

DIVISION OF LABORATORY SYSTEMS-CENTER OF DISEASE CONTROL AND PREVENTION

Training and Workforce Development

Planning

Developed training materials and delivered curriculum framework with subject matter experts and other key stakeholders for the laboratory education e-learning courses CLIA 101, Risk Management.

Implementation

- Served as a project manager for the Provider Performed Microscopy Procedures course,
- Presented kickoff presentation with subject matter experts
- Completed training goal and objectives
- Completed course outline and organized materials

Evaluation

- Adapted logic model to guide the evaluation process
- Conducted qualitative and quantitative data collection and analysis using data software for evaluation to update current and past curriculums.
- Communicated data findings to priority populations using plain language.

COVID-19

Convened a weekly call with clinical laboratories to discuss the nation's clinical laboratory response to coronavirus disease (COVID-19). Hosted these calls to discuss hot topics and to solicit the laboratory community's questions about the national response to the COVID-19 pandemic.
