

WITTICH HALL NAMING OPPORTUNITIES

For the first time in our history we will have a home of our own! The College of Business Administration will be moving into the historic Wittich Hall! This exciting development has been years in the making and is long overdue. Having a building specifically dedicated to the College of Business Administration will solidify our identity and reflect our personality aiding in the recruitment of outstanding faculty, students, and industry partners.

Thanks to the fiscal prudence of UW-La Crosse finance officers, **we are able to move into this great space without asking you to help with the bricks and mortar of the project but instead we are asking you to invest in the people, programs and ideas** that made the college a great place beginning 50 years ago and will continue to make the college a great place to **engage, transform** and **transcend**.
