning, and leadership and involvement.

Code	Title	Credits
FYS 100	First-Year Seminar	3

Skills

Fundamental skills are those central to learning, analyzing, evaluating, integrating, and communicating information and knowledge. These skills are essential in all fields of study and their development should be enhanced and refined throughout the college years.

(Proficiency tests are available in "Skills" courses. Contact appropriate department for information.)

Literacy: tools for skilled communication (GE 01)

(Must be completed prior to earning 60 credits.)

Reading, writing, speaking, and listening are the tools by which a person becomes educated. General education skills courses improve students' abilities to read, write, speak, and listen with clarity, precision, and depth of understanding. Courses in this area include composition and oral communication. In addition, the program includes writing emphasis courses which enhance students' abilities to communicate and learn through writing.

Code	Title	Credits
CST 110	Communicating Effectively	3
ENG 110 or ENG 112	College Writing College Writing AP (Advanced Placement)	3

Students receiving less than a grade of "C" in CST 110, ENG 110 or ENG 112 must repeat the course.

Writing emphasis courses (two courses required)

All students must either complete two writing emphasis courses or complete a major that has a writing-in-the-major program. If completing two courses, they must be at the 200 level or above, one of which must be at the 300 level or above. One course must be in the major (not college core). See the class timetable (<http://www.uwlax.edu/Records/Registration-Tips-and-Tricks/>) for information on offerings each semester.

The following departments/majors have writing-in-the-major programs: archaeology, archaeology cultural anthropology emphasis, art, biology, biochemistry, chemistry, clinical lab science (including the dual degree in clinical lab science/clinical microbiology), communication studies, computer engineering, computer science, economics, educational studies, English: literary and cultural studies emphasis, English: medical professions emphasis, English: writing and rhetoric emphasis, exercise and sport science, global cultures and languages, mathematics, microbiology, music, occupational therapy, physics, political science/public administration, psychology, public health and community health education, radiologic science: radiation therapy emphasis, recreation management/therapeutic recreation, sociology, STEP majors (biology: science education, chemistry: science education, physics: science education, mathematics education, English education, broadfield social studies education, broadfield social studies education: history concentration, broadfield social studies education: political science concentration, and broadfield social studies education: sociology concentration), and theatre arts. They incorporate writing requirements across their curriculum rather than identifying specific classes as writing emphasis classes. Students with majors in these departments will fulfill their writing emphasis requirement by completing that major. Transfer students who transfer courses from another institution that are applicable to the major should consult the department about fulfillment of the writing emphasis requirement.

The following majors are exempt from the writing-in-the-major requirement: radiologic science: diagnostic medical sonography with echocardiography/vascular emphasis, radiologic science: diagnostic medical sonography with general/vascular emphasis, and radiologic science: radiologic technology emphasis. Students in these majors are exempt from the General Education Program's writing emphasis requirements and will instead be expected to meet the writing requirements from the accredited off-campus curriculum.

Writing emphasis courses do not count toward the 42 credit general education requirement unless identified in one of the general education categories.

Mathematical/Logical systems and modern languages: tools for structured analysis and communication (GE 02)

(At least one math course must be completed prior to earning 60 credits.)

General education enhances students' abilities to think, reason, and solve problems with precision and clarity. Study in this area helps students to understand that words and symbols can have exact definitions and usage, that analyses of some problems require strict use of structured rules, and that discoveries, results, and ideas must be communicated clearly to others who may be unfamiliar with such rules or language. This area of study emphasizes the skilled use of symbols or language to analyze, evaluate, or communicate more effectively.

Minimum of seven credits required, which must include at least one math course. Non-native speakers of English may use one math course and an acceptable score on a test of English proficiency/placement

exam to meet the mathematical/logical systems and modern languages requirement.¹

PHL 101	Introduction to Logic	3

¹ Non-native speakers of English may satisfy the Languages and Other Logical Systems requirement by providing English proficiency evidence acceptable for admission to UWL as a degree seeking student. These exams do NOT provide college credit but will suffice to satisfy the Languages and Other Logical Systems requirement above. Students utilizing the exam option will still need to complete a minimum of 42 credits applicable to the general education program. Non-native speakers of English may also satisfy the modern language option (Languages and Other Logical Systems) by completing English as a Second Language (ESL) courses, ESL 252 or ESL 253 and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to achieve this general education outcome with English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses.

Non-native speakers should NOT enroll in a 101, 102, 201, or 202 level course taught in their native language.

Liberal Studies

The "Liberal Studies" component of general education engages students in the study of major areas of knowledge and experience. Liberal studies courses afford opportunities for students to evaluate critically their heritage and see beyond the boundaries of their culture, to think scientifically in both the natural and social spheres, to explore texts thoroughly and imaginatively, to respond sensitively to the expressive arts, and to plan a life which makes the best possible use of work and leisure time. The thematic categories and inquiry-based teaching and learning in liberal studies courses help students to see connections among fields of knowledge and to understand different perspectives and ways of thinking about important questions.

Minority cultures or multiracial women's studies (GE 03)

An essential goal of general education is to improve students' understanding of and sensitivity to cultural diversity in the United States. All students take at least one course that focuses on minority cultures in the United States or women in the United States from a multiracial perspective. All courses in this category fulfill the UW System ethnic studies (ES) requirement.

Minimum of three credits required.

International and multicultural studies: becoming world citizens (GE 04)

Knowledge about the variety of human experience is an integral part of liberal education. Moreover, the international dimensions of politics, commerce, economics, and culture touch our lives every day. We live in an interdependent world in which understanding of other cultures and societies is essential. These general education courses include world history and global studies courses that focus on the peoples, cultures, and societies of the world. Some courses in this category fulfill the UW System ethnic studies (ES) requirement.

Minimum of six credits required.

Science: understanding the natural world (GE 05)

As the health and prosperity of our society becomes more dependent on science and technology, our future becomes increasingly dependent upon a scientifically literate population. Individuals in our society must be sufficiently knowledgeable about scientific facts and applications to make skilled decisions concerning their use in addressing society's problems. Courses in this area include the study of basic scientific knowledge, the role of applied science and technology as agents of change in society, and a laboratory component to develop an understanding of scientific inquiry.

Minimum of four credits required; one course must be a natural laboratory science from below.

Self and society: understanding oneself and the social world (GE 06)

Each person, although unique, lives in a social world that exerts profound influence upon his or her attitudes, values, and behavior. It is important to gain a sound understanding of oneself in relation to others and an understanding of the social institutions that people create and which serve to influence our lives. Courses in this area focus on the study of human behavior and social institutions.

Minimum of three credits required.

Humanistic studies: the search for values and meaning (GE 07)

Academic study of the humanities involves the study of language as a medium for recording human experience and the major forms of such records: philosophical, historical, and literary. Students have the opportunity to test specialized knowledge and personal experience of humanity. These courses focus on what it means to be human, and what was, is, and should be valued by human beings.

Minimum of three credits required.

Health and physical well-being: learning to create healthy lives (GE 09)

The miracles of modern medicine exist side by side with many kinds of limiting physical conditions such as heart disease and obesity. Many health problems could be prevented or ameliorated by alterations in the ways that people live. The courses in this area focus on knowledge and skills necessary for the appreciation and enhancement of a healthful lifestyle. They emphasize health and physical well-being throughout the life span and explore major health issues, physical fitness, and effective use of leisure.

Minimum of three credits required.

www.uwlax.edu/cassh (<http://www.uwlax.edu/CASSH/>)

The College of Arts, Social Sciences, and Humanities (CASSH) includes departments and programs in the humanities, social sciences, and interdisciplinary studies, as well as the artistic disciplines within School of Visual and Performing Arts (VPA) (<http://www.uwlax.edu/vpa/>). CASSH continues the established liberal arts tradition of providing pathways leading to the Bachelor of Arts or the Bachelor of Science degree.

CASSH—as the key to global citizenship—is dedicated to providing quality instruction and learning experiences which prepare students for careers, future education, and meaningful, responsible lives by fostering a climate of intellectual curiosity and creativity. Graduates of the college will develop the skills for professional and personal success, including the ability to communicate effectively, think critically, conduct sound research, understand global issues, use knowledge in all aspects of life, participate meaningfully as citizens, and discover and apply worthwhile values.

CASSH faculty and staff are committed to maintaining academic integrity and high ethical standards. CASSH, through its faculty, students, and curricula, is also dedicated to advancing diversity and inclusion. Furthermore, by developing partnerships outside the university and by encouraging professional connections, the college establishes its membership in the broader community.

The academic community within the College of Arts, Social Sciences, and Humanities supports a strong general education program, nurtures exceptional disciplinary programs, and creates innovative interdisciplinary and international programs, which together promote lifelong personal and professional learning.

Advising

All students in the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts who have declared majors are assigned to faculty advisors. Advisors provide guidance and assistance to develop plans for post-college experiences. Students and their advisors are provided with Advisement Reports (AR) that assist them in monitoring progress toward meeting degree requirements. Degrees are verified in the dean's office. Students are encouraged to come to the dean's academic services office to review progress toward the degree during their junior year.

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general

education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must

be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

CASSH/VPA assurance of progress to degree after 60 credits policy

The College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts is committed to student success and completion of a baccalaureate degree in a timely manner. Students must have a declared academic major^{1,2} after the completion of 60 credits. Students who do not meet this requirement will (1) have an advising hold placed on their registration for the next semester; (2) be required to make an appointment with the Academic Services Director in the College of Arts, Social Sciences, and Humanities Dean's Office to discuss plans for degree completion and to request removal of the advising hold.

¹ Undeclared is not an academic major.

² Pre-professional tracks are not academic majors.

Graduation/degree requirements

A student in the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts may earn either the Bachelor of Arts (B.A.) or the Bachelor of Science (B.S.) degree. The type of degree earned by a student (B.A. or B.S.) may be determined by the major programs elected by the student. All general university degree requirements must be met: a minimum of 120 credits (40 of which must be 300/400-level courses), general education program requirements, college core requirements, and major program requirements.

Joint institution programs

International joint program in English: The College of Arts, Social Sciences, & Humanities administers a joint degree program with Guangxi Normal University (GXNU), China and South Central University of Nationalities (SCUN), China. Chinese students at GXNU or SCUN may enroll in this program to receive degrees from both institutions. Successful completion of the requirements set by this program results in the conferring of the Bachelor's degree in English by the authorities of GXNU or SCUN and the conferring of the Bachelor of Arts degree with a major in English (emphasis in writing and rhetoric) by UW-La Crosse.

Articulation agreements between Western Technical College and UW-La Crosse facilitate the transfer of credit between the two institutions. There is a clear and direct path to the Psychology program, with additional majors to be added in the near future.

Contact the UWL Admissions Office (<https://www.uwlax.edu/admissions/>) for more specific information on these joint programs. Students who earned an associate degree from another UW System institution are exempt from UWL's general education requirements, although students must still meet all other UWL degree, college, and major requirements.

Arts, Social Sciences, & Humanities (CASSH)

www.uwlax.edu/cassh/ (<http://www.uwlax.edu/cassh/>)

Programs in humanities, social sciences, and interdisciplinary studies

At the heart of the College of Arts, Social Sciences, & Humanities are the departments which teach the humanities and social sciences. These departments have traditionally represented the cornerstone disciplines of a university. They offer essential experiences that prepare students for lifelong learning. Courses in the humanities and social sciences introduce students to cultural, ethnic, and racial diversity; international dimensions of politics, economics, language, and culture; social institutions and social interactions; theories and applications of human behavior; and the great writing that develops and explores these realms of knowledge.

All students at UWL take courses in the humanities and social sciences even though they may not major in one of these programs. Many of the skills courses and liberal arts courses of the general education program are offered by departments in the humanities and social sciences. The skills that are built are those that enable students to proceed with effective and efficient learning.

Courses in the humanities and social sciences provide individuals with solid reading and writing abilities, an understanding of cultural diversity, critical thinking and problem-solving skills, the ability to integrate and synthesize ideas, and a sense of personal responsibility. Courses in these disciplines help individuals learn from the past, explore the present, and adapt to the future. The liberal studies program is designed to be an enriching experience that produces a well-rounded individual.

The humanities are taught in the Departments of English, Global Cultures & Languages, History, and Philosophy. The social sciences are taught in the Departments of Archaeology & Anthropology, Communication Studies, Political Science & Public Administration, Psychology, and Sociology & Criminal Justice. The College of Arts, Social Sciences, & Humanities also offers interdisciplinary opportunities in the Departments of Military Science (ROTC) and Race, Gender, & Sexuality Studies, as well as in child/youth care, criminal justice, digital media and design, sustainability & environmental studies, international & global studies, leadership development, legal studies, neuroscience, and social justice. Interdisciplinary studies combine courses from various humanities, social science, and arts disciplines.

Visual & Performing Arts (VPA)

School of Visual and Performing Arts
Director - Peter Rydberg
138 Wimberly Hall

www.uwlax.edu/vpa/ (<http://www.uwlax.edu/vpa/>)

Programs in visual and performing arts

The School of Visual & Performing Arts (VPA) is comprised of the Departments of Art, Music, and Theatre & Dance. As a collective, the school is dedicated to supporting and enhancing the liberal arts. Programs in the School of Visual & Performing Arts strive to develop the knowledge, freedom of expression, research skills, and spontaneity which underlie creative and intellectual expression in its highest forms. Classes focus on establishing the foundations for creative work and scholarship through the study of technical, historical, and artistic dimensions in the visual and performing arts. Across the school, students are involved in applied and experiential learning, so they spend much of their time in studios and rehearsals developing the skills, processes, and attitudes necessary for professional and personal success. Students in these programs specialize in a particular visual

or performing arts discipline. Upon completion of their program, they have a wide range of occupational and educational choices. Some graduates begin careers in the fine or performing arts. Others enter graduate schools and others choose from a wide range of occupations where their creative skills serve them well. Whatever the career and whatever the future, graduates of the School of Visual & Performing Arts are flexible, adaptable, and disciplined communicators who understand process, problem solving, and professional commitment.

The School of Visual & Performing Arts is housed within the College of Arts, Social Sciences, & Humanities.

Departmental mission

The Department of Archaeology and Anthropology at the University of Wisconsin-La Crosse (UWL) is one of the most unique and high-profile departments in the College of Arts, Social Sciences, and Humanities (CASSH). We offer major programs of study in archaeological studies and cultural anthropology and minors in archaeology and anthropology. The central mission of the Department of Archaeology and Anthropology is to provide the highest quality academic programs in service to our majors and minors as well as to the students that take our courses as electives and to students enrolled in our many general education offerings. Beyond this, the Archaeology and Anthropology Department embraces its further obligation to conduct scholarship that serves the needs of our associated communities (both locally and abroad) within the realm of our professional expertise and the availability of our resources.

Additionally, since much of our teaching and research is international in scope, we are dedicated to contributing to the broader university effort to internationalize curriculum, providing students with skills that will help them succeed in an increasingly interconnected world. Specifically, we strive to increase awareness, content knowledge, and empathetic understanding of the complex ways individuals interact with global systems and institutions. In addition to delivering high quality internationalized curriculum on campus, we provide UWL students with innovative and rich international programs abroad which allow them experiential opportunities for global engagement.

Archaeology and anthropology courses align with the mission of liberal studies as part of the university's General Education Program, and our curriculum provides a strong foundation for our major in archaeological studies, our cultural anthropology emphasis, and our minors in anthropology and archaeology. Our faculty also contribute their expertise in courses that serve other programs in need of a more in-depth cross-cultural comparison of human diversity around the globe, of both past and present-day societies. Thus, our curriculum serves to advance the Eagle Advantage core competencies which reflect what national employers identify as critical to success in the workforce:

1. Adaptability in an ever-changing world;
2. Collaboration and leadership;
3. Effective communication;

4. Critical thinking;
5. Digital and technological literacy;
6. Embracing diversity, equity, and inclusion;
7. Accountability; and
8. Personal and career development.

Our academic programs support student success by delivering on these competencies, and we strive to provide an educational experience that provides the foundation for students to become responsible global citizens.

The primary objective of the **archaeological studies major** as an academic program is to provide a sound and broad multi-disciplinary background for students seeking a liberal arts/humanities degree; to provide academic and professional preparation for students planning to enter graduate school in archaeology; to provide professional training for students planning careers in archaeology directly after graduation; and to provide elective and service courses for other majors. The **cultural anthropology emphasis major** is designed to provide a sound and broad multi-disciplinary background for students seeking a liberal arts/humanities degree; to provide academic and professional preparation for students planning to enter graduate school in anthropology; to provide professional training for students planning careers in anthropology directly after graduation; and to provide elective and service courses for other majors. The **anthropology minor** provides a strong four-field anthropological background for students in all areas of the liberal arts and sciences. Finally, the **archaeological studies minor** provides a solid grounding in anthropological archaeology for students in all areas of the liberal arts and sciences. These academic programs are discussed in more detail below.

Majors

Archaeology: The archaeological studies major at UWL is among the top comprehensive undergraduate programs in archaeology in the United States and the only one in the Midwest. The uniqueness of our program lies in the fact that it is an interdisciplinary major that integrates a holistic anthropological approach, regional course offerings and a variety of study abroad experiences, a broad exposure to multiple methodological specialties, cutting edge technologies applied to archaeological research, and practical training in the applied field of cultural resource management (CRM) industry.

Most notably, we provide our undergraduate students with practical experience unmatched by other programs elsewhere for three primary reasons:

1. Our close relationship with the Mississippi Valley Archaeology Center (MVAC), which conducts extensive research and public education activities throughout the tri-state region of Wisconsin, Minnesota, and Iowa, provides students with direct exposure to applied archaeology and the kinds of careers they are likely to pursue upon graduation.
2. Our impressive array of intensive international experiences are designed to expose students to different world cultures as well as equip them with practical anthropological and archaeological skills.
3. Our focus on training students in cutting edge technologies that very few programs in the U.S. offer gives students opportunities to develop high-tech skills in field archaeology: geophysical and remote sensing equipment (ground penetrating radar, magnetometer, resistivity meter); precision laser mapping equipment; a complete photogrammetry array; 3-D scanning, photo, and video equipment; and photographic drone for aerial photography and video.

The practical application of the archaeological studies major for students is exhibited in the fact that *U.S. News & World Report* ranked "Archaeologist" 9th on their Top Ten Best Jobs in Science listing for 2023 (<https://money.usnews.com/careers/best-jobs/rankings/best-science-jobs/>).

Cultural Anthropology: The cultural anthropology emphasis major at UWL is designed for students interested in learning more about cross-cultural international issues and gaining employment in international settings and diverse settings in the US. This major program of study combines the holistic, cross-cultural, and comparative perspective of anthropology to the study of human diversity and focuses on concepts, theories, and methods students use to understand contemporary peoples and cultures based upon others' rationales. This major program will also provide students with the knowledge and skills needed to work in diverse environments in the U.S., and to recognize the ways that our own beliefs and practices here in the U.S. are just as cultural as others' beliefs and practices around the world. The practical application of this emphasis for students is exhibited in the fact that *U.S. News & World Report* ranked "Anthropologist" 8th on their Top Ten Best Jobs in Science listing for 2023 (<https://money.usnews.com/careers/best-jobs/rankings/best-science-jobs/>). This ranking is based on expected job growth by the Bureau of Labor Statistics, a competitive average salary, and the growing need for broader cross-cultural understanding in our globalized society.

Minors

The **anthropology minor** provides students with a broad background in one of the most fascinating of social sciences - anthropology, the scientific study of humanity. Required curriculum in the minor exposes students to all four sub-disciplines of anthropology - cultural anthropology, physical anthropology, archaeology, and linguistics – and students are able to flesh out the minor with a range of elective courses that satisfy their particular interests. The anthropology minor is an excellent pairing with a number of disciplinary majors available on campus including archaeology, sociology, communications, race, gender, and sexuality studies, and disciplines in the health sciences, to name only a few.

The **archaeological studies minor** is designed for students who have an interest in the anthropological sub-discipline of archaeology but who are majoring in another discipline. Common majors that are served by the archaeology minor include history, geology, geography, biology, physics, and a number of others. The minor in archaeological studies provides students with a strong foundational understanding of the discipline while at the same time allowing for the selection of elective courses that particularly suite the individual student's interests.

Careers in archaeology and anthropology

U.S. News & World Report (<http://money.usnews.com/careers/best-jobs/rankings/best-science-jobs/>) has ranked anthropologist and archaeologist among the top careers on their Top 10 Best Science Jobs listing for the last several years. In 2023, anthropologist was ranked #8 and archaeologist was ranked #9. According to the Bureau of Labor Statistics, the median salary for anthropologists and archaeologists is \$61,910 (at the Master's degree level), the unemployment rate is only 3%, and the fields are expected to grow over the next ten years. Students can learn more about the variety of careers paths to pursue at the Department Archaeology and Anthropology's resources for students (<https://www.uwlax.edu/archaeology/resources-for-students/>).

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Professor

Timothy McAndrews

Associate Professor

Archaeological Studies Major - Bachelor of Arts (BA)

The Archaeological Studies Program at UWL is among the top comprehensive undergraduate programs in archaeology in the United

States and the only one in the Midwest. Lewis Binford, one of the most influential archaeologists in the discipline's history, conducted a comprehensive review of our program and concluded: "I can say without hesitation that this is the best undergraduate program in archaeology that I have seen anywhere in this country." The uniqueness of our program lies in the fact that it is an interdisciplinary major that integrates a holistic anthropological approach, regional course offerings and a variety of study abroad experiences, a broad exposure to multiple methodological specialties, cutting edge technologies applied to archaeological research, and practical training in the applied field of cultural resource management (CRM) industry.

Most notably, we provide our undergraduate students with practical experience unmatched by other programs elsewhere for three primary reasons:

1. Our close relationship with the Mississippi Valley Archaeology Center (MVAC), which conducts extensive research and public education activities throughout the tri-state region of Wisconsin, Minnesota, and Iowa, provides students with direct exposure to applied archaeology and the kinds of careers they are likely to pursue upon graduation.
2. Our impressive array of intensive international experiences are designed to expose students to different world cultures as well as equip them with practical anthropological and archaeological skills.
3. Our focus on training students in cutting edge technologies that very few programs in the U.S. offer gives students opportunities to develop high-tech skills in field archaeology: geophysical and remote sensing equipment (ground penetrating radar, magnetometer, resistivity meter); precision laser mapping equipment; a complete photogrammetry array; 3-D scanning, photo, and video equipment; photographic drone for aerial photography and video.

Because our program is built around close student-instructor interaction and intensive experiential opportunities, our students are given ample opportunity for participation in all aspects of archaeological field and laboratory research. This ensures that students graduate with both academic and practical job preparation, so they are well prepared to enter the workforce upon graduation or pursue graduate studies in archaeology or anthropology.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 82)
- Baccalaureate degree requirements (p. 83)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code Title Credits

Select one of the following:

ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their

equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

- Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence.

December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1

Fall	Credits Spring	Credits

Archaeological Studies Major - Bachelor of Science (BS)

The Archaeological Studies Program at UWL is among the top comprehensive undergraduate programs in archaeology in the United States and the only one in the Midwest. Lewis Binford, one of the most influential archaeologists in the discipline's history, conducted a comprehensive review of our program and concluded: "I can say without hesitation that this is the best undergraduate program in archaeology that I have seen anywhere in this country." The uniqueness

of our program lies in the fact that it is an interdisciplinary major that integrates a holistic anthropological approach, regional course offerings and a variety of study abroad experiences, a broad exposure to multiple methodological specialties, cutting edge technologies applied to archaeological research, and practical training in the applied field of cultural resource management (CRM) industry.

Most notably, we provide our undergraduate students with practical experience unmatched by other programs elsewhere for three primary reasons:

1. Our close relationship with the Mississippi Valley Archaeology Center (MVAC), which conducts extensive research and public education activities throughout the tri-state region of Wisconsin, Minnesota, and Iowa, provides students with direct exposure to applied archaeology and the kinds of careers they are likely to pursue upon graduation.
2. Our impressive array of intensive international experiences are designed to expose students to different world cultures as well as equip them with practical anthropological and archaeological skills.
3. Our focus on training students in cutting edge technologies that very few programs in the U.S. offer gives students opportunities to develop high-tech skills in field archaeology: geophysical and remote sensing equipment (ground penetrating radar, magnetometer, resistivity meter); precision laser mapping equipment; a complete photogrammetry array; 3-D scanning, photo, and video equipment; photographic drone for aerial photography and video.

Because our program is built around close student-instructor interaction and intensive experiential opportunities, our students are given ample opportunity for participation in all aspects of archaeological field and laboratory research. This ensures that students graduate with both academic and practical job preparation, so they are well prepared to enter the workforce upon graduation or pursue graduate studies in archaeology or anthropology.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 85)
- Baccalaureate degree requirements (p. 86)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education

majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.

2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}

5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Archaeological Studies Major: Cultural Anthropology Emphasis - Bachelor of Arts (BA)

The cultural anthropology emphasis major at UWL is designed for students interested in learning more about cross-cultural international issues, and pursuing careers that address social problems at both local and global scales. Cultural anthropologists work to build trust with people and to help people understand the benefits of diversity; we value people's insight and see change as a process that requires input from multiple groups; and we know that context matters: just because a problem was solved in one way with one group does not mean that the same solution will work with other groups with different histories, politics, and beliefs.

Our program applies holistic, cross-cultural, and comparative perspectives to the study of human diversity, and teaches students the concepts, theories, and methods used to understand contemporary peoples and cultures based upon others' rationales.

We provide our students with a variety of courses that focus on people's diverse practices, as well as courses that give students insight on the peoples and cultures found in a number of regions around the world.

We encourage our students to study abroad in short-term and long-term programs, and our students have conducted research and internships around the world, often with university research funding.

Our students graduate with the knowledge and skills needed to work in diverse environments in the US, and to recognize the ways that our own beliefs and practices here in the US are just as cultural as others' beliefs and practices around the world.

Total Credits	37

¹ Nine of the 21 combined elective credits from categories A, B, & C must be at the 300-level or above.

² Archaeology/Physical anthropology courses focus on cultures, lifeways, and topics of the past.

Credits that are applied to the archaeological studies major: cultural anthropology emphasis cannot be applied to the archaeological studies major or minor.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 88)
- Baccalaureate degree requirements (p. 89)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general

education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- ¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- ² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.

- All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
- At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
- Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

- A lab science course (from the general education list); and
- A social science course; and
- Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
- One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has

registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1	Fall	Credits Spring	Credits

¹ All of these course options are Gen Ed courses. ANT 101 fulfills Gen Ed Self and Society category; ANT 202 or ANT 212 fulfills Gen Ed Global Studies category. Depending on which course is selected, other Gen Ed categories will need to be taken.

Archaeological Studies Minor

The Archaeological Studies Program at UWL is among the top comprehensive undergraduate programs in archaeology in the United States and the only one in the Midwest. Lewis Binford, one of the most influential archaeologists in the discipline's history, conducted a comprehensive review of our program and concluded: "I can say without hesitation that this is the best undergraduate program in archaeology that I have seen anywhere in this country." The uniqueness of our program lies in the fact that it is an interdisciplinary minor that integrates a holistic anthropological approach, regional course offerings and a variety of study abroad experiences, a broad exposure to multiple methodological specialties, cutting edge technologies applied to archaeological research, and practical training in the applied field of cultural resource management (CRM) industry.

Most notably, we provide our undergraduate students with practical experience unmatched by other programs elsewhere for three primary reasons:

1. Our close relationship with the Mississippi Valley Archaeology Center (MVAC), which conducts extensive research and public education activities throughout the tri-state region of Wisconsin, Minnesota, and Iowa, provides students with direct exposure to applied archaeology and the kinds of careers they are likely to pursue upon graduation.
2. Our impressive array of intensive international experiences are designed to expose students to different world cultures as well as equip them with practical anthropological and archaeological skills.
3. Our focus on training students in cutting edge technologies that very few programs in the U.S. offer, gives students opportunities to develop high-tech skills in field archaeology: geophysical and remote sensing equipment (ground penetrating radar, magnetometer, resistivity meter); precision laser mapping equipment; a complete photogrammetry array; 3-D scanning, photo, and video equipment; photographic drone for aerial photography and video.

The archaeology studies minor is designed for students who have an interest in the anthropological sub-discipline of archaeology but who are majoring in another discipline. Common majors that are served by the archaeology studies minor include cultural anthropology, art, history, social studies education, geography, biology, physics, and a number of others. The minor in archaeological studies provides students with a strong foundation in the discipline while allowing for the selection of elective courses that particularly suite the individual student's interests.

Minor requirements

(All colleges)

19 credits

Code	Title	Credits
Core		
ARC 100	Archaeology: Discovering Our Past	3
ARC 196	Archaeology: An Introduction to Lab and Field Methods	1
ARC 200	World Archaeology: Origins and Development of Human Culture and Society	3
Electives		
Select 12 elective credits in archaeology ¹		12
Total Credits		19

¹ Of the 12 elective credits, at least nine credits must be at the 300/400 level.

Archaeology credits applied to the anthropology minor, history major or minor, and/or the geoarchaeology minor may not be applied to the archaeology minor.

Anthropology Minor

The **anthropology minor** provides students with a broad background in one of the most fascinating of social sciences - anthropology, the scientific study of humanity. Required curriculum in the minor exposes students to all four sub-disciplines of anthropology: cultural anthropology, physical anthropology, archaeology, and linguistics, giving students the ability to flesh out the minor with a range of elective courses that satisfy their particular interests. Because anthropology is the study of human diversity around the world, students with a variety of majors take the anthropology minor to give them an international perspective on their specific fields, including public health, biology, exercise and sport science, race, gender, and sexuality studies, English,

world languages, archaeology, sociology, political science, marketing, and business. Pairing these majors with an anthropology minor helps students gain a competitive edge in our increasingly global world.

ANT 450	Internship in Anthropology	
Total Credits		18

Anthropology credits applied to any of the archaeological studies majors or archaeological studies minor may not be applied to the anthropology minor.

Archaeology Honors Program

The **archaeology honors program** is strongly recommended for students interested in pursuing a graduate degree in archaeology. This program will challenge you and enhance your educational experience. The program is designed to stimulate and acknowledge research of greater depth, breadth, and originality by students motivated to excel in the archaeological studies major. The program's capstone, ARC 489 Honors Thesis in Archaeology, requires an extensive piece of research designed and conducted by the student under the close supervision of a faculty advisor.

Program

1. Admission
 - a. Register for ARC 489 Honors Thesis in Archaeology (3 cr.)
 - b. A 3.50 grade point average in the archaeology major
 - c. A 3.25 cumulative grade point average overall
2. Program Evaluation
 - a. A 3.50 grade point average in the archaeology major
 - b. A 3.25 cumulative grade point average overall
 - c. ARC 445 Research Methods in Archaeology (3 cr.) with a grade of "AB" or higher
 - d. ARC 455 Historical and Theoretical Perspectives in Archaeology (3 cr.) with a grade of "AB" or higher
 - e. ARC 489 Honors Thesis in Archaeology (3 cr.) with a grade of "AB" or higher

Cultural Anthropology Honors Program

The **cultural anthropology honors program** is strongly recommended for students interested in pursuing a graduate degree in anthropology. This program will challenge you and enhance your educational experience. The program is designed to stimulate and acknowledge research of greater depth, breadth, and originality by students motivated to excel in the cultural anthropology emphasis major. The program's capstone, ANT 496 Honors Thesis in Cultural Anthropology (3 cr.), requires an extensive piece of research designed and conducted by the student under the close supervision of a faculty advisor.

Program

1. Admission
 - a. Register for ANT 496 Honors Thesis in Cultural Anthropology (3 cr.)
 - b. A 3.50 UWL grade point average in the archaeological studies major: cultural anthropology emphasis
 - c. A 3.25 UWL cumulative grade point average overall
2. Program Evaluation
 - a. A 3.50 UWL grade point average in the archaeological studies major: cultural anthropology emphasis
 - b. A 3.25 UWL cumulative grade point average overall
 - c. Completion of ANT 401 Ethnographic Methods (4 cr.) with a grade of "AB" or higher

d. Completion of ANT 454 Historical and Theoretical Approaches in Anthropology (3 cr.) with a grade of "AB" or higher

e. Completion of ANT 496 Honors Thesis in Cultural Anthropology (3 cr.) with a grade of "AB" or higher

Art Department (ART)

College of Arts, Social Sciences, and Humanities
School of Visual and Performing Arts
105 Center for the Arts; 608.785.8230

Department Chair: Tim McAndrews
435A Wimberly Hall; 608.785.6774
Email: tmcandrews@uwlax.edu

www.uwlax.edu/art (<http://www.uwlax.edu/art/>)

The Department of Art promotes intellectual development, critical thinking, visual literacy, and artistic production. We foster the development of graduates who are active citizens and advocates for the arts. Our student-centered curriculum and low student-to-faculty ratio provide individualized mentorship and a rich sense of community. Art studios and classrooms offer students a dynamic creative environment for learning and feature a mix of new and traditional approaches to ceramics, digital art & design, drawing, metals, painting, photography, printmaking, sculpture, art education, and art history.

The University Art Gallery, located in the Truman T. Lowe Center for the Arts, exhibits art by students, faculty, and visiting artists. In conjunction with the gallery program, the department hosts guest artists who present lectures and workshops for students and the public.

Art students have the opportunity to gain professional experience working in the Department of Art as studio assistants, digital imaging specialists, gallery assistants, lab technicians, and administrative support. Students participate in undergraduate research, exhibitions, and art internships throughout the region, as well as study abroad programs. The Department of Art also grants art-specific scholarships and awards annually.

Art credit by portfolio review policy

The Department of Art offers the opportunity to receive credit based on a portfolio review. The review is intended for students in the early stages of the program who have developed a portfolio that may demonstrate sufficient quality and understanding of the content and skills in the foundations of studio art. Portfolios are reviewed by faculty in the department, based on the quality of the work submitted and other criteria stated in the application. This process would enable students, based on a successful portfolio review, to receive credit for a foundations-level course. More detailed information about the process is available on the Art Department's Credit by Portfolio Review website (<https://www.uwlax.edu/art/current-students/credit-by-portfolio-review/>).

The department offers this opportunity for ART 162 Drawing Foundations (4 credits). To apply, contact the Department of Art (<http://www.uwlax.edu/art/>), 105 Center for the Arts.

Note: Credit by portfolio review is not available for ART 160 or ART 172.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing

emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Total Credits		44

¹ ART 262 may count toward drawing course requirement or 200-level studio course requirement but not both.

- Art majors may apply a maximum of eight credits toward both the art major, photography minor, art therapy minor, or digital media studies and design minor.
- Art majors may apply a maximum of six credits toward both the art major and art history minor.
- A maximum of six credits may apply toward both the art major and general education requirements.
- Art majors may not complete the art minor.

Degree Requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 96)
- Baccalaureate degree requirements (p. 97)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.

- Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
- Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
- All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
- At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
- Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

- Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

- Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality

studies (see the Advisement Report (AR) for a listing of the approved courses); and

- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits		44

¹ ART 262 may count toward drawing course requirement or 200-level studio course requirement but not both.

- Art majors may apply a maximum of eight credits toward both the art major, photography minor, art therapy minor, or digital media studies and design minor.

- Art majors may apply a maximum of six credits toward both the art major and art history minor.
- A maximum of six credits may apply toward both the art major and general education requirements.
- Art majors may not complete the art minor.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 99)
- Baccalaureate degree requirements (p. 100)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and

4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this

sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Art Education (Grades K-12) Major - Bachelor of Science (BS)

Major requirements

Completion of the Art Education Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching license:

- Art Education, grades K-12 (1550).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in art education (grades K-12) must meet specific program admission criteria (p. 586).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Curriculum

Courses listed in more than one category may be counted only once.

Required general education courses (6 credits)

Besides the courses specified below, art education majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirementstext>). The General Education Program requires a total of 42 credits.

Code	Title	Credits
EDS 203	School, Society, and Teachers ^{1, 4}	3

EDS 495 Teaching Internship

⁴ Also satisfies an SOE core requirement.⁵ Recommended course.⁶ ART 361 and ART 461 must be taken concurrently with ART 401 or ART 403⁷ Must complete all course requirements and other benchmarks prior to student teaching. For more information, please see the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>).

- A maximum of twelve credits are allowed to overlap between the art education major and art therapy minor.
- A maximum of eight credits are allowed to overlap between the art education major and the following art minors: photography, art history, or digital media.

Additional teacher education requirements are listed on the School of Education (p. 582) catalog page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 102)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required

to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Broadfield Social Studies Education Program

College of Arts, Social Sciences, and Humanities

History Department Chair: Kenneth Shonk

403C Wimberly Hall; 608.785.6560

Email: kshonk@uwlax.edu

School of Education

235 Morris Hall; 608.785.8134

Email: soe@uwlax.edu

Teacher candidates completing any of the four broadfield social studies education majors will be prepared for WI certification in Middle and High School Social Studies (grades 4-12). This teaching license includes all six social studies subject areas: economics, geography, history, political science, psychology, and sociology. The learning outcomes for the program are designed to prepare teacher candidates to meet the current National Council for Social Studies (NCSS) and InTASC Teacher Standards. This program is affiliated with the School of Education, and teacher candidates completing this program meet School of Education core requirements, as well as other admissions, benchmark assessment, and statutory requirements for licensure.

While all four tracks prepare teacher candidates for the same WI Social Studies teaching license (2700), teacher candidates may still wish to specialize in a particular area and/or obtain an additional subject-specific license through a state-approved content test after earning their WI Middle and High School Social Studies license. Thus, several tracks have been developed that provide some flexibility for prospective social studies teachers to craft preparation pathways to the new Social Studies license that fit their needs and interests.

Academic departments for the content areas:

- Economics (<https://www.uwlax.edu/economics/>)
- Geography and Environmental Science (<https://www.uwlax.edu/geography-and-earth-science/>)
- History (<https://www.uwlax.edu/history/>)
- Political Science and Public Administration (<https://www.uwlax.edu/political-science-and-public-administration/>)
- Psychology (<https://www.uwlax.edu/psychology/>)
- Sociology and Criminal Justice (<https://www.uwlax.edu/sociology/>)

The History Department

The History Department houses the Broadfield Social Studies Program's curriculum and faculty (p. 202).

