Department of Health Professions
Bylaws

Departmental Approval: March 3, 2017
Approved by Dean:
PLEASE NOTE: The format for these bylaws as well as selected sections and section verbiage are standard across the university consistent with Faculty Senate action taken on April 15, 2008. Sections followed by an * represent required wording and therefore not subject to the amendment process as outlined within these bylaws.

I. Department of Health Professions Bylaws (date of approval).

   Note: URLs in these by-laws are provided for convenience and should be reviewed regularly for accuracy. (Include our bylaws URL). *

A. Vision Statement
The University of Wisconsin-La Crosse Department of Health Professions will be a recognized leader in evidence-based, clinically integrated healthcare education through collaboration among uniquely specialized professionals and institutions, serving diverse student and community populations.

B. Mission Statement
The Department of Health Professions at the University of Wisconsin-La Crosse, in concert with the Health Science Consortium, is committed to the education of healthcare professionals who are prepared to uphold and advance their respective professions’ standards of practice throughout the continuum of health care. The department is committed to serving as a resource for the people, communities, and healthcare systems of our region.

II. Organization and Operation
Department members are governed by six interdependent sets of regulations:

   1. Federal and State laws and regulations;
   2. UW System policies and rules;
   3. UW-L policies and rules;
   4. College policies and rules;
   5. Shared governance by-laws and policies for faculty and academic staff; and
   6. Departmental by-laws. *

C. Preamble
The Health Professions Department was created through a merger of the Physical Therapy Department and the Clinical Science Department following faculty senate approval of the Reorganization of the Collegiate Structure at the University of Wisconsin-La Crosse in Spring 2003. The Clinical Science Department housed an array of five independent programs (Medical Laboratory Science, Nuclear Medicine Technology, Occupational Therapy, Physician Assistant, and Radiation Therapy). The Physical Therapy Department was a single unit, not separated into programs. The proposed reorganization was implemented Summer 2003 with Occupational Therapy, Physical Therapy, Physician Assistant and Radiation Therapy comprising four independent units in the newly formed Health Professions Department, Nuclear Medicine Technology Program becoming a unit within the Chemistry Department and Medical Laboratory Science becoming a unit within the Microbiology Department. The Health Professions Department bylaws were first adopted by the members of the department in accordance with the University of Wisconsin System and University of Wisconsin-La Crosse Faculty and Academic Staff Personnel Rules in December 2003. Medical Dosimetry was added as a service-based pricing unit in 2003. The Physician Assistant program began awarding the MS degree in
2003, the Occupational Therapy Program began awarding the MS degree in 2004 and the Physical Therapy Program began awarding the DPT in 2005.

D. Meeting Guidelines
Department meetings will be run according to the most recent edition of Robert’s Rules of Order (http://www.robertsrules.com/) and WI state opening meeting laws (http://www.doj.state.wi.us/AWP/OpenMeetings/2005-OML-GUIDE.pdf, summary at http://www.uwlax.edu/hr/recruit/Academic_Recruitment/OPENMEETING.htm).*

Minutes will be taken by a departmental academic department associate (ADA) and distributed in a timely fashion to department members. Copies of the minutes of department meetings and committee meetings shall be kept in a secure location by the department and made publically available.

E. Definitions of Membership and Voting Procedures
The Department utilizes both ranked (tenured and tenure-track) faculty and instructional academic staff (hereafter referred to as IAS). The Department values their contributions equally and any differential treatment is related to College and University policies.

Voting members of the department shall include all ranked faculty (including those on leave or sabbatical who are in attendance) and IAS, and non-instructional academic staff who have ≥ 50% FTE departmental appointments and who maintain a campus presence of ≥ 20 hours per week during the academic year. Other faculty and IAS appointed in the department are welcome to participate in department meetings and discussions but are not voting members of the department.

Ranked faculty and IAS have similar voting rights except IAS shall not vote on personnel issues of retention, tenure, or promotion for ranked faculty. IAS who hold the title of senior lecturer or associate clinical professor may vote on IAS career progression matters as appropriate. Voting occurs with a voice, hand or electronic vote.

Proxy votes are not permitted in meetings of the department and its committees. Voting members who join by teleconference/internet and have reviewed the deliberations are eligible to vote.

[Note: Section II, Part E approved on 10/6/2016]

F. Quorum
For meetings of the department and its committees, a quorum is defined as the simple majority of the entire membership eligible to participate. Unless otherwise stated, a majority (and similarly a two-thirds majority) is defined as a majority of those present at meetings of the department and its committees.

G. Bylaws Amendments
Changes to these bylaws may be adopted if supported by two-thirds of the voting members of the department (as defined in Section 0.9). The vote will occur after two readings of the amendment(s) at two different department meetings unless the requirement of a second reading is waived by two-thirds of the voting members of the department. Both meetings must be announced at least five days in advance of the meetings.

III. Faculty/Staff Responsibilities
A. Faculty

**Responsibilities and Expectations**

Faculty responsibilities are referenced in section IV of the Faculty Senate by-laws entitled "Responsibilities of Departments, Department Members and Department Chairpersons." A complete set of the by-laws are available on the Senate webpage under "Senate Articles and By-laws" [http://www.uwlax.edu/facultysenate/](http://www.uwlax.edu/facultysenate/).

Faculty in the department are expected to maintain high levels of professional competency in areas of teaching, scholarship and service. Faculty are expected to be contemporary in content areas related to their expertise.

Appendix B will assist faculty in classifying their professional activities in ways that are consistent with departmental and university expectations regarding teaching, scholarship, & service. Sections IV & V will serve to further clarify how faculty contributions will be evaluated.

1. Teaching – Faculty
Faculty members of the department are required to keep current in their subject and profession. Additional information may be found in individual position descriptions. Faculty members are required to work with the department chair and/or program director(s) to facilitate student evaluation of instruction in each course they teach (See Section III D. Student Evaluation of Instruction for details).

2. Scholarship
Faculty members of the department are required to develop and maintain an active program of scholarship.

3. Service
Faculty members of the department are required to serve their department by participating in routine committee work, attending program and department meetings and advising students as assigned. Selected service obligations may merit re-assigned time. Examples of such service obligations might include but are not limited to duties associated with Department Chair, Program Director, clinical education, admissions, programmatic assessment, and dual-degree coordination.

4. Clinical Activity
Faculty with clinical credentials may maintain their professional knowledge and expertise by participating in clinical activities when possible. They shall not interfere with University responsibilities and must conform to policies governing outside activities (insert policy reference). Faculty participating in clinical practice are expected to submit an alternative work week schedule (insert policy reference).

5. Outside Activities
Faculty may engage in outside activities such as research, consulting, or other activities that are not part of their required university responsibilities. These activities shall not interfere with university responsibilities and must conform to policies governing outside activities that are explained in Appendix C.

B. Instructional Academic Staff

**Responsibilities and Expectations**

Instructional Academic Staff (IAS) responsibilities are referenced in section IV of the Faculty Senate by-laws entitled "Responsibilities of Departments, Department Members and Department Chairpersons." A complete set of the by-laws are available on the Senate webpage under "Senate Articles and By-laws" [http://www.uwlax.edu/facultysenate/](http://www.uwlax.edu/facultysenate/).
Instructional Academic Staff in the department are expected to maintain high levels of professional competency in areas of teaching & service. Some programs may additionally require contributions in scholarship. IAS are expected to be contemporary in content areas related to their expertise. One way to obtain this expertise may be involvement in clinical activity.

