

# Peoplesoft Campus Solutions update

02/23/09

The project team is celebrating two successful go-lives. PeopleSoft Campus Solutions for Financial Aid went "live" Feb. 16. Applications for financial aid for the summer and fall 2009 sessions are now being loaded into Campus Solutions. All new and continuing students will be granted their financial aid awards during the month of March in the new system. Business Services went "live" Feb. 17 with e-Payments and CashNet. New graduate and transfer students are the first to be able to pay on-line by ACH or credit card in the new system.

The next PeopleSoft Modules to be implemented will be Student Records and Student Financials, which is scheduled in March 2009.

Here are a few additional highlights from the Project Team:

- The Student Senate had an opportunity to view the new WINGS Student Center (replaces TALON) and is excited about the new Web-based, user-friendly, modern look to self-service.
- Millions of student and staff records have been converted from the legacy system to PeopleSoft Campus Solutions; most of this work is accomplished on weekends to avoid disruptions to the campus business activities.
- A searchable class schedule (time table) for summer 2009 course offerings will soon be available.
- Training plans are being developed for the campus later this spring. A just-in-time training model is being used; come to training, go back to your office and start working in PeopleSoft.
- The new WINGS Faculty Center will make its debut sometime in late March/early April. Training will be provided.
- There will be a transition period this spring as the campus moves to PeopleSoft; some activities for the spring 2009 semester will need to be completed in the legacy system (for example, entering grades for the spring semester) while activities starting

with summer 2009 will be completed in Campus Solutions (for example, class enrollments for the summer).

These are just a few highlights of some of the things coming up in the near future. The SIS Project Team appreciates your patience as it continues working on the implementation of PeopleSoft Campus Solutions. The timeline for this implementation is an aggressive one and everyone is working very hard to make it successful for the campus. Refer any questions regarding the project to Debbie Veglahn, project manager, at 785.8635.