Majors

- Broadfield social studies education (grades 4-12) major - BS (p. 106)
- Broadfield social studies education (grades 4-12) major: history concentration - BS (p. 108)
- Broadfield social studies education (grades 4-12) major: political science concentration - BS (p. 113)
- Broadfield social studies education (grades 4-12) major: sociology concentration - BS (p. 116)

Broadfield Social Studies Education (Grades 4-12) Major - Bachelor of Science (BS)

The **broadfield social studies education major** allows students to complete coursework in a broad range of social studies fields across campus, while still accumulating credits in one central department. The BFSS program is a very clever solution to the problem of academic over-specialization: it allows future teachers to graduate without pigeon-holing them into a single specialty. Instead, they can take a wide variety of courses in many social science disciplines, thus preparing them for the varied and diverse teaching requirements of secondary education.

This major prepares students to earn a WI teaching license that allows them to teach grades 4-12 in all of the six subject areas of social studies: economics, geography, history, psychology, political science, and sociology.

Teacher preparation in history

The History Department works closely with other divisions on campus to provide a background in history for future teachers (<https://www.uwlax.edu/history/undergraduate-majorsminors/teacher-preparation/>).

Wherever possible, the History Department works to respond to the needs of future educators, while preparing them with current knowledge and methods from the historical profession. A variety of programs in the department – National History Day (<https://www.uwlax.edu/history/student-resources/national-history-day/>), Phi Alpha Theta (<https://www.uwlax.edu/history/student-resources/phi-alpha-theta/>), and preparation for the PRAXIS exams – respond to the unique needs of future educators.

Major requirements

Completion of the Social Studies Education Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching license:

- Middle and High School Social Studies, grades 4-12 (2700).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in social studies education (grades 4-12) must meet specific program admission criteria (p. 585).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described

on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Curriculum

The Social Studies Education Program is aligned with InTASC Teacher Standards and the National Council for Social Studies (NCSS) Standards.

Required general education courses (12 credits)

Besides the courses specified below, social studies education majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirementstext>). The General Education Program requires a total of 42 credits.

Code	Title	Credits
EDS 203	School, Society, and Teachers ^{1, 5}	3
EDS 206	Multicultural Education ^{2, 5}	3
HIS 110	World History ^{3, 6}	3

⁵ Also satisfies an SOE core requirement.

⁶ Also satisfies a social studies major content requirement.

⁷ Also satisfies a WI statutory requirement for a teaching license in Social Studies (2700).

⁸ Must complete all course requirements and other benchmarks prior to student teaching. For more information, please see the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>).

⁹ HIS 304, HIS 402, HIS 403, and HIS 419 cannot be used to fulfill this requirement.

Additional teacher education requirements are listed on the School of Education (p. 582) catalog page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the

Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 107)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

- ¹ See the SOE admissions website for complete admission and application details. Students will be required to complete a criminal background check at the time of application for admission.
- ² Students applying for field and student teaching placements will be asked to disclose any criminal charges.
- ³ Students must apply for student teaching through the Office of Field Experience one year prior to the student teaching semester.
- ⁴ For more information, please see the Student Teaching and Internship Policy.

Broadfield Social Studies Education (Grades 4-12) Major: History Concentration - BS

The **broadfield social studies education major: history concentration** is intended for those who intend to seek licensure in the grades 4-12 developmental range, provides a grounding in the core courses of the history major, as well as a foundation in four categories of history covering much of the world and its time periods. This program also requires the completion of certain history classes required specifically for future teachers and some additional courses required by state statute.

This major prepares students to earn a WI teaching license that allows them to teach grades 4-12 in all of the six subject areas of social studies: economics, geography, history, psychology, political science, and sociology.

Teacher preparation in history

The History Department works closely with other divisions on campus to provide a background in history for future teachers (<https://www.uwlax.edu/history/undergraduate-majorsminors/teacher-preparation/>).

Wherever possible, the History Department works to respond to the needs of future educators, while preparing them with current knowledge and methods from the historical profession. A variety of programs in the department – National History Day (<https://www.uwlax.edu/history/student-resources/national-history-day/>), Phi Alpha Theta (<https://www.uwlax.edu/history/student-resources/phi-alpha-theta/>), and preparation for the PRAXIS exams – respond to the unique needs of future educators.

Major requirements

Completion of the Social Studies Education: History Concentration Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching license:

- Middle and High School Social Studies, grades 4-12 (2700).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in social studies education (grades 4-12): history concentration must meet specific program admission criteria (p. 585).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Curriculum

The Social Studies Education: History Concentration Program is aligned with InTASC Teacher Standards and the National Council for Social Studies (NCSS) Standards.

Required general education courses (12 credits)

Besides the courses specified below, social studies education: history concentration majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirements>). The General Education Program requires a total of 42 credits.

Code	Title	Credits

¹⁰ Also satisfies the gender-focused course requirement.

Additional teacher education requirements are listed on the School of Education (p. 582) catalog page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 111)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required

to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ See the SOE admissions website (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) for complete admission and application details. Students will be required to complete a criminal background check (p. 588) at the time of application for admission.

² Students applying for field and student teaching placements will be asked to disclose any criminal charges (p. 592).

³ Students must apply for student teaching (<https://www.uwlax.edu/soe/field-and-student-teaching-experience/for-teacher-candidates/>) through the Office of Field Experience one year prior to the student teaching semester.

⁴ For more information, please see the Student Teaching and Internship Policy (p. 592).

Broadfield Social Studies Education (Grades 4-12) Major: Political Science Concentration - BS

Political science is the study of governments, policies, institutions, and the behavior of participants in the political world. Using humanistic and scientific approaches, as well as qualitative and quantitative methods, the field of political science examines political structures both inside and outside government with the goal of better understanding how they function, and the ways in which they change the world over time. The study of political science includes four subfields of specialization: American government and politics, international relations, comparative politics, and political theory.

Broadfield social studies education: political science concentration students are prepared to teach a range of civics, social studies, and government courses. This major prepares students to earn a WI teaching license that allows them to teach grades 4-12 in all of the six subject areas of social studies: economics, geography, history, psychology, political science, and sociology.

Major requirements

Completion of the Social Studies Education: Political Science Concentration Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching license:

- Middle and High School Social Studies, grades 4-12 (2700).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in social studies education (grades 4-12): political science concentration must meet specific program admission criteria (p. 585).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Curriculum

The Social Studies Education: Political Science Concentration Program is aligned with INTASC Teacher Standards and the National Council for Social Studies (NCSS) Standards.

Required general education courses (12 credits)

Besides the courses specified below, social studies education: political science concentration majors must satisfy additional general

education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirements>). The General Education Program requires a total of 42 credits.

Code	Title	Credits

Broadfield Social Studies Education (Grades 4-12) Major: Sociology Concentration - BS

Sociology is the study of human groups and how the group influences social behavior. The field is both a science and a philosophy, seeking to answer questions about human behavior through the use of scientific methods. Sociology gives us new and important knowledge about the social world. The focus of the sociology major is to prepare students with the methodological background and analytical skills necessary for working in today's world, while allowing students to gain a basic understanding of a variety of areas within sociology such as social stratification, criminology, social psychology and comparative sociology.

Students in the **broadfield social studies education major: sociology concentration** can be licensed to teach through the Wisconsin Department of Public Instruction (DPI). This major prepares students to earn a WI teaching license that allows them to teach grades 4-12 in all of the six subject areas of social studies: economics, geography, history, psychology, political science, and sociology.

Every broadfield social studies education: sociology concentration student completes a senior project in one of our three senior capstone courses SOC 405 Quantitative Social Research Seminar, SOC 410 Sociology Honors Project (3 cr.), or SOC 416 Qualitative Explorations. Working closely with faculty, each student designs and completes a semester-long investigation of a sociology-related topic. The senior capstone course provides students with firsthand experience and analytical skills that are valuable in the work world and in graduate study.

Major requirements

Completion of the Social Studies Education: Sociology Concentration Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching license:

- Middle and High School Social Studies, grades 4-12 (2700).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in social studies education (grades 4-12): sociology concentration must meet specific program admission criteria (p. 585).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Curriculum

The Social Studies Education: Sociology Concentration Program is aligned with InTASC Teacher Standards and the National Council for Social Studies (NCSS) Standards.

Required general education courses (12 credits)

Besides the courses specified below, social studies education: sociology concentration majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirements>). Additional teacher education requirements are listed on the School of Education (p. 582) catalog page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 117)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course

descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

- ¹ See the SOE admissions website for complete admission and application details. Students will be required to complete a criminal background check at the time of application for admission.
- ² Students applying for field and student teaching placements will be asked to disclose any criminal charges.
- ³ Students must apply for student teaching through the Office of Field Experience one year prior to the student teaching semester.
- ⁴ For more information, please see the Student Teaching and Internship Policy.

Child/Youth Care Program (CYC)

College of Arts, Social Sciences, and Humanities
 Coordinator: Lisa Caya
 331C Graff Main Hall; 608.785.6895
 E-mail: lcaya@uwlax.edu

www.uwlax.edu/psychology/undergraduate-majorsminors/at-risk-child-and-youth-minor/ (<https://www.uwlax.edu/psychology/undergraduate-majorsminors/at-risk-child-and-youth-minor/>)

The **at-risk child and youth care (CYC) minor** is a multidisciplinary program designed to provide students with knowledge and skills necessary to promote the well being of all children and adolescents. Special attention is given to vulnerable/at-risk populations within the context of the family, the community, and the life span. The minor assists students who upon graduation may work within a wide variety of settings including: early child care and education, community-based and youth development programs, parent education and family support, school based programs, community mental health, group homes, residential centers, day and residential treatment, early intervention, home-based care and treatment, psychiatric centers, rehabilitation programs, pediatric health care, and juvenile justice programs.

Students who complete the minor are expected to be able to:

- Identify the role of individual and family factors associated with at-risk children
- Differentiate typical from atypical human development
- Apply theories, concepts and research findings to promote child well-being
- Identify the purpose and structure of community and government systems in promoting and advocating for child well-being

2023-24 Faculty/Staff

At-Risk Child and Youth Care Minor

Minor requirements

Declaration requirement

Students who wish to declare the at-risk child and youth care minor must first complete CYC 301 with a grade of "C" or better.

Curriculum

(All colleges)

24 credits

- **Psychology majors** may apply a maximum of six credits toward the major and minor. 18 credits must be completed outside of psychology.
- **All other majors** may apply a maximum of six credits toward the major and minor if courses from the major are included in the CYC listings.

Code	Title	Credits
Category I: Core		
CYC 301	Overview of Child and Youth Care ¹	3
CYC 310	Social Policy for Children and Families ²	3
CYC 495	Capstone in Child Youth Care ²	3
Category II: Human development		
PSY 212	Lifespan Development	3
Special populations development: 3		
Select one of the following (each of which have a prerequisite of PSY 212):		
PSY 356	Infancy and Childhood	
PSY 357	Adolescence	

Category III: Family dynamics

Select one of the following: 3	
CST 336	Family Communication
CYC 411	Family Systems Theory
SOC 212	Marriage and Family

Category IV: Application skills

Select one of the following: 3	
CST 230	Interpersonal Communication
CST 330	Nonverbal Communication
CST 354	Health Communication
CST 365	Communication in Teams
CST 380	Communicating Leadership
PSY 315	Behavior Modification
PSY 343	Group Dynamics
PSY 347	Empathic Listening Skills
PSY 370	Educational Psychology
PSY/RGS 415	Multicultural Counseling
PSY 425	Understanding the Mental Health Counseling Profession
RTH 470	Recreational Therapy Processes and Facilitation Techniques
SPE 207	American Sign Language and Deaf Culture I

Category V: Youth-focused electives

Select one of the following: 3	
ANT 323	Anthropology of Childhood and Youth
ESS 231	Introduction to Teaching Adapted Physical Education
HED 207	Youth Health Issues
HED 345	Issues in Mental and Emotional Health
HED 425	Violence and Injury Prevention
HED 469	Drugs, Society, and Human Behavior
PSY 316	Child Abuse and Neglect
PSY 325	LGBTQ+ Youth Psychology
PSY 417	Child and Adolescent Psychopathology
PSY 426	Addictive Behaviors
RGS 320	Violence and Gender
RTH 333	Therapeutic Recreation and Corrections
SPE 200	Foundations of Special Education
SOC 321	Delinquency
SOC 324	Criminal Justice
SOC 326	Sociopharmacology

Total Credits 24

¹ A grade of "B" or better in PSY 212 is required in order to enroll in CYC 301.

² A grade of "C" or better in CYC 301 is required in order to enroll in CYC 310 and CYC 495.

Communication Studies Department (CST)

College of Arts, Social Sciences, and Humanities
 Department Chair: Linda Dickmeyer
 4206 Centennial Hall; 608.785.8519
 Email: ldickmeyer@uwlax.edu

www.uwlax.edu/communication-studies (<http://www.uwlax.edu/Communication-Studies/>)

A major in the Communication Studies Program provides excellent knowledge foundation and general skills for many types of jobs in both the private and public sectors of the economy. The Department of Communication Studies provides nearly fifty courses in four curriculum areas: interpersonal communication, media studies, organizational and professional communication, and public communication and advocacy. Each student who elects the 39 credit major in communication studies must select one of these areas as an emphasis in the program. Each of these curriculum areas is also available as a 24 credit minor. A minor in communication studies is valuable with any major.

The Department of Communication Studies faculty members help build skills not only in the student's area of program emphasis, but across the communication studies field. Because of the department's focus on academic training and professional skill building, communication studies graduates develop outstanding abilities in writing, speaking, organization, and critical thinking.

Communication Studies admission to program policy

Students must fulfill the following admission requirements:

1. Completion of a minimum of 45 semester credits (transfer students must have completed a minimum of 12 of the 45 semester credits at UWL).
2. Successful completion ("C" or better) of CST 110 and either ENG 110 or ENG 112.
3. Completion of CST 190 with a grade of "BC" or better or completion of CST 301 with a grade of "BC" or better.
4. Achieve a UWL cumulative GPA of 2.50 at time of admission or have completed 15 UWL CST credits with a 2.70 UWL CST GPA and a UWL cumulative GPA of 2.30.

Students who have fulfilled these requirements must see the CST Department chair or their CST faculty advisor to obtain approval to declare the major. A current Advisement Report (AR) will document fulfillment of admission requirements. The approval form then must be submitted to the College of Arts, Social Sciences, and Humanities Academic Services Office.

CST major and minor credits

CST majors may choose any minor offered by the CST Department that does not duplicate the emphasis they have selected for their CST major. Courses counted toward the 39-credit major, while they may fulfill requirements for that minor, may not be counted in the minor. An additional elective course or courses in the minor must be taken to complete the 24 credits required in that minor. Students who combine a CST major with a minor also offered by the CST Department must complete 60 credits of courses in CST programs.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 122)
- Baccalaureate degree requirements (p. 122)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	

GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
or SPA 221 Introduction to Spanish for the Health Professions		

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.

- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 124)
- Baccalaureate degree requirements (p. 125)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical

systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.

- All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
- At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
- Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

- A lab science course (from the general education list); and
- A social science course; and
- Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
- One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).

- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 127)
- Baccalaureate degree requirements (p. 128)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare **ONE** of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must

be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general

education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 129)
- Baccalaureate degree requirements (p. 130)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.

- Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
- All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
- At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
- Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

- A lab science course (from the general education list); and
- A social science course; and
- Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
- One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).

- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 132)
- Baccalaureate degree requirements (p. 133)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare **ONE** of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must

be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general

education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 134)
- Baccalaureate degree requirements (p. 135)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical

systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.

- All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
- At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
- Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

- A lab science course (from the general education list); and
- A social science course; and
- Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
- One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).

- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. 3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare **ONE** of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
or SPA 221 Introduction to Spanish for the Health Professions		

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must

be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student’s actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general

education requirements. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 139)
- Baccalaureate degree requirements (p. 140)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical

professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.

2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}

5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

REC 390	Principles of Management in Recreation	3

Ethics and leadership

Code	Title	Credits
PHL 201	Ethical Theory and Practice	3
PHL 337	Social and Political Philosophy	3
PHL 339	Medical Ethics	3
PHL 341	Environmental Ethics	3

- At least nine credits must be at or above the 300-level.
- A maximum of three credits are allowed to overlap between General Education Program and the minor.
- A maximum of six credits are allowed to overlap between the leadership development minor and other majors or minors.

Economics Department (ECO)

The economics major is offered through the College of Arts, Social Sciences, and Humanities and through the College of Business Administration. The department is housed in the College of Business Administration (p. 342).

College of Business Administration
 Department Chair: Sheida Teimouri

ECO 308	Intermediate Microeconomic Analysis	3
Electives		
Select 18 credits of electives ¹		18
Total Credits		33

¹ At least 12 credits of these electives must be taken in economics courses numbered 300 or above. Up to six credits of electives may be taken from MTH 207, MTH 208, MTH 309; POL 330, POL 353; PUB 210, PUB 330; STAT 245, and any course numbered 200 or greater offered by a department in the College of Business Administration. A limit of three internship credits may be applied toward the economics major.

College of Business Administration students may also select this as a second major by meeting the above requirements.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 146)
- Baccalaureate degree requirements (p. 147)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general

education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. Native speakers of English complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

A limit of three internship credits may be applied toward the economics major.

College of Business Administration students may also select this as a second major by meeting the above requirements.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 148)
- Baccalaureate degree requirements (p. 149)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Total Credits: 120

¹ MTH 150 is a prerequisite for MTH 160 and MTH 175.

² Any ECO course or any course numbered 200 or greater offered by a CBA department.

³ A limit of three internship credits may be applied toward the economics major.

At least two courses must be designed as writing emphasis.

Economics Minor

(All colleges)

18 credits

Code	Title	Credits
ECO 110	Microeconomics and Public Policy	3
ECO 120	Global Macroeconomics	3
Select 12 credits of electives in courses numbered 300 or above in economics ¹		12
Total Credits		18

¹ A limit of three internship credits may be applied toward the economics minor.

Economics Honors Program

Program

1. Admission Requirements

- Junior standing
- 6 credits in economics at the 300 level or above
- Minimum cumulative 3.25 GPA in the major
- Selection and commitment of two Economics Department faculty members, one to serve as a primary thesis advisor, and a second to serve as a secondary thesis reader
- Filing an Honors Program Statement of Intent Form with the department chair

2. Program Requirements

- ECO 307 Introduction to Econometrics (3 cr.) or Mathematical Economics (3 credits)¹
- Honors thesis that makes a substantive contribution to the economics literature; to be administered as a ECO 499 Independent Study (1-3 cr.) course with the primary thesis advisor.

3. Evaluation

- Minimum cumulative 3.50 GPA in the major at graduation
- Presentation of the honors thesis to a colloquium of faculty and students.
- Both the primary thesis advisor and the secondary thesis reader evaluate the honors thesis. In consultation with the secondary reader, the primary thesis advisor confirms that the thesis is of high quality meriting graduation with honors. (a passing grade in ECO 499 is not necessarily sufficient).

¹ Mathematical Economics occasionally offered as a topic under ECO 499.

English Department (ENG)

College of Arts, Social Sciences, and Humanities

Department Chair: Kate Parker

433A Wimberly Hall; 608.785.8304

Email: kparker@uwlax.edu

www.uwlax.edu/english (<http://www.uwlax.edu/english/>)

The English Department at the University of Wisconsin-La Crosse prepares students as future professionals and responsible citizens through the practice and close study of literature and culture, writing and rhetoric, and the teaching of English studies.

Our interdisciplinary and integrative coursework focuses on:

- Engaging with peers and professors in dynamic discussions
- Developing in-demand writing skills
- Practicing critical reading and creative thinking
- Analyzing real-world situations
- Promoting independent and collaborative experiences

English students explore complex problems from multiple perspectives and are proactive in developing creative, ethical solutions. The department offers opportunities for applied learning such as internships, client service projects with community organizations, and undergraduate research projects. English students engage with texts and ideas as imaginative, open-minded individuals who contribute thoughtfully and effectively to diverse communities—skills highly valued by employers.

English course share policy

English majors/English minors/English certificate

English majors who elect to take one or more of the English minors or certificate must complete the requirements for both the major and the minor(s) or certificate. Only three credits from the major may also be counted toward each minor(s) or certificate.

Multiple English minors

Students who elect to take multiple English minors must complete the requirements for all. Only three credits from one English minor may also be counted toward each additional minor.

English minors and English certificate

Students who elect to take more than one English minor and a certificate must complete the requirements for all. Only three credits from each English minor may also be counted toward a certificate. Students may not take both the minor and certificate in professional and technical writing.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Majors

- English major: literary and cultural studies emphasis - BA (p. 151)
- English major: medical professions emphasis - BA (p. 155)
- English major: medical professions emphasis - BS (p. 157)
- English major: writing and rhetoric studies emphasis - BA (p. 160)

Teacher education program

- English education (grades 4-12) major - BS (p. 162)

Minors

- Creative writing minor (p. 165)
- English language and literature minor (p. 166)
- Linguistics minor (p. 167)
- Literary and cultural studies minor (p. 168)
- Professional and technical writing minor (p. 169)

Certificate

- Professional and technical writing certificate (p. 169)

Honors

- English honors program (p. 170) - *currently not accepting new students*

English Major: Literary and Cultural Studies Emphasis - Bachelor of Arts (BA)

Literary and cultural studies emphasis majors develop critical modes of inquiry, foundational and transferable skills in writing, and innovative research focusing on the study of culture and the human condition. Cross-disciplinary conversations hone students' abilities to analyze diverse personal, cultural, ethical, and global perspectives, and to find creative solutions to complex problems.

Major requirements

(All colleges - including teacher certification programs)

Courses listed in more than one category may be counted only once unless otherwise stated.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 153)
- Baccalaureate degree requirements (p. 153)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	

HMG 304	Hmong Heritage Language: Advanced
JPN 202	Intermediate Japanese II
RUS 202	Russian Language and Cultures in Action II
SPA 202	Spanish Language and Cultures in Action II
or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.

4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1

Total Credits: 120

¹ **CASSH Core Humanities and Fine Arts Tracks** require 102+ level language. **CASSH Core Language Track** requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

² Will be introduced to students in ENG 300 and assembled throughout their studies.

English Major: Medical Professions Emphasis - Bachelor of Arts (BA)

The **English major: medical professions emphasis** combines courses from English and biology to prepare students for careers in healthcare while they also complete some of the pre-healthcare coursework, practice their writing skills, and study the human condition through narrative. These skills are essential for health-related careers focused on writing and communication. The emphasis also dovetails nicely with existing science and pre-health tracks in other majors and provides an advantage to UWL students entering into clinical health programs.

Major requirements

(All colleges, excluding teacher certification programs)

38-40 credits

Courses listed in more than one category may be counted only once unless otherwise stated.

English core requirements (18 credits)

- ¹ CHM 103 (GE05) requires a grade of "C" or higher in MTH 150 (GE02) or placement into MTH 151 (GE02) or higher. These courses fulfill the noted general education requirements.
- ² **CASSH Core Humanities and Fine Arts Tracks** require 102+ level language. **CASSH Core Language Track** requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.
- ³ Grade of "C" or higher is required in BIO 105 and CHM 103.
- ⁴ Will be introduced to students in ENG 300 and assembled throughout their studies.

English Major: Medical Professions Emphasis - Bachelor of Science (BS)

The **English major: medical professions emphasis** combines courses from English and biology to prepare students for careers in healthcare while they also complete some of the pre-healthcare coursework, practice their writing skills, and study the human condition through narrative. These skills are essential for health-related careers focused on writing and communication. The emphasis also dovetails nicely with existing science and pre-health tracks in other majors and provides an advantage to UWL students entering into clinical health programs.

Major requirements

(All colleges, excluding teacher certification programs)

38-40 credits

Courses listed in more than one category may be counted only once unless otherwise stated.

¹ CHM 103 (GE05) is prerequisite. CHM 103 requires a grade of "C" or higher in MTH 150 (GE02) or placement into MTH 151 or higher. These courses fulfill the noted general education requirements.

² Check to make sure prerequisites have been met prior to selecting an elective.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 158)
- Baccalaureate degree requirements (p. 159)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any

college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or

recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

English Major: Writing and Rhetoric Studies Emphasis - Bachelor of Arts (BA)

This major provides students with the knowledge, skills, and flexibility necessary to succeed in rapidly-changing, global environments. Students are empowered to examine and shape the world through writing. They develop high-demand written communication skills, gain experience working in teams, learn digital writing technologies, and address diverse audience needs. Students complete a senior capstone project, create a writing portfolio, and are encouraged to pursue internships and undergraduate research. The **English major: writing and rhetoric studies emphasis** is also a great option as a second major because many careers require expertise in written communication, persuasion, and analysis.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 161)
- Baccalaureate degree requirements (p. 161)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking

student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).

7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ **CASSH Core Humanities and Fine Arts Tracks** require 102+ level language. **CASSH Core Language Track** requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

² Will be introduced to students in ENG 300 and assembled throughout their studies.

English Education (Grades 4-12) Major - Bachelor of Science (BS)

This major prepares students to become dynamic English Language Arts (ELA) teachers who can meet the needs of adolescent learners at both the middle and high school levels. English education faculty guide students through rigorous coursework in multiple fields of inquiry (including literature, writing, linguistics, and ELA pedagogy) and provide personalized mentoring throughout multiple field experience and student teaching semesters. Most importantly, English education majors who meet the necessary criteria graduate with a license to teach grades

4-12 in the state of Wisconsin—and our program has maintained an outstanding job placement rate over the past few years.

Major requirements

Completion of the English Education Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching license:

- English and Language Arts, grades 4-12 (2300).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in English education (grades 4-12) must meet specific program admission criteria (p. 585).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Curriculum

The English Education Program is aligned with InTASC Teacher Standards and the NCTE/NCATE Standards, and supplemented with Elementary Literacy, Journalism Educators of America, and Wisconsin Speech Educators standards.

Required general education courses (6 credits)

Besides the courses specified below, English education majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirements>). The General Education Program requires a total of 42 credits.

Code	Title	Credits
EDS 203	School, Society, and Teachers (GE06) ^{1, 3}	3
EDS 206	Multicultural Education (GE03) ^{2, 3}	3
Total Credits		6

¹ Counts toward General Education Program requirement: Self and Society (GE Category 6).

² Counts toward General Education Program requirement: Minority Cultures or Multiracial Women's Studies (GE Category 3).

³ Also satisfies an SOE core requirement.

⁴ Must complete all course requirements and other benchmarks prior to student teaching. For more information, please see the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>).

⁵ Must be taken in the English major core for the "Literary Studies" category. Credits counted in the major core.

⁶ Requires admission to the School of Education.

⁷ Taken concurrently with ENG 355 or ENG 455.

⁸ Included in the English education portfolio.

Additional teacher education requirements are listed on the School of Education (p. 582) catalog page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 164)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general

education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

- See the SOE admissions website (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) for complete admission and application details. Students will be required to complete a criminal background check (p. 588) at the time of application for admission.
- Students applying for field and student teaching placements will be asked to disclose any criminal charges (p. 592).
- Students must apply for student teaching (<https://www.uwlax.edu/soe/field-and-student-teaching-experience/for-teacher-candidates/>) through the Office of Field Experience one year prior to the student teaching semester.
- For more information, please see the Student Teaching and Internship Policy.

Creative Writing Minor

Students develop creative-thinking skills that emphasize the value of innovation and collaboration. Creative writing classrooms are supportive communities that foster the development of diverse voices, each member committed to helping one another improve as writers, readers, and creative-thinkers. In composing original stories, scripts, and poems, students learn to apply literary techniques used by classical and contemporary authors. Hands-on experiences in publishing are available, as well as opportunities to work on (or be published in) the student journal, *The Catalyst*.

English Language and Literature Minor

The **English language and literature minor** provides a foundation in English Language Arts-related topics. It is a general English minor that addresses issues of literary analysis, linguistics, writing instruction, and literature with particular attention to young adult literature. It is especially relevant for students who plan to teach in the middle grades or overseas.

Minor requirements

Writing minor restriction (p. 150)

Total Credits 18

Prerequisites include ENG 110 (<http://catalog.uwlax.edu/search/?P=ENG%20110>) or ENG 112 (<http://catalog.uwlax.edu/search/?P=ENG%20112>); a 200-level English course is also required.

Linguistics Minor

Linguistics is the scientific study of human language. Linguists apply scientific methodology to language with the goal of understanding how human language works – cognitively, biologically, physically, and socially. Even though linguists are scientists of language, language is ultimately a social tool. The linguistics minor bridges the social and cultural aspects of linguistics with the more structural, systematic aspects of the study. Students from a wide variety of majors take linguistics to complement their field of study.

¹ All courses in this category will also satisfy general education requirements.

² Students who are able to demonstrate proficiency in a second language may choose to take a second elective in lieu of the language requirement. Second language proficiency may be demonstrated by one of the following:

- Advanced Placement (AP) world language and culture score of 3 or higher;
- Placement into a 201 level or higher world language course at UWL;

- **For non-native speakers of English:** A score of 70 or higher on the La Crosse Battery;
- **For heritage language speakers:** Consultation with the administrator of the linguistics minor.

³ When appropriately focused.

Additional requirements/restrictions:

- Courses listed in more than one category may be counted only once.
- At least 12 credits must be in courses at or above the 300-level.
- A maximum of six credits are allowed to overlap between general education requirements and the minor.
- Some departments limit the number of credits that their majors or minors may apply to the linguistics minor.
 - **Archaeology/Anthropology majors/minors** may apply a maximum of three credits toward both an archaeology/anthropology major/minor and the linguistics minor.
 - **Communication Studies majors/minors** may apply a maximum of three credits toward both a communication studies major/minor and the linguistics minor.
 - **English majors/minors** may apply a maximum of three credits toward both an English major/minor and the linguistics minor.
 - **Global Cultures and Languages majors/minors** may apply a maximum of three credits toward both a Global Cultures and Languages major/minor and the linguistics minor.
 - **History majors/minors** may apply a maximum of three credits toward both a history major/minor and the linguistics minor.
 - **Philosophy majors/minors** may apply a maximum of three credits toward both a philosophy major/minor and the linguistics minor.
 - **Psychology majors/minors** may apply a maximum of three credits toward both a psychology major/minor and the linguistics minor.
 - **Special education minors** may apply a maximum of three credits toward both a special education minor and the linguistics minor.
 - **Teaching English to speakers of other languages (TESOL) minors** may apply a maximum of six credits toward both a TESOL minor and the linguistics minor: three credits in ENG 331/TSL 340 plus three additional credits.

Literary and Cultural Studies Minor

Literary and cultural studies minors encounter and interpret a variety of texts representing a range of human experience and expression. Students engage in interdisciplinary conversations about complex social structures, individual decisions, and human delights and dilemmas, while gaining transferable skills in writing, critical thinking, and analysis. The minor is a strong complement to major programs leading to a variety of career paths, including medicine, law, human services, business, education, and communication.

ENG 333	Introduction to Writing and Rhetoric Studies	
ENG 497	Seminar in Writing and Rhetoric Studies (max three credits, may not be counted or repeated for dual credit)	
ART 206	Introduction to Digital Art and Design for Non-Art Majors	
CST 360	Public Relations ²	
Total Credits		18

¹ All students must meet with a professional/technical writing advisor prior to enrolling in ENG 450.

² Except for CST majors and professional/organizational communications minors.

English Honors Program

Program

****Program currently not accepting new students.****

1. Admission
 - a. Junior standing
 - b. 12 credits in the major, including one English course numbered 340 or above
 - c. 3.25 cumulative grade point average in the major
 - d. Recommendation of two faculty members in the major
 - e. Submit application form
 - i. academic transcript
 - ii. reasons for wishing to participate
 - iii. signatures of recommending faculty members
2. Program
 - a. Completion of the regular major program
 - b. ENG 403 Individual Projects : 2-3 credits. Registration with consent of regular adviser, instructor, department chair and the dean of the college in which the student is enrolled. Prerequisite: at least 30 credits and excellent grades in English courses.
 - i. Until a greater number of students require more than one section offered more than once a year, ENG 403 will be offered each fall and will be staffed alternately by faculty whose fields of expertise are in American and English literature, with occasional staffing by those who teach world literature.
 - ii. One consulting reader for the paper or project developed in ENG 403 may at times be necessary if the topic is narrowly confined to an esoteric field.
 - c. Reading lists: three lists covering major works in major periods and all appropriate genres in English, American, and world literature each to be compiled by the appropriate literature committee. These are to be the basis for the terminal examination.
 - d. Terminal examinations
 - i. These will be compiled yearly by the instructor responsible for ENG 403.
 - ii. Consultation with experts in given fields may be requested when necessary.
3. Evaluation
 - a. Cumulative 3.50 grade point average at graduation in the major
 - b. Distinguished performance on a paper or project developed in ENG 403
 - c. Presentation of the paper or project to a colloquium of faculty and students in the major
 - d. Superior performance on a terminal examination in analytic skills and knowledge of a chosen period or of a genre across two periods.

Gerontology Program (GTL)

College of Arts, Social Sciences, and Humanities

Coordinators: Ellen Rozek (erozek@uwlax.edu), Ph.D. and Erica Srinivasan (esrinivasan@uwlax.edu), Ph.D. (Psychology)

335 Graff Main Hall; 608.785.8440

www.uwlax.edu/gerontology/ (<https://www.uwlax.edu/gerontology/>)

Program statement

The **gerontology certificate** is a multi-disciplinary program designed to assist students planning to enter career-related areas directly involving older persons. The study of gerontology will also help students prepare for their own aging as well as to develop a better understanding of and to seek enrichment for the lives of aging parents and our aging populations.

Gerontology certificate applicable to college core

If a student declares the gerontology certificate, it will appear on the student's transcript and advisement report. As an undergraduate certificate, gerontology coursework counts toward a student's 120 credits and can overlay with required courses in the major and the minor. In order for gerontology to apply on a college core in place of a minor, the student **must** complete at least 18 credits outside of their major. For College of Arts, Social Sciences, and Humanities students, 12 of the credits must be at the 300/400 level; for BS students from the College of Science and Health, 18 credits at 300/400 level credits; for BA students from the College of Science and Health, 15 credits at 300/400 level.

Gerontology Steering Committee

The Gerontology Steering Committee recommends standards for recognition of undergraduate student work in gerontology including the gerontology certificate. The committee differentiates between coursework that is part of the gerontology core and coursework that is supportive of a certificate in gerontology. The steering committee also approves fieldwork, experimental courses, and independent study as part of student work that meets the requirements of the gerontology certificate. Contact the coordinators for the form that is used to request that the Gerontology Steering Committee approve coursework that is not already described in the following sections about gerontology core or supportive courses.

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Program Coordinators

Coordinators: Ellen Rozek, PhD and Erica Srinivasan, PhD (Psychology)

E-mail: erozek@uwlax.edu or esrinivasan@uwlax.edu

Advisors

Erica Srinivasan (<https://www.uwlax.edu/profile/esrinivasan/>), Psychology

Certificate

- Gerontology certificate (p. 171)

Gerontology Certificate

(All colleges)

12 credits with at least three credits from the core and the remaining credits from the core, supportive courses, or other gerontology-related coursework approved by the Gerontology Steering Committee.

Core

Code	Title	Credits
Select three credits from the following:		3
HED 473	Health Aspects of Aging	
PSY 358	Adulthood	
SOC 303	Generations and Age in the Social World	
Total Credits		3

Supportive courses

Code	Title	Credits
Select at least nine credits from the following:		9
CST 336	Family Communication	
CST 339	Communication and Aging	
CST 354	Health Communication	
ECO 350	Health Economics	
ESS 443	Fitness Across the Lifespan	
HED 320	The U.S. Health Care System	
HED 473	Health Aspects of Aging (if not used in the core)	
PHL 339	Medical Ethics	
PSY 358	Adulthood (if not used in the core)	
PSY 359	Aging and the Elderly	
PSY/SOC 422	Death, Dying, and Bereavement	
PSY 434	Clinical Neuropsychology	
PUB 334	Health Policy	
RTH 229	Diagnostic Groups in Recreational Therapy	
RTH 445	Recreational Therapy for Older Adults	
RTH 480	Leisure Education in Therapeutic Recreation	
SOC 303	Generations and Age in the Social World (if not used in the core)	
SOC 320	Demography	
SOC 325	Sociology of Mental Illness	
SOC 338	Sociological Aspects of Work and Life	
SOC 420	Health Care and Illness	
Total Credits		9

The core courses focus on older adults. Supportive courses do not exclusively focus on older adults but support an improved understanding of older adults. The Gerontology Steering Committee will consider experimental courses, workshops, independent study, and for-credit field experience as part of the core when the course faculty affirm that the course focuses on the lives of older adults or as supportive courses when the course faculty describes how the course indirectly supports learning about the lives of older adults.

Global Cultures and Languages Department (GCL)

College of Arts, Social Sciences, and Humanities

Department Chair: Omar Granados

315 Graff Main Hall; 608.785.8324

Email: ogranados@uwlax.edu

www.uwlax.edu/global-cultures-and-languages (<https://www.uwlax.edu/global-cultures-and-languages/>)

UWL's Department of Global Cultures and Languages is committed to our students' professional and personal growth. We enact this commitment by preparing students to communicate effectively—with cultural sensitivity and awareness—in more than one language. Students and teachers collectively engage with the products, practices, and perspectives of other cultures. By putting such knowledge into practice through applied learning opportunities—such as study abroad experiences, internships, community engagement projects, and teacher education training opportunities—we educate and empower students to employ their learned expertise in culture, language, critical thinking and leadership with an eye towards social justice action in our diverse and ever-changing regional, national, and world communities.