Appendix B will assist IAS in classifying their professional activities in ways that are consistent with departmental and university expectations regarding teaching, service, scholarship. Sections IV & VI will serve to further clarify how IAS contributions will be evaluated. Requests for IAS hiring will be presented to the college dean. The request will indicate one of the standard titles from the lecturer or clinical professor series [link]

1. Teaching - Instructional Academic Staff

Instructional Academic Staff members of the department are required to keep current in their subject and profession. Additional information can be found in individual position descriptions. Instructional Academic Staff members are required to work with the department chair and/or program director(s) to facilitate student evaluation of instruction in each course they teach (See Section III D. Student Evaluation of Instruction for details).

The department includes several professional clinical programs and utilizes instructional and clinical expertise of individuals outside of the university. Instructional Academic Staff in these programs have responsibility for the development of courses, establishing evaluative criteria, arranging clinical educational experiences, and developing affiliations with individual clinicians and institutions.

2. Scholarship

IAS members of the department may be required to develop and maintain an active program of scholarship according to individual program accreditation criteria and in accordance with individual professional development plans.

3. Service

IAS members of the department are required to serve their department by participating in routine committee work, attending program and department meetings and advising students as assigned. Selected service obligations may merit re-assigned time. Examples of such service obligations might include but are not limited to duties associated with Program Director, clinical education, admissions, programmatic assessment, and dual-degree coordination.

4. Clinical Activity

IAS with clinical credentials may maintain their professional knowledge and expertise by participating in clinical activities when possible. Clinical activities shall not interfere with University responsibilities and must conform to policies governing outside activities (insert policy reference). IAS participating in clinical practice are expected to submit an alternative work week schedule (insert policy reference).

5. Outside Activities

IAS may engage in outside activities such as research, consulting, or other activities that are not part of their required university responsibilities. These activities, shall not interfere with university responsibilities and must conform to policies governing outside activities that are explained in Appendix C.
C. Non Instructional Academic Staff Responsibilities and Expectations

Responsibilities and expectations for non-instructional academic staff are based on their individual position descriptions. Specific responsibilities will be decided by their program director and the department chair.

D. Student Evaluation of Instruction

The department will follow the UW-La Crosse’s Student Evaluation of Instruction (SEI) policy and procedure available off the Faculty Senate webpage [http://www.uwlax.edu/facultysenate/](http://www.uwlax.edu/facultysenate/). Results from the Faculty Senate approved SEI questions are required for retention, tenure, and promotion in the form of (1) the single motivation item and (2) the composite SEI consisting of the 5 common questions. These numbers will be reported using the Teaching Assignment Information (TAI) form. The department will add both the motivation item and the composite SEI fractional median for each course. In addition, the candidate's overall fractional median for the term on both the single motivation item and the composite SEI are reported. Finally, the department adds the departmental fractional median for both the single motivation item and the composite, the minimum and maximum composite SEI for the department, and the candidate's rank in SEI scores relative to all departmental ranked faculty (tenure-track or tenured) for that term (e.g., 3 of 15). IAS renewal and career progression. The same information as above is reported; however, no TAIs are generated for IAS.

These evaluations will take place during the last three weeks of course instruction, or at the conclusion of the clinical internships except for courses in which the chair has deemed the use of SEI’s to be inappropriate (e.g., courses with enrollments of fewer than 8 students). In recognition of the variety of roles that instructors of record may play within courses, additional evaluative data may be collected but may not replace the university SEI instrument.

The SEI instrument will be administered by a faculty or IAS member other than the course instructor; appropriate data collection methods will be used to ensure student anonymity as outlined in the Classroom Administration Guidelines section of the SEI Background Information ([http://www.uwlax.edu/facultysenate/SEI%20Background%20Info%20%20Gdlns.htm](http://www.uwlax.edu/facultysenate/SEI%20Background%20Info%20%20Gdlns.htm)). It is the responsibility of program directors and the department chair to ensure that the evaluation is performed. Programs may require additional data be collected by ranked faculty/IAS for purposes of individual and/or programmatic development as well as programmatic assessment.

IV. Merit Evaluation (Annual Review)

The results of merit reviews for all ranked faculty who have completed at least one academic year at UW-L are due to the Dean's Office on Dec. 15 annually. Merit reviews reflect activities during the prior academic year ending June 1.

A. Evaluation Processes & Criteria

1. Faculty

Consistent with UWS 3.05 and UWL 3.05, the performance of all faculty and continuing IAS in the department will be reviewed annually. Areas to be evaluated for IAS include teaching and service. As noted earlier, scholarship is generally not expected for IAS though it may be included for programmatic reasons. Specific dates for completion of annual evaluations of faculty and IAS are specified by UW-L administration. These dates are distributed to departmental chairs at the beginning of the fall semester.

**Purpose:** The purpose of annually reviewing faculty and IAS is to provide constructive feedback to guide professional development needed to support the program, department, college, and institution. The results of this review process will be used for multiple purposes including distribution of merit pay, promotion,
retention, tenure, post-tenure review, construction of the departmental annual report for the college, and updating professional development plans.

**Teaching:** The definition of teaching can be found in Appendix B. Teaching includes traditional classroom and laboratory instruction, academic and clinical mentoring of professional program students, and advising of undergraduate and graduate student research. Teaching is ranked as the area of greatest importance in terms of faculty and IAS responsibility.

Teaching effectiveness will be assessed using student evaluation of instruction (SEI) scores obtained from each of the courses in which the individual plays an identifiable traditional instructional role. Where faculty or IAS have a non-traditional role, alternative evaluation forms will be created to solicit student evaluation scores. Other evidence of successful teaching or teaching improvement may be submitted for consideration including, but not limited to, peer evaluation of teaching, teaching awards, published educational materials, and development of unique teaching resources.

Probationary faculty and IAS are required to undergo peer evaluation of instruction during each of their first five years of employment in the department (See Section V.A. Faculty are also required to include peer evaluation of instruction information for promotion to the ranks of Associate and Full Professor (See Section V.D). In addition, faculty may use peer evaluation of instruction for post-tenure review (see Section V.C).

**Scholarship:** The department requires faculty members to have a record of ongoing scholarly activity and evidence that external peer review has judged it to be of value. Scholarship is defined in Appendix B.

The UW-L Human Resources web site has useful information regarding scholarship as defined by the Joint Promotion Committee.

**Service:** The definition of service can be found in Appendix B. Service contributions shall be judged by the impact on and contribution to the program, department, college, university, community, and/or profession.

### B. Distribution of Merit Funds

Each faculty and IAS member’s average merit score will be classified as not meritorious, meritorious, or highly meritorious as follows:

<table>
<thead>
<tr>
<th>Merit Category</th>
<th>Average Merit Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Not meritorious</td>
<td>0.00 - 8.99</td>
</tr>
<tr>
<td>Meritorious (solid performance)</td>
<td>9.00 - 12.99</td>
</tr>
<tr>
<td>Highly meritorious</td>
<td>13.00 - 16.99</td>
</tr>
<tr>
<td>Exceptionally meritorious</td>
<td>17.00 - 20.00</td>
</tr>
</tbody>
</table>

With each annual pay plan, merit pools of $P$ dollars are separately directed to the department for faculty and academic staff. Of these pools, 67% will be allocated to individuals in the top three meritorious categories as a percentage of their base salary. The remaining 33% of the pool will be used for supplemental merit for individuals in the "high" and "exceptional" categories, which will be distributed as follows.
If there are $m$ individuals in the "highly meritorious" category and $M$ individuals in the "exceptionally meritorious" category, then the value $V$ of a supplemental merit unit is given by $V = 0.33P/(m + 1.5M)$. Each person in the "highly meritorious" category will receive $V$ dollars and each individual in the "exceptionally meritorious" category will receive $1.5V$ dollars.

