Data Augmentation

Dr. Brooke Fridley

I will talk about the basic idea of data augmentation for the analysis of censored spatial data and future work involving investigation of the robustness of the procedure to model misspecification.

Cowley 102

Thursday, October 30

Cookies: 4:15

Talk: 4:30-5:00

The Mathematics Club invites students and faculty to join us Thursday at 4:15 for coffee, cookies, and mathematical conversation in the Mathematics and Statistic Research Center, Cowley 102.
