

Math Coffee

A Hands-On, Minds-On Math Club

Maggie Lee

Mathematics Student at UWL

For ten weeks, I facilitated a 6th grade Math Club. The main projects I created provided for a range of abilities. Thus, students could be challenged at their own mathematical level. Most of these projects can be adapted to fit the needs of various grade levels and mathematical concepts. The projects I will present utilize both hands-on and minds-on learning.

Wednesday, February 16th

4:20 – 4:45 pm

Coffee and cookies 4:00 - 4:20 102 Cowley,
followed by the talk in 201 Cowley.