Academic staff members are awarded merit using different funds than tenure-track faculty. Therefore, merit awards for the two groups will be calculated separately, though the same distribution procedure will be used.

C. Appeal Procedures (if applicable)
A faculty or IAS member may request a reconsideration of his/her merit rating. This request must be made in writing to the department chair within one week of the initial distribution of merit ratings. The Merit Evaluation Committee will reconvene within one week following the request for reconsideration, and the committee's final evaluation decision will be communicated in writing to the faculty or IAS member. Chairs may similarly appeal their performance rating with the Dean.

Appeals beyond the departmental level may be presented to the Complaints, Grievances, Appeals, and Academic Freedom Committee (see Section I. E. of the Faculty Senate Bylaws).

D. Annual Professional Development Plans and Selection of Mentors
At the beginning of the annual review cycle in the fall, faculty and IAS will meet with the program director to determine their professional development plans. These plans must reflect the needs of the program, department, college, institution, and the individual. The sum of all professional development plans must provide coverage of all of program and department goals.

1. Selection of Mentors for Newly Hired Faculty and Instructional Academic Staff
To help new faculty and IAS implement their initial professional development plans (and thus start successful programs of teaching, scholarship, and service), program directors will formally assign an experienced mentor to each newly hired faculty and IAS member. Each mentor will work closely with her/his mentee during the initial three years (or longer upon request by the mentee) of employment in the department. For new faculty, each mentor must be a tenured faculty member from the department. For new IAS members, each mentor should be an experienced faculty or IAS member from the department. Other informal mentors may also be solicited from within or outside the department by the program director or mentees.

2. Components of the Professional Development Plan
Professional development plans will be completed on a form devised by the department (see Appendix D). Information on this form will address:

- Proposed percentages of effort (and equivalent points based on a 20-point scale) allocated among the areas of teaching, scholarship, and service.
- Specific goals for the upcoming year in performance areas of teaching, scholarship, and service. (Note: These goals shall be consistent with programmatic goals.)
- Strategies to be used to successfully meet these goals.
- Resources needed (time, money, equipment, continuing education, reduced teaching load, etc.).
- Expectations of the program/department in order to meet its goals/objectives.
• Methods for measuring accomplishments.

Percentages of effort specified in the annual professional development plan are allocated among the areas of teaching, scholarship, and service and shall fall within the minimum and maximum values listed in the following chart.

| Responsibility | Instructional Academic Staff | Faculty¹ | |
|----------------|-----------------------------|----------|
|                | % Time Allotment | Points² | % Time Allotment | Points² |
| Teaching       | 40 - 95%           | 8 - 19   | 30 - 75%          | 6 - 15   |
| Scholarship    | 0 - 40%            | 0 - 8    | 10 - 40%          | 2 - 8    |
| Service        | 5 - 60%            | 1 - 12   | 5 - 60%           | 1 - 12   |
| Total          | 100%               | 20       | 100%              | 20       |

¹ Maybe adjusted to accommodate increased service by the department chair.
² Points correspond to the 20-point scale used in calculating merit scores.

After the professional development plan has been reviewed and approved by the program director, the faculty or IAS member and the program director will both sign the document, indicating their understanding of the plan. A copy of the plan will be placed in the faculty or IAS member's personnel file.

Each faculty and IAS member will meet with the program director in January to review the professional development plan, identify obstacles, and construct solutions. The program director will meet with the department chair to review these plans.

Program directors and the department chair will also draft their own professional development plans. Plans of program directors and the department chair will be reviewed and approved by the department chair and Dean, respectively.

E. Peer Review of Teaching

Probationary faculty and IAS members will have their teaching evaluated by two peers visiting their classrooms during each of the first five years of their employment in the department. For years one and two, peer review must occur during each semester. For years three through five, peer review must occur at least once each year. Peer reviewers will be selected by program directors in consultation with the faculty or IAS being reviewed. For probationary faculty undergoing peer review, reviewers must be selected from tenured faculty within the department (see Section V.A.). For IAS, peer reviewers can be selected from experienced faculty or IAS within the department. A peer reviewer may also serve as a mentor (see Section IV.D.1) assigned to the faculty or IAS being reviewed.

In addition to classroom visitation, syllabi and evaluation instruments will be reviewed. An evaluation form (see example in Appendix E) will be completed by each peer reviewer and submitted to the faculty or IAS member, program director, and department chair. This review will be considered as evidence of teaching effectiveness and progress.

Other faculty or IAS members may elect (or be required) to have their teaching reviewed by peers. For example, peer review of teaching is one component of
the promotion process (Section VI.B.) and may be used as evidence to support post-tenure review (Section V.C.).

F. Annual Activity Reports
By May 31 of each year, each faculty and IAS member will prepare an "Annual Activity Report," using Digital Measures which is a self-assessment of their accomplishments in the areas of teaching, scholarship, and service from June 1 to May 31. This report will be submitted to the college office for use in preparing its annual report and to the department chair for the fall merit review process. The report should be organized using a classification of activities prepared by the college office as a guide or an equivalent alternative.

Faculty and IAS members who are on professional leave are expected to submit annual activity reports that describe their leave and other professional activities by May 31. Additional descriptions of their activities may also be prepared for the department or program.

G. Annual Review of Merit Materials
Early in the fall semester, each department member will submit the following merit materials to the department chair:

(1) The professional development plan (Appendix D), which includes the percentage of effort allocation targets (and corresponding values based on a 20-point scale) for teaching, scholarship, and service,
(2) The annual activity report (Digital measures) and
(3) A supplemental information grid (Appendix F) that lists courses taught, contact hours, course enrollments, and SEI scores. This grid includes courses in which the faculty or IAS serve as the "instructor of record."

Additional information, including peer evaluation of instruction forms (Appendix E), a summary of activities completed while on sabbatical, etc. should also be submitted when applicable. Program directors and the department chair may seek colleague feedback about their own activities and submit this information with their merit materials.

The Merit Evaluation Committee will evaluate merit material, awarding 0 points (lowest) to 20 points (maximum) to each member. However, reviewers shall not exceed the point targets for teaching, scholarship, and service specified in professional development plans.

For example, assume that the professional development plan for faculty member "X" allocated 14, 3, and 3 points among teaching, research, and service, respectively. Each reviewer could then award 0-14 points for teaching, 0-3 points for research, and 0-3 points for service. (Thus, 15 points could not be awarded for teaching, 5 points could not be awarded for research, etc.)

Scores for each faculty and IAS member will be averaged to determine an "average merit score" and then summarized for review and discussion by the Merit Evaluation Committee without identifying the individual reviewers. By the end of the day following the committee discussion of the scores, individual committee members will have the opportunity to revise their scores. Within seven calendar days of the review, the department chair shall notify each member of the department in writing of his/her average merit score including average subscores in the areas teaching, scholarship, and service.
New faculty and IAS will not undergo this process during their first year of contract with the department. If they are retained for the following year, they will be given the average percentage of salary increase generated by the pay plan.

2. Instructional Academic Staff
Merit for IAS is determined using the same process as described for faculty in Section V.1.A above.

3. Non-Instructional Academic Staff (see VI).

4. Evaluation of Program Directors and Department Chair
The Dean will be invited to participate in the evaluation of the department chair and to assign 0-20 points using the merit rating table in Section IV 1. as a guide. The Dean will be invited to participate in the discussion by the Merit Evaluation Committee. The chair's merit rating will be the average of the department score and the Dean's score. If the Dean does not participate in this process, the chair's merit rating will be her/his departmental score.