The Department of Global Cultures and Languages offers majors and minors in French, German studies, and Spanish (with education majors for French and Spanish); minors in Chinese studies; certificates in French proficiency, Chinese proficiency, Russian studies, Spanish for business and organizations, and Spanish for the health professions; and courses in Arabic, Japanese, and Hmong.

A student who plans to continue a language already studied in high school must take the UW System Regional Foreign Language Placement Test in order to determine the appropriate course level. French, German, and Spanish placement tests are available. Following the appropriate course placement as indicated by this test should help assure receipt of retroactive credits, but does not guarantee them.

Global Cultures and Languages retroactive credit and advanced placement policy

The Department of Global Cultures and Languages does not offer an exam to establish retroactive credit or advanced placement. Instead, a student may receive retroactive credits provided a grade of "B" or better is earned in the student's first university course above the 101 level in a particular language. However, if a student received college credit for a course taken while still in high school (through advanced placement, Early College Credit Program, or other cooperative agreements between secondary schools and colleges/universities), received a grade of "B" or better (if a grade was given), and did not receive retroactive credits at that time, retroactive credits may be awarded upon completion of the next level course at UW-La Crosse with a grade of "B" or higher. Please consult with the department chair if in doubt about eligibility for retroactive credits.

Retroactive credit may be given in one or more languages. No retroactive credit is given for GER 326 or any course taken in English. The first college level course taken to earn retroactive credits should be one in which several language skills can be evaluated.

- **Elementary Language II (102):**
 - Earns four retroactive credits plus four course credits for a total of eight credits.
 - Elementary French II (102) - earns three retroactive credits plus three course credits for a total of six credits
- **Intermediate Language I (201):**
 - Earns eight retroactive credits plus four course credits for a total of 12 credits.
 - Intermediate French I (201) - earns six retroactive credits plus three course credits for a total of nine credits
- **Intermediate Language II (202/SPA 221):**
 - Earns 12 retroactive credits plus four course credits for a total of 16 credits.
 - Intermediate French II (202) - earns nine retroactive credits plus three course credits for a total of 12 credits

Note: Any advanced course in a specific language (except GER 326) earns 16 retroactive credits plus three course credits for a total of 19 credits. Any advanced course in French earns 12 retroactive credits plus three course credits for a total of 15 credits.

More information about retroactive credit can be found in the undergraduate credit for prior learning policy (p. 38).

Global Cultures and Languages study abroad credit policy

The chair of the Department of Global Cultures and Languages or designee(s) approves equivalencies for university study in other universities, domestic and foreign. Generally speaking, each major language offered in the department rules on which courses taken elsewhere are applicable and how they apply.

Students who choose to study abroad are required to take at least one three-credit course in the world language at UWL after returning from the country of study.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

FRE 430	French Connections	
Total Credits		33

Students may take up to 9 credits abroad as electives for their French major after studying abroad for a period of 12-16 weeks.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 173)
- Baccalaureate degree requirements (p. 174)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
or SPA 221 Introduction to Spanish for the Health Professions		

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their

equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

- Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence.

December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1		
Fall	Credits Spring	Credits
FRE 202	3 FRE 301	3

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 176)
- Baccalaureate degree requirements (p. 176)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. Native speakers of English complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their

equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence.

December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1		
Fall	Credits Spring	Credits
FRE 202	3 ACC 221	3

Total Credits: 120

¹ FRE 395 will satisfy Gen Ed Humanistic Studies requirement.

² FRE 305 and FRE 395 are offered in Fall. FRE 351 and FRE 403 are offered in Spring. Depending on which elective is selected, schedule may need to be rearranged.

French Education (Grades K-12) Major - Bachelor of Science (BS)

Major requirements

Completion of the French Education Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching license:

- French, grades K-12 (1355).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Student all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements be eligible for endorsement for the appropriate teaching license(s). Students majoring in French Education (grades K-12) must meet specific program admission criteria (p. 586).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Beginning language proficiency

All students with French language on their transcripts and/or prior experience in French must take the UW System Placement exam and are required to enroll at their level of placement. Students with no evidence of prior study of French are required to begin French at FRE 101

Curriculum

Required general education courses (6 credits)¹

Besides the courses specified below, French education majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirements>). The General Education Program requires a total of 42 credits.

Code	Title	Credits
EDS 203	School, Society, and Teachers ^{2,4}	3
EDS 206	Multicultural Education ^{3,4}	3
Total Credits		6

¹ Students earning retroactive credits in French may count up to four credits toward the General Education Program requirement: Mathematical/Logical Systems and Modern Languages (GE Category 2).

² Counts toward General Education Program requirement: Self and Society (GE Category 6).

³ Counts toward General Education Program requirement: Minority Cultures or Multiracial Women's Studies (GE Category 3).

Allied course requirements for education majors (9 credits)

EDS 497	Student Teaching: Kindergarten through Grade 12 (K-12)	
EDS 495	Teaching Internship	
Total Credits		30

⁴ Also satisfies an SOE core requirement.

⁵ If not taken in a previous category.

⁶ Must complete all course requirements and other benchmarks prior to student teaching. For more information, please see the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>).

Study abroad requirement

1. All students should consult with their advisor in French regarding specific requirements for study abroad;

2. All French education majors are required to complete an approved foreign language immersion experience of at least 14 weeks (one semester);
3. French education majors are required to complete the 300-level core of courses before studying abroad;
4. Up to 15 credits of the 400-level and the electives categories may be taken abroad with faculty approval;
5. FRE 430 must be taken at UWL (concurrent registration in methods course (GCL 400 or GCL 420) is recommended).

Language proficiency for student teaching requirements

Prior to student teaching, teacher candidates are required to

1. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Oral Proficiency test (ACTFL-OPIC) and
2. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Written Proficiency test in French (ACTFL-WPT internet).

Additional teacher education requirements are listed on the School of Education (p. 582) catalog page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 179)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

The sample plan below is based on a student beginning their French education major by placing into a FRE course at the 300-level and earning 12 retroactive credits. Additional courses may need to be completed, depending on a student's FRE placement and number of retroactive credits earned. Students should consult with their advisor regarding their individual plan of study.

Total Credits: 120

¹ Depending on placement, additional courses may be required to meet the prerequisite for enrollment in FRE 300.

² Students who place into a French course at the 300-level and earn a grade of "B" or better will receive 12 retroactive credits.

³ Students earning retroactive credits in French may count up to four credits towards the General Education Program requirement: Mathematical/Logical Systems and Modern Languages (GE Category 2).

⁴ See the SOE admissions website (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) for complete admission and application details. Students will be required to complete a criminal background check (p. 588) at the time of application for admission.

⁵ Students applying for field and student teaching placements will be asked to disclose any criminal charges (p. 592).

⁶ Students must apply for student teaching (<https://www.uwlax.edu/soe/field-and-student-teaching-experience/for-teacher-candidates/>) through the Office of Field Experience one year prior to the student teaching semester.

⁷ For more information, please see the Student Teaching and Internship Policy (p. 592).

French Education (Grades K-12) and TESOL (Grades K-12) Major - Bachelor of Science (BS)

Major requirements

Completion of the French Education and Teaching English to Speakers of Other Languages Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching licenses:

- French, grades K-12 (1355) and
- English as a Second Language, grades K-12 (ESL, 1395).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in French education (grades K-12) and teaching English to speakers of other languages (grades K-12) must meet specific program admission criteria (p. 586).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Beginning language proficiency

All students with French language on their transcripts and/or prior experience in French must take the UW System Placement exam and are required to enroll at their level of placement. Students with no evidence of prior study of French are required to begin French at FRE 101.

Curriculum

The French Education and Teaching English to Speakers of Other Languages (TESOL) Program is aligned with InTASC Teacher Standards, Wisconsin DPI World Language Standards, and CAEP/TESOL ESL Standards.

Required general education courses (6 credits)¹

Besides the courses specified below, French education and teaching English to speakers of other languages majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirements>). The General Education Program requires a total of 42 credits.

Code	Title	Credits
EDS 203	School, Society, and Teachers ^{2,4}	3

⁴ Also satisfies an SOE core requirement.

⁵ If not taken in a previous category.

⁶ Must complete all course requirements and other benchmarks prior to student teaching. For more information, please see the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>).

Study abroad requirement

1. All students should consult with their advisor in French regarding specific requirements for study abroad;
2. All French education majors are required to complete an approved foreign language immersion experience of at least 14 weeks (one semester);
3. French education majors are required to complete the 300-level core of courses before studying abroad;
4. Up to 15 credits of the 400-level and the electives categories may be taken abroad with faculty approval;

5. FRE 430 must be taken at UWL (concurrent registration in methods course (GCL 400 or GCL 420) is recommended).

Language proficiency for student teaching requirements

Prior to student teaching, teacher candidates are required to

1. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Oral Proficiency test (ACTFL-OPic) and
2. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Written Proficiency test in French (ACTFL-WPT internet).

Additional teacher education requirements are listed on the School of Education (p. 582) catalog page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 182)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

The sample plan below is based on a student beginning their French education major by placing into a FRE course at the 300-level and earning 12 retroactive credits. Additional courses may need to be completed, depending on a student's FRE placement and number of retroactive credits earned. Students should consult with their advisor regarding their individual plan of study.

Year 1	Fall	Credits Spring	Credits

¹ Depending on placement, additional courses may be required to meet the prerequisite for enrollment in FRE 300.

² Students who place into a French course at the 300-level and earn a grade of "B" or better will receive 12 retroactive credits.

³ Students earning retroactive credits in French may count up to four credits towards the General Education Program requirement: Mathematical/Logical Systems and Modern Languages (GE Category 2).

⁴ See the SOE admissions website (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) for complete admission and application details. Students will be required to complete a criminal background check (p. 588) at the time of application for admission.

⁵ Students applying for field and student teaching placements will be asked to disclose any criminal charges (p. 592).

⁶ Students must apply for student teaching (<https://www.uwlax.edu/soe/field-and-student-teaching-experience/for-teacher-candidates/>) through the Office of Field Experience one year prior to the student teaching semester.

⁷ TSL 460 TESOL Field Experience (3 cr.) is only offered in the Winter term.

⁸ For more information, please see the Student Teaching and Internship Policy (p. 592).

German Studies Major - Bachelor of Arts (BA)

Major requirements

(All colleges excluding teacher certification programs)

33 credits above GER 201

Code	Title	Credits
GER 202	German Language and Cultures in Action II	3
Select one of the following in literature:		3
GER 301	An Introduction to German Literature	
GER 403	Studies of German Literature	
Select one of the following in civilization:		3
GER 320	German Civilization: 1870-Reunification	
GER 321	German Civilization: 1989-Present	
Select two of the following in German skills development:		6
GER 300	Advanced German	
GER 311	German Conversation and Composition	
GER 313	German Grammar and Composition	
GER 330	German Conversation and Phonetics	
Advanced electives: select 12 credits of electives in German at the 300/400 level. ¹		12
German studies breadth: select two approved courses in which a significant portion of the course relates to one or more countries in the German-speaking world. These courses may be taught in English.		6
GER 398	German Thinkers and Popular Culture (highly recommended)	
GER 399	German Literature in Translation (highly recommended)	
ANT 196	Introduction to Linguistic Anthropology	
HIS 314	The Holocaust	
HIS 323	The World War II Era	
HIS 346	The Middle Ages	
HIS 352	Germany: 1848-1989	
POL 338	European Government and Politics	
POL 355	Political Ideologies	
ENG 331	Introduction to Linguistics: Sounds and Words	
ENG 356	European Literature in Translation	
Total Credits		33

¹ Excluding GER 398 and GER 399. A maximum of six credits from GER 326, GER 327 and/or GER 328.

It is highly recommended that students complete an approved work or study experience in a German-speaking country.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to

the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 184)
- Baccalaureate degree requirements (p. 184)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	

SPA 202 Spanish Language and Cultures in Action II
or SPA 221 Introduction to Spanish for the Health Professions

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}

5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA¹,² in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

It is highly recommended students complete an approved work or study experience in a German-speaking country. After returning, students are required to complete at least one GER course from UWL. See your German Studies Advisor for details.

- ¹ Prerequisite: GER 202 German Language and Cultures in Action II (3 cr.) or equivalent, or appropriate departmental placement. If student is placed into a 300-level German Studies course, they must earn retro credit in order to satisfy General Education and the CASSH B.A. Core language requirements.
- ² Must be taken from the Gen Ed Math/Lang/Logical Systems category if GER 202 retro credit was not earned. STAT 145 or MTH 175 are recommended.

Spanish Major - Bachelor of Arts (BA)

Overview

Spanish advising

Students should consult with an advisor in the Department of Global Cultures and Languages regarding their individual plan of study. Students planning to pursue graduate studies in Spanish need to be aware of special requirements.

Spanish policy of transfer of study abroad credits

The following policy applies to all Spanish credits taken abroad. Students may transfer the following credits per term from study abroad experiences:

Winter term:
4 weeks: 4-5 credits

Summer term:
4 weeks: 4-5 credits

6 weeks: 6-8 credits
 8 weeks: 8-10 credits
 10 weeks: 8-10 credits

Fall/Spring semester term:

12-16 weeks: 12 credits (Exceptions may be allowed for partner programs.)

In the case of one year study abroad, there is a maximum of 16 credits which students majoring in Spanish can take abroad and apply to the major (nine credits applicable for minors). Credits taken in excess of that can be transferred to UWL as university elective credit.

Global Cultures and Languages study abroad credit policy

The chair of the Department of Global Cultures and Languages or designee(s) approves equivalencies for university study in other universities, domestic and foreign. Generally speaking, each major language offered in the department rules on which courses taken elsewhere are applicable and how they apply.

Students who choose to study abroad are required to take at least one three-credit course in the world language at UWL after returning from the country of study.

Major requirements

(All colleges excluding teacher certification programs)

30-34 credits¹

Beginning language proficiency

All students with Spanish language on their transcripts and/or prior experience in Spanish will take the UW System Placement exam and are required to enroll at their level of placement. Students with no evidence of prior study of Spanish are required to begin Spanish at SPA 103.

Curriculum

Students must complete two linguistics courses (SPA 331-350; SPA 380-399) and two cultural studies courses (SPA 300-320; SPA 351-370) by the time they complete the program.

Code	Title	Credits
Experiences in cultural contexts ¹		
SPA 202 or SPA 221	Spanish Language and Cultures in Action II Introduction to Spanish for the Health Professions	4
Communities: diversity and social responsibility		
Select two writing proficiency courses from the following list:		6
SPA 307	Latin American Texts: Reading Between the Lines	
SPA 309	Spanish Culture Through Art	
SPA 323	Spanish for Heritage Speakers	
SPA 325	Spanish for Professional Communication	
SPA 333	Spanish Beyond the Classroom: Navigating the Personal and Professional World	
SPA 335	Writing to Effect Change: Global and Responsible Citizenship	
Select two oral proficiency courses from the following list:		6
SPA 302	Faces of Spain: Conversation and Culture	
SPA 310	Communities of Resistance in the Spanish-Speaking World	

SPA 312	Cinema and Social Justice in the Spanish-Speaking World	
SPA 322	Spanish for Mental Health Professionals	
SPA 332	Spanish Speakers in the U.S.: Language, Community, (In)justice	
Identities and perspectives ²		
Select 12 credits of the following:		12
SPA 352	Latin American Voices of Revolution	
SPA 353	Perspectives on Contemporary Spain: Culture and Society	
SPA 354	Artistic Expression and Society in the Spanish-Speaking World	
SPA 355	Latinx in the U.S.: Culture and Society	
SPA 369	Topics in Hispanic Cultures

SPA 371	Business Spanish	
SPA 372	Intercultural Medical Experience Abroad/Away	
SPA 380	Spanish Language in Contexts	
SPA 381	The Sounds of Spanish	
SPA 382	Spanish Storytelling	
Human conditions in globalized societies ³		
Select six credits of the following:		6
SPA 403	Studies in Hispanic Literature	
SPA 443	Studies in Hispanic Linguistics	
SPA 450	National/International Intern Program	
Prerequisite courses (dependent upon placement scores) ⁴		
SPA 101 & SPA 102 or SPA 103	Spanish in a Global Society I and Spanish in a Global Society II Spanish in a Global Society I & II	
SPA 201	Spanish Language and Cultures in Action I	
Total Credits		34

- ¹ Students who begin their Spanish major by placing into a SPA course at the 300-level will complete the major with 30 credits instead of 34.
- ² Students may enroll in the "Identities and Perspectives" courses after they have completed nine of the "Communities: Diversity and Social Responsibility" credits required.
- ³ Students may enroll in the "Human Conditions in Globalized Societies" courses after they have completed six of the "Identities and Perspectives" credits required.
- ⁴ Credits do not count toward the major.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 190)
- Baccalaureate degree requirements (p. 190)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their

equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence.

December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits: 120

¹ If a student is placed into a 300-level Spanish course, they must earn retro credit for SPA 202 or SPA 221 in order to satisfy Gen Ed and the CASSH B.A. Core language requirements.

² Must be taken from the General Education: Math/Language/Logical Systems category if retro credit for SPA 202 or SPA 221 was not earned.

³ Students may enroll in the "Identities and Perspectives" courses once they have completed nine of the "Communities: Diversity and Social Responsibility" credits required.

⁴ Students may enroll in the "Human Conditions in Globalized Societies" courses once they have completed six of the "Identities and Perspectives" credits required.

Spanish Education Major (Grades K-12) - Bachelor of Science (BS)

Spanish advising

Students should consult with an advisor in the Department of Global Cultures and Languages regarding their individual plan of study. Students planning to pursue graduate studies in Spanish need to be aware of special requirements.

Spanish policy of transfer of study abroad credits

The following policy applies to all Spanish credits taken abroad. Students may transfer the following credits per term from study abroad experiences:

Winter term:

4 weeks: 4-5 credits

Summer term:

4 weeks: 4-5 credits

6 weeks: 6-8 credits

8 weeks: 8-10 credits

10 weeks: 8-10 credits

Fall/Spring semester term:

12-16 weeks: 12 credits (Exceptions may be allowed for partner programs.)

In the case of one year study abroad, there is a maximum of 16 credits which students majoring in Spanish can take abroad and apply to the major (nine credits applicable for minors). Credits taken in excess of that can be transferred to UWL as university elective credit.

Global Cultures and Languages study abroad credit policy

The chair of the Department of Global Cultures and Languages or designee(s) approves equivalencies for university study in other universities, domestic and foreign. Generally speaking, each major language offered in the department rules on which courses taken elsewhere are applicable and how they apply.

Students who choose to study abroad are required to take at least one three-credit course in the world language at UWL after returning from the country of study.

Major requirements

Completion of the Spanish Education Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching license:

- Spanish, grades K-12 (1365).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in Spanish education (grades K-12) must meet specific program admission criteria (p. 586).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described

on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Beginning language proficiency

All students with Spanish language on their transcripts and/or prior experience in Spanish must take the UW System Placement exam and are required to enroll at their level of placement. Students with no evidence of prior study of Spanish are required to begin Spanish at SPA 103.

Curriculum

Required general education courses (6 credits)¹

Besides the following courses, Spanish education majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirements>). The General Education Program requires a total of 42 credits.

Code	Title	Credits
EDS 203	School, Society, and Teachers ^{2,4}	3
EDS 206	Multicultural Education ^{3,4}	3
Total Credits		6

¹ Students earning retroactive credits in Spanish may count up to four credits toward the General Education Program requirement: Mathematical/Logical Systems and Modern Languages (GE Category 2).

² Counts toward General Education Program requirement: Self and Society (GE Category 6).

³ Counts toward General Education Program requirement: Minority Cultures or Multiracial Women's Studies (GE Category 3).

⁴ Also satisfies an SOE core requirement.

⁵ Students may enroll in the "Identities and Perspectives" courses after they have completed nine of the "Communities: Diversity and Social Responsibility" credits required.

⁶ Students may enroll in "Human Conditions in Globalized Societies" courses after they have completed six of the "Identities and Perspectives" credits required.

⁷ Must complete all course requirements and other benchmarks prior to student teaching. For more information, please see the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>).

Study abroad requirement

1. All students should consult with their advisor in Spanish regarding specific requirements for study abroad;
2. All Spanish education majors are required to complete an approved language immersion experience of at least 14 weeks (one semester);
3. Students are required to complete the 12 credit core of courses before studying abroad;
4. Spanish education majors may take up to six credits of the Level IV and V category abroad. Consult with Spanish advisor for applicability.

Language proficiency for student teaching requirements

Prior to student teaching, teacher candidates are required to

1. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Oral Proficiency test in Spanish (ACTFL-OPic) and
2. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Written Proficiency test in Spanish (ACTFL-WPT internet).

Additional teacher education requirements are listed on the School of Education (p. 582) catalog page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 193)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence.

December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- ¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- ² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

The sample plan below is based on a student beginning their Spanish education major by placing into a SPA course at the 300-level and earning 16 retroactive credits. Additional courses may need to be completed, depending on a student's SPA placement and number of retroactive credits earned. Students should consult with their advisor regarding their individual plan of study.

- ¹ Depending on placement, additional courses may be required to meet the prerequisite for enrollment in a SPA 300-level course.
- ² Students who place into a Spanish 300-level course and earn a grade of "B" or better will receive 16 retroactive credits.
- ³ Students earning retroactive credits in Spanish may count up to four credits towards the General Education Program requirement: Mathematical/Logical Systems and Modern Languages (GE Category 2).
- ⁴ See the SOE admissions website for complete admission and application details. Students will be required to complete a criminal background check at the time of application for admission.
- ⁵ Students applying for field and student teaching placements will be asked to disclose any criminal charges.

⁶ Students must apply for student teaching through the Office of Field Experience one year prior to the student teaching semester.

⁷ For more information, please see the Student Teaching and Internship Policy.

Spanish Education (Grades K-12) and TESOL (Grades K-12) Major - Bachelor of Science (BS)

Spanish advising

Students should consult with an advisor in the Department of Global Cultures and Languages regarding their individual plan of study. Students planning to pursue graduate studies in Spanish need to be aware of special requirements.

Spanish policy of transfer of study abroad credits

The following policy applies to all Spanish credits taken abroad. Students may transfer the following credits per term from study abroad experiences:

Winter term:

4 weeks: 4-5 credits

Summer term:

4 weeks: 4-5 credits

6 weeks: 6-8 credits

8 weeks: 8-10 credits

10 weeks: 8-10 credits

Fall/Spring semester term:

12-16 weeks: 12 credits (Exceptions may be allowed for partner programs.)

In the case of one year study abroad, there is a maximum of 16 credits which students majoring in Spanish can take abroad and apply to the major (nine credits applicable for minors). Credits taken in excess of that can be transferred to UWL as university elective credit.

Global Cultures and Languages study abroad credit policy

The chair of the Department of Global Cultures and Languages or designee(s) approves equivalencies for university study in other universities, domestic and foreign. Generally speaking, each major language offered in the department rules on which courses taken elsewhere are applicable and how they apply.

Students who choose to study abroad are required to take at least one three-credit course in the world language at UWL after returning from the country of study.

Major requirements

Completion of the Spanish Education and Teaching English to Speakers of Other Languages Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching licenses:

- Spanish, grades K-12 (1365) and
- English as a Second Language, grades K-12 (ESL, 1395).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in Spanish education (grades K-12) and teaching English to speakers of other languages (grades K-12) must meet specific program admission criteria (p. 586).

Retention and advancement

Teacher candidates may be retained in their teacher education program providing they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Beginning language proficiency

All students with Spanish language on their transcripts and/or prior experience in Spanish must take the UW System Placement exam and are required to enroll at their level of placement. Students with no evidence of prior study of Spanish are required to begin Spanish at SPA 103

Curriculum

The Spanish Education and Teaching English to Speakers of Other Languages (TESOL) Program is aligned with InTASC Teacher Standards, Wisconsin DPI World Language Standards, and CAEP/TESOL ESL Standards.

Required general education courses (6 credits) ¹

Besides the courses specified below, Spanish education and teaching English to speakers of other languages majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirements>). The General Education Program requires a total of 42 credits.

Code	Title	Credits
EDS 203	School, Society, and Teachers ^{2, 4}	3
EDS 206	Multicultural Education ^{3, 4}	3
Total Credits		6

¹ Students earning retroactive credits in Spanish may count up to four credits toward the General Education Program requirement: Mathematical/Logical Systems and Modern Languages (GE Category 2).

² Counts toward General Education Program requirement: Self and Society (GE Category 6).

³ Counts toward General Education Program requirement: Minority Cultures or Multiracial Women's Studies (GE Category 3).

Allied course requirements for language education majors (9 credits)

TSL 460	TESOL Field Experience (Taken during winter intersession study abroad in Puerto Rico.)	
Total Credits		10-12

⁴ Also satisfies an SOE core requirement.

⁵ Students may enroll in the "Identities and Perspectives" courses after they have completed nine of the "Communities: Diversity and Social Responsibility" credits required.

⁶ Students may enroll in "Human Conditions in Globalized Societies" courses after they have completed six of the "Identities and Perspectives" credits required.

⁷ Must complete all course requirements and other benchmarks prior to student teaching. For more information, please see the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>).

Study abroad requirement

1. All students should consult with their advisor in Spanish regarding specific requirements for study abroad;
2. All Spanish education and TESOL majors are required to complete an approved language immersion experience of at least 14 weeks (one semester);
3. Students are required to complete the 12 credit core of courses before studying abroad;
4. Spanish education and TESOL may take up to six credits of the Level IV and V category abroad. Consult with Spanish advisor for applicability.

Language proficiency for student teaching requirements

Prior to student teaching, teacher candidates are required to:

1. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Oral Proficiency test in Spanish (ACTFL-OPIc) and
2. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Written Proficiency test in Spanish (ACTFL-WPT internet).

Additional teacher education requirements are listed on the School of Education (p. 582) page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 197)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

The sample plan below is based on a student beginning their Spanish education major by placing into a SPA course at the 300-level and earning 16 retroactive credits. Additional courses may need to be completed, depending on a student's SPA placement and number of retroactive credits earned. Students should consult with their advisor regarding their individual plan of study.

Year 1	Fall	Credits Spring	Credits

GER 321	German Civilization: 1989-Present	
Select two of the following in German skills development:		6
GER 300	Advanced German	
GER 311	German Conversation and Composition	
GER 313	German Grammar and Composition	
GER 330	German Conversation and Phonetics	
Select 3 credits of electives in German at the 300/400 level: ¹		3
Total Credits		18

¹ A maximum of six credits from GER 326, GER 327, and/or GER 328.

Spanish Minor

Spanish advising

Students should consult with an advisor in the Department of Global Cultures and Languages regarding their individual plan of study. Students planning to pursue graduate studies in Spanish need to be aware of special requirements.

Spanish policy of transfer of study abroad credits

The following policy applies to all Spanish credits taken abroad. Students may transfer the following credits per term from study abroad experiences:

Winter term:

4 weeks: 4-5 credits

Summer term:

4 weeks: 4-5 credits

6 weeks: 6-8 credits

8 weeks: 8-10 credits

10 weeks: 8-10 credits

Fall/Spring semester term:

12-16 weeks: 12 credits (Exceptions may be allowed for partner programs.)

In the case of one year study abroad, there is a maximum of 16 credits which students majoring in Spanish can take abroad and apply to the major (nine credits applicable for minors). Credits taken in excess of that can be transferred to UWL as university elective credit.

Minor requirements

(All colleges)

21-25 credits¹

Beginning language proficiency

All students with Spanish language on their transcripts and/or prior experience in Spanish will take the UW System Placement exam and are required to enroll at their level of placement. Students with no evidence of prior study of Spanish are required to begin Spanish at SPA 103.

Curriculum

Students must complete two linguistics courses (SPA 331-350; SPA 380-399) and two cultural studies courses (SPA 300-320; SPA 351-370) by the time they complete the program.

Code	Title	Credits
Experiences in cultural contexts ¹		
SPA 202	Spanish Language and Cultures in Action II	4

¹ Students who begin their Spanish major by placing into a SPA course at the 300-level will complete the certificate with 15 credits instead of 16.

² Students must complete nine credits of courses numbered 300-350 before enrolling in SPA 370.

³ Students who place into SPA 202/SPA 221 should take SPA 221 as the first course of the certificate.

⁴ Credits do not count toward certificate. Students may earn retroactive credit for these courses. See the Global Cultures and Languages Department's placement exams and retroactive credit (<https://www.uwlax.edu/global-cultures-and-languages/resources-for-students/placement-exams/#tm-spanish>) website or more information.

Alvida Ahlstrom Honors Program

Program

1. Admission
 - a. Junior standing
 - b. 3.60 in French, German or Spanish course work at the 300 or 400 level
2. Program
 - a. Completion of the regular major or minor requirements
 - b. Three additional credits of literature or civilization at the 300 or 400 level
 - c. Department approval of seminar paper or project; submission of completed paper to the department
3. Evaluation
 - a. A cumulative 3.60 grade point average in the major or minor at graduation
 - b. Distinguished performance on a paper or project developed in the French, Spanish, or German seminar course.
 - c. Approval by the departmental staff.

History Department (HIS)

College of Arts, Social Sciences, and Humanities

Our mission

The mission of the UW-La Crosse Department of History is to provide leadership in history education and scholarship. We provide our students with a solid foundation in the critical thinking and analytical skills necessary for interpreting documents and historical research. We develop historical understanding and global perspective through courses in the university's general education program and a balanced world history curriculum, strengthened by faculty specialties in a wide range of time periods, cultures, geographical areas, and thematic approaches. Our public history program develops analytical and interpretive skills through a curriculum focusing on material culture studies, oral history, cultural resource management, and community studies. Our programs prepare students for opportunities in fields such as teacher education, editing, archives and museum studies, as well as for careers in law and government. Finally, we serve the community by sharing our expertise when issues of historical importance engage the public's interest.

Courses numbered HIS 100-299 are primarily for first years and sophomores. Courses numbered HIS 300-499 are open to sophomores, juniors, seniors, and to those first years who have appropriate general education background.

Advanced placement

Advanced placement exams to earn credit are available in American history or European history as developed and administered by the Educational Testing Services (ETS), Princeton, New Jersey. Information is available from the department chair.

A degree in history: B.A. or B.S.?

Along with choosing a major program in history, you will need to choose the degree – that is, whether that major is a Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. We can broadly describe the differences between the two; specific and up-to-date requirements are on the major and degree requirements tabs above.

With the B.A., you spend up to two years learning a world language; with the B.S., you conduct additional coursework in the sciences. This is an important decision with long-term implications. Think about the following:

- Will you have the language skills to succeed in the workplace?
- Do you see yourself living in a major metropolitan area where business and public affairs are regularly conducted in languages other than English?
- Are you thinking about graduate studies in history? Most Ph.D. programs require the ability to read in at least one language other than English.
- Are you considering international journalism or business?
- Do you already have, or plan to take, additional courses in the sciences that might not count towards a B.A.?
- Are your interests in history linked to scientific, medical, or technological issues?
- Will you work in the public sector, in education or health?

For many outcomes, it is likely that you will need to work in a language other than English to succeed. UWL offers training in Chinese, French, German, Spanish, Russian and other world languages. Explore the options! If you have already completed language training in high school, you may already be ahead of the game. See the Department of Global Cultures and Languages for additional information on this topic. For the B.A., you will need to complete the equivalent of two years of training in a world language. For the B.S., you will need to complete one additional course related to the sciences, and also a research-emphasis course or sequence of courses in the major. For history, this is HIS 490.

Regardless of whether you complete the B.A. or B.S. degree, you will still need to decide on your major.

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Majors

- History major with regional emphasis - BA (p. 203)
- History major with regional emphasis - BS (p. 207)
- History major with topical emphasis - BA (p. 210)
- History major with topical emphasis - BS (p. 214)
- History major with world history emphasis - BA (p. 219)
- History major with world history emphasis - BS (p. 223)

Minors

- History minor (p. 226)

History Major with Regional Emphasis - Bachelor of Arts (BA)

The **regional emphasis history major** allows students to specialize in one region or time period from history, while still accumulating a broad foundation in the survey-level and professionalizing courses that make up the core history experience. In this regional emphasis, students can take 12 credits from one region: Africa and African Diaspora, Asia, Europe, Latin America, Middle East, or United States.

Courses for each region

All faculty in the department teach courses that satisfy the requirements in the regional emphasis. Consult the major requirements tab for this major to see which courses count for which region.

Major requirements

(All colleges, excluding teacher certification programs)

40 credits

Code	Title	Credits
Core requirements		
HIS 200	Historiography and Historical Methods	3
HIS 490	History Research Seminar	4
Select nine credits of the following:		9
HIS 210	Survey of the United States	
HIS 220	Survey of Latin American and Latino History	

HIS 230 Survey of Ancient and Medieval Worlds

HIS 240 Survey of Europe

HIS 250 Survey of Asia

HIS 260 Survey of the Middle East

HIS 280 Survey of the History of Modern Science

HIS 285 Survey of Modern Africa

Electives (24 credits total) ¹

Regional emphasis 12

Select 12 credits from one of the regions below, with no more than three of the credits coming from outside the department.

Global-transregional/religions 6

Select six credits from the global-transregional/religions courses listed below.

Additional electives 6

Select six credits of electives from any 200, 300, or 400-level HIS courses.

Total Credits 40

¹ The 400-level elective HIS courses have the same workload and expectations as 300-level HIS courses, and are open to all juniors, seniors, and sophomores with appropriate preparation.

Regional emphasis electives

Select 12 credits from one region.

Total Credits: 6**Degree requirements**

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to

the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 205)
- Baccalaureate degree requirements (p. 205)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	

SPA 202 Spanish Language and Cultures in Action II
or SPA 221 Introduction to Spanish for the Health Professions

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}

5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA¹,² in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1		
Fall	Credits Spring	Credits
HIS 110 (Gen Ed World History)	3 ENG 110 or 112 (Gen Ed Literacy - Written)	3

At least two courses must be designed as writing emphasis.

¹ CASSH Core Humanities and Fine Arts Tracks require 102+ level language. CASSH Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

² Complete 12 credits from one region: Africa and African Diaspora, Asia, Europe, Latin America, Middle East, or United States.

History Major with Regional Emphasis - Bachelor of Science (BS)

The **regional emphasis history major** allows students to specialize in one region or time period from history, while still accumulating a broad foundation in the survey-level and professionalizing courses that make up the core history experience. In this regional emphasis, students can take 12 credits from one region: Africa and African Diaspora, Asia, Europe, Latin America, Middle East, or United States.

Courses for each region

All faculty in the department teach courses that satisfy the requirements in the regional emphasis. Consult the major requirements tab for this major to see which courses count for which region.

Total Credits: 6**Degree requirements**

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 208)
- Baccalaureate degree requirements (p. 209)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.

- At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
- Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlab.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

- A lab science course (from the general education list); and
- A social science course; and
- Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
- One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence.

December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlab.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlab.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ Complete 12 credits from one region: Africa and African Diaspora, Asia, Europe, Latin America, Middle East, or United States.

History Major with Topical Emphasis - Bachelor of Arts (BA)

What is a topical emphasis in cultural and social history?

Students in UW-La Crosse History Department's **history major with topical emphasis in cultural and social history** will study the history of cultural and social forces embodied in movements and organizations; art, literature, and film; areas of human experience including apparel, architecture, and culinary practices; and the various commercial media inundating our daily lives. Our students will learn how social and cultural phenomena have historically affected and structured our material and intellectual environment in connection with ethical concerns involving political and economic questions.

In general, the History Department's cultural and social history emphasis will help students develop and make tangible the kinds of relatively intangible skills prospective employers and professional and graduate school admissions committees will value: problem solving, analytical and creative thinking, research skills, the ability to express oneself

and one's thoughts clearly and persuasively both verbally and in writing, intercultural communication skills, and the capacity to address immediate concerns with the kind of "big picture" perspective that a historically grounded education provides.

The History Department will particularly encourage students in topical emphases to apply for and undertake internships with organizations and businesses related to individual students' interests, concerns, and plans. Our faculty will work with students, helping to place them in intern positions that will be of genuine value with respect to their intellectual and professional development. Internships along these lines will help students get their "foot in the door" in areas of prospective post-graduation employment and professional development.

What really sets apart the three new topical emphases including cultural and social history is that faculty will work with students to produce portfolios packaging and showcasing the aptitudes and skills they develop over the courses of their undergraduate education. To some, abilities obtained and developed through a traditional liberal education, such as analytical and creative thinking, may seem abstract and without specific content, being notoriously difficult to measure and assess through means such as standardized testing. However, cultural and social history students' portfolios are where their skills, aptitudes, and abilities will become manifestly palpable and concrete.

What is a topical emphasis in public and policy history?

A **topical emphasis in public and policy history** refers to scholarly work that seeks out audiences beyond the classroom and the academic journal. While professional historians may study a vast array of time periods, peoples, and topics, public and policy history is distinct in that it seeks to spread that research to broader audiences, and also to take as its subject of study those attempts to connect history to the people. Public history might include museums and memorials, oral history and landmarks, interpretive signage and educational outreach, heritage and cultural institutions. Policy history could be described as the study of past decision making or government institutions, with an intended audience of present-day representatives from those same groups, and might include topics or audiences in state legislatures or county government, prisons and courts, government social or environmental agencies, or the like.

What is a topical emphasis in religious studies?

Students in the UWL History Department's **history major with topical emphasis in religious studies** will have an opportunity to study the fascinating phenomenon of religion from a variety of disciplinary perspectives with course offerings in the Departments of History, Philosophy, Sociology and Criminal Justice, Archaeology and Anthropology, and Race, Gender, and Sexuality Studies. The religious studies emphasis challenges students to question common stereotypes about religion and religious people, to become aware of the multiple roles and functions religion plays in human cultural life, and to both critically scrutinize and emphatically understand the rationales that have shaped the wide variety of religious world views, behaviors, and experiences that humans have used in the course of constructing, maintaining, and inhabiting their cultural worlds. In these ways, the religious studies emphasis sharpens students' awareness of and understanding of human cultural diversity and prepares them for responsible global citizenship in a religiously pluralistic world.

