

# How to: Upload your ePortfolio for Assessment

Log into D2L

Click on the "class" called Portfolio Assessment for Post Student Teaching (yours will be specific to your major but should be named similarly)

News | ▾

### ePortfolio

The School of Education and Post Student Teaching Portfolios are part of the comprehensive assessment system, which is used to evaluate Teacher Candidate's (TC's) development in Wisconsin Teacher Education Standards (WTES) core competencies. The portfolio reflective narrative rubric is comprised of 10 separate rubrics, each describing competency levels for each standard. For more information, go to <http://www.uwlax.edu/soe/portfolio/>.

To send your ePortfolio presentation, go to the Dropbox and submit your ePortfolio presentation. Do not submit the individual files, just the presentation, which will package attached files into the one. If you need help with technical information, attend any of the [sessions](#) or watch <http://www.uwlax.edu/its/student/d2l>. For content questions, please contact your portfolio advisor.

**Click on "Dropbox"**