Program directors will undergo regular "programmatic" evaluations conducted by the college office, which will seek input from faculty and IAS teaching in the program, students and alumni, university administration, and external clinical partners. The college office will summarize this information and review this summary with each program director. This information may be shared with the department as deemed appropriate by the college office.

V. Faculty Personnel Review
The department will follow the policies regarding retention and tenure described in the Faculty Personnel Rules (UWS 3.06 - 3.11 and UWL 3.06 -3.08) http://www.uwlax.edu/HR/F_Handbook.htm.

Tenure/retention decisions will be guided by the criteria established in the by-laws at the time of hire unless a candidate elects to be considered under newer guidelines. The criteria outlined in Section V. A & V. B. "Faculty Personnel Review" in these by-laws should be applied to faculty with a contract date after May 8, 2009

The department will follow policies guiding part-time appointments for faculty and tenure clock stoppage available on the Human Resources website.

A. Retention (procedure, criteria, and appeal)
i. Faculty under review provide an electronic portfolio related to their teaching, scholarship, and service activities extracted from their date of hire to date pf review. Hyperlinked syllabi are required and the candidate may choose to provide additional evidence. Additional materials may be required for departmental review and will be indicated in these by-laws.

ii. Departments will provide the following materials to the dean: 1. Department letter of recommendation with vote; 2. Teaching assignment information (TAI) datasheet that summarizes the courses taught, workload data, grade distribution and SEIs by individual course and semester (which are only available after completing a full academic year) and departmental comparison SEI data; and 3. Merit evaluation data (if available).
iii. The initial review of probationary faculty shall be conducted by the tenured faculty of the appropriate department in the manner outlined below.

iv. Starting with tenured-track faculty hired effective Fall 2008, all first-year tenure-track faculty will be formally reviewed in the spring of their first year. A departmental letter will be filed with the Dean and HR. Formal reviews resulting in contract decisions will minimally occur for tenure-track faculty in their 2nd, 4th and 6th years.*

The Retention/Tenure Review Committee shall consist of all tenured members of the department. In cases where a committee consists of fewer than three faculty members, the department chair shall work with the Dean to establish an appropriate committee. Early each fall semester, the Retention/Tenure Review Committee shall meet and elect a chair (who may be the department chair) to a one-year term by a simple majority of the committee members.

1. Review Process

Each probationary faculty member shall undergo peer review of classroom teaching as described in Section IV E.

Retention reviews on faculty hired before Fall 2008 will be conducted in the fall semester. At least 20 calendar days prior to the annual retention review, the department chair will notify each probationary faculty member in writing of the time and date of the review meeting. The chair will also remind candidates to update their electronic materials within 7 days of the review. The department chair will supply the results of student evaluations and peer review of classroom instruction for each probationary faculty member to the committee. Probationary faculty members may make oral or written presentations at the review meeting. The requirements of the Wisconsin Open Meeting law shall apply to the review meeting.

The Retention/Tenure Review Committee shall evaluate each probationary faculty member's performance based on electronic materials, peer review of instruction reports, student evaluations, and any other information (written or oral) presented to the committee by the probationary faculty member or by others who have been involved with the probationary faculty member in a professional capacity. Votes shall be cast by a show of hands on a motion to retain. At least a two-thirds majority of eligible voters is necessary for a positive retention recommendation. The committee chair will record the results of the vote.

Within seven calendar days of the review meeting, each probationary faculty member shall be informed in writing of the results of the retention review by the committee chair. In the case of a positive retention decision, the written notice shall include concerns or suggestions for improvement identified by the committee.

In the case of a non-renewal recommendation, the committee shall prepare written reasons for its decision and communicate these to the Dean. These reasons shall otherwise be retained by the committee chair unless requested in writing by the probationary faculty member. This request must be made in writing within 10 calendar days of notification of the recommendation for non-renewal. Written reviews shall be provided to the faculty member within 10 calendar days of the receipt of the written request. Once requested, these reasons become part of the faculty member’s personnel file. Written review shall be provided to the faculty member within 10 calendar days of the receipt of the written request.
2. Criteria
The members of the Retention/Tenure Review Committee shall judge the performance of each probationary faculty member in the areas of teaching, scholarship, and service. Of these areas of responsibility, teaching is most important. A program of continuing scholarship and service is necessary for retention and ultimately a positive tenure recommendation.

Probationary faculty are required to have a successful record of accomplishments in all three areas of responsibility by the time of their tenure recommendation. Criteria to use when judging the quality of teaching, scholarship, and service are explained in Section IV.

3. Reconsideration
If the faculty member wishes a reconsideration of the initial nonrenewal recommendation, he/she shall request a reconsideration meeting in writing within two weeks of the receipt of the copy of the reasons. A meeting for reconsideration with the committee shall be held within two weeks of the receipt of the request. The faculty member shall be notified a minimum of seven calendar days prior to the meeting. At the reconsideration meeting, committee members and the faculty member shall be present. Both the committee and the faculty member may choose up to two members of the university community to be present also. These third parties may question either of the other parties and make comments to them. These third parties also shall file a report of the reconsideration meeting with the committee chair and the faculty member. In later appeals, such third parties may be called as witnesses. The faculty member may make a personal presentation at the reconsideration meeting. The meeting shall be held in accordance with subchapter IV of Chapter 19, Wisconsin Statutes.

At the meeting for reconsideration, the faculty member is entitled to present documentary evidence. The reconsideration is not a hearing nor an appeal and shall be non-adversarial in nature. Its purpose is to allow the faculty member an opportunity to persuade the committee to change the recommendation of nonrenewal by challenging the stated reasons and/or by offering additional evidence. The burden of proof is on the faculty member requesting the reconsideration. Following the reconsideration, the committee chair shall forward a recommendation (with written reasons) to the Dean. A copy of the recommendation and the reasons shall also be sent to the probationary faculty member within seven calendar days of the reconsideration. Additional procedures for the reconsideration process and for appealing nonrenewal decisions are explained in UW-L Faculty Personnel Rules, Sections 3.07 and 3.08.

B. Tenure review and departmental tenure criteria (if applicable)

C. Post-tenure review
Department follows the UW Regent Policy Document 20-9 that indicates a review “at least once every five years, of each tenured faculty member’s activities and performance, in accordance with the mission of the department, college, and institution.”

https://www.uwlax.edu/human-resources/post-tenure-review-policy/

Approved (3-3-2017)
1. Criteria
An ongoing program of successful teaching will be indicated by student evaluation of instruction scores and other evidence included in the review materials. Additional evidence (including peer evaluation of instruction) is optional, but may also be submitted at the discretion of the faculty member being reviewed.

Tenured faculty are also expected to show evidence of ongoing accomplishments in the areas of scholarship and service. It is expected that these accomplishments should contribute toward goals of the program, department, and/or university.

Members of the committee will formally vote on the following three questions:

(1) Do the teaching activities of the faculty member demonstrate a successful teaching program as indicated by student evaluation of instruction, peer evaluation of instruction, and/or other indicators of success?

(2) Do accomplishments of the faculty member demonstrate coherent, ongoing programs of scholarship and service?

(3) Have the scholarly and/or service accomplishments of the faculty member made a substantive contribution toward goals of the program, department, and/or university?

A majority vote of *ad hoc* committee members in the affirmative for each of these three questions will constitute a satisfactory review. Lack of a majority vote for one or more of these questions will constitute an unsatisfactory review.

In cases of unsatisfactory reviews, a written explanation will be presented to the faculty member by the department chair (or when the chair is being reviewed, by a member of committee elected to serve in the chair’s absence). The chair, program director, and faculty member will meet to devise a professional development plan to correct the areas of concern.