Major requirements

Writing portfolio requirement

To be certified for graduation in the history major with topical emphasis, students must submit and have approved a portfolio of professional writing especially geared towards their intended career path. Students must submit writing portfolios by the middle of the semester in which they intend to graduate. Specific deadlines, item requirements, and submission directions are posted on the department website. The list of required material will be different for each of the emphases. The submitted portfolio may include items of coursework completed during the student's undergraduate career, but might also require the production of additional materials. The materials might include a curriculum vitae or résumé, grant applications, a document written for a public audience, a sample of academic writing, or cover letters for job applications.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 212)
- Baccalaureate degree requirement (p. 213)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the

content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some plan courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ **CASSH Core Humanities and Fine Arts Tracks** require 102+ level language. **CASSH Core Language Track** requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

² Complete 18 credits from one of the following three emphasis areas (with no more than six of the 18 credits coming from disciplines outside the Department of History): cultural and social history; public and policy history; or religious studies.

³ Complete six credits from the following Regional/World Cultural Zones: Africa and African Diaspora, Asia, Europe, Latin America, or Middle East.

A writing portfolio is required.

At least two courses must be designed as writing emphasis.

History Major with Topical Emphasis - Bachelor of Science (BS)

What is a topical emphasis in cultural and social history?

Students in UW-La Crosse History Department's **history major with topical emphasis in cultural and social history** will study the history of cultural and social forces embodied in movements and organizations;

art, literature, and film; areas of human experience including apparel, architecture, and culinary practices; and the various commercial media inundating our daily lives. Our students will learn how social and cultural phenomena have historically affected and structured our material and intellectual environment in connection with ethical concerns involving political and economic questions.

In general, the History Department's cultural and social history emphasis will help students develop and make tangible the kinds of relatively intangible skills prospective employers and professional and graduate school admissions committees will value: problem solving, analytical and creative thinking, research skills, the ability to express oneself and one's thoughts clearly and persuasively both verbally and in writing, intercultural communication skills, and the capacity to address immediate concerns with the kind of "big picture" perspective that a historically grounded education provides.

The History Department will particularly encourage students in topical emphases to apply for and undertake internships with organizations and businesses related to individual students' interests, concerns, and plans. Our faculty will work with students, helping to place them in intern positions that will be of genuine value with respect to their intellectual and professional development. Internships along these lines will help students get their "foot in the door" in areas of prospective post-graduation employment and professional development.

What really sets apart the three new topical emphases including cultural and social history is that faculty will work with students to produce portfolios packaging and showcasing the aptitudes and skills they develop over the courses of their undergraduate education. To some, abilities obtained and developed through a traditional liberal education, such as analytical and creative thinking, may seem abstract and without specific content, being notoriously difficult to measure and assess through means such as standardized testing. However, cultural and social history students' portfolios are where their skills, aptitudes, and abilities will become manifestly palpable and concrete.

What is a topical emphasis in public and policy history?

A **topical emphasis in public and policy history** refers to scholarly work that seeks out audiences beyond the classroom and the academic journal. While professional historians may study a vast array of time periods, peoples, and topics, public and policy history is distinct in that it seeks to spread that research to broader audiences, and also to take as its subject of study those attempts to connect history to the people. Public history might include museums and memorials, oral history and landmarks, interpretive signage and educational outreach, heritage and cultural institutions. Policy history could be described as the study of past decision making or government institutions, with an intended audience of present-day representatives from those same groups, and might include topics or audiences in state legislatures or county government, prisons and courts, government social or environmental agencies, or the like.

What is a topical emphasis in religious studies?

Students in the UW-L History Department's **history major with topical emphasis in religious studies** will have an opportunity to study the fascinating phenomenon of religion from a variety of disciplinary perspectives with course offerings in the Departments of History, Philosophy, Sociology and Criminal Justice, Archaeology and Anthropology, and Race, Gender, and Sexuality Studies. The religious studies emphasis challenges students to question common stereotypes

about religion and religious people, to become aware of the multiple roles and functions religion plays in human cultural life, and to both critically scrutinize and emphatically understand the rationales that have shaped the wide variety of religious world views, behaviors, and experiences that humans have used in the course of constructing, maintaining, and inhabiting their cultural worlds. In these ways, the religious studies emphasis sharpens students' awareness of and understanding of human cultural diversity and prepares them for responsible global citizenship in a religiously pluralistic world.

Major requirements

(All colleges, excluding teacher certification programs)

40 credits

Code	Title	Credits
Core requirements		
HIS 200	Historiography and Historical Methods	3
HIS 490	History Research Seminar	4
Select nine credits of the following:		9

Total Credits: 6

Writing portfolio requirement

To be certified for graduation in the history major with topical emphasis, students must submit and have approved a portfolio of professional writing especially geared towards their intended career path. Students must submit writing portfolios by the middle of the semester in which they intend to graduate. Specific deadlines, item requirements, and submission directions are posted on the department website. The list of required material will be different for each of the emphases. The submitted portfolio may include items of coursework completed during the student's undergraduate career, but might also require the production of additional materials. The materials might include a curriculum vitae or résumé, grant applications, a document written for a public audience, a sample of academic writing, or cover letters for job applications.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 217)
- Baccalaureate degree requirements (p. 218)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any

college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or

recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits: 120

¹ Complete 18 credits from one of the following three emphasis areas (with no more than six of the 18 credits coming from disciplines outside the Department of History): cultural and social history; public and policy history; or religious studies.

² Complete six credits from the following Regional/World Cultural Zones: Africa and African Diaspora, Asia, Europe, Latin America, or Middle East.

A writing portfolio is required.

At least two courses must be designed as writing emphasis.

History Major with World History Emphasis - Bachelor of Arts (BA)

The **history major with a world history emphasis** is the most comprehensive of the history majors, with requirements that diversify the degree to cover as much of the world as can be done in a 40-credit undergraduate degree. Like all majors, this one requires the completion of two courses unique to history students (HIS 200 and HIS 490), and then three courses from the 200-level surveys of regional history.

Along with that foundation, the world history major requires the completion of the following: two courses on U.S. history; one course on global-transregional history; one course each on Asia and Europe; one course from two of the following subcategories: Africa, Latin America, Middle East; and one course on ancient/classical or religious studies.

Major requirements

(All colleges, excluding teacher certification programs)

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 221)
- Baccalaureate degree requirements (p. 222)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare **ONE** of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must

be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general

education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ **CASSH Core Humanities and Fine Arts Tracks** require 102+ level language. **CASSH Core Language Track** requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

² World history majors need 12 credits of Regional/World Cultural Zones. One course from Asia; one course from Europe; select one course from two of the following subcategories: Africa and African Diaspora, Latin America, and Middle East.

At least two courses must be designed as writing emphasis.

History Major with World History Emphasis - Bachelor of Science (BS)

The **history major with a world history emphasis** is the most comprehensive of the history majors, with requirements that diversify the degree to cover as much of the world as can be done in a 40-credit undergraduate degree. Like all majors, this one requires the completion of two courses unique to history students (HIS 200 and HIS 490), and then three courses from the 200-level surveys of regional history.

Along with that foundation, the world history major requires the completion of the following: two courses on U.S. history; one course on global-transregional history; one course each on Asia and Europe; one course from two of the following subcategories: Africa, Latin America, Middle East; and one course on ancient/classical or religious studies.

Major requirements

(All colleges, excluding teacher certification programs)

40 credits

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 225)
- Baccalaureate degree requirements (p. 225)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ The 400-level elective HIS courses have the same workload and expectations as 300-level HIS courses, and are open to all juniors, seniors, and sophomores with appropriate preparation.

International and Global Studies Program

College of Arts, Social Sciences, and Humanities

Program Director: Gita V. Pai

403L Wimberly Hall, 608.785.8352

Email: gpai@uwlax.edu

www.uwlax.edu/international-and-global-studies/ (<https://www.uwlax.edu/international-and-global-studies/>)

Program mission

The International and Global Studies Program provides students with a quality interdisciplinary and multidisciplinary undergraduate education that encourages them to think beyond boundaries and examine a broad array of cultural, economic, environmental, geographic, historical, natural, political and social interactions and relationships that shape our world.

The International and Global Studies Program also provides members of the campus community with opportunities to connect theory and practice through outreach programs, engaged scholarship, and the promotion of activities that examine connections between the local and the global, and to engage in opportunities that explore the world.

Minor

- International and global studies minor (p. 227)

International and Global Studies Minor

The **international and global studies minor** offers an array of elective courses which focus on global or international phenomena that may also have local implications, compare subjects across many regions of the world, develop skills and abilities for meaningful cross-cultural and transnational interactions, and more.

Minor requirements

(All colleges)

18 credits, at least 9 credits of which must be at the 300/400 level.

Code	Title	Credits
Foundation courses:		
Select one of the following:		3
ANT 202/GEO 202/HIS 202/POL 202/SOC 202 Contemporary Global Issues		
ANT 212/ECO 212/ENG 212/PHL 212/POL 212 Search for Economic Justice		
Required capstone course:		3
INS 494	Engaging Global Challenges and Opportunities	
Electives:		
Select an additional twelve credits of electives from at least three different departments. At least six of these credits must be at the 300/400 level.		12
Total Credits		18

International and global studies minors may apply a maximum of six credits from another major.

A maximum of six credits are allowed to overlap between general education requirements and the minor.

Latina/o and Latin American Studies

College of Arts, Social Sciences, and Humanities

Institute Director: Omar Granados

311B Graff Main Hall, 608.785.5243

Institute office: 315 Graff Main Hall

E-mail: ogranados@uwlax.edu

Institute for Latina/o and Latin American Studies

Since its creation in 1974, the Institute for Latin American and Latino/a Studies (<https://www.uwlax.edu/center/latin-american-studies/>) (ILLAS) has provided leadership and support to a community of faculty, staff and students working on Latin American and Latino/a Studies at UWL. ILLAS functions as a liaison between UW-La Crosse specialists and the University of Wisconsin System, mainly through the Center for Latin American and Caribbean Studies at the University of Wisconsin-Milwaukee. Our institute supports professional development

opportunities for faculty and students, as well as interdisciplinary work towards the development of new courses in Latin American and Latino/a studies on our campus.

ILLAS organizes academic and cultural programming such as Hispanic Heritage Month, the Annual Latin American Film Festival, and other speaker series and professional conferences, such as the annual La Crosse Area Latina/o Collaborative Workshop on Teaching, Service, and Research. Our institute collaborates with the UWL Office of Multicultural Student Services, the Office of International Education and Engagement, the McNair Scholars Program, the UW-La Crosse Institute for Social Justice, the Office of Admissions and the Latin American Student Organization (LASO) to recruit, retain, and mentor students, strengthening a culture of engagement and belonging among Hispanic, Latino/a, and Spanish heritage speaker students at UWL.

ILLAS community outreach has a strong focus on equity. The institute works with various community organizations, institutions and schools in areas with large populations of Hispanic and Latino/a immigrants such as Arcadia and Norwalk. ILLAS provides community engagement opportunities for UWL faculty and students, and supports working class and immigrant communities in Wisconsin through local programs. As one of the university's primary promoters of internationalization, ILLAS collaborates with peer institutions and centers across the United States and Latin America to support study abroad and study away opportunities for UWL faculty and students. The institute is currently housed in the Department of Global Cultures and Languages.

Liberal Studies Program (LS)

Email: rotc@uwlax.edu

www.uwlax.edu/rotc (<http://www.uwlax.edu/rotc/>)

The Department of Military Science, through the Army's Reserve Officers' Training Corps (ROTC), offers students an opportunity to receive a commission as a Second Lieutenant in the Regular Army, Army Reserve, or National Guard. Upon completion of the Military Science and Leadership program, the student will have acquired skills in leadership, management, problem solving, and decision making, which will facilitate the transition to a civilian career, while serving in the Army Reserve or National Guard, or military career in the Regular Army. Courses and training are conducted on the campus, in the local area or at military training facilities. The Military Science and Leadership Program is divided into basic course and advanced course requirements as outlined below.

ROTC basic and advanced courses (p. 229)
(p. 229)

Internships

Army ROTC Basic Course (no service obligation incurred)

The Army ROTC Basic Course consists of two first year-level courses (MS 101 Introduction to the Army and MS 102 Foundations of Agile and Adaptive Leadership in the Army) and two sophomore-level courses (MS 201 Leadership and Decision Making and MS 202 Army Doctrine and Team Development); the four courses total eight credits. The first year courses focus on the introduction to the Army profession and officership. The sophomore courses focus on the experiential examination of leadership, decision-making, and group dynamics. By the end of the Army ROTC Basic Course, students will possess a basic understanding of the unique aspects of the officer corps, fundamentals of leadership and decision-making, the Army's institutional values, and principles of individual fitness and healthy lifestyles. All basic course lessons emphasize student classroom practical exercises, inspire intellectual curiosity, and stimulate self-study.

Army ROTC Advanced Course

The Army ROTC Advanced Course consists of three distinct components: The leadership and decision-making training of the MS III, or junior year; the Advanced Camp; and lessons that guide the student in a transition from Cadet to Army officer during the MS IV, or senior year. Advanced Course lessons are carefully sequenced, linked, and progressive in their treatment of key officer knowledge and competencies. The ROTC Advanced Course consists of 15 credit hours, acquired through MS 301 Training Management and the Warfighting Functions, MS 302 Applied Leadership in Small Unit Operations, MS 401 The Army Officer, MS 402 American Military History, and MS 403 Company Grade Leadership as described below. The prerequisite for the ROTC Advanced Course is the ROTC Basic Course. This requirement can also be fulfilled by attending an ROTC internship known as the Basic Camp. Additionally, basic course requirements are automatically met by veterans, Army Reservists, and National Guardsmen now enrolled in school who possess a minimum of 54 credit hours and have graduated from a basic training course from any of the armed services.

Internships

The military science department offers two types of internships that may, upon mutual agreement between the student's college and the professor of military science, fulfill other academic internship requirements.

Leadership Internship (no military obligation incurred)

The Basic Camp is a paid, no obligation, four-week course held at Fort Knox, KY. This internship is high adventure, activity-based training that develops leadership, decision-making, and management skills. This internship is available to any sophomore or junior with four semesters of undergraduate study remaining, provided they have not already completed a basic military training course in any of the armed services. Motivation, initiative, and a drive for adventure are the key characteristics one must possess upon entering this internship. Upon completion, the student may receive additional credit hours and have the opportunity to enter the ROTC Advanced Course to pursue a commission as a Second Lieutenant in the Army.

Advanced Camp

(an internship opportunity worth 3-12 credits, given prior coordination and consent from the student's college and the professor of military science)

The Advanced Camp provides the single most important block of training and evaluation in the progression of an Army cadet. Throughout the 29 Advanced Camp training days at Fort Knox, KY, cadets encounter stress-inducing physical and mental obstacles, which challenge them as individuals, soldiers, and leaders. The Advanced Camp uses small unit tactical training as the vehicle for further developing self-confidence and evaluating a cadet's leadership abilities and potential to serve as a commissioned officer. Prerequisites for Advanced Camp attendance are MS 301, MS 302 and an Army contractual obligation for service as a commissioned officer.

2023-24 Faculty/Staff

Music Department (MUS)

*College of Arts, Social Sciences, and Humanities
School of Visual and Performing Arts
Department Chair: Mary Tollefson
234 Center For The Arts; 608.785.8409
Email: mtollefson@uwlax.edu*

www.uwlax.edu/music (<http://www.uwlax.edu/music/>)

The Department of Music is accredited by the National Association of Schools of Music and is a vital unit within the School of Visual and Performing Arts in the College of Arts, Social Sciences, and Humanities. The department offers a balanced program of academic courses and performance opportunities including music theory, composition, music history, pedagogy, appreciation, choirs/ensembles and individual applied lessons, all administered by dedicated, expert faculty. A performance audition and theory placement assessment is required.

Large instrumental ensembles include the Symphony Orchestra, the Screaming Eagles Marching Band, the Wind Ensemble, and the Symphonic Band. The jazz program includes the Jazz Orchestra, Jazz

Ensemble and jazz combos. Concert Choir (SATB), Choral Union (SATB), and the Treble Chorus (SSA) provide students with opportunities to sing in many styles and genres. Students enhance their performance skills through chamber music groups such as the brass and woodwind quintets, a percussion ensemble, and a small contemporary vocal ensemble. All organizations have toured locally, nationally and internationally. The Jazz Orchestra, Concert Choir, Orchestra, and Wind Ensemble have been invited to perform at state and regional music conferences. All UW-La Crosse students are welcome to audition and perform in any music ensemble regardless of the student's major.

Please read about applied lessons below (lessons are 1-credit university courses). All music majors and minors receive applied music lessons without additional fees. Any student without a music major or music minor may audition to take applied lessons when studio space is available; an additional lab fee is required for students enrolled in lessons only.

- **Students enrolling in the music major must complete the music major core requirements and one or more emphasis areas.**
- **Students enrolling in education emphases must also complete teacher education requirements found in the School of Education (p. 582).**

The below course lists are to be used to meet the requirements of music majors and minors, but non-music majors and minors may also enroll with consent of instructor.

Large ensembles (p. 231) Small ensembles
(p. 231) Applied music (p. 232)

Large ensembles

(Open to students in all schools and colleges within the university with consent of instructor)

One credit per semester. A maximum of six credits may be earned in large ensembles toward a music major.

Small ensembles

(Open to students in all schools and colleges within the university with consent of instructor)

One credit per semester. A maximum of two credits earned in small ensembles may be applied toward the music major.

Music education majors prerequisite: Concurrent enrollment in a large ensemble. If choral and general music education major, one of the following:

Concert Choir: MUS 106, MUS 206, MUS 306, MUS 406
Treble Chorus: MUS 123, MUS 223, MUS 323, MUS 423
Choral Union: MUS 158, MUS 258, MUS 358, MUS 458

If instrumental and general music education major, one of the following:

Marching Band: MUS 100, MUS 200, MUS 300, MUS 400
Wind Ensemble: MUS 140, MUS 240, MUS 340, MUS 440
Orchestra: MUS 156, MUS 256, MUS 356, MUS 456

Students who register for credit in music organizations are required to register in the same manner and within the time limits established for registration in all other courses.

Applied music courses

Applied music courses are open to music majors and minors without an extra fee. Other students may audition to take applied music courses on a space-available basis and must pay an applied music fee.

Placement into intermediate (200 level) and advanced (300 level) courses is determined by audition. Students enrolled in 200- or 300-level lesson (courses) will perform for a Department of Music jury at the close of each semester of instruction. Students enrolled in recital-level courses (400 level) will present a public recital. Students enrolled in 200- and 300-level courses take one private lesson per week (30 to 45-minutes) and will also meet for one class studio lesson per week plus a regularly Department Convocation hour. Students may enroll in a maximum of two applied areas each semester. All applied music courses are one credit.

A music major or minor¹ may enroll for a maximum of nine semesters in a single applied area without paying an extra fee. Of those nine semester credits, only six credits may be earned at the 200 level.

¹ Applied music credits for minors beyond the required four semesters are subject to space availability.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to

the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 233)
- Baccalaureate degree requirements (p. 234)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	

SPA 202 Spanish Language and Cultures in Action II
or SPA 221 Introduction to Spanish for the Health Professions

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

- Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}

- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Music electives: select six credits of MUS or MUA courses with a minimum of two credits at the 300/400-level.		6

Participation: Six semesters of participation in any ensemble on principal instrument, with a minimum of two semesters in an advanced ensemble (auditioned ensembles). Advanced ensembles are Concert Choir (MUS 106/206/306/406), Jazz Orchestra (MUS 130/230/330/430), Wind Ensemble (MUS 140/240/340/440) or Orchestra (MUS 156/256/356/456).

Total Credits 12

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 236)
- Baccalaureate degree requirements (p. 236)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and

4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course

descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits		12

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 240)
- Baccalaureate degree requirements (p. 241)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical

professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.

2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}

5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 243)
- Baccalaureate degree requirements (p. 243)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	

HMG 304	Hmong Heritage Language: Advanced
JPN 202	Intermediate Japanese II
RUS 202	Russian Language and Cultures in Action II
SPA 202	Spanish Language and Cultures in Action II
or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.

4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Two semesters participation in MUS 161, Jazz Combo.		
Total Credits		12

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a

degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 245)
- Baccalaureate degree requirements (p. 246)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education

courses may apply provided they are not being used to fulfill minimum general education requirements; or

- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

- Baccalaureate degree requirements (p. 248)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare **ONE** of the following tracks in the **CASSH Academic Services Office in 138 Wimberly**:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must

be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general

education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.

6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1

¹ Students are encouraged to audition for the advanced (auditioned) ensembles in their first year.

Music Education Major: Choral and General Music Emphasis (Grades K-12) - Bachelor of Science (BS)

Major requirements

Completion of the Music Education: Choral and General Music Emphasis Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching license:

- Music, grades K-12 (2500).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in music education: choral and general music (grades K-12) must meet specific program admission criteria (p. 586).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Additional student teaching requirement

Students must complete MUS 149 with a grade of "B" or higher and successfully complete the recital requirement (400-level, applied music) prior to student teaching.

Curriculum

The Music Education: Choral and General Music Emphasis Program is aligned with InTASC Teacher Standards and the National Association of Schools of Music (NASM) Standards.

Required general education courses (9 credits)

Besides the courses specified below, music education: choral and general music emphasis majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirements>). The General Education Program requires a total of 42 credits.

Code	Title	Credits
EDS 203	School, Society, and Teachers ^{1,4}	3

MUA 221	Applied Voice	
MUA 321	Applied Voice	
MUA 471	Recital	1
Total Credits		14

⁴ Also satisfies an SOE core requirement.

⁵ Students must complete MUS 149 with a grade of "B" or higher and successfully complete the recital requirement (400-level, applied music), as well as all other course requirements and benchmarks prior to student teaching. For more information, please see the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>).

⁶ Requires admission to the School of Education.

Additional teacher education requirements are listed on the School of Education (p. 582) catalog page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 253)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required

to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits		21

Students may complete only one minor in music.

Philosophy Department (PHL)

College of Arts, Social Sciences, and Humanities

Department Chair: Samuel Cocks

4112 Centennial Hall; 608.785.8424

Email: scocks@uwlax.edu

www.uwlax.edu/philosophy (<http://www.uwlax.edu/philosophy/>)

The mission of the Philosophy Department of the University of Wisconsin-La Crosse is to nurture excellence in philosophy in thought and practice. This includes offering a broad range of classes, engaging in research that contributes to the body of philosophical knowledge, and providing service for the intellectual, ethical, cultural and professional development of students. The department offers professional expertise in meeting these important educational needs. Thematically and historically philosophy has been and should continue to be the cornerstone of university education. Philosophy addresses questions that are basic to human experience. Hence the Philosophy Department provides a broad base of classes, research and service for the intellectual, ethical, cultural and professional development of students.

The significant features of the Department of Philosophy at UW-La Crosse include its broadly prepared faculty and its diverse course offerings. The philosophy faculty members, all of whom have doctorates in philosophy, represent many different philosophical viewpoints and diverse competencies and interests. The coursework available in the Philosophy Program represents not only all of the important traditional areas of philosophy but also new interests and developments in the field.

Philosophy fosters creative and critical thinking and helps one to understand human thought through the ages as well as developing an insightful perspective on the present scene. Students often major in another discipline at the same time they are studying philosophy. This joint major program is excellent preparation for many programs of study beyond the baccalaureate degree including law, business, and medicine.

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Professor

Samuel Cocks

Sheryl Tuttle Ross

Assistant Professor

Daniel Schneider

Assistant Teaching Professor

Total Credits		30

Majors must take four philosophy courses at the 300/400 level including PHL 496. No more than six credits of PHL 494, PHL 495, and PHL 497 shall count toward the major.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 259)
- Baccalaureate degree requirements (p. 260)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare **ONE** of the following tracks in the **CASSH Academic Services Office in 138 Wimberly**:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must

be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general

education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Majors must take four philosophy courses at the 300/400 level including PHL 496. No more than six credits of PHL 494, PHL 495, and PHL 497 shall count toward the major.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 262)
- Baccalaureate degree requirements (p. 262)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlox.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any

college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Philosophy Honors Program

Program

1. Admission
 - a. Junior standing
 - b. 12 credits in the major
 - c. 3.25 cumulative grade point average in the major
 - d. Recommendation of two faculty members in the major
2. Program
 - a. Completion of the regular major program
 - b. PHL 496 Integrative Seminar (3 cr.)
 - c. Thesis
3. Evaluation
 - a. Cumulative grade point average of 3.60 in the major at graduation
 - b. Cumulative grade point average of 3.50 in all university courses
 - c. Presentation of the thesis to a colloquium of faculty and students in the major
 - d. Final examination

Political Science and Public Administration Department (POL/PUB)

College of Arts, Social Sciences, and Humanities

Department Chair: Adam Van Liere

423A Wimberly Hall; 608.785.6956

Email: avanliere@uwlax.edu

www.uwlax.edu/political-science-and-public-administration (<http://www.uwlax.edu/Political-Science-and-Public-Administration/>)

The Department of Political Science and Public Administration in the College of Arts, Social Sciences, and Humanities at UW-La Crosse offers both political science and public administration major and minor degree programs. There is also an honors program and a political science/

public administration honor society. These provide special recognition to those who excel.

The department stresses the value of extracurricular activities and seeks to provide special opportunities for political science students. We especially excel in providing internship opportunities whereby students can earn up to 12 credits while gaining on-the-job experience with government agencies, law firms, etc. Many of the internships pay a salary; all help students get jobs upon graduation, and some are international. In addition to internships, the department sponsors or participates in the Model United Nations and Mock Trial programs and in a number of tour and study abroad programs.

The department's strengths are in public administration, pre-law, international studies, and American government. The department provides internships, special opportunities, and career counseling in all of these areas. Many of the department's graduates are working for the Wisconsin state government and federal government. Graduates who are interested in law school or graduate school have been quite successful in being admitted and in graduating with advanced degrees.

Pre-law program

Students interested in attending law school are encouraged to select a major that interests them, and which challenges them. Law schools make admissions decisions based on a strong record of academic success regardless of major, and law schools are interested to see that a student has pursued coursework that has emphasized research and writing. In addition, students are encouraged to take courses from a wide variety of areas that will prepare them for work in law school, including political science, philosophy, history, English, sociology, communication, business, and economics. In particular, the legal studies minor collects courses together focused on topics and skills that are desirable for students who are interested in legal fields, and is therefore recommended for students interested in law school. Courses that develop critical thinking and analytical skills will also help students prepare for the Law School Admission Test (LSAT), which tests reading, reasoning, and thinking skills.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Majors

- Political science major - BA (p. 265)
- Political science major - BS (p. 268)
- Public administration major - BA (p. 270)
- Public administration major - BS (p. 273)

Online major option

The option to complete the political science major **online** is available to students who have completed an associate's degree (or the general education requirements for the bachelor's degree). If interested, please meet with the department chair.

Minors

- Criminal justice minor (p. 275)
- Legal studies minor (p. 276)
- Political science minor (p. 277)
- Public administration minor (p. 277)

Honors

- Political science and/or public administration honors program (p. 277)

Political Science Major - Bachelor of Arts (BA)

Political science is the study of governments, policies, institutions, and the behavior of participants in the political world. Using humanistic and scientific approaches, as well as qualitative and quantitative methods, the field of political science examines political structures both inside and outside government with the goal of better understanding how they function and the ways in which they change the world over time. The study of political science includes four subfields of specialization: American government and politics, international relations, comparative politics, and political theory.

Major requirements

(All colleges)

30 credits, at least 15 credits of which must be at the 300/400-level.

Code	Title	Credits
Political science foundation:		
POL 101 or POL 102	American National Government State and Local Government	3
POL 234	Comparative Politics	3
POL 244	International Relations	3
POL 251	Political Theory	3
POL 261 or POL 361	Political Inquiry and Analysis ¹ Research Methods in Politics and Government	3
POL 494	Capstone Seminar in Politics and Government	3
Political science areas of inquiry:		
Select three credits at the 300/400-level in three of the following four areas of inquiry (see lists below):		9
American government		
Comparative politics		
International relations		
Political theory		
Political science electives:		
Select an additional three credits of electives from political science (POL) or public administration (PUB) courses not used to satisfy the above requirements.		3
Total Credits		30

¹ Students who complete POL 261 to satisfy this requirement must take three credits of electives at the 300/400-level.

A maximum of three credits from each repeatable political science (POL) course may be applied to the political science major.

Double majors in political science and public administration may only count POL 261, POL 361, and POL 494 towards the completion of both majors.

American government

Online major option

The option to complete the political science major **online** is available to students who have completed an associate's degree (or the general education requirements for the bachelor's degree). If interested, please meet with the department chair.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 266)
- Baccalaureate degree requirements (p. 267)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the

content has changed substantially in recent years. Each case will be judged on its own merit.

- ² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Online major option

The option to complete the political science major **online** is available to students who have completed an associate's degree (or the general education requirements for the bachelor's degree). If interested, please meet with the department chair.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 269)
- Baccalaureate degree requirements (p. 269)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.

4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has

registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- ¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- ² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student’s actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Public Administration Major - Bachelor of Arts (BA)

Public administration helps prepare students for careers in nonprofit and governmental agencies by studying how these entities operate on a day-to-day basis. A course of study in public administration encompasses what government does and how it does it. Careers in public administration focus on the development and implementation of policies at the governmental and non-profit areas. The study of public administration includes a variety of specialized subfields, including: public policy; public budgeting & finance; personnel management & ethics; nonprofit administration; urban planning; and program assessment & evaluation.

Major requirements

(All colleges)

33 credits

Code	Title	Credits
Public administration core:		
POL 101	American National Government	3

or POL 102	State and Local Government	
PUB 210	Contemporary Issues in Government	3
PUB 320	Public Budgeting and Finance	3
PUB 330	Public Policy	3
PUB 340	Public Personnel Law and Administration	3
POL 261	Political Inquiry and Analysis	3
or POL 361	Research Methods in Politics and Government	
POL 494	Capstone Seminar in Politics and Government	3

Public administration electives:

Select nine credits from the following: 9

PUB 332	Urban Policy	
PUB 334	Health Policy	
PUB 338	Environmental Policy	
PUB 342	Urban Administration	
PUB 346	Ethical Decision Making in Government	
PUB 399	Special Topics in Public Administration	
PUB 440	Recent Court Decisions Impacting Public Law and Administration	
PUB 450	Internship in Public Administration	
PUB 451	Civic Engagement and the Wisconsin Idea	
PUB 453	Nonprofit Organizations	
POL 250	Leadership and Engagement	
POL 340	American Foreign Policy	
POL 376	Constitutional Law VII: Administrative Law	

Other electives:

Select an additional three credits of electives from any course listed above not used to satisfy the above requirements, or from the list of other courses (see list below). 3

Total Credits 33

Double majors in political science and public administration may only count POL 261, POL 361, and POL 494 toward the completion of both majors.

Other elective courses

Code	Title	Credits

SOC 311	Rural and Urban Communities	3

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 271)
- Baccalaureate degree requirements (p. 272)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	

CHI 202	Chinese Language and Culture in Action II
FRE 202	French Language and Cultures in Action II
GCL 202	Intermediate Languages II
GER 202	German Language and Cultures in Action II
HMG 204	Hmong Heritage Language: Intermediate
HMG 304	Hmong Heritage Language: Advanced
JPN 202	Intermediate Japanese II
RUS 202	Russian Language and Cultures in Action II
SPA 202	Spanish Language and Cultures in Action II
	or SPA 221 Introduction to Spanish for the Health Professions

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

- Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

- General education (p. 70)
- College core (p. 274)
- Baccalaureate degree requirements (p. 274)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.

4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has

registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Credits may not be counted toward the fulfillment of a political science major or minor. A maximum of six credits may be double counted between the General Education Program and the minor.

Political Science and/or Public Administration Honors Program

The department honors program seeks to provide an opportunity for in-depth research, reading, and writing for majors. The program emphasizes highly personalized student-professor contact and discussion.

Program

I. Admission

- Junior standing
- Twelve (12) credits in the major
- A 3.50 grade point average in the major
- A 3.25 grade point average overall
- Submission of a Political Science and Public Administration Honors Application

II. Program

- Completion of the political science and/or public administration major
- POL 498 Honors Research in Politics and Government (3 cr.) with a grade of AB or higher

III. Evaluation

- A 3.50 grade point average in the major at graduation
- Presentation of honors thesis to a colloquium of faculty and students in the Department of Political Science and Public Administration
- Presentation of honors thesis in a formal setting (e.g., UWL Undergraduate Research Day, National Conference for Undergraduate Research) outside the Department of Political Science and Public Administration

www.uwlax.edu/psychology (<http://www.uwlax.edu/psychology/>)

The undergraduate program in psychology at UW-La Crosse provides an excellent grounding in the discipline of psychology. The Department of Psychology offers courses in several important sub fields within psychology including developmental, educational, experimental, social, clinical, counseling, and cross-cultural. The psychology major is one of the most popular majors on campus. There are approximately 700 students pursuing a psychology major and over 400 students pursuing a psychology minor. We are also the administrative home to the at-risk child & youth care (CYC) minor, neuroscience interdisciplinary minor, and gerontology certificate. Graduating seniors report high levels of employment and approximately 30% of psychology undergraduates go on to graduate school. The major provides a strong grounding in both the liberal arts and the scientific method. Psychology students are particularly encouraged to pursue fieldwork, internships and/or research experience. Every year, a select number of advanced students present independent research projects at state, regional, and national conferences. Overall, psychology is a solid liberal arts major that allows students a variety of career opportunities.

Psychology admission to program policy

The psychology major requires that first-year and second-year students declaring the major meet with a member of the Academic Advising Center & Career Services. Transfer students from other institutions or UWL students who change majors after their second year will be assigned a faculty advisor in the department as the first advising contact.

To ensure both existing and prospective students' timely completion of the psychology major requirements, students will be unable to declare a psychology major if they exceed 85 total units of completed and in-progress credits, represented at the top of the student's Advisement Report as "taken" units.

Exemptions to this policy **may** be given under rare circumstances. Students may request an exemption to this policy by submitting an exemption request through the form linked on the Psychology Department website. Exemption requests will be reviewed by the department twice annually (i.e., mid-fall and mid-spring). Students will be notified of a decision prior to the deadline for program change requests.

To continue in the psychology major, students will need to:

1. Earn a grade of "C" or better in PSY 100 or its equivalent
2. Earn a grade of "C" or better in STAT 145
3. Complete ENG 110 or ENG 112 and CST 110
4. Earn a minimum of a 2.25 GPA across the above four courses
5. Complete a minimum of 30 credits

Students must meet those prerequisites before they can enroll in the required PSY 331 Research Methods: Lecture and Laboratory course. Students transferring to UWL with a college parallel Associate's degree can transfer PSY 100 and STAT 145 with grades of "C" or better (or by taking those courses at UWL and earning "C" or better). The other components will be waived: ENG 110 and CST 110; GPA of 2.25 for PSY 100, STAT 145, ENG 110, and CST 110; 30 credit earned minimum.

Psychology credit by examination policy

Students may earn credit by examination for PSY 100 General Psychology (3 cr.). The following examinations are acceptable: Advanced Placement Program (AP) in psychology with a score of 3, 4, or 5; the "Higher Level" International Baccalaureate (IB) with a score of 4 or above; or the College Level Examination Program (CLEP) with a score of 47 or above. Students should contact the Counseling and Testing Center for information about CLEP; however, once a student has enrolled in PSY 100 they may not petition to earn credit with a CLEP exam.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department's full-time faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

(All colleges)

42 credits

PSY 331 recommendation

The department strongly recommends that all psychology students take the required course of PSY 331 Research Methods: Lecture and Laboratory (4 cr.) late in their sophomore year or early in their junior year. Once students have declared psychology as a major, they should plan on at least four semesters to complete the sequence of courses necessary for graduation with a psychology major. The four semester timeline does not include the time it takes to complete general education credits or credits necessary for a minor. We also recommend that students consider volunteer work and/or fieldwork as an important part of their psychological training. The psychology major provides solid training in the liberal arts and in research methods.

Enrollment in PSY 331 requires the following prerequisites: "C" or better in PSY 100 & STAT 145; 2.25 GPA in PSY 100, STAT 145, CST 110, & ENG 110/ENG 112, plus 30 credits. Students will not be able to progress in the major without this course.

Curriculum

Select required number of credits from the following five categories. Additional credits completed within a category, after the required credits are met, may be used as elective credits in category V. STAT 145 is required as part of the 42 credits.

