

12.04.2008 - Looking Ahead

Tuesday: Portfolio presentations / review. Be prepared to share the topics you included in your portfolio. We will use these as a starting point for reviewing for the final exam.

FINAL EXAM IS IN CH 041 at 7:45am on MONDAY

* Portfolios are due on Tuesday. (I'm willing to be flexible with the date if the extra time would help you out - see me to discuss).

* Organizational suggestions:

- . Include a **Table of Contents**.
- . Include a short **Lead-in / Reflection** for each entry.
- . Include a brief section title on each page & number your pages.
- . Use annotations to guide the reader, especially on work samples completed in class. ("What are you trying to show me here?")

* Overall suggestions:

- . Make it skimmable (at a glance)
- . Make it deep (showcase your knowledge)
- . Be reflective - What have *you* learned, why is this important *to you*, how does this fit with *your* experiences? etc.