If the faculty member wishes that an unsatisfactory review be reconsidered, he/she will submit a written request for reconsideration to the committee chair within two weeks after receiving the written explanation.

D. Faculty Promotion Procedures (procedure, criteria, and appeal)
The department will follow the guidelines and schedules regarding faculty promotion available at [http://www.uwlax.edu/hr/promo-resources.htm](http://www.uwlax.edu/hr/promo-resources.htm)*

1. Review Process
The Promotion Recommendation Committee(s) shall consist of all tenured faculty at the same or higher rank to which a promotion is being considered. In cases where a committee consists of fewer than three faculty members, the department chair shall work with the Dean to establish an appropriate committee using these department bylaws as guidelines. During the first week of classes each fall semester, the department chair shall convene the Promotion Recommendation Committee(s), as needed. At its first meeting, the committee(s) shall elect a chair (who may be the department chair) for a one-year term by a simple majority vote and establish the date(s) of the promotion consideration meeting(s).

Lists of faculty who will meet the minimum university eligibility requirements for promotion in the coming academic year are distributed by the Dean to
department chairs. These lists will be reviewed for accuracy by the department chair. The department chair will notify the faculty members who are eligible in writing of their eligibility and upon request will provide a Faculty Promotion Evaluation Report Form, copies of the university and departmental regulations on promotion, and information on the provisions of the Wisconsin Open Meetings Law.

During the second week of classes of the fall semester, names of individuals on the list who meet the minimum department criteria for promotion will be forwarded to chair(s) of the Promotion Recommendation Committee(s). The department chair will notify in writing faculty eligible for promotion of the date of the promotion meeting, which will be at least 20 calendar days in the future. Faculty who are eligible and wish to be considered for promotion must submit a completed Faculty Promotion Evaluation Report Form and vita to the department chair at least seven days prior to the date of the promotion consideration meeting. The department chair will forward these materials and student evaluation information to the members of the Promotion Recommendation Committee prior to the promotion meeting date. Faculty may submit other written materials and/or make an oral presentation at the consideration meeting. The requirements of the Wisconsin Open Meeting law shall apply to this meeting.

After discussion of a candidate's performance with respect to the criteria in Section V: D.2 below, votes shall be cast by a show of hands on a separate motion to promote for each promotion candidate. At least a two-thirds majority of faculty eligible to serve on the Promotion Recommendation Committee is necessary for a positive promotion recommendation. The results of the vote shall be recorded by the committee chair and entered on the committee's portion of the Faculty Promotion Evaluation Report Form. The committee shall prepare written reasons for each of its recommendations.

Within seven calendar days of the promotion meeting, the department chair shall notify each candidate of the committee's recommendation. For positive recommendations, the committee chair shall include a letter of recommendation on behalf of the committee as part of the Faculty Promotion Evaluation Form. With these materials, the department chair shall also transmit a written recommendation to the Dean. A copy of these letters shall be provided to the candidate at least one day prior to the submission of the promotion file to the Dean.

To be considered for promotion to a higher rank, faculty must meet the minimum university criteria (see Faculty Promotion Resources web site) as well as the minimum departmental criteria. For the rank of Associate Professor, a candidate must provide evidence of teaching excellence, establishment of a program of scholarship, and a record of service. Evidence of teaching excellence shall include the results of self, peer, and student evaluation of instruction. Scholarship shall be consistent with the department's definition of scholarly activity (see Appendix B). Service shall also be consistent with the department's definition of service (Section IV). To be promoted to the rank of Professor, a faculty member must show evidence of continued excellence in teaching, significant scholarly productivity, and substantial service activity. Continued teaching excellence is measured by the results of self, peer, and student evaluations. Significant scholarly productivity is judged by the quality and quantity of presentations, publications, and grant acquisitions. Substantial service activity will include service to the department, the institution, and the profession.
3. Reconsideration
Candidates who are not recommended for promotion may request the reasons for the non-promotion recommendation. This request must be submitted in writing to the department chair within seven days of the notice of the committee’s recommendation. Within two weeks of receiving the written reasons, a candidate may request, by writing to the department chair, reconsideration by the Promotion Recommendation Committee. The faculty member will be allowed an opportunity to respond to the written reasons using written or oral evidence at the reconsideration meeting. Written notice of the reconsideration decision shall be forwarded to the Dean within seven days of the reconsideration meeting.

VI. Instructional Academic Staff Review
A. Annual Review
In Accordance with Faculty Personnel rules UWS 3.05-3.11 and UWL 3.08, academic staff will be evaluated annually. The Individual Development Plan (IDP) form will accompany the department’s evaluation. IDP Form: http://www.uwlax.edu/hr/IDP/IDP.General.Info.html.*

B. Career Progression Procedures
Policies and procedure guiding career progression for IAS are available at http://www.uwlax.edu/facultysenate/committees/ias/pages/CareerProgression.html.*

C. Appeal Procedures re: Annual Review

VII. Non-Instructional Academic Staff Review (if applicable)
In Accordance with Faculty Personnel rules UWS 3.05-3.11 and UWL 3.08, academic staff will be evaluated annually. The Individual Development Plan (IDP) form will accompany the department’s evaluation. IDP Form: http://www.uwlax.edu/hr/IDP/IDP.General.Info.html.*

VIII. Governance
A. Department Chair
1. Election of the Department Chair
Specific details of the selection process are contained in Faculty Senate Bylaw VII: The Selection of Department Chairs. Any tenured faculty member with > 50% appointment in the department is eligible to serve as chair. The term of office is three years. All faculty members and IAS with faculty status are eligible to vote for the chair.

2. Responsibilities and Rights of the Department Chair
The department will adhere to the selection and duties of the Chair that are delineated in the Faculty Senate By-Laws (revised 2006) http://www.uwlax.edu/facultysenate under the heading “IV. Responsibilities of Departments, Department Members and Department Chairpersons” and “V. The Selection of Department Chairpersons” and “VI. Remuneration of Department Chairpersons.” In addition references to chair-related duties are stated throughout the Faculty Handbook http://www.uwlax.edu/HR/F_Handbook.htm.*

Such duties include the following:

- Promoting the needs of the department to the college and the university administration.
- Overseeing and monitoring the department budget.
- Convening department meetings and appointing faculty to departmental committees.
- Overseeing and coordinating the annual evaluation of department staff (including faculty, instructional academic staff, non-instructional academic staff, and classified staff).
- Coordinating the preparation of promotion, tenure, and retention documents.
- Appointing and monitoring search and screen committees for departmental vacancies.
- Preparing departmental reports and audits.
- Representing the department in various university matters and activities.
- Overseeing the professional development of department members.
- Supervising non-instructional academic staff and program assistants.
- Oversight of departmental personnel records.
- Serving on Health Science Center committees.
- Supporting the continued development of programs within the department.
- Administers and oversees resources and functions that programs collaboratively share.
- Overseeing the department's strategic planning process and the advancement of short and long term goals.
- Providing mentoring to program directors on non-discipline specific issues.

It is assumed that program directors are best qualified to prepare class schedules, make teaching assignments, request classrooms, and manage the budgets assigned to each program, and that they will routinely perform these activities. However, as stipulated in Senate Bylaws VI.H, the department chair shall retain ultimate responsibility for implementation and oversight of these activities.

In addition, given the collective expertise derived by housing multiple programs within the department, one of the chair's most significant responsibilities will be to encourage inter programmatic discussions of teaching, scholarship, and service activities with the goal of strengthening individual programs within the department while discouraging programmatic isolation.