Code	Title	Credits
I. Core courses		11
PSY 100	General Psychology ¹	
PSY 331	Research Methods: Lecture and Laboratory	
STAT 145	Elementary Statistics ¹	

II. Foundation courses 9

Select three of the following:

PSY 204	Abnormal Psychology
PSY 212	Lifespan Development
PSY 230	Cognitive and Biological Foundations of Psychology
PSY 241	Social Psychology

III. Sociocultural awareness 3

Select one of the following (more than one strongly recommended):

PSY 282	Cross-Cultural Psychology
PSY 283	Psychology of Culture and Race
PSY 285	Culture and Mental Health
PSY 318	Psychology of Women
PSY 319	Men and Masculinities
PSY 325	LGBTQ+ Youth Psychology
PSY 415	Multicultural Counseling
PSY 442	Racism and Oppression
PSY 443	Prejudice and Stigma

IV. Capstone/Experiential 4

Select four credits from any combination of the following:

PSY 308	Research Apprenticeship
PSY 405	Teaching Apprenticeship in Psychology
PSY 450	Internship in Psychology ²
PSY 461	History and Systems of Psychology
PSY 481	Individual Projects in Psychology
PSY 482	Honors Projects in Psychology ³
PSY 485	Appraising Psychology Seminar
PSY 488	Research Capstone: Revise and Resubmit
PSY 489	Honors Seminar ³
PSY 495	Senior Seminar in Psychology

V. Electives 15

Select 15 credits from the following or from any remaining PSY credits listed above (at least 12 credits must be at the 300/400 level): ^{4, 5}

PSY 200	Orientation to the Psychology Major
PSY 205	Effective Behavior
PSY 291	Contemporary Topics in Psychology: Beginner
PSY/PHL 301	Theory of Knowledge
PSY 302	Environmental Issues: Applied Psychology
PSY 305	Human Sexuality
PSY 307	Intimate Relationships
PSY 315	Behavior Modification
PSY 316	Child Abuse and Neglect
PSY 320	Human Motivation
PSY/PHL 333	Philosophy of Mind
PSY 334	Health Psychology
PSY 343	Group Dynamics
PSY 347	Empathic Listening Skills
PSY 350	The Practice of Art Therapy
PSY 356	Infancy and Childhood
PSY 357	Adolescence
PSY 358	Adulthood
PSY 359	Aging and the Elderly
PSY 360	Cross Cultural Human Development
PSY 370	Educational Psychology

PSY 376	Industrial/Organizational Psychology
PSY 377	Psychology and Law
PSY 391	Contemporary Topics in Psychology: Intermediate
PSY 403	Advanced Psychopathology
PSY 404	Counseling and Personality Theories
PSY 406	Positive Psychology
PSY 407	Children's Cognition
PSY 410	Advanced Developmental Psychology
PSY 417	Child and Adolescent Psychopathology
PSY 420	Advanced Research Methods
PSY 422	Death, Dying, and Bereavement
PSY 425	Understanding the Mental Health Counseling Profession
PSY 426	Addictive Behaviors
PSY 430	Cognitive Neuroscience
PSY 431	Consciousness
PSY 432	Learning and Memory
PSY 434	Clinical Neuropsychology
PSY 435	Cognitive Processes
PSY 436	Psychology of Language
PSY 439	Sensation and Perception
PSY 440	Psychopharmacology
PSY 441	Advanced Social Psychology
PSY 451	Psychological Measurement
PSY 459	Genes and Behavior
PSY 491	Contemporary Topics in Psychology: Advanced
RTH 420	Nature and Forest Therapy

Total Credits **42**

- ¹ Psychology majors may double count only PSY 100 and STAT 145 as both general education and major credits.
- ² PSY 450 requires arrangements with the Career Services Office and the psychology internship coordinator that must be initiated prior to the start of the semester.
- ³ PSY 482 and PSY 489 require admission to the Psychology Honors Program.
- ⁴ If not used to satisfy minimum requirements in category I - IV.
- ⁵ Psychology majors should consult with their advisor on which courses might be recommended based on their post-graduation plans.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 280)
- Baccalaureate degree requirements (p. 281)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their

equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

- Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence.

December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

RTH 420	Nature and Forest Therapy
Total Credits	42

- ¹ Psychology majors may double count only PSY 100 and STAT 145 as both general education and major credits.
- ² PSY 450 requires arrangements with the Career Services Office and the psychology internship coordinator that must be initiated prior to the start of the semester.
- ³ PSY 482 and PSY 489 require admission to the Psychology Honors Program.
- ⁴ If not used to satisfy minimum requirements in category I - IV.
- ⁵ Psychology majors should consult with their advisor on which courses might be recommended based on their post-graduation plans.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 283)
- Baccalaureate degree requirements (p. 284)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits: 120

¹ Psychology majors may double count only PSY 100 and STAT 145 in both General Education and the major.

² Enrollment in PSY 331 requires the following prerequisites: "C" or better in PSY 100 & STAT 145; 2.25 GPA in PSY 100, STAT 145, CST 110, & ENG 110/ENG 112, plus 30 credits. Students will not be able to progress in the major without this course.

Psychology Minor

(All colleges)

18 credits

Code	Title	Credits
PSY 100	General Psychology	3
Electives in psychology (at least 9 credits at the 300/400 level)		15
Total Credits		18

Only six credits from general education psychology courses can count toward the minor: PSY 100 and PSY 282, PSY 285, or PSY 318.

Neuroscience Interdisciplinary Minor

(All colleges)

19 credits

Admission/retention

1. Minimum 30 earned credits (including transfer credit). At least 15 of these credits must be earned at UWL. Students with more than 60 earned credits *may* not be eligible to apply for admission.

2. Completion of BIO 105 General Biology (4 cr.) and PSY 100 General Psychology (3 cr.) (or equivalents), with grades of "C" or better. Note: BIO 105 and PSY 100 are prerequisite courses for NEU 200.
3. Submit an unofficial transcript.
4. Submit one reference from a UWL faculty member.
5. Minimum 3.0 combined cumulative GPA. Combined cumulative GPAs include transfer grade points averaged in with grade points earned at UWL.
6. Additional academic and non-academic factors may be taken into consideration.

Electronic applications can be submitted once an applicant completes the pre-requisite coursework (i.e., final grades posted). Students may only reapply once if not accepted into the minor.

Declaration of the minor: Students must be admitted to the minor in order to declare the minor.

Retention: Students must earn a "C" or better in NEU 200 for continuation in the minor. Students must earn grades of "C" or better in all courses in the minor, including electives, to complete the minor.

Curriculum

Code	Title	Credits
Core		13
NEU 200	Introductory Neuroscience ¹	
PHL/PSY 333	Philosophy of Mind	
BIO 415	Neuroethology	
or BIO 446	Animal Behavior	
BIO 465	Neurophysiology ²	
NEU 490	Capstone Seminar in Neuroscience	
Electives		6
Students are encouraged to take electives outside of their major department		
BIO 467	Neurobiology Laboratory Techniques	
PHL 101	Introduction to Logic	
PHL 323	Phenomenology and Existentialism	
PHL 410	Neuroethics	
PSY 430	Cognitive Neuroscience	
PSY 431	Consciousness	
PSY 432	Learning and Memory	
PSY 434	Clinical Neuropsychology	
PSY 435	Cognitive Processes	
PSY 439	Sensation and Perception	
PSY 440	Psychopharmacology	
PSY 459	Genes and Behavior	
Total Credits		19

¹ Students must earn a grade of "C" or better for continuation in the minor.

² CHM 103 is a required prerequisite.

Psychology Honors Program

The **psychology honors program** is a nine-credit, multi-semester sequence that starts spring semester, designed to give qualified students the opportunity to design and conduct independent psychological research under the supervision of a faculty adviser. Traditionally, students complete the program in three semesters, the

first semester in the spring of their junior year and the remaining two semesters during their senior year. The Honors Seminar (PSY 489) is **only** offered in the spring and the application for the honors program is due in mid-November each fall semester. The honors program has two tracks: (1) one for all eligible psychology majors, and (2) one for psychology majors in the McNair Scholars Program.

Program

Requirements for admission to the program:

1. Junior standing (during PSY 489 Honors Seminar)
2. Completion of PSY 100, PSY 331, STAT 145 before beginning Honors Seminar. PSY 420 before PSY 489 or concurrently with PSY 489
3. 3.25 cumulative grade point average in psychology courses
4. A cumulative overall grade point average of 3.00
5. Recommendation from two faculty members, one of whom must be a psychology instructor
6. Completion of an application to the program¹

Requirements for earning a degree with honors in psychology are:

1. Completion of psychology major
2. 3.50 cumulative grade point average in psychology courses²
3. A cumulative overall grade point average of 3.25²
4. Completion of PSY 489 Honors Seminar and completion and presentation of three credits in PSY 482 Honors Projects in Psychology, of which at least one PSY 482 credit must be completed in the candidate's last semester, OR successful completion of a McNair¹ psychology-related project associated with at least one credit of PSY 481 or PSY 482.

¹ McNair psychology honors students must be accepted into McNair prior to applying to psychology honors, preferably during the same semester they are applying to honors. It is recommended that students who are eligible for McNair apply to McNair after completing PSY 331 or concurrently with enrollment in PSY 331.

² GPA calculations are based on the last term prior to the term of graduation.

Race, Gender, and Sexuality Studies Department (ERS/RGS)

College of Arts, Social Sciences, and Humanities
4300 Centennial Hall; 608.785.8357
Department Chair: Terry Lilley
4302 Centennial Hall; 608.785.8737
Email: tlilley@uwlax.edu

www.uwlax.edu/race-gender-and-sexuality-studies/ (<https://www.uwlax.edu/race-gender-and-sexuality-studies/>)

The mission of the Race, Gender, and Sexuality Studies (RGSS) Department is to empower students to think critically and intersectionally about race, gender, and sexuality, to challenge social inequality, and to become ethical problem solvers (<https://www.uwlax.edu/race-gender-and-sexuality-studies/advising/why/>). We provide students with opportunities to develop research and communication skills and to creatively use the knowledge and practices of our discipline, preparing them for careers (<https://www.uwlax.edu/race-gender-and-sexuality-studies/advising/post-college-plans/>

[#tab-career-planning](https://www.uwlax.edu/race-gender-and-sexuality-studies/resources-for-students/student-organizations/)), advanced degrees, and engaged citizenship (<https://www.uwlax.edu/race-gender-and-sexuality-studies/resources-for-students/student-organizations/>). Alongside our students and communities, we advance critical conversations and movement toward social justice through teaching (<https://www.uwlax.edu/race-gender-and-sexuality-studies/courses/upcoming-semester-course-list/>), research (<https://www.uwlax.edu/race-gender-and-sexuality-studies/resources-for-students/resource-center/>), service, and community engagement, including our pre-college Self Sufficiency Program (<https://www.uwlax.edu/self-sufficiency-program/>).

The Department of RGSS offers an interdisciplinary curriculum that enables students to: examine the meanings of race and gender as socially constructed categories; explore the roles of institutional structures on all intersectional identities in national and international contexts; and critique the way society and knowledge, itself, has been organized. The program not only allows students to study the diversity of human experience by uncovering hidden histories but helps students understand themselves, their place in the world, and how social transformation is possible. Students have the opportunity to connect theory with community needs through internships, involvement with College Feminists, and other campus and community leadership opportunities.

Majors, minors, and certificate

The department offers the following, all of which allow students to take courses in multiple departments in order to help develop an interdisciplinary perspective:

- A 33-credit **race, gender, and sexuality studies major** (B.A. or B.S.)
- A 21-credit **race, gender, and sexuality studies minor**
- An 18-credit **social justice minor**
- A **Hmong and Hmong-American studies certificate** (15-17 credits)

All programs complement academic majors and/or career aspirations of students in a wide range of disciplines including communication studies; psychology; sociology; criminal justice; political science; public administration; history; health education; health promotion; health professions; economics; management; marketing; exercise and sport science; recreation management; therapeutic recreation; geography and earth science; biology; microbiology; and chemistry. Minors are open to students in all schools and colleges within the university, and students can double major in RGSS along with a major in any college. The major and all minors take an interdisciplinary approach, integrating various concepts to provide a comprehensive perspective on the historic treatment and the contemporary experience of people from marginalized backgrounds in the United States.

The department provides excellent one-on-one advising about courses and career development, and strongly encourages and facilitates student participation in internships that provide practical experience applying concepts, knowledge, and skills.

Internships

- New Horizons Shelter and Women's Center
- Bluff Country Family Resources
- The Center: 7 Rivers LGBTQ Connection
- American Association of University Women of La Crosse
- Self-Sufficiency Program
- RGSS Department: RGSS Resource Center Intern, Event Coordinator, Marketing Intern

Additional internships are possible within and beyond the local area, including at organizations like Feminist Majority, Planned Parenthood, and National Organization for Women. Contact the Departmental Internship Coordinator if interested in applying for an existing internship or developing a new one.

Additional department features

Self-Sufficiency Program (SSP)

www.uwlax.edu/self-sufficiency-program (<http://www.uwlax.edu/self-sufficiency-program/>)

RGSS sponsors the Self-Sufficiency Program (SSP), a pre-college college readiness initiative for low-income single parents. This free program provides a supportive learning environment in which to develop and practice academic skills. Classes meet weekly with childcare provided. Offered Fall and Spring semesters. Students interested in volunteer, service learning, and internship opportunities, may call Andrea Hansen (ahansen@uwlax.edu), SSP Director, at 608.785.8733 or email.

Student organization

The mission of the College Feminists is to provide students as well as the La Crosse community with advocacy on women's issues. College Feminists also initiates activities for UWL students and the La Crosse community. College Feminists collaborate with many other student clubs on campus to provide rich educational opportunities outside the classroom as well as fun socializing.

Campus events

The RGSS department sponsors or co-sponsors many programs about women and women's concerns, gender, and sexuality. RGSS events are open to students, faculty, staff, and the community.

RGSS Resource Center

UWL's RGSS Resource Center is located on the Fourth Floor of Centennial Hall, and is combined with the RGSS office—room 4301. The RGSS Resource Center serves as a small library of historical and contemporary feminist materials and materials related to race and ethnicity, as well as a welcoming and inclusive space for students to gather, study, learn about and contribute to activism, collaborate, connect with RGSS faculty, and discuss questions, issues, and concerns.

Career opportunities & occupational outlook

Entry level

Graduates of RGSS work in many careers in the arts, business, education, law, health professions, social advocacy, and social work.

Further education

RGSS academic programs qualify students to pursue advanced degrees in women's, gender and sexuality studies, ethnic and racial studies, as well as a variety of related fields such as student affairs administration, non-profit advocacy, and public health. Many medical schools and other professional programs value a student background in gender, race, and sexuality. Our major, minors, and certificate program enhance qualifications for advanced degrees in many related fields.

Occupational outlook

RGSS evaluates how cultural definitions of race and gender have shaped most fields of study and most professions. It provides material and techniques to challenge systems of privilege and inequality, and to create more accurate and empowering models of people, culture and

society. Because of its emphasis on communication, critical thinking, and problem-solving, RGSS courses and programs are valuable in a broad range of careers and in lifelong learning and civic engagement.

- **Business, management, and personnel**
 - Learn how racialized and gendered relationships affect business and criminal justice environments
 - Gain an understanding of federal and state equal opportunity legislation
 - Explore how gender and race affect leadership
- **Psychology, social work, and health care**
 - Explore assumptions and biases in therapeutic models
 - Gain an understanding of the common concerns experienced by clients from historically marginalized backgrounds, including: body image, stress related to role performance, self-worth, and responses to racism, violence, or abuse
 - Explore social determinants of health and understand social service in a larger context
- **Political science, law, and public policy**
 - Relate women's health issues to the social construction of gender, race, class, and sexuality
 - Learn how people from historically marginalized backgrounds have been excluded from or under-represented in the political process and how they are working to achieve political empowerment
 - Explore public policy issues and solutions relevant to people from historically marginalized backgrounds
- **Education**
 - Become aware of assumptions and biases in curricular models and pedagogy
 - Learn about classroom behaviors that can limit students through stereotyping
 - Explore teaching models, curriculum integration, and antiracist, gender-inclusive teaching that works to empower marginalized groups

Lifelong learning, advocacy, and civic engagement

RGSS courses and programs can help everyone understand how the roles of people with historically marginalized identities have been constructed in the past and present. They can help us imagine and create more empowering and inclusive possibilities in a world of rapidly changing roles and expectations, and can offer models for how to be a lifelong advocate for a more just society.

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Associate Professor

Richard Breaux (<https://www.uwlax.edu/profile/rbreaux/>)

Terry Glenn Lilley Jr. (<http://www.uwlax.edu/profile/tlilley/>)

Race, Gender, and Sexuality Studies Major - Bachelor of Arts (BA)

Race, gender, and sexuality studies (RGSS) is an interdisciplinary program that helps students understand the enormous diversity of the U.S. and a globalizing world, and the structures of inequality on the basis of race, gender, sexuality, and social class that shape this world. We study and teach about the lives of people of all gender and racial identities.

Students uncover hidden histories that include experiences of discrimination and marginalization, as well as of resilience, resistance, and coalition building. We study how social change works and what social justice might look like.

In RGSS, we work with students to develop research and communication skills to help students creatively use the knowledge and practices of our discipline, preparing them for careers (<https://www.uwlax.edu/race-gender-and-sexuality-studies/advising/post-college-plans/#tab-career-planning>), advanced degrees, and engaged citizenship (<https://www.uwlax.edu/race-gender-and-sexuality-studies/resources-for-students/student-organizations/>).

Major requirements

(All colleges)

33 credits (24 credits must be 300/400-level)

Courses may not count in more than one category.

Curriculum

Code	Title	Credits
Category I: Introductory		
RGS 100	Race, Gender, Sexuality, and Class	3
or ERS 100	Introduction to Ethnic and Racial Studies	
Category II: Theory and practice		
RGS 377	Critical Research and Advocacy Methods	3
Select one of the following:		3
RGS 335	Indigenous and Postcolonial Feminisms	
RGS 336	Anti-Colonial Theory and Movements	
RGS 340	Objectively Biased: Knowledge Systems as Power Systems	
Category III: Senior seminar		
RGS 490	RGSS Senior Capstone	3
Category IV: Electives		
Select 21 credits from the courses listed below (a maximum of three credits may be taken from the additional electives list):		21
RGS/SOC 105	Introduction to LGBT Studies	
RGS/SOC 150	Introduction to Social Justice	
RGS 300	Independent Study in Race, Gender, and Sexuality Studies	
RGS/HIS 301	Women and Gender in the Modern United States: 1890-Present	
RGS/HIS 305	History of Motherhood in the United States	
RGS 307	Ethnic, Racial, and Gender Stereotypes in the Media	
RGS 308	Justice and Film	
RGS 309	Music of Black America	
RGS 310	Topics in Queer Studies	
RGS 314	Race, Gender, and Sport	
RGS/SOC 316	Gender, Sexuality, and Social Change in Religion	
RGS/PHL 319	Indigenous Thought	
RGS 320	Violence and Gender	
RGS 321	Sexual and Racial Violence in the United States	
RGS 322	Identity-Based Violence Prevention	
RGS 325	Exploring White Privilege	
RGS 328	Sex/Work	
RGS 330	Topics in Race, Gender, and Sexuality Studies	
RGS 335	Indigenous and Postcolonial Feminisms	
RGS 336	Anti-Colonial Theory and Movements	
RGS/SOC 337	Globalization, Women, and Work	
RGS 340	Objectively Biased: Knowledge Systems as Power Systems	
RGS 345	Gender, Race, and Leadership	
RGS 350	Asian American Studies in Race, Gender, and Sexuality	
RGS 353	The Disability Experience in the Contemporary World	
RGS/SOC 363	Indigenous Peoples and the Environment	

RGS 373	Gender and Human Rights
RGS 374	Poverty as Public Policy
RGS/HIS 409	20th Century Civil Rights Movement
RGS 450	Internship in Race, Gender, and Sexuality Studies

Additional electives:

ANT 323	Anthropology of Childhood and Youth
ANT/RGS 362	Hmong Americans
ARC/HIS 372	History of Women in the Ancient World
ART 335	Art and Gender
CST 332	Intercultural Communication
CST 334	Gender Communication
CST 337	Communication and Race
CST 338	Media and Sexuality
CST 419	Communication, Media and Identity
ECO 336	Women in the U.S. Economy
ENG/RGS 207	Multicultural Literature of the United States
ENG/RGS 210	Literature of Black America
ENG/ERS 215	African American Authors
ENG 220	Women and Popular Culture
ENG 380	Literature of American Ethnic and Minority Cultures
ENG 385	Women Authors
HED 412	Women's Health Issues
HED 472	Sexual Health Promotion
HIS 310	Native American History
HIS 336	Latinos in the United States: 1450-2000
HIS 359	Women, Gender and Sexuality in Modern Europe
HIS 360	Women, Gender, and Sexuality in Latin America
HIS 383	Women in South Asia
HIS 389	Women and Gender in the Middle East
PHL 335	Multicultural Philosophy in the United States
PHL 342	Philosophy of Love, Sex and Friendship
POL 309	Identity Politics
PSY 282	Cross-Cultural Psychology
PSY 285	Culture and Mental Health
PSY 305	Human Sexuality
PSY 318	Psychology of Women
PSY 319	Men and Masculinities
PSY/RGS 415	Multicultural Counseling
PSY/RGS 442	Racism and Oppression
PSY/RGS 443	Prejudice and Stigma
SOC 338	Sociological Aspects of Work and Life
SOC 370	Sociology of Gender
SOC 380	Fat Studies and Body Politics
THA 130	Multicultural U.S. Drama and Theory

At least one course taken within the major must be a transnational course:

RGS/SOC 316	Gender, Sexuality, and Social Change in Religion
RGS 336	Anti-Colonial Theory and Movements
RGS/SOC 337	Globalization, Women, and Work
RGS 373	Gender and Human Rights
ARC/HIS 372	History of Women in the Ancient World
HIS 359	Women, Gender and Sexuality in Modern Europe
HIS 360	Women, Gender, and Sexuality in Latin America
HIS 383	Women in South Asia

HIS 389	Women and Gender in the Middle East
---------	-------------------------------------

Total Credits **33**

No more than six credits can count for the race, gender, and sexuality studies major and another major or minor.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 289)
- Baccalaureate degree requirements (p. 290)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	

CHI 202	Chinese Language and Culture in Action II
FRE 202	French Language and Cultures in Action II
GCL 202	Intermediate Languages II
GER 202	German Language and Cultures in Action II
HMG 204	Hmong Heritage Language: Intermediate
HMG 304	Hmong Heritage Language: Advanced
JPN 202	Intermediate Japanese II
RUS 202	Russian Language and Cultures in Action II
SPA 202	Spanish Language and Cultures in Action II
	or SPA 221 Introduction to Spanish for the Health Professions

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

- Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ **CASSH Core Humanities and Fine Arts Tracks** require 102+ level language. **CASSH Core Language Track** requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

At least one course taken in the major must be a transnational course. See program requirements for which courses meet this requirement.

At least two courses must be designed as writing emphasis.

Race, Gender, and Sexuality Studies Major - Bachelor of Science (BS)

Race, gender, and sexuality studies (RGSS) is an interdisciplinary program that helps students understand the enormous diversity of the U.S. and a globalizing world, and the structures of inequality on the basis of race, gender, sexuality, and social class that shape this world. We study and teach about the lives of people of all gender and racial identities.

Students uncover hidden histories that include experiences of discrimination and marginalization, as well as of resilience, resistance, and coalition building. We study how social change works and what social justice might look like.

In RGSS, we work with students to develop research and communication skills to help students creatively use the knowledge and practices of our discipline, preparing them for careers (<https://www.uwlax.edu/race-gender-and-sexuality-studies/advising/post-college-plans/#tab-career-planning>), advanced degrees, and engaged citizenship (<https://www.uwlax.edu/race-gender-and-sexuality-studies/resources-for-students/student-organizations/>).

Major requirements

(All colleges)

33 credits (24 credits must be 300/400-level)

Courses may not count in more than one category.

THA 130	Multicultural U.S. Drama and Theory

At least one course taken within the major must be a transnational course:

RGS/SOC 316	Gender, Sexuality, and Social Change in Religion
RGS 336	Anti-Colonial Theory and Movements
RGS/SOC 337	Globalization, Women, and Work
RGS 373	Gender and Human Rights
ARC/HIS 372	History of Women in the Ancient World
HIS 359	Women, Gender and Sexuality in Modern Europe
HIS 360	Women, Gender, and Sexuality in Latin America
HIS 383	Women in South Asia
HIS 389	Women and Gender in the Middle East

Total Credits **33****No more than six credits can count for the race, gender, and sexuality studies major and another major or minor.****Degree requirements**

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 292)
- Baccalaureate degree requirements (p. 293)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements**The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:**

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical

systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.

- All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
- At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
- Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

- A lab science course (from the general education list); and
- A social science course; and
- Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
- One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).

- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits	21

No more than six credits can count for the race, gender, and sexuality studies minor and another major or minor.

Eleven of the minor's credits must be at the 300/400-level.

Hmong and Hmong-American Studies Certificate

Hmong history reaches thousands of years into the past. The Chinese word for Hmong is Miáo (𠵼), which consists of the radical for grain/grass (𠵼) above the character for field (𠵼). Anthropologists, historians and archaeologists have concluded that Hmong people were one of the first rice cultivators in China. Prior to 1975, Hmong people were restricted to China and countries in mainland Southeast Asia. But in the aftermath of the Vietnam War, thousands have emigrated around the globe: to Europe, North and South America, and Australia.

Hmong-Americans are first-generation refugee immigrants from Laos and their descendants. Since 1975, Hmong Americans have established vibrant communities across the country from Massachusetts to California and from Alaska to Florida. According to the 2010 U.S. Census, the U.S. is home to 270,000 Hmong-Americans - nearly half live in the upper Midwest. In Wisconsin and Minnesota, there are approximately 116,000 Hmong-Americans, roughly 43% of the total Hmong-American population. Michigan, Illinois, Iowa, Kansas and Indiana host smaller Hmong-American communities.

Housed in the Department of Race, Gender, and Sexuality Studies, the **Hmong and Hmong-American Studies Certificate** offers an excellent opportunity for students to learn about this rich culture and history. Through a set of carefully-structured courses, students will use a critical lens to explore topics related to Hmong studies, including but not limited to the following:

- Human prehistory
- History in China and Southeast Asia
- Colonialism
- Cold war conflicts
- Refugee movements
- Transnational migration
- Tourism, globalization and development
- Adaptation to Western societies: Enculturation and cultural renewal
- Religion and religious change
- Language
- Identity development and formation
- Global citizenship and global identity
- Ongoing contributions of Hmong people to contemporary society

The goal of the Hmong and Hmong-American Studies Certificate is to prepare students to be critical thinkers, effective communicators, and constructive agents of change. Study abroad trips may provide additional opportunities for field research and experiential learning.

Program requirements

(All colleges, open only to degree-seeking UWL students)

15-17 credits

Code	Title	Credits
Core		9
RGS 100 or ERS 100	Race, Gender, Sexuality, and Class Introduction to Ethnic and Racial Studies	
RGS/ANT 362	Hmong Americans	
RGS 490	RGSS Senior Capstone	
Electives		6-8
ANT 196	Introduction to Linguistic Anthropology	
ANT 215	Refugees, Displaced Persons and Transnational Communities

Total Credits		15-17

To complete the certificate program, a candidate must earn a minimum 2.5 cumulative GPA for course work in the certificate.

Sociology and Criminal Justice Department (SOC)

College of Arts, Social Sciences, and Humanities

Department Chair: Timothy B. Gongaware

437M Wimberly Hall; 608.785.6772

Email: tgongaware@uwvlax.edu

www.uwvlax.edu/sociology (<http://www.uwvlax.edu/sociology/>)

The Department of Sociology and Criminal Justice at the University of Wisconsin-La Crosse offers a major in sociology and minors in both sociology and criminal justice. Our department provides students with the tools necessary to think critically about our global society. Students with a background in sociology and criminal justice position themselves for promising careers in a wide variety of fields.

Students who join the Department of Sociology and Criminal Justice can expect top quality mentoring and guidance, internship and part-time employment opportunities, experiences conducting qualitative and quantitative research, competitive grant opportunities, membership in the Alpha Kappa Delta International Honor Society, and both community volunteering experience and social networking through the sociology club.

Majors

The sociology major provides students with a broad range of skills and knowledge for the scientific study of the social world. It allows students to explore human behavior within political, social, cultural, economic, and religious institutions. Sociology includes the following areas of concentration: sociology of race and ethnicity, criminal justice and critical criminology, gender and sexualities, education, social psychology, religion, demography, age, mental health and illness, medical sociology, environmental sociology, sociology of the city, rural sociology, sociology of technology and surveillance, the sociology of consumption and leisure, and popular culture and media, among a wide range of other topics. In addition, sociology courses contribute to the gerontology emphasis. Students work closely with their professors to complete a course of study, internship, and capstone project preparing them for careers in research, government, education, community and social services, human resources, criminal justice, and business and industry.

Minors

The criminal justice minor is an interdisciplinary minor designed to assist students planning to enter careers in the criminal or juvenile justice system. Our classes provide students with a critical understanding of the U.S. criminal justice system. The minor is based on a liberal arts education that prepares students to develop analytical and critical thinking skills necessary in criminal justice related occupations. Criminal justice is complementary to a variety of majors offered at UW-La Crosse including sociology, political science, public administration, psychology, philosophy, Spanish, geography, accountancy, computer science, chemistry, and therapeutic recreation.

The sociology minor examines people and their interactions with economic, cultural, political, religious, and social institutions. Course electives allow students to explore the roots of social inequalities related to the intersection of race, class, gender, ethnicity, and sexual orientation. The sociology minor complements the disciplines of psychology, economics, marketing, business administration, therapeutic

recreation, public health and community health education, exercise and sport science, political science, public administration, history, and race, gender, and sexuality studies.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Sociology Major - Bachelor of Arts (BA)

Sociology is the study of human groups and how the group influences social behavior. The field is both a science and a philosophy, seeking to answer questions about human behavior through the use of scientific methods. Sociology gives us new and important knowledge about the social world. The focus of the sociology major is to prepare students with the methodological background and analytical skills necessary for working in today's world, while allowing students to gain a basic understanding of a variety of areas within sociology such as social stratification, criminology, social psychology and comparative sociology.

Every sociology major completes a senior project in one of our three senior capstone courses SOC 405 Quantitative Social Research Seminar, SOC 416 Qualitative Explorations, or SOC 410 Sociology Honors Project. Working closely with faculty, each student designs and completes a semester-long investigation of a sociology-related topic. The senior capstone course provides students with firsthand experience and analytical skills that are valuable in the work world and in graduate study.

Major requirements

(All colleges, excluding teacher certification programs)

36 credits

Code	Title	Credits
Core		
SOC 110	Introduction to Sociology	3
SOC 200	Foundations of Sociological Analysis ¹	3
SOC 250	Methods of Social Research I ¹	3
SOC 350	Methods of Social Research II	3
SOC 390	Sociological Theory	3
Select one of the following:		3
SOC 405	Quantitative Social Research Seminar	
SOC 410	Sociology Honors Project	
SOC 416	Qualitative Explorations	
Electives		
The remaining 18 credits will consist of sociology electives to be selected in consultation with a faculty adviser in sociology. Nine of the 18 elective credits must be taken at the 300 level or above.		18
Total Credits		36

¹ To enroll in SOC 200 Foundations of Sociological Analysis (3 cr.) and SOC 250 Methods of Social Research I (3 cr.), a student must have declared sociology as a major. Once a student has declared sociology as a major, it likely will take a minimum of four semesters to complete the core required course sequence.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to

the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 298)
- Baccalaureate degree requirements (p. 298)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	

SPA 202 Spanish Language and Cultures in Action II
or SPA 221 Introduction to Spanish for the Health Professions

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}

5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA¹,² in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.

4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

Students must earn a minimum 2.50 cumulative GPA in the certificate's coursework.

Sociology Honors Program

The **sociology honors program** is designed to stimulate and acknowledge work of greater depth, breadth and originality by students whose interest and resources make them eligible for this voluntary program. We encourage students who are planning on attending graduate school and who meet the honors program eligibility requirements to enroll in the **sociology honors program** to strengthen their graduate school applications.

Program

1. Admission
 - a. Twelve credits in the major
 - b. Junior standing
 - c. A 3.50 grade point average in the major
 - d. A 3.25 cumulative grade point average overall
 - e. Recommendation of two faculty members in the major submitted to the chair
2. Program
 - a. Completion of the regular major program
 - b. SOC 410 Sociology Honors Project (3 cr.)
3. Evaluation
 - a. A 3.50 grade point average in the major at graduation
 - b. Presentation of paper from SOC 410 to a colloquium of faculty and students in the major
 - c. A grade of "A," "AB," or "B" in SOC 410

Sustainability and Environmental Studies Program (ENV)

College of Arts, Social Sciences, and Humanities

Program Director: Kelly Sultzbach

4108 Centennial Hall, 608.785.6930

Email: ksultzbach@uwlax.edu

www.uwlax.edu/environmental-studies (<http://www.uwlax.edu/environmental-studies/>)

Sustainability and environmental studies is an interdisciplinary minor open to all students at UWL. While housed in the College of Arts, Social Sciences, and Humanities, the minor reaches across campus and involves environmentally concerned faculty and students from all three colleges. Its purpose is to study the environment from a broad perspective, incorporating the natural sciences, the social sciences, the arts, and the humanities.

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Some departments, because they offer several of their own courses for the sustainability and environmental studies minor, limit the number of credits that their majors may apply to the sustainability and environmental studies minor.

Biology majors may apply a maximum of six BIO credits at the 300/400 level to this minor.

Geography majors may apply a maximum of six GEO credits to this minor.

Public Health and Community Health Education majors may not apply PH 335 to this minor.

Sociology majors may apply a maximum of three SOC credits to this minor.

Theatre and Dance Department (THA)

College of Arts, Social Sciences, and Humanities

School of Visual and Performing Arts

Department Chair: Laurie Kinckman

153 Center for the Arts; 608.785.6690

Email: lkinckman@uwlax.edu

Department ADA: Krista Shulka

154 Center for the Arts; 608.785.6701

www.uwlax.edu/academics/department/theatre-and-dance/ (<https://www.uwlax.edu/academics/department/theatre-and-dance/>)

Theatre arts at UW-La Crosse offers an invigorating and fresh approach to undergraduate theatrical training. Our degree programs allow a wide range of opportunity while creating a focused and individual area of study for each student. We strive to balance vigorous classroom learning with practical production experience allowing for a well-rounded college experience with an emphasis on the collaborative and creative process. The theatre arts curriculum allows concentrations in six distinct areas of study: general theatre studies, design/technical, performance, music theatre, stage management and arts administration as well as a minor in dance. Students at UW-La Crosse can choose to major in one theatre emphasis area while minoring in another thus enhancing their educational opportunities and professional marketability.

One-on-one contact with our teaching faculty is emphasized and students are guaranteed a degree of personal attention rarely available in programs that accept higher numbers of students. In addition to its full-time faculty, the department frequently brings guest artists to campus from professional and educational theatre. The atmosphere within the Department of Theatre and Dance is supportive, positive, collaborative and artistically stimulating. Students are involved in theatre productions each year as backstage crew, technicians, designers, stage managers, performers, and front of house staff. Participation in theatre productions is open to all UW-La Crosse students regardless of their major.

The performance stage is the natural extension of the classroom experience. Students receive a tremendous amount of hands-on experience through classroom projects and realized productions. The UW-La Crosse Department of Theatre and Dance produces six performances each academic year allowing students to demonstrate, refine and expand the skills they've learned in the classroom. Additional production work is available through classroom projects, senior recitals and designs, undergraduate research grant-funded productions, and other student laboratory productions

-
- Students enrolling in a theatre major must complete the theatre arts major core requirements and one area of emphasis.
 - Students enrolling in the theatre arts minor must select an area of emphasis.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

THA 481	Independent Study	
THA 482	Special Topics Theatre Arts	
ACC 221	Accounting Principles I	
Total Credits		18

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 306)
- Baccalaureate degree requirements (p. 307)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or

2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office

to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1		
Fall	Credits Spring	Credits

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 308)
- Baccalaureate degree requirements (p. 309)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI,

FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits		18

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 310)
- Baccalaureate degree requirements (p. 311)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the

content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some plan courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 313)
- Baccalaureate degree requirements (p. 314)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or

2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office

to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Theatre Arts Major: General Emphasis - Bachelor of Arts (BA)

Major requirements

(All colleges, excluding teacher certification programs)

Students enrolling in a theatre major must complete the theatre arts major core requirements and one area of emphasis. This requirement does not apply to the theatre major: musical theatre emphasis.

Core requirements (21 credits)

Code	Title	Credits
Required Courses		
THA 210	Foundations of Theatrical Production	3
THA 220	Acting I: Fundamentals	3
THA 231	Stagecraft	3
THA 250	Theatre Studies I: Antiquity to the 18th Century	3
THA 350	Theatre Studies II: 19th Century to the Present	3
Elective		
Select one course from the following: ¹		3
THA 130	Multicultural U.S. Drama and Theory	
THA 201	Dramatic Literature and Theatre Arts	
THA 304	History of Music Theatre	
THA 351	World Theatre	
THA 355	Dramaturgy	
THA 440	Costume Design/History	
Capstone		
THA 490	Capstone Project in Theatre Arts	3
Total Credits		21

THA 260 required first semester first year. THA 360 required every semester after first semester first year, except when completing THA 490.

¹ A course used to satisfy the core's elective requirement may not also count toward another requirement in any theatre arts emphasis area major.

General emphasis (18 credits)

Code	Title	Credits
Select nine credits of the performance area and nine credits of the design/technical area:		
THA 130	Multicultural U.S. Drama and Theory	
THA 201	Dramatic Literature and Theatre Arts	
THA 222	Voice and Movement for the Stage	
THA 232	Costume Crafts	
THA 240	Rendering for Theatre	
THA 241	Stage Makeup	
THA 290	Stage Management for the Arts	
THA 310	The Singer/Actor	
THA 320	Acting II: Characterization	
THA 321	Acting III: Styles	
THA 330	Scene Painting	
THA 331	Theatre Technology	
THA 340	Scenery Design	
THA 341	Lighting Design	
THA 342	Sound Design	
THA/MUS 347	Sound Recording and Engineering	
THA 351	World Theatre	
THA 420	Directing

THA 422	Acting IV: Audition Techniques	
THA 440	Costume Design/History	
THA 450	Internship in Theatre Arts	
THA 471	Playwriting	
THA 472	Theatre Management	
THA 474	Advanced Studies in Arts Administration	
THA 481	Independent Study	
THA 482	Special Topics Theatre Arts	
Total Credits		18

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 315)
- Baccalaureate degree requirements (p. 316)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical

professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.

- Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
- Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
- All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
- At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
- Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlox.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

- Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

- Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication

studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and

- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 318)
- Baccalaureate degree requirements (p. 319)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or

- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	

GCL 202	Intermediate Languages II
GER 202	German Language and Cultures in Action II
HMG 204	Hmong Heritage Language: Intermediate
HMG 304	Hmong Heritage Language: Advanced
JPN 202	Intermediate Japanese II
RUS 202	Russian Language and Cultures in Action II
SPA 202	Spanish Language and Cultures in Action II
	or SPA 221 Introduction to Spanish for the Health Professions

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASH Dean's Office for eligibility and regulations.

- Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
- One additional course in social sciences or fine arts.

C. Fine arts track

- One global language course 102 or higher; and
- Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
- One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASH must complete a second major, minor, or program option by satisfying one of the following:

- Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Fulfill the general education requirements.
- Complete at least one ethnic studies (diversity) course.

- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- ¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- ² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ Students are required to complete four semesters.

² Additional courses in dance are strongly recommended.

Theatre arts activities requirement

THA 260 required first semester first year. THA 360 required every semester after first semester first year, except when completing THA 490.

Recommended

THA 222 Voice and Movement for the Stage (3 cr.) is strongly recommended.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 323)
- Baccalaureate degree requirements (p. 323)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. - Baccalaureate degree requirements (p. 326)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlaw.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare **ONE** of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. Native speakers of English complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must

be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general

education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits		18

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 327)
- Baccalaureate degree requirements (p. 328)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.

6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

- Baccalaureate degree requirements (p. 330)

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/#tm-what-is-the-cassh-core-should-i-choose-a-bachelor-of-arts-ba-or-a-bachelor-of-science-bs-degree->) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CASSH Academic Services Office in 138 Wimberly:

A. Language track

1. **Native speakers of English** complete:

Code	Title	Credits
Select one of the following:		
ARA 202	Intermediate Arabic II	
CHI 202	Chinese Language and Culture in Action II	
FRE 202	French Language and Cultures in Action II	
GCL 202	Intermediate Languages II	
GER 202	German Language and Cultures in Action II	
HMG 204	Hmong Heritage Language: Intermediate	
HMG 304	Hmong Heritage Language: Advanced	
JPN 202	Intermediate Japanese II	
RUS 202	Russian Language and Cultures in Action II	
SPA 202	Spanish Language and Cultures in Action II	
	or SPA 221 Introduction to Spanish for the Health Professions	

Non-native speakers of English: provide English proficiency evidence acceptable for admission to UWL as a degree seeking

student; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education). UWL does not regularly offer these courses, thus transferring in their equivalency(ies) is the likely way to earn credit English as a Second Language coursework. Native English speakers are not eligible to earn credit in ESL courses. Contact the CASSH Dean's Office for eligibility and regulations.

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: communication studies, English, history, philosophy and race, gender, and sexuality studies (see the Advisement Report (AR) for a listing of the approved courses); and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One global language course 102 or higher; and
2. Two additional courses outside the department of the student's major from two different departments chosen from: art, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).

7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

College of Arts, Social Sciences, and Humanities (CASSH/VPA) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English (writing and rhetoric or literary and cultural studies emphases) or in the department of global cultures and languages must earn a Bachelor of Arts degree. Education majors earn a Bachelor of Science degree; English major: medical professions emphasis majors may earn a Bachelor of Arts or Bachelor of Science degree.
2. Students majoring in other CASSH programs may choose either a B.A. or a B.S. degree.
3. Language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 42 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CASSH designated diversity course.
6. Applicable courses may be found on the CASSH B.A./B.S. Degree Option Course List (<https://www.uwlax.edu/cassh/advising/>) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (ARA, CHI, FRE, GCL, GER, HMG, JPN, RUS, SPA) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CASSH alternative (ENV 101, PHL 334, PHL 339); and

4. One additional course in humanities or fine arts or complete a global cultures and languages course 102 level or higher.

In addition to all other College of Arts, Social Sciences, and Humanities core requirements, all students in CASSH must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this

sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1		
Fall	Credits Spring	Credits

College of Business Administration

Dean - Taggert Brooks
Associate Dean, Interim - Gwen Achenreiner
College Academic Services Director - Nicole Vidden
1205 Wittich Hall; 608.785.8090

www.uwlax.edu/cba (<http://www.uwlax.edu/cba/>)

The College of Business Administration's (CBA) undergraduate programs provide business education opportunities for students from across the state, the country, and the world. The undergraduate program primarily serves residential full-time students in a traditional campus learning environment.

Departments/units (p. 337) Majors and minors (p. 337)
Admission to CBA Business Program (p. 337)

CBA core requirements (p. 338) Internships (p. 339)
CBA graduation requirements (p. 339)

Joint business program with WTC (p. 339)

Mission

Delivering academic excellence, career success and community engagement through sharing new knowledge and creating enriching, interactive experiences.

Vision

To be recognized for quality as the leading business school among regional and state comprehensive universities.

Values

- **Teaching:** highly effective and innovative teaching employing relevant curriculum.
- **Scholarship:** scholarship that advances discipline-based knowledge, best practices, and teaching pedagogy, each equally enriching student learning.
- **Faculty:** quality faculty who are accessible, responsive, and dedicated to student learning.
- **Students:** quality students who are actively engaged in their professional and personal development.
- **Learning:** a highly interactive learning environment that fosters strong relationships and student success.
- **Global Engagement:** global engagement and collaboration to increase international awareness and opportunities.
- **High Standards:** high standards that reflect best practices and ethical behavior, stimulate intellectual growth, and promote continuous improvement.
- **Diversity:** acceptance and respect for human and ideological differences.
- **Sustainability:** promotion of sustainable practices in the use of economic, ecological, and social resources.
- **Service:** service to the university, discipline, and community that promotes strong partnerships and advances professional and economic development.

Departments/units

Accountancy
Economics

Management
Marketing
Small Business Development Center (<http://www.uwlax.edu/sbdc/>)
Center for Entrepreneurship, Sustainability and International Trade

Degrees offered

Bachelor of Science

Majors and minors

The following majors and minors are available:

B.S. = Bachelor of Science m = minor

Accountancy (p. 339) (B.S., m)
Business Administration (p. 342) (m) (not open to business majors)
Business Analytics (p. 350) (B.S., m)
Economics (p. 342) (B.S., m)
Finance (p. 345) (B.S.)
Finance with Risk, Insurance, & Financial Planning Concentration (p. 345) (B.S.)
Healthcare Analytics Management (p. 363) (m)
Information Systems (p. 350) (B.S., m)
International Business (p. 356) (B.S., m)
Management (p. 359) (B.S.)
Marketing (p. 363) (B.S.)
Sustainable Business (p. 366) (m)

Advising in the College of Business Administration

First and second year students will have a professional academic advisor. Students are typically assigned to faculty advisors for their final two years. Advisors help students develop programs, plan schedules, discuss major and career choices, and refer for assistance in the case of academic difficulties. Students are encouraged to meet with their advisor at least once a semester.

The responsibility for selecting courses and meeting graduation requirements rests with the student. Students should review course prerequisites by checking course descriptions in the appropriate listings of this catalog and consult with their advisor and/or seek assistance from the dean's office.

CBA Business Program policy

Students who desire to major in business must be admitted to the CBA Business Program in order to register for the professional, upper division (300/400 numbers) courses offered by the college. An application for admission to the CBA Business Program (<https://www.uwlax.edu/cba/resources-for-students/>) must be completed and approved by the CBA Dean's Office prior to the semester the student plans to enroll in upper division College of Business Administration course work.

Application forms for admission to the Business Program are obtained from the CBA website online (<https://www.uwlax.edu/cba/resources-for-students/>), and may be submitted for either fall or spring semesters. Applications are due by mid-semester. Late applications may not be accepted. To avoid scheduling problems, pre-business students should

work closely with their advisors in order to complete the pre-business program within their freshman and sophomore years at UWL. Students who undertake their freshman and sophomore years of study at another university should familiarize themselves with the college's business requirements and the university's general education program, and plan their program of study accordingly.

Admission to CBA Business Program requirements

1. "C" grades or higher earned (or in progress) in:

Code	Title	Credits
ACC 221	Accounting Principles I	3
ACC 222	Accounting Principles II	3
BLAW 205	The Legal and Ethical Environment of Business	3
ECO 110	Microeconomics and Public Policy	3
ECO 120	Global Macroeconomics	3
ENG 110	College Writing	3
or ENG 112	College Writing AP (Advanced Placement)	
MTH 160	Mathematics for Business	4-5
or MTH 175	Applied Calculus	
or MTH 207	Calculus I	
STAT 145	Elementary Statistics	4

2. 54 credits or higher earned (or in progress).
3. Earn a 2.50 combined cumulative grade point at time of application. This includes courses taken at UW-La Crosse and elsewhere.

College of Business Administration (CBA) core requirements

All students enrolled in any program within the college must complete the 16 business core courses listed below and all requirements for the major (see department listings). Courses numbered at the 100 and 200 level as well as MGT/MKT 301 are considered pre-business courses. MGT 449 must be taken in the semester of graduation.

Code	Title	Credits
ACC 221	Accounting Principles I	3
ACC 222	Accounting Principles II	3
BLAW 205	The Legal and Ethical Environment of Business	3
ECO 110	Microeconomics and Public Policy	3
ECO 120	Global Macroeconomics	3
ECO 230	Data Analysis for Business Applications	3
ENG 110	College Writing	3
or ENG 112	College Writing AP (Advanced Placement)	
FIN 355	Principles of Financial Management	3
IS 220	Information Systems for Business Management	3
MGT/MKT 301	Business Communication	3
MGT 308	Organizational Behavior	3
MGT 393	Production and Operations Management	3
MKT 309	Principles of Marketing	3
MTH 160	Mathematics for Business	4-5
or MTH 175	Applied Calculus	
or MTH 207	Calculus I	
STAT 145	Elementary Statistics (or equivalent)	4
Capstone - taken in the semester of graduation		

MGT 449	CBA Capstone: Applied Business Strategy	3
Total Credits		50-51

Business core course sequencing

A guide for sequencing business core requirements is as follows:

First year	Credits
ECO 110 ¹	3
ECO 120 ¹	3
ENG 110 or 112 ¹	3
MTH 160, 175, or 207 ¹	4-5
STAT 145 (or equivalent) ¹	4
17-18	
Sophomore year	Credits
ACC 221 ²	3
ACC 222	3
BLAW 205	3
ECO 230	3
IS 220	3
MGT 301 or MKT 301	3
Admission to the CBA Business Program is required prior to enrollment in the junior/senior level business courses.	
18	
Junior year	Credits
FIN 355	3
MGT 308	3
MGT 393	3
MKT 309	3
Students will also complete their major requirements during their junior and senior years.	
12	
Senior year	Credits
MGT 449 ³	3
3	
Total Credits: 50-51	

¹ These courses also will fulfill Gen Ed requirements.

² Accountancy majors may complete in first year.

³ Taken final semester; requires completion of all other core requirements.

Second major in College of Business Administration

Business students may complete a second business major by completing all courses required for the second major as described in the catalog. With the exception of economics, students may not use the same courses to fulfill both majors.

Business students seeking a second major or minor in liberal studies and science areas may do so by completing all requirements of the major or minor they elect, as stated in the catalog. Double counting courses in both majors, as appropriate, is allowed.

Scholarships

Scholarships are available to students who have demonstrated outstanding leadership qualities and have achieved scholastic excellence in the College of Business Administration program.

Information may be obtained from the UW-La Crosse Foundation (<https://www.uwlax.edu/foundation/>) office in the Cleary Alumni and Friends Center.

Internships

Students may elect to take up to 15 College of Business Administration internship credits upon receiving approval of the department chair and dean. Internship credits may be applied toward fulfilling major requirements.

To be eligible for a College of Business Administration internship, a student must have a cumulative grade point of 2.50 or above and have completed the following:

Code	Title	Credits
ACC 221	Accounting Principles I	3
ACC 222	Accounting Principles II	3
BLAW 205	The Legal and Ethical Environment of Business	3
ECO 110	Microeconomics and Public Policy	3
ECO 120	Global Macroeconomics	3
ECO 230	Data Analysis for Business Applications	3
FIN 355	Principles of Financial Management	3
IS 220	Information Systems for Business Management	3
MGT 308	Organizational Behavior	3
MKT 309	Principles of Marketing	3

Graduation/degree requirements

Students seeking to graduate from the College of Business Administration must:

1. Fulfill the university's general education requirements.
2. Achieve a minimum 2.00 grade point average in the business core and the business major.
3. Fulfill all other university general requirements.
4. Complete at least 50% of the business course requirements (core and major) in residence at UWL.

All CBA students are expected to confirm their degree completion by checking their advisement report in WINGS after they register for their final semester. For all CBA students who have applied to graduate, the dean's office will automatically complete a graduation check before the start of their final semester and notify them by email of any problems. If a student has specific questions or concerns about graduation requirements, they can contact the CBA dean's office.

Joint business program with WTC

Articulation agreements between Western Technical College (WTC) and UWL facilitate the transfer of credit between the two institutions. The following College of Business Administration programs are affected:

- Students who enroll in WTC's Associate of Arts (AA) or Associate of Science in Liberal Arts (ASLA) Program and complete certain classes may transfer to UW-La Crosse with partial work already completed towards a Bachelor of Science with a major residing in UWL's College of Business Administration.
- Students who enroll in WTC's Accounting, Business Management, Finance, or Marketing Program and complete certain classes may transfer to UW-La Crosse with partial work already completed towards a Bachelor of Science with a major residing in UWL's College of Business Administration.

- Students who enroll in WTC's IT-Network System Administration or IT-Web & Software Developer Program and complete certain classes may transfer to UW-La Crosse with partial work already completed towards a Bachelor of Science with a major in Information Systems at UWL.

Contact the UWL Admissions Office (<https://www.uwlax.edu/admissions/>) for more specific information. Students who earned an associate degree from another UW System institution are exempt from UWL's general education requirements, although students must still meet all other UWL degree, college, and major requirements.

Accountancy Department (ACC/BLAW)

College of Business Administration

Department Chair: William Maas

3202 Wittich Hall; 608.785.6825

Email: wmaas@uwlax.edu

www.uwlax.edu/accountancy/ (<http://www.uwlax.edu/accountancy/>)

The Accountancy Program at UW-La Crosse is designed to provide students with a balanced approach of the practical and the theoretical, preparing students for not only their first job but their career. The success of the UW-La Crosse accountancy program is evidenced by the accomplishments of our alumni, the number of internship placements, and the performance of UW-La Crosse students on the CPA exam. During the 2021-2022 academic year, 60 accountancy majors participated in well-paid internships. Essentially all UW-La Crosse accountancy graduates are placed in accountancy positions, with the lowest placement rate in the last ten years at 94 percent.

Wisconsin and Minnesota, along with most other states, require 150 credits as part of the CPA certification. UW-La Crosse offers a flexible approach to completing the 150 credits. A large number of UW-La Crosse students combine the accounting degree with another undergraduate specialty, such as finance. The advantage of this approach is that students can complete their degree, the 150 hours, and an internship in four-and-one-half years, graduating in December.

Students in the College of Business Administration must be admitted to business (p. 337) and also complete the college core requirements.

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Associate Professor

Sergey Komissarov

Major

- Accountancy major - BS (p. 340)

Minor

- Accountancy minor (p. 342)

Accountancy Major - Bachelor of Science (BS)

UWL accountancy majors have the technical knowledge and the practical experience that puts them in demand for both entry-level positions and throughout their careers. Internships are a big part of the practical experience opportunity. Career Services data (<https://www.uwlax.edu/aaccs/facultystaff/utilizing-career-services/#tm-uwl-employment-and-internship-statistics>) shows that the Accountancy Program is usually the most active internship program at UWL. Accountancy internships are well-paid.

To be eligible to become a Certified Public Accountant (CPA) requires the minimum of 150 credits and an undergraduate degree. UWL's undergraduate program allows students the flexibility to complete 150 credits, an internship, and an undergraduate degree in four-and-one-half years.

The Accountancy Program works closely with organizations and alumni to keep our program up-to-date. A byproduct of that work is a variety of scholarships for accountancy students. Be sure to apply at the UWL Foundation as a new first year student and as a continuing student.

Major requirements

Admission

Admission to the College of Business Administration (p. 337)

The 300/400 level accountancy courses are open only to those students who have been admitted to the business program. Exceptions to this policy may be made only by the College of Business Administration Dean. Students will be allowed to register for ACC 311 without having been admitted to the business program.

Curriculum

(College of Business Administration)

30 credits

Code	Title	Credits
ACC 311	Intermediate Accounting I	3
ACC 312	Intermediate Accounting II	3
ACC 313	Intermediate Accounting III	3
ACC 325	Cost Accounting	3
ACC 327	Accounting Information Systems	3
ACC 330	Individual Income Taxation	3
ACC 418	Business Law for Accountants	3
ACC 421	Advanced Accounting	3
ACC 438	Principles of Auditing	3
Plus three credits of ACC numbered higher than 311 ²		3
Total Credits		30

¹ Accountancy majors are allowed and encouraged to register for ACC 311 Intermediate Accounting I (3 cr.), before being admitted to the business program.

² Except for ACC 350, ACC 450, and ACC 499

Additional requirement for accountancy majors:

- A cumulative grade point average of 2.50 in the accountancy major courses.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 340)
- Baccalaureate degree requirements (p. 341)

College of Business Administration (CBA) core requirements

All students enrolled in any program within the college must complete the 16 business core courses listed below and all requirements for the major (see department listings). Courses numbered at the 100 and 200 level as well as MGT/MKT 301 are considered pre-business courses. MGT 449 must be taken in the semester of graduation.

Code	Title	Credits
ACC 221	Accounting Principles I	3
ACC 222	Accounting Principles II	3
BLAW 205	The Legal and Ethical Environment of Business	3

or MTH 207	Calculus I	
STAT 145	Elementary Statistics (or equivalent)	4
Capstone - taken in the semester of graduation		
MGT 449	CBA Capstone: Applied Business Strategy	3
Total Credits		50-51

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and

work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1

	16	12

Total Credits: 120

Some students take an internship during the Spring semester of their fourth year. This may extend the time it takes to earn a degree past four years in order to fit in the required courses. See below for the sample extra term. Students should work with an advisor to plan their program of study for the additional internship credits.

Additional year

Fall		Credits
ACC 438		3
ACC 418		3
MGT 449 ⁵		3
		9

Total Credits: 9

Students intending to become a Certified Public Accountant (CPA) must earn a minimum of 150 credits (30 credits beyond the minimum 120 required for the bachelor's degree). The additional 30 credits may come from the following: transfer credits, Winter Intersession or Summer courses, and additional credits taken during the regular Fall and Spring semesters. Students may consider taking additional ACC electives and adding another major or minor to reach the 150 credits.

¹ Grade of "C" or better is required for admission to the CBA Business Program.

² Accountancy majors may complete in the first year.

³ Different electives are offered in the Spring and Fall. Be sure to plan your elective in advance.

⁴ Students should note that taking an internship may require an additional semester and extend the time to earn a degree past four years.

⁵ Taken final semester, requires completion of all other core requirements.

Accountancy Minor

(College of Business Administration)

12 credits

Code	Title	Credits
ACC 311	Intermediate Accounting I	3
Plus any three (3) additional three (3) credit accounting courses numbered 300 or above ¹		9
Total Credits		12

¹ Excluding ACC 350, ACC 450, and ACC 499. Can apply either ACC 301 or ACC 330 but not both toward the minor.

Business Administration - Undergraduate Program

Overview

The **business administration minor** is available to any student outside the College of Business Administration. It provides students the ability to explore the broad knowledge of the functional aspects of business and organizations. Students will develop practical, managerial, and business decision-making skills by exposing them to a variety of "core subjects" like accounting, economics, management, and marketing.

Students must submit an electronic application for this minor from the College of Business Administration website (<https://www.uwlax.edu/cba/resources-for-students/business-administration-minor/>).

Minor

- Business administration minor (non-CBA) (p. 342)

Business Administration Minor

Minor requirements

(All colleges, excluding the College of Business Administration)

Students must submit an electronic application for this minor from the College of Business Administration website (<https://www.uwlax.edu/cba/resources-for-students/business-administration-minor/>).

ECO 120	Global Macroeconomics	
IS 220	Information Systems for Business Management	
Select six credits of 300/400-level electives from within the CBA departments. ^{2,3}		6
Total Credits		24

¹ A grade of "C" or better is required.

² Excluding MGT/MKT 301.

³ The CBA Departments are Accountancy, Economics, Finance, Information Systems, Management, and Marketing.

Economics Department (ECO)

The **economics major** is offered through the College of Arts, Social Sciences, and Humanities (p. 145) and through the College of Business Administration. The department is housed in the College of Business Administration.

College of Business Administration

Department Chair: Sheida Teimouri
2134 Wittich Hall; 608.785.5296
Email: steimouri@uwlax.edu (steimouri@uwlax.edu)

www.uwlax.edu/economics (http://www.uwlax.edu/economics/)

Why should a student major in economics when few graduates actually become professional economists? Job recruiters and graduate schools frequently seek economics majors because economics offers a way of thinking that is clear, concise and rigorous. Economics provides a solid background for many jobs and professions, preparing students for advancement in almost any professional career. The Department of Economics' mission is "to communicate the relevance of economics through innovative and cooperative teaching, scholarship and service." The UW-La Crosse undergraduate program is extremely flexible and offers many options to accommodate a wide range of student interests.

Economics credit by examination policy

The Department of Economics awards advance placement and/or credit by examination in ECO 110 Microeconomics and Public Policy (3 cr.) and ECO 120 Global Macroeconomics (3 cr.). Each examination will consist of multiple-choice items. Information about examinations is available through the department chair's office.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

Students in the College of Business Administration must be admitted to business (p. 337) and also complete the college core requirements.

2023-24 Faculty/Staff

Code	Title	Credits
ECO 110	Microeconomics and Public Policy	3
ECO 120	Global Macroeconomics	3
Select 12 credits of electives in courses numbered 300 or above in economics ¹		12
Total Credits		18

¹ A limit of three internship credits may be applied toward the economics minor.

Economics Honors Program

1. Admission Requirements

- Junior standing
- 6 credits in economics at the 300 level or above
- Minimum cumulative 3.25 GPA in the major
- Selection and commitment of two Economics Department faculty members, one to serve as a primary thesis advisor, and a second to serve as a secondary thesis reader
- Filing an Honors Program Statement of Intent Form with the department chair

2. Program Requirements

- ECO 307 Introduction to Econometrics (3 cr.) or Mathematical Economics (3 credits)¹
- Honors thesis that makes a substantive contribution to the economics literature; to be administered as a ECO 499 Independent Study (1-3 cr.) course with the primary thesis advisor.

3. Evaluation

- Minimum cumulative 3.50 GPA in the major at graduation
- Presentation of the honors thesis to a colloquium of faculty and students.
- Both the primary thesis advisor and the secondary thesis reader evaluate the honors thesis. In consultation with the secondary reader, the primary thesis advisor confirms that the thesis is of high quality meriting graduation with honors. (a passing grade in ECO 499 is not necessarily sufficient).

¹ Mathematical Economics occasionally offered as a topic under ECO 499.

Finance Department (FIN)

College of Business Administration
 Department Chair: Adam Stivers
 3146 Wittich Hall; 608.785.6677
 Email: astivers@uwlax.edu

www.uwlax.edu/finance (<http://www.uwlax.edu/finance/>)

The Department of Finance at UW-La Crosse allows many unique options that build on a strong fundamental program. The program provides a foundation in the primary financial areas: corporate finance, investments, and financial institutions. Students then have the flexibility to explore the basic areas in greater detail or to branch out in other financial areas such as international finance, real estate, financial planning or insurance. The department also offers a finance major with a risk, insurance and financial planning emphasis for those particularly interested in that area.

The UW-La Crosse program relies upon the traditional approach including text based lectures, but also includes substantial incorporation of case studies, current journal articles, and informational services as resource materials. Students also have access to databases that contain current and historical stock prices, financial statements, and other information on publicly-traded firms. Students in investment courses manage simulated million dollar portfolios with advanced students managing real money. Students can take advantage of numerous internships that provide both college credit and personal experience in the finance area. The capstone course, taken during the senior year, gives students the opportunity to draw upon all of their training in finance while working on realistic finance problems.

Students in the College of Business Administration must be admitted to business (p. 337) and also complete the college core requirements.

2023-24 Faculty/Staff

-

Finance Major - Bachelor of Science (BS)

The **Finance Program** at UW-La Crosse provides an excellent mix of theoretical and practical knowledge. Students are exposed to a variety of teaching methods ranging from lectures and group discussions to problem-solving case analysis and independent studies. The program provides a foundation in the primary financial areas: corporate finance, investments, and financial institutions. Students then have the flexibility to explore the basic areas in greater detail or to branch out in other financial areas such as international finance, real estate, financial planning or insurance. The department also offers a finance major with a risk, insurance and financial planning emphasis for those particularly interested in that area.

The Spellman Fund, a student-managed investment portfolio, involves investing real money in selected stocks and bonds recommended by students.

Major requirements

Admission

Admission to the College of Business Administration (p. 337)

The 300/400 level finance courses are open only to those students who have been admitted to the business program and students in business related programs for which such a course is specifically required. Exceptions to this policy may be made only by the College of Business Administration Dean. Students will be allowed to register for FIN 360 Principles of Insurance and Risk Management (3 cr.) without having been admitted to the business program.

Curriculum

(College of Business Administration)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office

to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ A grade of "C" or better is required for admission to the CBA Business Program.

Finance Major: Risk, Insurance, and Financial Planning Concentration - Bachelor of Science (BS)

UW-La Crosse is one of the few campuses that offers a major in **finance with a risk, insurance, and financial planning concentration**. Students who choose to specialize in this area learn about methods regarding treatment of risk and the utilization of insurance as a means to handle major risks in a business. Students are also introduced to the primary components of financial planning.

Students are introduced to the primary components of financial planning. Students specializing in this area of finance can continue on to obtain professional recognition of their qualification and training by passing the examinations and any additional requirements for designation as a Chartered Life Underwriter (CLU), Chartered Property and Casualty Underwriter (CPCU), or Certified Financial Planner (CFP).

Major requirements

Admission

Admission to the College of Business Administration (p. 337)

The 300/400 level finance courses are open only to those students who have been admitted to the business program and students in business related programs for which such a course is specifically required. Exceptions to this policy may be made only by the College of Business Administration Dean. Students will be allowed to register for FIN 360 Principles of Insurance and Risk Management (3 cr.) without having been admitted to the business program.

Information Systems Department (IS)

College of Business Administration

Department Chair: Peter Haried

241 Wing Technology Center; 608.785.8103

Email: pharied@uwlax.edu

www.uwlax.edu/information-systems (<http://www.uwlax.edu/information-systems/>)

The Information Systems Department offers two majors: **information systems** and **business analytics**. In addition, the IS department offers minors in both information systems and business analytics. All programs prepare students to apply information systems to improve business performance.

Information systems majors: Discover how to improve business processes where people, information and technology come together.

Information systems (IS) involves the planning, analysis, design, and implementation of information systems. Students develop and use computer-based information systems in business environments in preparation for careers in information technology-related areas. In the IS programs at UWL, students learn how to plan, analyze, design, and implement computer-based information systems, such as computer networks and database applications. Students gain in-depth knowledge of IS concepts and applications, learn how to analyze business data and operations to create innovative solutions and gain management skills. Businesses worldwide depend heavily on advanced information systems for managing information and business operations competitively. This calls for IS professionals in careers such as business/systems analyst, business analytics, web developer, information specialist, applications software engineer, security specialist, project manager, network analyst, and database administrator. These are just a few of the prestigious and well-paid positions available to IS program graduates.

Business analytics majors: Succeed in a data-driven world by developing solutions to improve business performance.

Business analytics (BA) involves the collecting, storing and analyzing of data to shape and make business decisions. The BA programs feature a multi-disciplinary curriculum that focuses on developing new insights and understanding of business performance based on data and statistical methods. The undergraduate business analytics major will prepare students to succeed in a data-driven world, providing exposure to software platforms and techniques used to store, transform, manipulate, analyze and interpret small and large sets of data. BA is a growing field of study that can lead to a variety of career paths and opportunities within a range of businesses and organizations. Operational research analysts, market research analysts

and management analysts are positions in high demand, and often offer salaries far above the national median.

Why minor in information systems? Learn how to apply the benefits of technology.

Can you think of a future career that will not use technology in some way? An **IS minor** is a great way for students to enhance and complement their major with technology skills, business analytics, and knowledge that will make them more valuable in their chosen major field. An IS minor is a great way to make yourself more attractive to potential employers and prepare for a career that will include the use of IS.

Why minor in business analytics? Make an impact in today's data-driven business world.

BA is the ability to use statistics, quantitative analysis, and information modeling to shape and make business decisions. BA is a growing field of study that can lead to a variety of career paths and opportunities within a vast range of businesses and organizations. The **BA minor** provides students with introductory level business analytics knowledge and intermediate level skills development in technology and information systems needed to produce, manage, and apply the results for business decision making. The BA minor is a great complement to many areas of study.

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

- Information systems major - BS (p. 353)

Minors

- Business analytics minor (p. 355)
- Information systems minor (p. 356)

Business Analytics Major - Bachelor of Science (BS)

Why major in business analytics? We live in a data driven world.

Business analytics (BA) is the ability to use statistics, quantitative analysis and information modeling to shape and make business decisions. The business analytics major features a multi-disciplinary curriculum that focuses on developing new insights and understanding of business performance based on data and statistical methods. The program incorporates a wide range of required and elective courses covering topics including: statistics, data visualization, databases, data mining, business forecasting, and performance analysis.

Graduates of the BA program will be prepared to succeed in a data-driven world and will gain exposure to a variety of cutting-edge software platforms and techniques used to store, transform, analyze, visualize and interpret business data. Graduates have a wide variety of excellent career prospects. Your knowledge of how BA works to improve business processes and decisions will prepare you for a rewarding career in the business analytics area.

Many BA majors participate in an internship experience in their junior or senior year. The internships earn university credit that applies to the major program. Most are paid and many lead to employment following graduation.

Information Systems Major - Bachelor of Science (BS)

Why major in information systems? Discover how to improve processes where people and technology come together.

Information systems (IS) is concerned with the planning, analysis, design, and implementation of information systems. Students develop and use computer-based information systems in business environments in preparation for careers in information technology-related areas. Businesses worldwide depend heavily on advanced information systems for managing information and business operations competitively. This calls for IS professionals in careers such as business/systems analyst, business analytics, web developer, information specialist, applications software engineer, security specialist, project manager, network analyst, and database administrator. These are just a few of the prestigious and well-paid positions available to IS program graduates.

In the IS program at UWL, students learn how to plan, analyze, design, and implement computer-based information systems, such as computer networks and database applications. Students gain in-depth knowledge of IS concepts and applications, learn how to analyze business data and operations to create innovative solutions, and gain management skills. Courses in information systems include a variety of in-demand topics and skill development including information technology, data analytics, business core knowledge, software applications, project management and a systems perspective.

Students in the program need to possess strong mathematics and logical reasoning skills. High school students planning collegiate programs in business, including information systems, should take algebra/trigonometry or pre-calculus courses in high school.

With solid coursework in the computer science area before entering the professional portion of the program, students develop a technical foundation to support their upper-division curriculum.

As in all other business programs, IS majors will complete an extensive array of courses in liberal arts and science, including courses in communication, humanities, multicultural studies, and social sciences.

The vast majority of IS majors participate in an internship experience in their junior or senior year. The internships earn university credit that applies to the major program. Most are paid and many lead to employment following graduation.

Major requirements

Admission

Admission to the College of Business Administration (p. 337)

The 300/400 level information system courses are open only to those students who have been admitted to the business program or IS minor program. Exceptions to this policy may be made only by the College of Business Administration Dean.

Curriculum

(College of Business Administration)

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 354)
- Baccalaureate degree requirements (p. 354)

College of Business Administration (CBA) core requirements

All students enrolled in any program within the college must complete the 16 business core courses listed below and all requirements for the major (see department listings). Courses numbered at the 100 and 200 level as well as MGT/MKT 301 are considered pre-business courses. MGT 449 must be taken in the semester of graduation.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Business Analytics Minor

Make an impact in today's data-driven business world. Why minor in business analytics?

Companies today are increasingly relying on employees who can convert data into actionable insights to help businesses remain competitive. In the **business analytics minor**, students will learn skills in business analytics, technology, and information systems needed to apply the results for business decision making. The minor is designed to complement many majors.

Business analytics is the ability to use statistics, quantitative analysis, and information modeling to shape and make business decisions. Business analytics is a growing field of study that can lead to a variety of career paths and opportunities within a vast range of businesses and organizations.

Minor requirements

(All colleges)

18 credits

Admission and retention policy

All students must meet prerequisite requirements for courses counting toward the minor. No more than six credits can double count with another major or minor.

¹ A maximum of three credits of IS 405 may apply to the minor.

Information Systems Minor

Learn how to apply the benefits of technology

Can you think of a future career that will not use technology, data analytics, technology, or information systems (IS) in some way? Why not complement your major with an IS minor? IS study is concerned with the planning, analysis, design, and implementation of information systems. Students develop and use computer-based information systems in business environments in preparation for careers in information technology-related areas. A minor in IS provides students the opportunity to complement their major program of study with in-depth knowledge of IS concepts and applications applicable across disciplines. An IS minor is a great way for students to enhance their major with technology skills and knowledge that makes them much more valuable in their chosen major field.

What is the information systems minor?

The **IS minor** provides students with introductory level information systems knowledge and intermediate level skills development in data analytics, networking, systems development, and enterprise systems. Companies today are increasingly relying on employees who can apply technology into actionable insights to remain competitive.

The IS minor is designed to positively complement many majors by enhancing students' IS skills. The IS minor allows students to enhance their area of study with emerging technology and information systems approaches needed to produce, manage and apply the results for business decision making. Examples of programs that may benefit from this complementary minor include accounting, computer science, marketing, management, finance, and math. The program enhances and complements the increased use of technology across program domains.

Minor requirements

(All colleges)

Information systems admission and retention policy

International Business Program (IB)

College of Business Administration

Director: Elizabeth Crosby

3114 Wittich Hall; 608.785.6754

Email: ecrosby@uwlax.edu

The **international business major** at the University of Wisconsin-La Crosse was one of the first in the state with a focus on the global nature of business in the twenty-first century. The program was the outcome of an effort by faculty to address the long-term needs of businesses that operate in an international environment and also to contribute to students' development as citizens of an increasingly "global" world. The major allows students to get a comprehensive foundation of international business, while also specializing in a functional concentration (i.e., management, marketing, accountancy, economics, finance or information systems). A minor is also available

to both CBA and non-CBA students who want to enhance their primary major.

Faculty in the College of Business Administration have the international orientation necessary to teach international business. Many teaching in this program have extensive international experience and are fluent in non-English languages.

Students in the College of Business Administration must be admitted to business (p. 337) and also complete the college core requirements.

Major

- International business major - BS (p. 357)

Minor

- International business minor (p. 359)

International Business Major - Bachelor of Science (BS)

Major requirements

Admission to the College of Business Administration (p. 337)

(College of Business Administration)

30 credits - This program also requires up to eight credits for language proficiency, completion of the international business major requirements, a functional business concentration or double major in another business discipline, and an international experience.

International business language requirement

The international business (IB) major requires demonstrated proficiency at the beginner level in a second language. This can be accomplished either by completing prescribed courses or by demonstrating proficiency as determined by the Department of Global Cultures and Languages. Language proficiency would generally be acquired through the study of a language up to and including the 102 level in Chinese, French, German, Russian, Spanish or any 102 level language with GCL prefix with grades of "C" or better in each course. Students whose native language is not English will meet this requirement through demonstrated proficiency via TOEFL or departmental exam.

Majors must also complete an international experience of at least three weeks duration prior to graduation. The international experience must be pre-approved by the College of Business Administration International Business Advisory Committee. Students should apply for approval at least one semester before the planned experience. The advisory committee will determine the credit value of the experience. For non-U.S. based students, this requirement is met through the satisfactory completion of all required course work.

In addition to the 18 credits required above, students are required to either have an international experience of three weeks or more in length (e.g., study abroad) or take eight credits in world language (one year in the same language). This is waived for students whose native language is not English. The international experience must be pre-approved by the College of Business Administration International Business Advisory Committee. Students should apply for approval at least one semester before the planned experience. The advisory committee will determine the credit value of the experience. For non-U.S. based students, this requirement is met through the satisfactory completion of all required course work.

A maximum of six credits can be applied to a student's College of Business Administration major.

Management Department (MGT)

College of Business Administration
Department Chair: Nicole Gullekson
 2202 Wittich Hall; 608.785.8699
 Email: ngullekson@uwlax.edu

www.uwlax.edu/management (<http://www.uwlax.edu/management/>)

The **management major** offered by the Department of Management at UW-La Crosse is a program carefully structured to meet the requirements of AACSB International of which UW-La Crosse is an accredited member. Approximately 25 percent of the schools of business in the U.S. hold this accreditation.

The program prepares students for a challenging career in for-profit and non-profit organizations. Working with a highly-trained and specialized group of faculty and staff, management majors will gain knowledge and skills related to managing people and processes within a wide range of business contexts. Students can become more socially responsible leaders and team members and evidence-based decision makers, and enhance their communication skills, their ability to work with others, their willingness to accept leadership responsibilities, and their respect for human differences.

The management major provides opportunities for students to develop skills and knowledge across a variety of areas of management such as human resource management, entrepreneurship, production and operations management, healthcare management, international

management and other targeted areas related to their career interests. Opportunities exist to explore specialized areas within the field of business management through upper-level elective courses as well as research projects (e.g., MGT 499) and internships (e.g., MGT 450, MGT 452). Some courses have community service projects. The major also provides students with important exposure to matters of corporate social responsibility and ethics, the Principles of Responsible Management Education (<http://www.unprme.org/>) and the UN Global Compact (<http://www.unglobalcompact.org/>).

The Management Department also contributes courses for the interdisciplinary sustainable business minor (for business students), the international business major and minor (for both business and non-business students), the healthcare analytics management minor (for both business and non-business students), and the minor in business administration (for non-business students).

