## Campus Writing Profile for UW-\_\_\_\_\_

Please answer the following questions as well as you can, skipping any that do not apply to your situation. The seminar organizers will compile *Campus Writing Profiles* for each university and make them available to all seminar participants. These profiles will give all of us useful information about programs around the system as well as information about contacts on each campus. Feel free to use separate pieces of paper or provide web links, brochures, etc. that provide more information about writing on your campus. Please note that "writing-intensive" is an umbrella term for any campus effort to advance writing, including but not limited to *Writing Across the Curriculum (WAC)*, *Writing in the Disciplines (WID)*, writing emphasis/composition courses, and peer tutoring.

### I. Requirements