In accordance with Senate Bylaw VIII, the department chair shall be granted a 0.5-FTE reassignment for administrative duties, provided that the department consists of a minimum of 10 faculty and academic staff members. The department chair shall also receive a partial summer appointment for fulfilling the responsibilities of the chair.

B. Program Directors
   1. Selection and appointment of Program Directors follow program and/or University policy and procedures. The Dean of the college of Science and Health makes the final appointment.

   2. Responsibilities of Program Directors
      Program directors administer and oversee all aspects of their respective program. Each Program Director had direct access to the Dean for purposes of advocating for program needs and assuring organizational expectations are satisfied. These duties include, but are not limited to the following:
Managing programmatic budgets
Providing written and oral information related to retention, tenure and promotion decisions
Promoting professional development of faculty and IAS within the program, including approval of professional development plans
Determining faculty and IAS workload assignments
Oversight for developing and assessing curriculum
Maintaining program accreditation
Serving as a liaison between the university and clinical partners
Advocating for the program within the university and within the community
Successfully recruiting students to the program
Preparing class schedules
Fostering positive alumni relationships
Encourage members from other programs within the department to review and discuss teaching, scholarship, and service activities that occur within their respective programs

C. The Department as a whole
The Health Professions Department includes an array of excellent programs with an unusually diverse pool of expertise and traditions. The department will consciously embrace this diversity, recognizing that each of its programs has a unique opportunity to learn and benefit from each other. Thus, one of the department’s primary responsibilities will be to actively create traditions and structures that nurture constructive, inter-program dialogue and critique rather than programmatic isolation.

D. Standing Departmental Committees
The department will establish standing committees as listed below. Recognizing that some programs within the department have specific needs not addressed by these departmental committees, individual programs are encouraged to continue or establish program-specific committees to meet their needs.

The purposes of any standing department committee are fact-finding and making recommendations to the chair and department. Charges will be given to each standing committee by the department chair. A charge will contain specific goal(s) and the expected date of completion.

1. Committee Membership
Faculty and IAS members are encouraged to submit to the department chair their areas of committee interest. The Department Chair oversees the appointment of members to the committees. Committee members will be representative of as many programs as possible.

The purpose of any standing committee is fact finding and making recommendations to the Chair and the department. Charges will be given to each standing committee by the department chair. A charge will contain specific goal(s) and the expected date of completion.

2. Committee Organization
A committee chair will be appointed by the department chair. The committee, chair, with the aid of fellow members, will determine meeting dates and times, set the agenda for meetings, generate minutes of meetings and file minutes in the department office. The Chair may appoint additional ad hoc committees as needed. Additional standing committees may be established by a two-thirds vote of the department.
a) Chair and Program Directors Committee
The Chair and Program Directors Committee shall consist of the chair and program directors of each program. This committee will consider and make recommendations to the chair regarding the following issues: assignment of workload among department faculty and IAS, advisory review of program and departmental curriculum, review and coordination of program budgets within the department, review and modify guidelines for adjunct faculty appointments and make appropriate recommendations regarding these appointments to the college office and other issues of interest across the department and its programs.

b) Merit Evaluation Committee
The Merit Evaluation Committee shall be appointed each year by the department chair from faculty and IAS members in the department who are eligible for merit review in that year. The committee will consist of at least three members and will represent at least three programs in the department. Each committee member will review the teaching, scholarship, and service activities of all members in the department, excluding the review of their own activities. The department chair will chair the committee.

c) Retention and Tenure Committee
The Retention and Tenure Committee shall be determined as described in section V A. above.

d) Promotion Recommendation Committee
The Promotion Recommendation Committee shall be determined as described in section V.D above.

e) Student Recruitment Committee
The Student Recruitment Committee shall have oversight of Campus Close-Up events, Health Career Nights, and other recruiting activities designed to promote student interest in department programs. This committee will communicate with the directors of other health programs in the College of Science and Health in order to coordinate recruitment activities.

C. Departmental Programmatic Assessment Plan

D. Additional departmental policies
Sick Leave: Department members will account for sick leave in adherence to the most current UW System guidelines: http://www.uwsa.edu/hr/benefits/leave/sick.htm.*

Vacation: For unclassified staff, 12-month employees garner vacation time, 9-month employees do not.*

1. Policy on Faculty & Academic Staff Equity Adjustments
   Purpose: The intent of this policy is to provide a mechanism to address the perception of a salary inequity. The following policy statement is the response
of the Department of Health Professions to the requirement that we have a policy for the identification of salary inequities and procedures for recommending equity adjustments to the dean of the college. It is based on the "Policy on Faculty & Teaching Academic Staff Equity Salary Adjustments" which was approved by the Chancellor on August 24, 1993.

**Definition:** An equity adjustment is a salary adjustment that results from the need to address unusual salary disparities both within a program and within the Health Professions Department.

An equity adjustment may be recommended for reasons such as:
1. to address issues of gender or race equity;
2. to address inequities due to salary compression or inversion;
3. to address inequities resulting when individuals acquire advanced degrees,
4. to address changes in one’s assigned responsibilities.

Equity adjustments should not be made which negate past merit adjustments.

Department salary equity adjustment requests shall be presented in writing to the dean of the college with evidence that consultation with the faculty member occurred. A request for a salary equity adjustment may be initiated by:

**The Department Chair and/or Program Director:**
The Department Chair is the department custodian of current salary data as well as relevant historical salary adjustment information. It is the responsibility of the Chair and Program Director to periodically review this information and request of the dean an appropriate equity adjustment when it is believed that a salary inequity exists. Such requests must be in writing and include supporting documentation and rationale. Consideration may be given to the salaries of programmatic or departmental peers or commensurate clinical salaries including local or relevant regional or national salaries.

Or

**A Faculty Member:**
A faculty member may request an equity adjustment in one’s own behalf. This request must be presented, in writing, with documentation and rationale to the Department Chair and Program Director. Documentation and rationale must relate to one or more of the four criteria defined above. The Department Chair and Program Director may add a written recommendation and additional documentation to the request prior to forwarding to the dean. The Department Chair and Program Director shall provide the involved faculty member with copies of any added recommendations/documentation.

Notice on action taken on salary equity recommendations will be directed to the Department Chair, Program Director and the affected faculty member according to the "Policy on Faculty & Teaching Academic Staff Equity Salary Adjustments"

**IX. Search and Screen Procedures**
The department will follow hiring procedures prescribed by the University’s Office of Human Resources (HR) in conjunction with AAOD and UW System and WI state regulations.

**A. Tenure-track faculty**
The approved UW-L tenure track faculty recruitment and hiring policy and procedures are found at [http://www.uwlax.edu/hr/recruit/Faculty_Recruitment/Faculty.Recruitment.Hiring.Guidelin](http://www.uwlax.edu/hr/recruit/Faculty_Recruitment/Faculty.Recruitment.Hiring.Guidelin)
es.pdf. Additionally, UW-L's spousal/partner hiring policy can be found at http://www.uwlax.edu/hr/unclasspp.html#spouse.partner.employment.

B. Instructional Academic Staff
Hiring policy and procedures are found at http://www.uwlax.edu/hr/fac.recruit.html.

C. Contingency Workforce (Pool Search)
Hiring policy and procedures are found at http://www.uwlax.edu/hr/instr.acst.POOL.search.htm

D. Academic Staff (if applicable)
Hiring policy and procedures are found at http://www.uwlax.edu/hr/acst.recruit.html.*

X. Student Rights and Obligations
A. Complaint, Grievance, and Appeal Procedures (Appendix A)

1. Grade Appeals
Students who believe that the grade they received for a course does not reflect their performance in that course may appeal the disputed grade. This appeal must take place before the end of the term immediately following the term in which the grade was recorded. If the disputed grade involves a course that is not part of the department, students should contact the department chair.

