

CBA Curriculum Committee

Meeting Minutes

11/19/21, 4pm

Present: Annino, Damali, Hamman, Komissarov, Liu, Nasif

Guest/Advisory: McDermott, Vidden, Miller, Graham, Achenreiner

Next meeting: December 3rd, 4pm, Teams

1. Approval of the Minutes from 10/15/21 (Support-Oppose-Abstain: 5, 0, 0)
2. Review of MGT 308 CIM

The committee discussed the proposed change in prerequisites on the MGT 308 CIM and chose to table the motion to approve for further discussion at the December 3rd meeting. Questions include whether other courses in the curriculum also require similar changes, why there are no prerequisite courses from the pre-core listed for MGT 308, and whether junior standing should be included in the prerequisites for any of our courses. Hamman will reach out to core course coordinator for MGT 308 and invite comments to guide reconsideration at December 3rd meeting and gather language from other core courses for comparison.

3. Discussion of Global LO – Uzay Damali and Shiang Liu

The committee listened to a presentation intended to frame discussion on next steps for revision of a global learning outcome. The committee discussed the relationships and distinctions between global knowledge and cultural competency. The discussion concluded with a plan to consider two separate learning outcomes reflecting these two domains and revisit whether the cultural competency learning outcome belongs under the global learning goal, under social responsibility, or in a separate new goal. The key reason for this consideration is cultural competency has domestic as well as global and international relevance. At the next meeting Drs. Damali and Liu will provide draft language of the global LO for the committee to consider and Drs. Hamman and Nasif will provide draft language of a cultural competency LO and a recommendation for where to place it (within existing or under a new learning goal).

4. Discussion of proposal for a regular curriculum review process

Dr. Hamman provided a draft proposal for a four-year cycle of curriculum review that would encompass the core and precore courses and involve explicit participation from Core Course Coordinators and partnership with AOL. Committee members will review this proposal and discussion will resume at the next meeting. Dr. Hamman will provide information about a process for presenting a proposal of this sort to the college and required steps to implement it.

5. Timeline for Writing in the College Proposal

Due to limited time, discussion of support for a Writing in the College proposal and next steps will occur at the next meeting.

Meeting adjourned 5:07pm