Management majors in the College of Business

Administration must be admitted to business (p. 337) **in order to take upper-level MGT courses and in order to complete required upper-level college core requirements.**

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Major

- Management major - BS (p. 360)

Minor

- Healthcare analytics management minor (p. 363)
- Sustainable business minor (CBA) (p. 366)

Management Major - Bachelor of Science (BS)

The **management major** aims to provide students with the knowledge and skills needed to effectively manage people and processes in today's global and diverse business environment. The management coursework is designed to help students understand the theory and practice of management, how to be socially responsible leaders and team members, to make evidence-based decisions and to communicate effectively in a variety of organizational settings. To this end, the management department has identified the following learning outcomes for the major:

1. Students will demonstrate critical management content knowledge related to organizational processes and managing and leading people.
2. Students will apply evidence-based decision-making to address business issues individually and collaboratively.
3. Students will practice effective teamwork and leadership skills/ behaviors in a way that promotes inclusivity and engages others to work together towards a common goal.
4. Students will demonstrate knowledge of cultural diversity and will use knowledge to recommend effective management practices for international and cross-cultural business.
5. Students will apply an understanding of sustainable business concepts (including corporate social responsibility and business ethics) to decision-making within organizations.

Special interest areas

The management major is designed to be flexible so that students can explore their interests within the field of management and take classes that best support their own career goals. Thus, there are no formal concentrations, tracks or emphases within the management major, but students are encouraged to consider using the following special areas to assist in selecting management electives for targeted career paths:

Students interested in **International Management** may want to take some of the following courses:

- MGT 430 Cross-Cultural Management
- MGT 431 Business, Labor and Human Rights
- MGT 484 International Human Resource Management
- BLAW 405 The Law of International Business Transactions
- MGT 492 Global Supply Chain Management and Logistics

Students interested in **Human Resource Management** may want to take some or all of the following courses:

- MGT 303 Principles of Labor-Management Relations
- MGT 385 Human Resource Management
- MGT 386 Compensation and Benefits Administration
- MGT 483 Employee Training and Development
- MGT 484 International Human Resource Management
- MGT 485 Collective Bargaining
- MGT 486 Human Resources: Current Issues and Policies

Students interested in **Organizational Behavior** may want to take some of the following courses:

- MGT 400 Special Topics in Management
- MGT 412 Leadership and Team Development
- MGT 487 Managing Diversity and Inclusion in Organizations

Students interested in **Operations & Supply Chain Management** may want to take some of the following courses:

- MGT 395 Management Science
- MGT 399 Project Management: Planning, Scheduling, Executing, and Controlling
- MGT 492 Global Supply Chain Management and Logistics
- MGT 493 Green Operations Management

Major requirements

(College of Business Administration)

Admission

Admission to the College of Business Administration (p. 337)

300/400 level management courses are open only to those students who have been admitted to the business program and students in business-related programs for which such a course is specifically required. Exceptions to this policy may be made only by the College of Business Administration Dean.

Curriculum

24 credits

Code	Title	Credits
Core		
MGT 360	International Management	3
MGT 408	The Global Responsibility of Business	3
Select one of the following two courses. ¹		
MGT 385	Human Resource Management	3
	or MGT 420 Entrepreneurship	
Electives		
Select 15 credits from any 300/400 level MGT course or any of the following non-MGT courses. At least nine of the 15 elective credits should be 400 level courses. ^{2,3}		15
BLAW 305	Business Law	
BLAW 405	The Law of International Business Transactions	
BLAW 415	Current Topics in Law	
IS 360	Management of Business Analytics	
Total Credits		24

¹ If both courses are taken, 3 credits may be applied toward the 15 credits from any 300/400 level MGT course.

² A limit of three internship credits from MGT 450 or MGT 452 may be applied toward the management major.

³ A limit of three independent study credits from MGT 499 may be applied toward the management major.

Up to three credit hours of outside elective courses may be approved by the faculty adviser and department chair. Students with interests in special areas (p. 360) (e.g., operations management, human resources, international management, etc.) should work closely with their advisers to select classes accordingly.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 361)
- Baccalaureate degree requirements (p. 362)

College of Business Administration (CBA) core requirements

All students enrolled in any program within the college must complete the 16 business core courses listed below and all requirements for the major (see department listings). Courses numbered at the 100 and 200 level as well as MGT/MKT 301 are considered pre-business courses. MGT 449 must be taken in the semester of graduation.

Code	Title	Credits
ACC 221	Accounting Principles I	3
ACC 222	Accounting Principles II	3
BLAW 205	The Legal and Ethical Environment of Business	3
ECO 110	Microeconomics and Public Policy	3
ECO 120	Global Macroeconomics	3
ECO 230	Data Analysis for Business Applications	3
ENG 110	College Writing	3
	or ENG 112 College Writing AP (Advanced Placement)	
FIN 355	Principles of Financial Management	3
IS 220	Information Systems for Business Management	3
MGT/MKT 301	Business Communication	3

MGT 393	Production and Operations Management	3
MKT 309	Principles of Marketing	3
MTH 160	Mathematics for Business	4-5
	or MTH 175 Applied Calculus	
	or MTH 207 Calculus I	
STAT 145	Elementary Statistics (or equivalent)	4
Capstone - taken in the semester of graduation		
MGT 449	CBA Capstone: Applied Business Strategy	3
Total Credits		50-51

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring).

Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ A grade of "C" or better is required for admission to the CBA Business Program.

² If both courses are taken, 3 credits may be applied toward the 15 credits from any 300/400 level MGT course.

Healthcare Analytics Management Minor

The **minor in healthcare analytics management (HAM)** is designed to prepare students in a wide variety of majors planning careers in any area of the healthcare industry. Students will learn to understand the role and leverage the potential of healthcare analytics. Students taking the minor will acquire skills to identify innovative uses of data to solve healthcare management problems, construct and understand key industry metrics, and guide professional decision-making.

Minor requirements

(All colleges)

21 credits

Students may double count up to six credits with their major.

Marketing Department (MKT)

College of Business Administration

Department Chair: Maggie McDermott

3112 Wittich Hall; 608.785.6751

Email: mmcdermott@uwlax.edu

www.uwlax.edu/marketing (<http://www.uwlax.edu/marketing/>)

Marketing offers challenges, stimulating problems, working with people and unlimited advancement opportunities. The variety and number of career and job opportunities available to you upon graduation is impressive.

According to the *Occupational Outlook Handbook*, employment of advertising, marketing, promotions, public relations and sales managers is expected to increase through 2018. "Job growth will be spurred by competition for a growing number of goods and services, both foreign and domestic, and the need to make one's product or service stand out."¹ In addition, as the influence of social media, the Internet and advertising via wireless devices changes the promotional landscape, marketing professionals will need to develop new and innovative ways to advertise and promote products and services to better reach desired market segments.

Positions in marketing provide excellent training because of the knowledge of products and consumers gained in these jobs. Due to their importance and high visibility, managers in marketing positions often are prime candidates for advancement to the highest levels in an organization.²

¹ Beyer, Gregory, "A Career in Marketing/Advertising," *Wall Street Journal*, September 13, 2010, <http://online.wsj.com/home-page> (<http://online.wsj.com/home-page/>).

² *Occupational Outlook Handbook*, 2010-2011

Students in the College of Business Administration must be admitted to business (p. 337) and also complete the college core requirements.

2023-24 Faculty/Staff

Major

- Marketing major - BS (p. 364)

Marketing Major - Bachelor of Science (BS)

The Department of Marketing faculty at UW-La Crosse considers the educational, personal, and professional development of marketing students to be their number one priority. The Department of Marketing is dedicated to providing an in-depth understanding of marketing activity, in both domestic and international settings. Graduates are prepared to enter a variety of marketing related positions upon graduation. Students in this major are presented with opportunities to more fully develop and explore their specific marketing and career interests while progressing through their course work.

Major requirements

(College of Business Administration)

Admission

Admission to the College of Business Administration (p. 337)

300/400 level marketing courses are open only to those students who have been admitted to the business program and students in business-related programs for which such a course is specifically required. Exceptions to this policy may be made only by the College of Business Administration Dean.

¹ A grade of "C" or better is required for admission to the CBA Business Program.

² CBA core courses such as MKT 301, MKT 309, and MKT 323 cannot be applied toward the major. Cross-listed courses MKT 310 and MKT 480 also cannot be applied toward the major. Students with interests in special areas should work closely with their advisors

on course selection. A maximum of three credits may come from MKT 415 or MKT 450 or MKT 499.

Sustainable Business Program

The **sustainable business minor** provides CBA students with the opportunity to discover how sustainable business practices can be incorporated into organizational practices, strategy, and supply chains. Sustainable business minors will identify ways to integrate environmental, social, and financial concepts to create a more sustainable world. Studying sustainable business will give students the know-how to promote environmental, economic, and social sustainability in their future careers. They will learn how to be good stewards of natural resources, even while pursuing business objectives.

Students take an introductory sustainable business course (MGT/MKT 310 Principles of Sustainable Business; usually offered only in the Fall semester), the Global Responsibility of Business course (MGT 408; usually offered each semester), and nine credits of approved electives (listed on a separate page). After completing MGT/MKT 310, MGT 408, and at least three credits of approved electives, students take the Business Sustainability Capstone course (MGT/MKT 480; usually offered only in the Spring semester). Students should carefully note the specific courses in the minor, when they are offered, and course prerequisites.

The College of Science and Health (CSH) houses high quality major and minor programs in the natural and physical sciences, mathematics and computer science, exercise science, recreation, and in selected allied health professions. The college's combination of programs provides both applications for the sciences and a strong science base for the allied health offerings. These programs also collectively provide many scientific literacy offerings within the university's general education program. All major programs offer undergraduate research experiences and/or professional internship experiences through collaborative agreements with external agencies.

Sequences and requirements are listed on the various department pages, with major or minor requirements listed on those specific tabs in the department's section. In addition to the major and general education requirements, all students in the College of Science and Health must complete a core curriculum, which emphasizes diverse in-depth study outside of the major.

College of Science and Health (CSH) Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 210, BIO 304, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a world language at the 202 level or demonstrate English language proficiency for non-native speakers of English. Contact the CSH Dean's Office for eligibility and regulations.

Students must also complete one of the following options. It is recommended that courses are selected in consultation with your advisor.

1. Complete a minor in the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts; or
2. Complete an individualized option, consisting of 15 credits.
 - a. These courses must be from the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Art.
 - b. At least 9 credits must be earned at the 300/400 level.
 - c. General education courses may apply provided they are not being used to fulfill minimum general education requirements.
 - d. Internship credits may not count toward the individualized option.

College of Science and Health (CSH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, in addition to all other College of Science and Health core requirements, students from non-exempted programs¹ must complete one of the following options. It is recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits
 - a. At least 12 credits must be earned at the 300/400 level outside the major department.
 - b. The remaining six credits should come from
 - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or
 - ii. 300/400 level courses inside major not being used to fulfill major requirements.

- c. Internship credits may not count toward the individualized option.

¹ The list of exempted CSH programs is below.

CSH college core exemptions

Students participating in the following programs are exempt from the college core requirements:

Biology: Science Education Concentration
 Chemistry with a Business Concentration
 Chemistry with a Environmental Science Concentration
 Chemistry: Science Education Concentration
 Clinical Laboratory Science
 Computer Engineering
 Computer Science: Computer Engineering Technology Emphasis
 Exercise and Sport Science: Exercise Science Fitness Track
 Exercise and Sport Science: Exercise Science Pre-Professional Track BS/
 Athletic Training MS Dual Degree Program
 Exercise and Sport Science: Physical, Adapted, and School Health Education
 Exercise and Sport Science: Sport Management Emphasis
 Mathematics Education
 Nuclear Medicine Technology
 Physics: Science Education Concentration
 Physics with a Business Concentration
 Physics with a Biomedical Concentration
 Public Health and Community Health Education
 Radiologic Science: Diagnostic Medical Sonography with
 Echocardiography/Vascular Emphasis
 Radiologic Science: Diagnostic Medical Sonography with General/
 Vascular Emphasis
 Radiologic Science: Radiation Therapy Emphasis
 Radiologic Science: Radiologic Technology Emphasis
 Recreation Management: Community Based Recreation Emphasis
 Recreation Management: Generalist Emphasis
 Recreation Management: Outdoor Recreation Emphasis
 Recreation Management: Tourism and Event Management Emphasis
 Recreation Management BS (with an emphasis)/MS Dual Degree Program
 Recreational Therapy
 Recreational Therapy BS/MS Dual Degree Program

CSH assurance of progress to degree after 60 credits policy

The College of Science and Health is committed to student success and completion of a baccalaureate degree in a timely manner. Students must have a declared academic major¹ after the completion of 60 credits. For programs requiring an application for admission, students must be admitted to that program or have a qualifying second major² after the completion of 60 credits. Students who do not meet this requirement will (1) have an advising hold placed on their registration for the next semester; (2) be required to make an appointment with staff in the College of Science and Health Academic Services Office to discuss plans for degree completion and to request removal of the advising hold.

¹ The undeclared major is not an academic major.

² A qualifying second major will not have a competitive application process.

Pre-professional curricula

www.uwlax.edu/csh/pre-professional-programs/ (<http://www.uwlax.edu/csh/Pre-professional-programs/>)

Students have the opportunity to complete requirements in a variety of pre-professional fields prior to applying to for admission to a professional program either here at UWL or at another college or university. Declaring a pre-professional track is a statement of student's intention to apply to a professional school and helps students determine common requirements for professional programs in our region.

Pre-professional program requirements vary widely; some require a degree while others do not. **Students are expected to be aware of the requirements of the school to which they plan to apply. Therefore, when selecting coursework, students should first consult the applicable program's website.**

Pre-professional advisors on the campus can be of assistance to students in designing a curriculum in such programs. Contact one of the pre-professional advisors (<http://www.uwlax.edu/csh/Pre-professional-programs/>) or inquire at the College of Science and Health Academic Services Office in 105 Graff Main Hall for more information. Students interested in healthcare related tracks may also contact the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) in 1209 Centennial Hall. In addition, many of the pre-professional tracks have related student organizations, such as the Pre-Dentistry Club (<https://uwlmyorgs.campuslabs.com/engage/organization/predentistryclub/>), that support students who intend to go on for schooling in that subject. These clubs can be found at UWL's student organization website MyOrg (<https://uwlmyorgs.campuslabs.com/engage/>).

Pre-professional programs are **not majors** at the University of Wisconsin-La Crosse and are often referred to as "tracks" in the WINGS Student Center. Although coursework recommended by the pre-professional program may be needed for admission to a graduate school, it is **not** required for graduation from UWL unless also included in a student's major/minor, college core, or the university degree requirements. Students still need to select a major to complete a degree at UWL.

Pre-athletic training track

Athletic trainers (ATs) are health care professionals who collaborate with physicians to provide emergency care and prevent, diagnose and treat injuries and medical conditions for people in work, life, and play, including athletes, industrial workers, military service members, and public servants. More information about athletic trainers and the health care services they provide are available at nata.org (<https://www.nata.org/>) and/or atyourownrisk.org (<https://www.atyourownrisk.org/>).

Graduate athletic training program admission requirements vary by program, but generally include an undergraduate degree, GPA requirements, satisfactory scores on the GRE, and completion of coursework in the following areas: biology, chemistry, math and statistics, physics, exercise science, and nutrition. Undergraduate students must also declare a major in another field in order to complete a baccalaureate degree at UWL. The typical major is exercise science-pre-professional track. Other majors are equally feasible with appropriate planning.

Consult the pre-athletic training advising website (<https://www.uwlax.edu/academics/pre-professional/athletic-training/>) as to specific coursework recommendations & admission requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions. A pre-AT advisor will be

assigned once the pre-athletic training track has been added to the student's academic record.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website. (<https://www.uwlax.edu/pre-health/plan-your-academics/>)

For admission requirements specific to UWL's Athletic Training Graduate Program, visit the UWL Athletic Training Program website (<https://www.uwlax.edu/grad/athletic-training/>).

Pre-chiropractic track

Chiropractors diagnose, treat, and work to prevent disorders of the neuro-musculoskeletal system and the effects of these disorders on general health. Chiropractors emphasize manual and manipulative therapy for the treatment of joint dysfunctions. Chiropractic is generally classified as complementary/alternative medicine. Most chiropractors earn a Doctor of Chiropractic (DC) degree. See [ExploreHealthCareers.org](https://explorehealthcareers.org) (<https://explorehealthcareers.org/career/chiropractic-medicine/chiropractor/>) for more information on the chiropractic profession.

Chiropractic admission requirements vary by program. While it's possible to start chiropractic school after 60-90 credits, most schools strongly recommend that students earn a bachelor's degree before matriculation. Minimum life and physical science course requirements are 24 credits (biology, chemistry, exercise science, physics), with at least 12 credits including a laboratory component. Some chiropractic universities require more than 24 credits of science coursework. A statistics course is also recommended, and college algebra will likely be required before taking chemistry.

Consult the pre-chiropractic advising website (<https://www.uwlax.edu/academics/pre-professional/chiropractic/>) as to specific coursework recommendations & admission requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website. (<https://www.uwlax.edu/pre-health/plan-your-academics/>)

Pre-clinical exercise physiology track

Clinical exercise physiologists (CEP) are healthcare professionals who typically work in cardiopulmonary rehabilitation, cancer rehabilitation, stress testing, health education, and/or wellness centers. They develop fitness and exercise programs for patients who have a history of cardiovascular (heart), pulmonary (lung), and metabolic disorders and chronic diseases. CEPs work closely with patients and their medical providers during the rehabilitation process to develop individualized treatment plans.

Graduate clinical exercise physiology program admission requirements vary by program, but generally include an undergraduate degree, GPA requirements, and completion of coursework in biology and exercise science. Undergraduate students must also declare a major in order to complete a baccalaureate degree at UWL. The typical major is exercise science-pre-professional track, but other majors are equally feasible with appropriate planning.

Consult the pre-clinical exercise physiology advising website (<https://www.uwlax.edu/academics/pre-professional/clinical-exercise-physiology/>) as to specific coursework recommendations & admission requirements, or contact an advisor in the Pre-Health Student Resource Center with questions.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website.

For admission requirements specific to UWL's Clinical Exercise Physiology Graduate Program, visit the program's website here.

Pre-dentistry track

Dentists play a significant role in our oral health care throughout our lives. Whether it's maintenance in the early years, braces in the adolescent years, or treatment for gum disease or teeth extractions in the senior years, successful dentists are capable and compassionate practitioners. See [ExploreHealthCareers.org](https://explorehealthcareers.org) (<https://explorehealthcareers.org/career/dentistry/dentist/>) for more information on dentistry.

Dental school requirements for admission varies, but most recommend completing a baccalaureate degree. The coursework prerequisites may require courses in biology, chemistry, biochemistry, microbiology, college writing, English literature, mathematics & statistics, physics, and psychology. A certain amount of labwork will likely be required in biology and chemistry. Admission to dental school is also based on grade point average, interviews, aptitude tests, and letters of recommendation. An aptitude test is taken in the year preceding application to dental school.

Consult the pre-dentistry advising website (<https://www.uwlax.edu/academics/pre-professional/dentistry/>) as to specific coursework recommendations & admission requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website. (<https://www.uwlax.edu/pre-health/plan-your-academics/>)

Pre-engineering track

Engineers fill a variety of roles in a variety of settings. Most of the basic mathematics, chemistry and physics courses that the prospective engineer needs in the first two years of an engineering curriculum can be taken at UWL, and a wide choice of electives is also available. In the first two years, every pre-engineer should complete three semesters of calculus, two semesters of chemistry, and two semesters of physics. Engineering curricula require four or more years of study; therefore, students spending the first two years at UWL will need to spend two or more years at an engineering school to complete degree requirements. See [DiscoverE.org](http://www.discovere.org) (<http://www.discovere.org/discover-engineering/engineering-careers/>) for more information on different engineering careers.

Since requirements vary with the engineering school and the particular major, students should see a pre-engineering advisor in the chemistry, computer science, mathematics, or physics department as early as possible. The advisor can furnish information about specific majors within engineering schools, specific coursework recommendations, and admission requirements.

Dual degree agreements are available in which students receive two bachelor of science degrees in approximately five years, one from UWL and one from the partner engineering school. The UWL major/engineering partnerships include the following: chemistry & engineering (<http://catalog.uwlax.edu/undergraduate/chemistry/dual-degree-program-in-chemistry-and-engineering/>), computer science & engineering (<http://catalog.uwlax.edu/undergraduate/computerscience/dualdegreeprogramincomputerscienceandengineering/>), mathematics & engineering (<http://catalog.uwlax.edu/undergraduate/mathematics/dual-degree-program/>), and physics & engineering (<http://>

catalog.uwlax.edu/undergraduate/physics/dual-degree-physics-engineering/). Students do not need to declare the pre-engineering track to enter into one of these programs, but they should consult with an advisor first. Explore the engineering advising website (<https://www.uwlax.edu/academics/pre-professional/engineering/>) for more details on the physics & engineering dual degree program.

Pre-forestry (natural resources, conservation, wildlife management) track

Forestry jobs and careers include the following: timber buyer, district or city forester, natural resource manager, forest supervisor, forest engineer, insect and disease specialist, tree improvement forester, park ranger, pulp and paper chemist, fire control officer, land use planner, forest ecologist, university faculty, arborist, silviculturist, wood technologist, forest pathologist, forest entomologist, or an environmental education specialist. See ForestryDegree.Net (<https://forestrydegree.net/>) for more information about forestry careers.

Pre-forestry advising is available to help prepare students for forestry programs and jobs around the country. However, students entering one of these fields are reminded that forestry schools set their own requirements for admission, and thus, it is imperative that exact requirements be obtained from current catalogs of the schools to which students plan to transfer to complete their professional training. Generally, the requirement for admission to professional school is junior standing and 60 semester hours. It is also recommended that calculus, chemistry, and physics be taken during the first two years of college. Students may also find it advantageous to earn a bachelor's degree before entering a professional program, in which case, they should allow more years before applying to a professional school.

Students are urged to contact the pre-forestry advisor early in their first semester. Explore the pre-forestry advising website (<https://www.uwlax.edu/academics/pre-professional/forestry/>) for more details.

Pre-genetic counseling track

Genetic counselors are healthcare professionals who specialize in medical genetics and counseling. They work to evaluate and understand individual and family risk of inheriting a variety of conditions by studying the patient's genes through DNA testing. For example, they may work with families who are expecting children and adults who may have a risk of developing certain diseases such as cancer.

Graduate genetic counseling program admission requirements vary by program, but generally include an undergraduate degree, GPA requirements, and completion of coursework in biology, chemistry, and social sciences. Undergraduate students must also declare a major in order to complete a baccalaureate degree at UWL.

Consult the pre-genetic counseling advising website (<https://www.uwlax.edu/academics/pre-professional/genetic-counseling/>) as to specific coursework recommendations & admission requirements, or contact an advisor in the Pre-Health Student Resource Center with questions. An advisor will be assigned once the track has been added to the student's academic record.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website.

Pre-medical dosimetry track

Medical dosimetrists work as part of the cancer treatment team. Working in collaboration with the medical physicist and radiation oncologist, the medical dosimetrist uses their knowledge of physics,

anatomy, and radiobiology to plan optimal radiation treatment techniques and dosing.

Graduate medical dosimetry program admission requirements vary by program, but generally include an undergraduate degree, GPA requirements, and completion of coursework in biology, math, and physics. Undergraduate students must also declare a major in order to complete a baccalaureate degree at UWL. Although radiologic science: radiation therapy emphasis is common, students may enter a program with any natural or physical science major.

Consult the pre-medical dosimetry advising website (<https://www.uwlax.edu/academics/pre-professional/medical-dosimetry/>) as to specific coursework recommendations & admission requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions. An advisor will be assigned once the track has been added to the student's academic record.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website.

For admission requirements specific to UWL's Medical Dosimetry Graduate Program, visit the program's website [here](#).

Pre-medicine track

Medical doctors fill a variety of roles in a variety of settings. Physicians diagnose and care for people of all ages who are ill or have been injured, and also work to prevent health problems before they occur. Students interested in the intricacies of the human body's systems, leadership, and helping others may find a right fit in the medical profession. The AAMC (<https://students-residents.aamc.org/choosing-medical-career/article/medical-student-perspective-best-advice/>) has a wealth of information on what it means to become a doctor.

Requirements for admission to each medical school varies, but include significant coursework in the following fields biology, chemistry; mathematics (pre-calculus and statistics), physics, and English (a writing intensive and/or upper division coursework may be required). Admission to medical school is highly competitive, and admission decisions are based on factors such as overall grade point average, grade point average in the required science courses, performance on the national Medical College Admission Test (MCAT), usually taken in the spring of the junior year, non-academic credentials (activities and work experiences), letters of evaluation from faculty, and a personal interview. Undergraduate students must also declare a major in another field in order to complete a baccalaureate degree at UWL. Although the majority of pre-medical students major in chemistry, biology, or microbiology, students may major in any field of interest as long as the minimal requirements are satisfied.

Consult the pre-medicine advising website (<https://www.uwlax.edu/academics/pre-professional/medicine/>) as to specific coursework recommendations & admission requirements. Students with questions or needing guidance on whether to choose this track may also contact the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>). A specific pre-med advisor will be assigned once the pre-medicine track has been added to the student's academic record.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website. (<https://www.uwlax.edu/pre-health/plan-your-academics/>)

Pre-occupational therapy track

Occupational therapists are health professionals who work with individuals to maximize performance in their everyday life tasks when impacted by injury, disease, or other health risk. Occupational therapists are part of a healthcare team that may also include physicians, physician assistants, physical therapists, speech pathologists, and recreational therapists. "Occupation" refers to those everyday meaningful tasks that individuals do each day. The goal of occupational therapy is to help individuals successfully engage in purposeful tasks that comprise daily life. The AOTA (<https://www.aapa.org/what-is-a-pa/>) has more details on what it means to be an occupational therapist.

Occupational therapy admission requirements vary by program, but may include a minimum GPA requirement, an undergraduate degree, and satisfactory completion of coursework in the following subjects: human anatomy and physiology, physics, psychology, and statistics. There may also be a minimum grade requirement on the prerequisite coursework.

Consult the pre-occupational therapy advising website (<https://www.uwlax.edu/academics/pre-professional/occupational-therapy/>) as to full coursework and admission requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions. A specific pre-OT advisor will be assigned once the pre-occupational therapy track has been added to the student's academic record. The pre-occupational therapy track is not a major; therefore, undergraduate students must also declare a major in another field in order to complete a baccalaureate degree at UWL before going on to graduate school.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website. (<https://www.uwlax.edu/pre-health/plan-your-academics/>)

For admission requirements specific to UWL's Occupational Therapy Graduate Program, visit the UWL Occupational Therapy Program website (<https://www.uwlax.edu/grad/occupational-therapy/>).

Pre-optometry track

Optometry is a healthcare profession focusing on the eyes and related structures, as well as vision, visual systems, and vision information processing in humans. Optometrists are trained to prescribe and fit lenses to improve vision and are trained to diagnose and treat various eye diseases. See ExploreHealthCareers.org (<https://explorehealthcareers.org/field/optometry/>) for more information on optometry.

Students should plan to complete an undergraduate degree (usually in biology or chemistry). Typical course requirements for admission to an optometry program include courses in biology, microbiology, chemistry, biochemistry, calculus, and physics. A certain amount of lab work is required in the sciences. Additional coursework in English, sociology, and psychology may also be required. The Optometry Admission Test (OAT) must be taken before or during the semester in which students apply for admission to a school of optometry.

Consult the pre-optometry advising website (<https://www.uwlax.edu/academics/pre-professional/optometry/>) as to specific coursework recommendations & admission requirements, or contact with the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions. In addition, the Pre-Optometry Club (<https://uwlmyorgs.campuslabs.com/engage/organization/preoptometryclub/>) provides student members resources and opportunities that introduce and develop a stronger understanding of the field of optometry, along with preparation for the OAT and application to optometry school.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website. (<https://www.uwlax.edu/pre-health/plan-your-academics/>)

Pre-osteopathic medicine track

Osteopathic medicine (<https://www.uwlax.edu/academics/pre-professional/medicine/>) is a branch of medical practice that emphasizes a whole-person approach to treatment and care. It provides all of the benefits of modern medicine including prescription drugs, surgery, and the use of technology to diagnose and evaluate. It also offers the added benefit of hands-on diagnosis and treatment through a system of therapy known as osteopathic manipulative medicine. The statement in the section on pre-medicine (p. 371) applies equally to pre-osteopathic medicine. Medical school and osteopathic coursework are nearly identical, and the practice of medicine by graduates of either type of school is essentially identical. Osteopathy is best considered an alternative within medicine rather than an alternative to medicine.

Consult the pre-medicine advising website (<https://www.uwlax.edu/academics/pre-professional/medicine/>) as to specific coursework; admission requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions.

Pre-pharmacy track

Pharmacy is the science and technique of preparing and dispensing drugs. It is a health profession that links health sciences with chemical sciences and aims to ensure the safe and effective use of pharmaceutical drugs. See ExploreHealthCareers.org (<https://explorehealthcareers.org/career/pharmacy/pharmacist/>) for more information on the pharmacy profession.

Most pharmacy programs offer a Doctor of Pharmacy degree. These programs require pre-pharmacy coursework of about 70 credits that can be taken at UWL. A college of pharmacy's professional program is an additional four years. The specific admission requirements are set by each individual pharmacy program, but prerequisite coursework generally consists of biology, microbiology, chemistry with lab components, biochemistry, physics, calculus, and statistics. In addition, coursework in psychology, sociology, minority cultures, microeconomics & public policy, and English composition may also be required.

Consult the pre-pharmacy advising website (<https://www.uwlax.edu/academics/pre-professional/pharmacy/>) as to specific coursework recommendations & admission requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website. (<https://www.uwlax.edu/pre-health/plan-your-academics/>)

Pre-physical therapy track

Physical therapists have an opportunity to make a positive difference in people's quality of life. When individuals are recovering from injury or disease, the physical therapist evaluates and directs the recovery process to relieve pain, make them stronger, and help them to regain use of an affected limb. Physical therapists also promote wellness and injury prevention. They teach the importance of personal fitness and explain how to prevent injury at work or at play. As an integral part of a healthcare team, physical therapists have an opportunity to make a positive difference in people's quality of life. The APTA (<https://www.apta.org/ProspectiveStudents/>) has more details on what it means to be a physical therapist.

Physical therapy admission requirements vary by program, but generally include an baccalaureate degree, a minimum GPA, satisfactory scores on the Graduate Records Examination (GRE), and coursework in the following subjects: biology, chemistry, physics, psychology, sociology, and statistics. Programs may also require volunteer experience with letters of recommendation. PT programs are competitive and typically conduct early admissions screening of completed applications. Most programs, including UWL's PT Program, use the Physical Therapy Centralized Application Service (PTCAS) to gather application information.

Undergraduate students must also declare a major in another field in order to complete a baccalaureate degree at UWL. Typical majors include biology, exercise & sport science, psychology, and physics, but other majors are equally appropriate and feasible with appropriate planning. Dual degree agreements are available for biology majors (<http://catalog.uwlax.edu/undergraduate/biology/dual-degree-program-in-biology-physical-therapy/>) and physics majors (<http://catalog.uwlax.edu/undergraduate/physics/dual-degree-physics-physical-therapy/>) in which students receive both a bachelor of science and a graduate physical therapy degree from UW-La Crosse. The total length of time for both degrees is approximately five and three-quarter years. It is important that students selecting this option work with their major advisor early and declare their intent officially.

Consult the pre-physical therapy advising website (<https://www.uwlax.edu/academics/pre-professional/physical-therapy/>) as to specific coursework and admission requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions. A pre-PT advisor will be assigned once the pre-physical therapy track has been added to the student's academic record.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website. (<https://www.uwlax.edu/pre-health/plan-your-academics/>)

For admission requirements specific to UWL's Physical Therapy Graduate Program, visit the UWL Physical Therapy website. (<https://www.uwlax.edu/grad/physical-therapy/>)

Pre-physician assistant studies track

Physician assistants (PAs) are medical providers who are licensed to diagnose and treat illness and disease and to prescribe medication for patients. They work in physician offices, hospitals and clinics in collaboration with a licensed physician. To become a PA, students must graduate from an accredited PA education program. The AAPA (<https://www.aapa.org/what-is-a-pa/>) has more details on what it means to be a physician assistant.

Prerequisite requirements are vary among PA programs across the country. In general, requirements will include coursework in the following subjects: biology, including two lab courses; chemistry, including at least two lab courses; mathematics; and psychology. Admission will also likely depend on the cumulative GPA, the GPA in science courses, and satisfactory scores in the Graduate Record Exam (GRE). Prior direct patient care health experience, which provides evidence of a career commitment to healthcare as a PA, may also be expected.

Pre-PA students should consider making application to several PA programs and carefully review the specific requirements of the programs in which they are interested. Many programs, including the UWL-Gundersen-Mayo PA program, utilize the Centralized Application Service for Physician Assistants (CASPA) and require a program specific supplemental application. Consult the pre-assistant physician advising website (<https://www.uwlax.edu/academics/pre-professional/physician-assistant-studies/>) as to specific coursework and admission

requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions. A pre-PA advisor will be assigned once the pre-physician assistant track has been added to the student's academic record.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website. (<https://www.uwlax.edu/pre-health/plan-your-academics/>)

For admission requirements specific to UWL's Physician Assistant Graduate Program, visit the UWL Physician Assistant website. (<https://www.uwlax.edu/grad/physician-assistant-studies/#tab-the-profession>)

Pre-podiatry track

Podiatry or podiatric medicine (<https://www.uwlax.edu/csh/pre-professional-programs/podiatry/>) is a branch of medicine devoted to the study of diagnosis, medical and surgical treatment of disorders of the foot, ankle, and lower extremity. Requirements for admission to a school of podiatric medicine are the same as those listed in the pre-medicine (p. 371) section.

pre-medicine advising website as to specific coursework & admission requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) with questions.

Pre-veterinary medicine track

Veterinarians work in a variety of settings - clinics, zoos, farms, corporate, non-profit, and more - and with a wide range of animals, both domesticated and wild. In addition to an interest in animals, solid performance in science coursework is a requirement. See ExploreHealthCareers.org (<https://explorehealthcareers.org/field/veterinary-medicine/>) for more information on becoming a veterinarian.

Requirements for admission to veterinary school generally include coursework in biology, microbiology, chemistry & biochemistry, physics, mathematics, and English composition. Several majors at UWL (particularly biology, microbiology, and chemistry) provide an excellent basis for meeting course requirements while pursuing a bachelor's degree. Applicants are also required to take the Graduate Record Exam (GRE) and have documented animal work experience. Check the veterinary schools' websites for the most current information.

Consult the pre-veterinary medicine advising website (<https://www.uwlax.edu/academics/pre-professional/veterinary/>) as to specific coursework recommendations & admission requirements, or contact an advisor in the Pre-Health Student Resource Center (<https://www.uwlax.edu/pre-health/>) for more details.

A template to help students organize course requirements can be found on the Pre-Health Student Resource Center's website. (<https://www.uwlax.edu/pre-health/plan-your-academics/>)

Joint institution programs

International dual degree program in computer science: The College of Science and Health administers a joint degree program with South Central University for Nationalities (http://catalog.uwlax.edu/undergraduate/scienceandhealth/SCUN_Agreement_with_UWL_-_2011.pdf) (SCUN), China. Chinese students at SCUN may enroll in this 3+2 program to receive degrees from both institutions; students complete three years of undergraduate degree work at SCUN and two years of graduate work at UWL. Successful completion of all program requirements results in the conferring of the Bachelor of Science in Computer Science degree by SCUN and the conferring of a Master of Software Engineering degree by UW-La Crosse.

WTC: Articulation agreements between Western Technical College (WTC) and UWL facilitate the transfer of credit between the two institutions.

The following College of Science and Health programs are affected:

- Computer Science-Computer Engineering Technology Concentration: Computer Engineering Technology and Electrical Engineering Technology students may transfer into UWL's program with partial credit already completed.
- Nuclear Medicine Technology: Radiography students may transfer into UWL's program with partial credit already completed.
- Radiation Therapy: Radiography students may transfer into UWL's program with partial credit already completed.

Other institutions: The following College of Science and Health programs have joint programs with other Wisconsin Technical College System institutions:

- Nuclear Medicine Technology: Radiography students from Chippewa Valley Technical College, Milwaukee Area Technical College, and Northcentral Technical College may transfer into UWL's program with partial credit already completed.
- Radiation Therapy: Radiography students from Blackhawk Technical College, Chippewa Valley Technical College, Lakeshore Technical College, Madison College, Milwaukee Area Technical College, and Northcentral Technical College may transfer into UWL's program with partial credit already completed.
- Recreation Management: Recreation Management students from Madison College may transfer into UWL's program with partial credit already completed.

Contact the UWL Admissions Office (<https://www.uwlax.edu/admissions/>) for more specific information on these joint programs. Students who earned an associate degree from another UW System institution are exempt from UWL's general education requirements, although students must still meet all other UWL degree, college, and major requirements.

Biology Department (BIO)

College of Science and Health
Department Chair: Michael Abler
 3020 Cowley Hall; 608.785.6962
 Email: mabler@uwlax.edu

Associate Chair: Megan Litster

 Email: mlitster@uwlax.edu

www.uwlax.edu/biology/ (<http://www.uwlax.edu/biology/>)

The Department of Biology strongly supports undergraduate and graduate programs in biological sciences. Undergraduate students pursuing a major in biology complete foundation course work including introductory biology, organismal biology, cell biology, genetics, and ecology. Because chemistry is foundational to life, biology majors complete at least three semesters of chemistry, including organic chemistry. Each student may plan their own electives and specialize in one of several sub-disciplines within biology, field studies and/or laboratory studies. Some elective courses require off-campus trips to field stations in northern Wisconsin. Other courses make use of several unique ecological habitats close to campus, such as the Mississippi River and the La Crosse River Marsh. In addition, modern laboratory facilities in the new Prairie Springs Science Center and use of high tech research equipment prepare students for careers in biotechnology.