2. Academic Non-Grade Appeals
Students may initiate and resolve complaints regarding faculty or IAS behavior. Such complaints shall be lodged either orally or in writing with the program director, department chair, or Dean of the college within 90 days of the last occurrence. The hearing procedures for these non-grade concerns are detailed in UW-L’s Eagle Eye.

3. Program Policy Appeals
Where individual programs in the department have policies governing the status of students within the program, such policies should describe a process to appeal program decisions. When a student chooses to appeal a program decision, the chair of the department is to be informed of the appeal.

B. Expectations, Responsibilities, and Academic Misconduct
Academic and nonacademic misconduct policy referenced:
http://www.uwlax.edu/StudentLife/uws14.html;
http://www.uwlax.edu/StudentLife/uws17.html.*

Students who enroll in courses offered by the department are expected to attend and participate in these classes. The department expects that students will devote sufficient non-class time to complete all class assignments in a timely manner and to undertake additional study of the material as necessary to demonstrate satisfactory mastery of the material as required by departmental programs.

As departmental programs are professional programs in the clinical arena, students are responsible for demonstrating a high level of knowledge, skills, and professional attributes in their program. These programmatic student performance expectations may exceed and be in addition to general UW-L standards of academic and non-academic conduct described in the UW-L catalogue and the Eagle Eye. Student performance attributes in some of these areas are quite objective and can directly be reflected in course grades. Other performance attributes are less objective and are not as easily reflected in course grades. Thus, academic grades alone may not be sufficient to warrant promotion.
within or graduation from department programs, and factors other than grades may be considered as grounds for probation or dismissal from department programs. The standards for these performance attributes and professional conduct are defined by the individual program policies and are routinely provided to the students in departmental programs. The department expects students to demonstrate competency in knowledge, skills, and professional behaviors and reserves the right to dismiss students who fail to attain sufficiently high levels of competency in any of these categories.

C. Advising Policy

1. Advisement of Students in Professional Programs
Each student enrolled in a professional program offered by the department will be assigned a faculty or IAS member as their advisor in the program. Students are required to meet with their faculty or IAS advisor at least once each semester to discuss their academic progress, career interests, and course schedules.

2. Evaluation of Students in Professional Programs
Programs will review the academic performance, clinical performance, and professional behaviors of each student enrolled in the professional program on a regular basis in a manner deemed appropriate by the program.

Faculty and IAS advisors will be responsible for bringing notes or comments concerning student performances in their classes to student review meetings. Program directors will be responsible for disseminating the results of these evaluations in a manner deemed appropriate by the program.

3. Advisement of Pre-Professional Students
Pre-professional students are required to declare a major in addition to their pre-professional major. These students are typically assigned (and advised by) an advisor within their primary major who receives their SNAP reports. Program directors may also request duplicate SNAP reports for students declaring a pre-professional major and then offer supplemental advising opportunities for these students. In addition, students with undeclared majors who have a pre-professional major may be assigned a department advisor in the relevant program.

F. Supplement information for annual merit review
Appendix A

Department of Health Professions
Procedure for Hearing Grade Appeals

Relevant Bylaws:

1.2.1 Grade Appeals

Students who believe that the grade they received for a course does not reflect their performance in that course may appeal the disputed grade. This appeal must take place before the end of the term immediately following the term in which the grade was recorded. The student should first discuss this difference with the instructor. If a student-instructor meeting is not possible or if such a meeting does not result in a resolution of the disputed grade, the student should contact the program director. If the disputed grade involves a course that is not part of a department professional program, students should contact the department chair. After meeting with the student, the program director will discuss the student concern with the instructor, if possible. Following these meetings, the program director will make a recommendation to the instructor regarding the potential grade change.

If the contact with the program director does not result in resolution, the student should contact the department chair. After meeting with the student, the department chair will discuss the student concern with the instructor, if possible. Following these meetings, the chair will make a recommendation to the instructor regarding the potential grade change.

After the chair’s recommendation and the instructor's response, a student may file a written appeal for a grade change with the department chair. Upon receipt of the written request, the chair will form a five-member ad hoc committee consisting of three department members (not including the chair), the involved program director or the instructor, and one faculty or IAS member from outside the program to review the appeal. This committee may request additional information from the student and the instructor before forming and forwarding its recommendation to the instructor. The decision to change a grade remains the prerogative of the instructor unless the instructor is no longer available, in which case the decision to change a grade becomes that of the department chair in consultation with the appropriate program director.

When the student questions or disputes a final grade, it is expected that the student and course instructor will informally meet to discuss the situation. The student should come to the meeting prepared to explain why he/she believes the grade does not reflect his/her work and the instructor will explain the reasons for the grade given. The outcome of this informal meeting could be:

- Instructor recognizes an error or accepts student’s and changes the grade
- Student acknowledges instructor’s rationale for grade and accepts the grade
- Instructor does not change the grade; student does not accept the decision and begins a formal grade appeal.
Appeal Process:

The Department of Health Professions appeal process has four steps: Instructor, program director, department chair, department. The process will be detailed for each step:

**Instructor**

The request to appeal the grade will be put in writing and addressed to the individual course instructor. The appeal will contain the reason for the grade appeal and supporting materials. Acceptable reasons for appeal are limited to the following:

- Instructor used different grading standards for student work than for other students in the class
- Grading for student was biased, arbitrary, or capricious.

The instructor will acknowledge the appeal was received via e-mail within 1 working day of receipt of the appeal. The instructor will contact the student within 5 working days of receipt of the appeal and schedule a formal meeting with the student. This meeting will be attended by the course instructor, another faculty member or program director, the student, and anyone else the student wishes to bring (if desired). If the course instructor is the program director, another faculty member or department chair will be asked to attend the meeting. The meeting will be recorded by notes and audiotape.

The possible outcomes of this appeal hearing are:

- Instructor accepts student’s and changes the grade
- Student acknowledges instructor’s rationale for grade and accepts the grade
- Instructor does not change the grade; student does not accept the decision and decides to appeal to the next level.

The outcomes of the appeal will be documented by the course instructor with a copy send to the student and placed in his/her file.

**Program Director** (optional step: may be skipped if the program director has been involved in the initial appeal hearing with the individual faculty member).

The request to appeal the grade will be put in writing and addressed to the program director. The appeal will contain the reason for the grade appeal and supporting materials. Acceptable reasons for appeal are limited to the following:

- Instructor used different grading standards for student work than for other students in the class
- Grading for student was biased, arbitrary, or capricious.

The program director will acknowledge the appeal was received via e-mail within 1 working day of receipt of the appeal. The program director will contact the student
within 5 working days of receipt of the appeal and schedule a formal meeting with the student. This meeting will be attended by the program director, the student, and anyone else the student wishes to bring (if desired). The meeting will be recorded by notes and audiotape. The program director may seek additional information from the course instructor and/or student before rendering a judgment.

The possible outcomes of this appeal hearing are:
- Support for the instructor and a recommendation that the grade should stand as given.
- Recommendation to instructor to change the grade
- Student accepts the grade and ends the appeal process.
- Student does not accept the grading decision and decides to appeal to the next level.

The outcomes of the appeal will be documented by the program director with a copy sent to the student and placed in his/her file.

