* If you deviate from this course – please talk to an advisor.

** You need at least 4 credits in 300/400 level courses NOT in Psychology. We recommend you think about internship credit (CEI 450) for some or all of this credit. You need to visit career services to choose a site and have a faculty advisor agree to oversee your placement. In addition, Anthropology 203 is highly recommended.

*** If you take it after starting OT – you will pay at the graduate credit rate of tuition
