Senator Seat

XIII. Announcements

XIV. Adjournment

Kahl: We aren't unique in terms of this tuition. Other institutions include: Madison, Milwaukee, LaX, EC, Sout...some fund many other things like library. Stated we would fund international education research.

Decker: How will the University raise it's fees?

Kahl: Students would be asked what do you do?

Knudson: Task Force needs to review the program and make recommendations for it. Cut, stagnate or extend it. As the Task Force moves ahead their role was to address SA about this issue. Is this something SS will move forward to the BOR? Laying the groundwork...these decisions will need to be made.

Kahl: Will go before the BOR in February or March. Dealing with current outcomes and what programs have to offer students. Look at possibilities of future programs. Different them every week and good idea of what we're looking at for the entire semester.

Cerwin: Philosophically the campus should fund these initiatives? If the campus does better then students should not have to pay for it. It benefits both the students and the campus. Some of these programs need to be funded by campus.