Biology faculty have been award winning, with the department receiving the **University of Wisconsin System Board of Regents Teaching Excellence Award** for the best UW System department in 2013 and individual faculty winning national and university awards for teaching and research.

Biology students develop a curriculum around specific career goals. Each student meets individually with their faculty adviser each semester. The sub-discipline diversity of the faculty in the department provides a wide array of content expertise and both classroom and non-classroom opportunities for student learning. The Department of Biology also values interdisciplinary programs, hosting the nutrition minor and with significant involvement in the neuroscience minor and environmental studies minor.

High impact experiential learning is highly valued by the biology program and provides students opportunity to participate in both individualized and unique learning experiences. The Department of Biology has established a number of partnerships with local, state, and regional environmental and aquatic science research centers, biotechnology firms, public health entities, and allied health care institutions. These partnerships provide undergraduate and graduate students with the opportunity to interact with professionals in health and medical sciences, river studies, aquatic toxicology, fisheries biology, watershed studies, food science, and seed genetics to name a few. These opportunities are in the forms of undergraduate research, course-embedded research, internships, and job shadowing. Many of these experiences receive funding from the university and some result in summer jobs, part-time employment for students during the academic year and/or employment upon graduation.

Graduates of the programs in biology have traditionally been very competitive in the job markets and for entrance into graduate and other professional programs. The first destination reports of the past few years reveal 98% of biology majors reported a career outcome within a year of graduation, with around half attending graduate or professional school, and the rest employed. A few graduates each year report taking volunteer or military positions.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Majors

- Biology major - BA (p. 375)
- Biology major - BS (p. 378)
- Biology major: aquatic science concentration - BA (p. 381)
- Biology major: aquatic science concentration - BS (p. 383)
- Biology major: biomedical science concentration - BA (p. 385)
- Biology major: biomedical science concentration - BS (p. 388)
- Biology major: environmental science concentration - BA (p. 390)
- Biology major: environmental science concentration - BS (p. 392)
- Biology major: molecular genetics and cell biology concentration - BA (p. 395)
- Biology major: molecular genetics and cell biology concentration - BS (p. 397)
- Biology major: plant and fungal biology concentration - BA (p. 399)
- Biology major: plant and fungal biology concentration - BS (p. 401)

Teacher education program

- Biology major: science education (grades 4-12) concentration - BS (p. 404)

Dual degree program

- Dual degree program in biology and physical therapy (p. 407)

Minors

- Biology minor (p. 409)
- Nutrition minor (p. 515) (interdisciplinary minor, home department is Biology)

Biology Major - Bachelor of Arts (BA)

Major requirements

(All colleges, excluding teacher certification programs)

39 credits (58-61 total credits including CHM and MTH requirements)

Each student must have a minimum of three 400 level BIO credits (excluding BIO 450, 479, 489, 491, 495, and 499) to fulfill requirements of the major.

Code	Title	Credits
Core		
BIO 105	General Biology	4
BIO 203	Organismal Biology	4

BIO 306	Genetics	4
BIO 307	Ecology	3
BIO 315	Cell Biology	4
BIO 491	Capstone Seminar in Biology	1

Advanced lab component

Select one upper level (300/400) lab component from the following: 1-4

BIO 302	Introductory Plant Identification
BIO 303	Vertebrate Form and Function ¹
BIO 304	Plant Biology
BIO 312	Human Anatomy and Physiology I ¹
BIO 313	Human Anatomy and Physiology II ¹
BIO 321	Ornithology
BIO 333	Radiation Biology
BIO 341	Limnology

MIC 420	Introductory Virology
MIC 421	Virology Laboratory
MIC 427	Industrial and Fermentation Microbiology
MIC 428	Fermentation Microbiology Laboratory
MIC 434	Aquatic Microbial Ecology

Chemistry requirement

Select three semesters of chemistry, including: 15-18

CHM 103	General Chemistry I
CHM 104	General Chemistry II

And one of the following organic chemistry options:

Option A (5 credits) ³	
CHM 300 & CHM 302	Fundamental Organic Chemistry and Fundamental Organic Chemistry Laboratory
Option B (7 credits)	
CHM 303 & CHM 304 & CHM 302	Organic Chemistry Theory I and Organic Chemistry Theory II and Fundamental Organic Chemistry Laboratory
Option C (8 credits)	
CHM 303 & CHM 304 & CHM 305	Organic Chemistry Theory I and Organic Chemistry Theory II and Organic Chemistry Laboratory
Math requirement	4
STAT 145	Elementary Statistics
Total Credits	58-61

¹ A maximum of eight credits of BIO 303, BIO 312, BIO 313 can be applied to the major.

² Up to two credits of BIO 499 may be used as electives.

³ This is the recommended option for most biology majors; however, consult with your biology advisor before enrolling.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 377)
- Baccalaureate degree requirements (p. 377)

College of Science and Health (CSH) Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 210, BIO 304, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a world language at the 202 level or demonstrate English language proficiency for non-native speakers of English. Contact the CSH Dean's Office for eligibility and regulations.

Students must also complete one of the following options. It is recommended that courses are selected in consultation with your advisor.

1. Complete a minor in the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts; or
2. Complete an individualized option, consisting of 15 credits.

- a. These courses must be from the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Art.
- b. At least 9 credits must be earned at the 300/400 level.
- c. General education courses may apply provided they are not being used to fulfill minimum general education requirements.
- d. Internship credits may not count toward the individualized option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office

to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Year 1

Option C (8 credits)

CHM 303 Organic Chemistry Theory I
& CHM 304 and Organic Chemistry Theory II
& CHM 305 and Organic Chemistry Laboratory**Math requirement** 4

STAT 145 Elementary Statistics

Total Credits 58-61¹ A maximum of eight credits of BIO 303, BIO 312, BIO 313 can be applied to the major.² Up to two credits of BIO 499 may be used as electives.³ This is the recommended option for most biology majors; however, consult with your biology advisor before enrolling.**Degree requirements**

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 380)
- Baccalaureate degree requirements (p. 380)

College of Science and Health (CSH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, in addition to all other College of Science and Health core requirements, students from non-exempted programs¹ must complete one of the following options. It is recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits
 - a. At least 12 credits must be earned at the 300/400 level outside the major department.
 - b. The remaining six credits should come from
 - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or
 - ii. 300/400 level courses inside major not being used to fulfill major requirements.
 - c. Internship credits may not count toward the individualized option.

¹ The list of exempted CSH programs is below.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).

7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- ¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- ² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Biology Major: Aquatic Science Concentration - Bachelor of Arts (BA)

Major requirements

(All colleges, excluding teacher certification programs)

39 credits (67 total credits including CHM and MTH requirements)

Each student must have a minimum of three 400 level BIO credits (excluding BIO 450, 479, 489, 491, 495, and 499) to fulfill requirements of the major.

Code	Title	Credits
Core		
BIO 105	General Biology	4
BIO 203	Organismal Biology	4
BIO 306	Genetics	4
BIO 307	Ecology	3
BIO 315	Cell Biology	4
BIO 341	Limnology	3
BIO 491	Capstone Seminar in Biology	1
MIC 230	Fundamentals of Microbiology	4

Electives 12

Select eight credits of electives from List I. Remaining four credits may come from List I or List II (up to two credits of BIO 499 may count).

List I electives:

BIO 405	Aquatic and Wetland Vascular Plants
BIO 414	Freshwater Invertebrate Zoology
BIO 422	Ichthyology
BIO 447	Standard Methods/Quality Assurance Water Analyses
BIO 464	Stream and Watershed Ecology
BIO 473	Marine Biology
MIC 434	Aquatic Microbial Ecology

List II electives:

BIO 406	Parasitology
BIO 419	Quantitative Methods in Ecology
BIO 421	Comparative Vertebrate Endocrinology
BIO 441	Environmental Toxicology
BIO 444	Entomology
BIO 446	Animal Behavior
BIO 458	Comparative Animal Physiology
BIO 476	Ecosystem Ecology
BIO 499	Independent Research (up to two credits)

Chemistry requirement

Select a minimum of 20 chemistry credits, including: 20

CHM 103	General Chemistry I
CHM 104	General Chemistry II
CHM 301	Analytical Chemistry

And one of the following organic chemistry options:

Option A (5 credits)¹

CHM 300 & CHM 302	Fundamental Organic Chemistry and Fundamental Organic Chemistry Laboratory
-------------------	--

Option B (7 credits)

CHM 303 & CHM 304 & CHM 302	Organic Chemistry Theory I and Organic Chemistry Theory II and Fundamental Organic Chemistry Laboratory
-----------------------------	---

Option C (8 credits)

CHM 303 & CHM 304 & CHM 305	Organic Chemistry Theory I and Organic Chemistry Theory II and Organic Chemistry Laboratory
-----------------------------	---

Math requirement

Select a minimum of eight credits of mathematics including the following: 8

STAT 145	Elementary Statistics
or MTH 265	Mathematical Models in Biology
MTH 175	Applied Calculus
or MTH 207	Calculus I

Total Credits **67**

¹ This is the recommended option for most biology majors, but students should consult with their biology advisor before enrolling.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 382)
- Baccalaureate degree requirements (p. 382)

College of Science and Health (CSH) Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 210, BIO 304, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a world language at the 202 level or demonstrate English language proficiency for non-native speakers of English. Contact the CSH Dean's Office for eligibility and regulations.

Students must also complete one of the following options. It is recommended that courses are selected in consultation with your advisor.

1. Complete a minor in the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts; or
2. Complete an individualized option, consisting of 15 credits.
 - a. These courses must be from the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Art.
 - b. At least 9 credits must be earned at the 300/400 level.
 - c. General education courses may apply provided they are not being used to fulfill minimum general education requirements.
 - d. Internship credits may not count toward the individualized option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Total Credits	67

¹ This is the recommended option for most biology majors, but students should consult with their biology advisor before enrolling.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 386)
- Baccalaureate degree requirements (p. 386)

College of Science and Health (CSH) Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 210, BIO 304, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a world language at the 202 level or demonstrate English language proficiency for non-native speakers of English. Contact the CSH Dean's Office for eligibility and regulations.

Students must also complete one of the following options. It is recommended that courses are selected in consultation with your advisor.

1. Complete a minor in the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts; or
2. Complete an individualized option, consisting of 15 credits.
 - a. These courses must be from the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Art.
 - b. At least 9 credits must be earned at the 300/400 level.
 - c. General education courses may apply provided they are not being used to fulfill minimum general education requirements.
 - d. Internship credits may not count toward the individualized option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.

- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

- Baccalaureate degree requirements (p. 389)

College of Science and Health (CSH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, in addition to all other College of Science and Health core requirements, students from non-exempted programs¹ must complete one of the following options. It is recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits
 - a. At least 12 credits must be earned at the 300/400 level outside the major department.
 - b. The remaining six credits should come from
 - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or
 - ii. 300/400 level courses inside major not being used to fulfill major requirements.
 - c. Internship credits may not count toward the individualized option.

¹ The list of exempted CSH programs is below.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).

7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- ¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

Biology Major: Environmental Science Concentration - Bachelor of Science (BS)

Major requirements

(All colleges, excluding teacher certification programs)

39 credits (67 total credits including CHM, MTH, and GEO requirements)

Each student must have a minimum of three 400 level BIO credits (excluding BIO 450, BIO 479, BIO 489, BIO 491, BIO 495, and BIO 499) to fulfill requirements of the major.

Code	Title	Credits
Core		
BIO 105	General Biology	4
BIO 203	Organismal Biology	4
BIO 306	Genetics	4
BIO 307	Ecology	3
BIO 315	Cell Biology	4
BIO 419	Quantitative Methods in Ecology	3
BIO 491	Capstone Seminar in Biology	1
Electives		
Select 16 credits of elective from the following:		16
BIO 302	Introductory Plant Identification	
BIO 304	Plant Biology	
BIO 321	Ornithology	
BIO 337	Plant Physiology	
BIO 341	Limnology	

BIO 401	Comparative Vertebrate Anatomy
BIO 404	Plant Taxonomy
BIO 405	Aquatic and Wetland Vascular Plants
BIO 406	Parasitology
BIO 412	Mycology
BIO 414	Freshwater Invertebrate Zoology
BIO 422	Ichthyology
BIO 429	Evolution
BIO 441	Environmental Toxicology
BIO 442	Plant Microbe Interactions
BIO 444	Entomology
BIO 446	Animal Behavior
BIO 447	Standard Methods/Quality Assurance Water Analyses
BIO 456	Plant Ecology
BIO 458	Comparative Animal Physiology
BIO 464	Stream and Watershed Ecology
BIO 473	Marine Biology
BIO 476	Ecosystem Ecology
BIO 488	Mammalogy
MIC 230	Fundamentals of Microbiology
BIO 499	Independent Research (up to two credits may apply)
MIC 350	Bacterial Diversity
MIC 434	Aquatic Microbial Ecology

Chemistry requirement

Select three semesters of chemistry, including: 15-18

CHM 103 General Chemistry I

CHM 104 General Chemistry II

And one of the organic chemistry options:

Option A (5 credits)¹CHM 300 Fundamental Organic Chemistry
& CHM 302 and Fundamental Organic Chemistry Laboratory

Option B (7 credits)

CHM 303 Organic Chemistry Theory I
& CHM 304 and Organic Chemistry Theory II
& CHM 302 and Fundamental Organic Chemistry Laboratory

Option C (8 credits)

CHM 303 Organic Chemistry Theory I
& CHM 304 and Organic Chemistry Theory II
& CHM 305 and Organic Chemistry Laboratory**Math requirement**

Select eight credits of mathematics including the following: 8

STAT 145 Elementary Statistics
or MTH 265 Mathematical Models in BiologyMTH 175 Applied Calculus
or MTH 207 Calculus I**Environmental science requirement**

Select a minimum of five credits of environmental science support courses, including one of the following options: 5

Option A:

CHM 301 Analytical Chemistry

Option B: Select two of the following:

GEO 305 Geographic Information Systems and Science I

GEO 405 Geographic Information System and Science II

GEO 415 Remote Sensing of the Environment I

GEO 485 Geographic Information System and Science III

Option C: Select two of the following:

CS 120 Software Design I

CS 220 Software Design II

STAT 405 Statistical Methods

STAT 445 Correlation and Regression Analysis

STAT 446 Analysis of Variance and Design of Experiments

STAT 447 Nonparametric Statistics

STAT 448 Operations Research

Total Credits 67¹ This is the recommended option for most biology majors, but students should consult with their biology advisor before enrolling.**Degree requirements**

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 70)
- Baccalaureate degree requirements (p. 394)

**College of Science and Health (CSH)
Bachelor of Science core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, in addition to all other College of Science and Health core requirements, students from non-exempted programs¹ must complete one of the following options. It is recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits
 - a. At least 12 credits must be earned at the 300/400 level outside the major department.
 - b. The remaining six credits should come from
 - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or

- ii. 300/400 level courses inside major not being used to fulfill major requirements.
- c. Internship credits may not count toward the individualized option.

¹ The list of exempted CSH programs is below.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office

to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits 71

¹ Up to two credits from BIO 450, BIO 479, BIO 489, BIO 495, and BIO 499 may count toward the major.

² A maximum of eight credits of BIO 303, BIO 312, BIO 313 can be applied to the major.

³ This is the recommended option for most biology majors, but students should consult with their biology advisor before enrolling.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (<http://catalog.uwlax.edu/undergraduate/generaleducation/>)
- College core (p. 396)
- Baccalaureate degree requirements (p. 396)

College of Science and Health (CSH) Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 210, BIO 304, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a world language at the 202 level or demonstrate English language proficiency for non-native speakers of English. Contact the CSH Dean's Office for eligibility and regulations.

Students must also complete one of the following options. It is recommended that courses are selected in consultation with your advisor.

1. Complete a minor in the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts; or
2. Complete an individualized option, consisting of 15 credits.
 - a. These courses must be from the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Art.
 - b. At least 9 credits must be earned at the 300/400 level.
 - c. General education courses may apply provided they are not being used to fulfill minimum general education requirements.
 - d. Internship credits may not count toward the individualized option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.

6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- ¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

College of Science and Health (CSH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, in addition to all other College of Science and Health core requirements, students from non-exempted programs¹ must complete one of the following options. It is

recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits
 - a. At least 12 credits must be earned at the 300/400 level outside the major department.
 - b. The remaining six credits should come from
 - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or
 - ii. 300/400 level courses inside major not being used to fulfill major requirements.
 - c. Internship credits may not count toward the individualized option.

¹ The list of exempted CSH programs is below.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Total Credits		58-65

¹ This is the recommended option for most biology majors, but students should consult with their biology advisor before enrolling.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a

degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 400)
- Baccalaureate degree requirements (p. 400)

College of Science and Health (CSH) Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 210, BIO 304, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a world language at the 202 level or demonstrate English language proficiency for non-native speakers of English. Contact the CSH Dean's Office for eligibility and regulations.

Students must also complete one of the following options. It is recommended that courses are selected in consultation with your advisor.

1. Complete a minor in the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts; or
2. Complete an individualized option, consisting of 15 credits.
 - a. These courses must be from the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Art.
 - b. At least 9 credits must be earned at the 300/400 level.
 - c. General education courses may apply provided they are not being used to fulfill minimum general education requirements.
 - d. Internship credits may not count toward the individualized option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.

6. Complete major and minor requirements with at least a 2.00 GPA¹,² in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

- Baccalaureate degree requirements (p. 403)

College of Science and Health (CSH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, in addition to all other College of Science and Health core requirements, students from non-exempted programs¹ must complete one of the following options. It is recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits

- a. At least 12 credits must be earned at the 300/400 level outside the major department.
- b. The remaining six credits should come from
 - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or
 - ii. 300/400 level courses inside major not being used to fulfill major requirements.
- c. Internship credits may not count toward the individualized option.

¹ The list of exempted CSH programs is below.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

Biology Major: Science Education (Grades 4-12) Concentration - Bachelor of Science (BS)

Major requirements

Completion of the Biology: Science Education Concentration Program and associated benchmark assessments (<http://catalog.uwlax.edu/undergraduate/education/#SOE-program-requirements>) will lead to endorsement for the following Wisconsin teaching license:

- Middle and High School Science, grades 4-12 (2600).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in biology: science education (grades 4-12) must meet specific program admission criteria (p. 585).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Curriculum

The Biology: Science Education Concentration Program is aligned with InTASC Teacher Standards and the National Science Teaching Association (NSTA) Standards.

Required general education courses (21-22 credits)

Besides the courses specified below, biology: science education concentration majors must satisfy additional general education requirements (<http://catalog.uwlax.edu/undergraduate/generaleducation/#generaleducationrequirementstext>). The General Education Program requires a total of 42 credits.

Code	Title	Credits

Total Credits		21-22

¹ Counts toward General Education Program requirement: Self and Society (GE Category 6).

² Counts toward General Education Program requirement: Minority Cultures or Multiracial Women's Studies (GE Category 3).

³ Counts toward the General Education Program requirement: Mathematical/Logical Systems and Modern Languages (GE Category 2).

⁴ Also satisfies a biology major content requirement.

⁵ Counts toward General Education Program requirement: International and Multicultural Studies, Global and Multicultural Studies (GE Category 4-2). Also satisfies both a science education core requirement and a WI statutory requirement for a teaching license in Science (2600).

⁶ Counts toward General Education Program requirement: Natural Laboratory Science (GE Category 5). Also satisfies a science education core requirement.

Science education core requirements (55 credits)

Code	Title	Credits
Allied courses not requiring admission to the School of Education

Biology major content requirements (19-22 credits)

Besides the below, additional courses count toward this requirement. However, they also satisfy other requirements in the program. The relevant courses are marked in those sections.

Code	Title	Credits
BIO 306	Genetics	4
BIO 307	Ecology	3
BIO 315	Cell Biology	4
BIO 429	Evolution	3
Select one of the following organic chemistry options:		5-8
Option A (5 credits) ⁹		
CHM 300 & CHM 302	Fundamental Organic Chemistry and Fundamental Organic Chemistry Laboratory	
Option B (7 credits)		
CHM 303 & CHM 304 & CHM 302	Organic Chemistry Theory I and Organic Chemistry Theory II and Fundamental Organic Chemistry Laboratory	
Option C (8 credits)		
CHM 303 & CHM 304 & CHM 305	Organic Chemistry Theory I and Organic Chemistry Theory II and Organic Chemistry Laboratory	
Total Credits		19-22

⁷ Also satisfies an SOE core requirement.

⁸ Must complete all course requirements and other benchmarks prior to student teaching. For more information, see the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>).

⁹ This is the recommended option for most biology majors, but students should consult with their biology advisor before enrolling.

Additional teacher education requirements are listed on the School of Education catalog page.

Degree requirements

All teacher education students must complete the general education, School of Education, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- School of Education requirements (p. 582)
- Baccalaureate degree requirements (p. 405)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general

education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Two samples plans are provided. These are merely samples and should be discussed with your adviser to determine the best route for you.

Sample Plan 1

Year 1		
Fall	Credits Spring	Credits

¹ See the SOE admissions website (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) for complete admission and application details. Students will be required to complete a criminal background check (p. 588) at the time of application for admission.

² Students applying for field and student teaching placements will be asked to disclose any criminal charges (p. 592).

³ Students must apply for student teaching (<https://www.uwlax.edu/soe/field-and-student-teaching-experience/for-teacher-candidates/>) through the Office of Field Experience one year prior to the student teaching semester.

⁴ For more information, please see the Student Teaching and Internship Policy (p. 592).

Dual Degree Program in Biology and Physical Therapy

This is a special dual degree program which enables a student to receive both a Bachelor of Science degree (biology major) and a Doctor of Physical Therapy degree from UW-La Crosse. Students typically complete the undergraduate requirements in three years followed by 34 months of attendance in the physical therapy graduate program. The undergraduate requirements include completion of the general education program, college core requirements (with the exception of a minor), physical therapy pre-requisite course work, and all of the requirements for the biology major except six credits of biology elective courses.

UW-La Crosse students will be selected for entrance into the graduate program in physical therapy through a competitive application process. Participation in the undergraduate Biology/PT dual degree program does not guarantee admission to the graduate program in physical therapy.

Major requirements

(All colleges, excluding teacher certification programs)

33 credits (52 total credits including CHM and MTH requirements)

Each student must have a minimum of three 400 level BIO credits (excluding BIO 450, 479, 489, 491, 495, and 499) to fulfill requirements of the major.

Code	Title	Credits
BIO 105	General Biology	4
BIO 203	Organismal Biology	4
BIO 306	Genetics	4
BIO 307	Ecology	3
BIO 315	Cell Biology	4
BIO 491	Capstone Seminar in Biology	1
Select one upper level (300/400) lab component		1-4

MIC 428	Fermentation Microbiology Laboratory
MIC 434	Aquatic Microbial Ecology
Select three semesters of chemistry, including: 15-18	
CHM 103	General Chemistry I
CHM 104	General Chemistry II
And one of the following organic chemistry options:	
Option A (5 credits) ³	
CHM 300	Fundamental Organic Chemistry
& CHM 302	and Fundamental Organic Chemistry Laboratory
Option B (7 credits)	
CHM 303	Organic Chemistry Theory I
& CHM 304	and Organic Chemistry Theory II
& CHM 302	and Fundamental Organic Chemistry Laboratory
Option C (8 credits)	
CHM 303	Organic Chemistry Theory I
& CHM 304	and Organic Chemistry Theory II
& CHM 305	and Organic Chemistry Laboratory
Math requirement 4	
STAT 145	Elementary Statistics
Total Credits	52-55

¹ A maximum of eight credits of BIO 303, BIO 312, BIO 313 can be applied to the major.

² Up to two credits of BIO 499 may be used as electives.

³ This is the recommended option for most biology majors, but students should consult with their biology advisor before enrolling.

In addition, students must complete the physical therapy prerequisite course work (<http://catalog.uwlax.edu/graduate/programrequirements/physicaltherapy/dpt/#programrequirements>).

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core for B.S. (no minor required) (p. 408)
- Baccalaureate degree requirements (p. 408)

- Doctor of Physical Therapy requirements (<http://catalog.uwlax.edu/graduate/programrequirements/physicaltherapy/dpt/>)

College of Science and Health (CSH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, in addition to all other College of Science and Health core requirements, students from non-exempted programs¹ must complete one of the following options. It is recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits
 - a. At least 12 credits must be earned at the 300/400 level outside the major department.
 - b. The remaining six credits should come from
 - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or
 - ii. 300/400 level courses inside major not being used to fulfill major requirements.
 - c. Internship credits may not count toward the individualized option.

¹ The list of exempted CSH programs is below.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}

5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA¹,² in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Biology Minor

(All colleges)

24 credits

Code	Title	Credits
BIO 105	General Biology	4
BIO 203	Organismal Biology	4
Select electives in biology or microbiology, including at least one course numbered 302 or above ¹		16
Total Credits		24

¹ A maximum of eight credits of BIO 303, BIO 312, BIO 313 can be applied to the minor. BIO 102, MIC 100, MIC 130, MIC 407, MIC 416, and MIC 425 are not applicable as electives. A maximum of two non-lab courses can be applied toward the biology minor elective requirement, excluding BIO 499.

Chemistry and Biochemistry Department (CHM)

College of Science and Health
Department Chair: Todd Weaver
 4020 Cowley Hall; 608.785.8269
 Email: tweaver@uwlax.edu

www.uwlax.edu/chemistry-and-biochemistry (<http://www.uwlax.edu/Chemistry-and-Biochemistry/>)

The Department of Chemistry and Biochemistry at UW-La Crosse is accredited by both the American Chemical Society-Committee on Professional Training (ACS-CPT) and the American Society for Biochemistry and Molecular Biology (ASBMB). This recognition acknowledges the quality program, staff, and facilities of the Department and enables us to offer the prestigious ACS-Certified

B.S. degree in Chemistry and the ASBMB-Certified B.S. degree in Biochemistry, along with several other bachelor's degree and minor options.

Our modern society is faced with many issues and problems that can be addressed by well-trained chemists and biochemists. Demands for new energy producing fuels, disease fighting molecules, high performance materials, consumer products, and many other specialty chemicals are met by these professionals on a daily basis. In addition, chemists are frequently responsible for the management of environmental status, such as air, water, and soil quality, and for the scientific education of our society's youth. Chemists and biochemists are not only well trained as analytical thinkers and problem solvers, but also as effective communicators of important scientific concepts. As the "Central Science," the chemistry and biochemistry degree programs at UW-La Crosse are highly attractive to many employers and graduate and professional programs, such as schools of pharmacy, medicine, engineering, and law.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 70).

2023-24 Faculty/Staff

The following is the department faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in July.

Professor

Keith Beyer, Ph.D.

Jeffrey Bryan, Ph.D.

Curtis Czerwinski, Ph.D.

Sandra Grunwald, Ph.D.

Adrienne Loh, Ph.D.

Robert McGaff, Ph.D.

Aaron Monte, Ph.D.

Aric Opdahl, Ph.D., Associate Department Chair

Kristofer Rolfhus, Ph.D.

Heather Schenck, Ph.D.

Todd Weaver, Ph.D., Department Chair

Associate Professor

Kelly Gorres, Ph.D.

Daniel Grilley, Ph.D.

Janet Kirsch, Ph.D.

John May, Ph.D.

Assistant Professor

Juan Villabona-Monsalve, Ph.D.

Kendric Nelson, Ph.D.

Sujat Sen, Ph.D.

Teaching Professor

Ressano Desouza-Machado, Ph.D.

Katherine Friesen, Ph.D.

Roghaieh 'Pari' Ghodsian, M.S.

Eugenia Turov, Ph.D.

Associate Teaching Professor

Basudeb Bhattacharyya, Ph.D.

Tanya Cordes, M.S.

Benjamin Haenni, Ph.D.

Joshua Neukom, Ph.D.

Lecturer

Aryel Clarke, Ph.D.

Adrienne Gelbach, Ph.D.

Joseph Hurley, Ph.D.

Steven Klankowski, Ph.D.

Laboratory Supervisor

Sterling Hyashi-Tanner

Administrative Support

Lori Hanson

Majors

- Biochemistry major (with ASBMB certification) - BS (p. 410)
- Chemistry major - BS (p. 413)
- Chemistry major (with ACS certification) - BS (p. 415)
- Chemistry major with business concentration - BS (p. 418)
- Chemistry major with environmental science concentration - BS (p. 419)

Teacher education program

- Chemistry major: science education (grades 4-12) concentration - BS (p. 421)

Dual degree program

- Dual degree program in chemistry and engineering (p. 424)

Minors

- Chemistry minor (p. 425)
-

Biochemistry Major (with ASBMB certification) - Bachelor of Science (BS)

Major requirements

(All colleges, excluding teacher certification programs)

46 credits (29-33 additional credits including BIO, MIC, MTH, and PHY requirements)

¹ To fulfill the (bio)physical chemistry portion of their degree, students may take the CHM 309 and CHM 310 sequence instead of CHM 407. If students choose this route, they **must** take **both** MTH 208 and MTH 310 for an additional 4 credits of prerequisites. Students choosing this route are also encouraged to take PHY 203 and PHY 204 to fulfill the physics requirement. Conversely, students who plan to take CHM 407 do not need to take MTH 310 and can choose the math and physics courses as described above.

² Only two credits from CHM 499 may count toward the major.

Exam and survey requirement

During the student's last semester on campus, completion of the following is required in order to graduate:

1. The Department of Chemistry and Biochemistry Learning Environment Survey and
2. A standardized exam covering the major subject areas.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 411)
- Baccalaureate degree requirements (p. 411)

College of Science and Health (CSH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, in addition to all other College of Science and Health core requirements, students from non-exempted programs¹ must complete one of the following options. It is recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits
 - a. At least 12 credits must be earned at the 300/400 level outside the major department.
 - b. The remaining six credits should come from
 - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or
 - ii. 300/400 level courses inside major not being used to fulfill major requirements.
 - c. Internship credits may not count toward the individualized option.

¹ The list of exempted CSH programs is below.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.

- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
- At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
- Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
- Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

The two **biochemistry sample plans** below follow the **biology track prerequisites**. See catalog for **microbiology track prerequisites** and adjust the CSH Core and/or minor credits as needed.

Plan of study for students eligible to begin in MTH 207 (Calculus I)

Year 1		
Fall	Credits Spring	Credits
CHM 103 (Gen Ed Natural Lab Science)	5 CHM 104	5

c. Internship credits may not count toward the individualized option.

Exam and survey requirement

During the student's last semester on campus, completion of the following is required in order to graduate:

1. The Department of Chemistry and Biochemistry Learning Environment Survey
2. A standardized exam covering the major subject area

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 414)
- Baccalaureate degree requirements (p. 414)

College of Science and Health (CSH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, in addition to all other College of Science and Health core requirements, students from non-exempted programs¹ must complete one of the following options. It is recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits
 - a. At least 12 credits must be earned at the 300/400 level outside the major department.
 - b. The remaining six credits should come from
 - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or
 - ii. 300/400 level courses inside major not being used to fulfill major requirements.

¹ The list of exempted CSH programs is below.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1, 2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1, 2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

Elective and laboratory requirements

Students must complete a combination of upper level elective courses in chemistry totaling at least six course credits, of which three or more credits must be comprised of "laboratory content" (see lists below).

In-depth upper-level electives:

Code	Title	Credits
CHM 312	Atmospheric Chemistry ¹	
CHM 322	Chemistry of Materials ²	
CHM 323	Polymer Chemistry Laboratory ²	
CHM 330	Industrial Chemistry ¹	
CHM 403	Advanced Organic Chemistry ¹	
CHM 405	Advanced Organic Synthesis ²	
CHM 407	Biophysical Chemistry ¹	
CHM 412	Aquatic and Soil Chemistry ¹	
CHM 413	Environmental Chemistry Laboratory ²	
CHM 418	Biochemistry II: Metabolism and Genetic Information ¹	
CHM 419	Advanced Biochemistry Lab ²	
CHM 424	Spectroscopy ²	
CHM 431	Inorganic Synthesis and Methods ²	
CHM 441	Instrumental Analysis ²	
CHM 445	Biochemistry of Antimicrobials ¹	
CHM 461	Nuclear Chemistry ²	
CHM 499	Research ²	

¹ in-depth upper-level elective

² in-depth upper-level elective with laboratory component. See list below for how many credits in this course will go toward the laboratory component.

Courses with laboratory content:

Code	Title	Credits
One credit of laboratory content:		
CHM 322	Chemistry of Materials	
	or CHM 323 Polymer Chemistry Laboratory	
	or CHM 424 Spectroscopy	
	or CHM 441 Instrumental Analysis	
	or CHM 461 Nuclear Chemistry	
Two credits of laboratory content:		
CHM 405	Advanced Organic Synthesis	
	or CHM 413 Environmental Chemistry Laboratory	
	or CHM 419 Advanced Biochemistry Lab	
	or CHM 431 Inorganic Synthesis and Methods	

A maximum of two credits of CHM 499 may be applied to meet the laboratory content requirement.

In completing these degree requirements, ACS Certified Chemistry majors must experience 400+ chemistry laboratory hours beyond CHM 104.

Required prerequisite courses (21 credits)

Code	Title	Credits
Select an additional 21 credits to meet prerequisites for required courses including the following:		
MTH 207	Calculus I	5
MTH 208	Calculus II	4
MTH 310	Calculus III: Multivariable Calculus	4
PHY 103	Fundamental Physics I	4
	or PHY 203 General Physics I	

PHY 104	Fundamental Physics II	4
or PHY 204	General Physics II	

Exam and survey requirement

During the student's last semester on campus, completion of the following is required in order to graduate:

1. The Department of Chemistry and Biochemistry Learning Environment Survey
2. A standardized exam covering the major subject area

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- College core (p. 416)
- Baccalaureate degree requirements (p. 417)

College of Science and Health (CSH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, in addition to all other College of Science and Health core requirements, students from non-exempted programs¹ must complete one of the following options. It is recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits
 - a. At least 12 credits must be earned at the 300/400 level outside the major department.
 - b. The remaining six credits should come from
 - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or
 - ii. 300/400 level courses inside major not being used to fulfill major requirements.

- c. Internship credits may not count toward the individualized option.

¹ The list of exempted CSH programs is below.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA^{1,2} in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

¹ Students must complete a combination of upper level elective courses in chemistry totaling at least 6 course credits, of which 3 or more credits must be comprised of laboratory content. See list of in-depth upper-level elective courses.

² See CSH BS Core Requirements (<http://catalog.uwlax.edu/undergraduate/scienceandhealth/#Core>) for information on completing the individualized option. 300/400 requirements for graduation may be impacted.

³ **Exam and Survey Requirement** - During the student's last semester on campus, completion of the following is required in order to graduate:

1. the Department of Chemistry and Biochemistry Learning Environment Survey and
2. a standardized exam covering the major subject area.

Chemistry Major with Business Concentration - Bachelor of Science (BS)

The chemistry major with a business concentration at UW-La Crosse provides a multi-disciplinary career path for students interested in both science and the business side of industry. Students learn core chemical theory and laboratory skills during general, organic, analytical, and physical chemistry courses. These science fundamentals are supplemented with management, accounting, finance, and marketing courses in the College of Business Administration. Chemistry with a business concentration majors will be uniquely qualified to work with science and R&D teams, as well as sales, marketing or business-planning.

Exam and survey requirement

During the student's last semester on campus, completion of the following is required in order to graduate:

1. The Department of Chemistry and Biochemistry Learning Environment Survey and
2. A standardized exam covering the major subject areas.

Degree requirements

All students must complete the general education, college core (waived for chemistry majors with business concentrations), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 70)
- Baccalaureate degree requirements (p. 418)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.^{1,2}
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.

6. Complete major and minor requirements with at least a 2.00 GPA¹,² in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (p. 42).)
8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (p. 70) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete,

to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.

This major is exempt from the CSH College Core requirement.

Chemistry Major with Environmental Science Concentration - Bachelor of Science (BS)

The chemistry major with an environmental science concentration at UW-La Crosse provides a strong background in chemistry, while providing multi-disciplinary elective options in preparation for fields

of study such as climate change, contaminants, renewable energy, geospatial analysis, and ecosystem modeling. Our majors are in demand and are routinely hired into industry, government, and academic positions.

Major requirements

Chemistry Major: Science Education (Grades 4-12) Concentration - Bachelor of Science (BS)

The Chemistry Education Program at UW-La Crosse is part of the Secondary Teacher Education Preparation (STEP) program and approved by the state Department of Public Instruction (DPI). This program includes the course work and classroom experiences

necessary to satisfy the requirements for a Science, grades 4-12 (2600) teaching license in the state of Wisconsin.

Major requirements

Completion of the Chemistry: Science Education Concentration Program and associated benchmark assessments will lead to endorsement for the following Wisconsin teaching license:

- Middle and High School Science, grades 4-12 (2600).

Students in all teacher education programs must satisfy the School of Education (SOE) core requirements (p. 589).

Students in all teacher education programs must be admitted to the School of Education (<https://www.uwlax.edu/soe/undergrad/admission-to-soe/>) in order to complete their program requirements and be eligible for endorsement for the appropriate teaching license(s). Students majoring in chemistry: science education (grades 4-12) must meet specific program admission criteria (p. 585).

Retention and advancement

Teacher candidates may be retained in their teacher education program provided they fulfill the conditions described in the SOE Retention Policy (<http://catalog.uwlax.edu/undergraduate/education/#retention>). Students must complete all course requirements and other benchmarks prior to student teaching as described in the Student Teaching and Internship Policy (<http://catalog.uwlax.edu/undergraduate/education/#student-teaching>). Additional SOE program requirements, including the culminating assessment of pedagogical knowledge, are described on the SOE catalog page (<http://catalog.uwlax.edu/undergraduate/education/>).

Curriculum

The Chemistry: Science Education Concentration Program is aligned with INTASC Teacher Standards and the National Science Teaching Association (NSTA) Standards.

Required general education courses (22-23 credits)
