ASHLEY RISSE'S PRECEPTORSHIP

Prevention Team Preceptee

The health department is hard at work...

- We are alerted by the state of any positive cases within our county.
- Our staff begins the contact tracing process, that means we figure out when and where that person has been lately, and who else may be impacted.
- The individual diagnosed will be extensively interviewed to determine all of their potential contacts.
- All of those potential contacts are notified of their exposure and given recommendations on how they should move forward.

53% of Ozaukee County residents face food insecurity but do not qualify for FoodShare.

1 in 5 Wisconsin high schoolers use e-cigarettes.

Ozaukee County residents report experiencing 3 or more mental health days in the past 30 days.

The binge drinking rate in Washington County is 22-26%.
