## *Congratulations on a well-earned retirement, Dr. Erickson!*

As I reflect on my time here at UWL, I can easily say it is the most rewarding experience in my teaching career. Directing the jazz program here at UWL and working with our talented jazz and saxophone students is a career highlight for me. In turbulent times it can be helpful to look to the future; the potential and promise of our students gives me comfort and hope that we will find our way to a brighter tomorrow.

I also want to thank my colleagues and the staff in the music department and the Visual and Performing Arts for the great work they all do in service to our students. I have benefitted greatly from their support and the opportunity to work collaboratively with them.

And finally, thank you, the audience, for supporting the jazz program at UWL and our students.

- Dr. Jeff Erickson