**Department Chair**
The request to appeal the grade will be put in writing and addressed to the department chair. The appeal will contain the reason for the grade appeal and supporting materials. Acceptable reasons for appeal are limited to the following:
- Instructor used different grading standards for student work than for other students in the class
- Grading for student was biased, arbitrary, or capricious.
- Program director recommended a grade change to the instructor; instructor did not change the grade.

The department chair will acknowledge the appeal was received via e-mail within 1 working day of receipt of the appeal. The program director will contact the student within 5 working days of receipt of the appeal and schedule a formal meeting with the student. This meeting will be attended by the department chair, the student, and anyone else the student wishes to bring (if desired). The meeting will be recorded by notes and audiotape. The department chair may also formally seek additional information from the course instructor and/or student before rendering a judgment.

The possible outcomes of this appeal hearing are:
- Support for the instructor and a recommendation that the grade should stand as given.
- Recommendation to instructor to change the grade
- Student accepts the grade and ends appeal process.
- Student does not accept the grading decision and decides to appeal to the next level.
The outcomes of the appeal will be documented by the department chair with a copy sent to the student and placed in his/her file.

Health Professions Department Level

If the student wished to pursue an appeal, the request for a formal appeal at the Health Professions Department Level must be filed in writing with the department chair. The appeal will contain the reason for the grade appeal and supporting materials. Acceptable reasons for appeal are limited to the following:

- Instructor used different grading standards for student work than for other students in the class
- Grading for student was biased, arbitrary, or capricious.
- Department chair recommended a grade change to the instructor; instructor did not change the grade.

The department chair will acknowledge receipt of the written appeal within 1 working day. The department chair will appoint the five-member ad hoc committee to hear the appeal as indicated in the bylaws:

- Three faculty/staff of the program (whenever possible)
- The instructor
- One faculty/staff from outside of the program

The department chair will appoint one of the committee members (other than the course instructor) to chair the committee. The department chair shall not be a member of this committee but will attend the committee meeting as observer and witness. This appeals committee will meet within 1 week of receipt of the written grade appeal. The committee members will be given copies of the documentation of the previous 3 levels of appeal prior to the appeal hearing.

The appeals hearing will be conducted as follows:

- Student will be given 15 minutes to describe the basis for the appeal and provide supporting documentation to the committee.
- Involved teacher will be given 15 minutes to describe the rationale for the grade and reason for not changing the grade.
- Department chair will be asked to describe involvement in the situation and outcome of actions.
- Student will be excused and committee will deliberate actions.
- The committee may ask for additional information from any of the parties involved. The committee will specify the time frame for supplying the materials. The request for additional materials will be put in writing.
- If additional materials are requested, the committee meeting will be adjourned. The committee will reconvene within one week after deadline for receipt of the requested materials.
- The possible decisions the committee can make are:
1. Support the appeal and make a recommendation to the course instructor to change the grade.
2. Deny the appeal and support the grade as given.

The appeals committee chair will communicate the outcome of the appeal hearing in writing to the student, course instructor, and department chair within 5 days of the final committee hearing. A copy of the student written appeal and the response of the committee will be given to the student and placed in the student’s permanent record. Adopted 12/05
Appendix B

Department of Health Professions

Classification of Teaching, Service and Scholarship

The Department of Health Professions will utilize these definitions when clarifying roles and responsibilities for faculty and instructional academic staff and when making decisions regarding, merit, career progression, retention, tenure and promotion. Teaching, Service and Scholarship are dependent upon the support of the College and University.

TEACHING: The ranked faculty member or IAS is an effective educator [examples include]:

- Ensures course content reflects contemporary knowledge/practice/skill
- Concern for the student’s total learning experience.
- Openness to constructive criticism and a willingness to improve teaching as a result of the peer and student evaluation process.
- Accessible to students regarding learning support, professional advice and counsel.
- Effective organization of coursework.
- Quality of student work and outcomes of learning.
- Serves as a positive role model for students both academically and professionally.
- Holds high academic standards

SERVICE: The ranked faculty member or IAS is expected to serve the program, the department, the university and their profession in a collegial fashion. Examples:

- Serving on program, department and university committees.
- Providing professional development continuing education programming.
- Serving in leadership roles.
- Actively participating in the daily business of the program, department and/or university.
- Serving professional organizations.
- Providing professional services to the community.
SCHOLARSHIP:

The ranked faculty member or IAS will have ongoing scholarly activity accomplishments evaluated based on evidence of potential for continued achievement of scholarly work. Common elements of scholarly work require work to be peer reviewed and is disseminated through publication.

Please see the attached table for details.

- Scholarship that is in the planning stages is more valued than scholarship that has not been planned out.
- Scholarship that is being conducted is more valued than scholarship that is being planned.
- Scholarship that has been recently accomplished is more valued than scholarship that is being conducted.
- Scholarship that has been funded is more valued than scholarship that has only been submitted for funding.
- Scholarship that has been funded by agencies external to UW-L is more valued than internally funded projects.
- Scholarship that has been accepted for publication is more valued than scholarship that has been submitted for publication.
- Scholarship that has been presented at a national or international conference is more valued than scholarship that has been presented at a regional conference.
- Scholarship that has been published with peer review is more valued than scholarship that has been published without review.
- Scholarship produced as a team leader is more valued than scholarship produced as a member of the team.
<table>

APPENDIX C

Department of Health Professions
Policy on Outside Activities

An outside activity is anything in which a faculty or instructional academic staff (IAS) member engages that is not part of their required university responsibilities. It is further defined in the University of Wisconsin System “Guidelines for Reporting Outside Activities” which can be found at www.uwlax.edu/hr/Forms/OutsideActivities.pdf. The department recognizes that it can be mutually beneficial for our students, faculty, and instructional academic staff alike if classroom instructors maintain and enhance their skills through clinical practice, research, consulting, publications, and other outside activities.

In February 2003, the UW-L Faculty Senate passed a resolution on outside activities that may be accessed at http://www.uwlax.edu/hr/outside.activity/OutsideActivities.pdf. Faculty and IAS members have a professional responsibility to be aware of potential conflicts of interest or interference with meeting their University obligations that may result from their involvement in outside activities. As a guideline for the purposes of these bylaws, outside activities that require use of more than 8 hours of University time per week may be considered excessive and likely to negatively impact on the individual’s obligations to the University and department.

If a department member feels negatively impacted by the outside activities of another member, multiple routes exist to address these concerns. Such concerns may be raised with the department member involved in outside activities, the appropriate program director, or the chair of the department. Alternative choices could include the UW-L Ethics Advisory Committee, the dean, or chancellor. The aggrieved department member is encouraged to pursue resolution of the concern at the lowest levels and to attempt to resolve the issue within the department; however, whistle blowing is a legitimate mechanism for resolving ethical dilemmas and can be used if there is fear of retribution.

UWS 8.025 contains the annual reporting requirement for outside activities. The process for reporting is initiated by the UW-L Human Resources Department in early spring of each year. Completed forms are to be turned in to the department chair on or before April 30th. The chair then forwards these to the Dean of CSAH. The reporting form requires signatures of the Chair/Director and Dean/Designee, and may be accessed at www.uwlax.edu/hr/Forms/OutsideActivities.pdf.

Faculty and IAS who are engaged in outside activities that may produce a perceived or actual conflict of interest should familiarize themselves with the requirements of Chapter 8, in particular those sections defining conflicts of interest, the role of the Ethics Advisory Committee (8.035), actions to avoid possible conflicts of interest (8.04), and the potential sanctions for violating the policy (8.05).

All outside activities that involve teaching at another institution require prior approval of the Chancellor. Ultimately, the Chancellor has the final authority to determine whether an outside activity is creating a conflict of interest.
