

HUNGER TASK FORCE

FREE & LOCAL

Hunger Task Force believes that every person has a right to adequate food obtained with dignity. We work to prevent hunger and malnutrition by providing food to people in need today and by promoting social policies to achieve a hunger free community tomorrow.

My projects:

➤ Map Making

Through out my preceptorship I was asked to create maps showing levels of poverty throughout the state or in a specific county

➤ Data Entry

Spent a lot of time in excel uploading/editing/creating spreadsheets.

➤ Advocacy Toolkit

This was a essentially a booklet that explained advocacy. This was completely under my direction but sadly wasn't completed due to COVID-19.

➤ HRF Summit Planning

Planning a annual summit for food pantry all around that state required meetings, conferences calls, emailing and a lot of other work as well.

➤ Summer Meals Report

This is an annual report that HTF shares with the Department of Human Services that dives deep into the summer meals program in Wisconsin.

➤ School Breakfast Report

This is an annual report that HTF shares with the Department of Human Services that dives deep into the school breakfast program in Wisconsin.

Other Activities:

➤ Pantry Visits

I got to go to a couple pantries and help give people food. A lot of pantries are set up like grocery stores so helping people choose was a lot of fun.

➤ Food Distributions

There are different kinds of food distributions. Some are for seniors, and some are food anyone. It was awesome to get to interact with such a diverse group of people

➤ The Farm

The Farm is where HTF gets all of their fresh produce from. They also hold nutrition education class' for some MPS schools. Sadly, I didn't get to spend much time due to weather and COVID-19.

➤ Meetings/Conference calls

I had weekly meetings with the advocacy team. Monthly meetings with the whole organization. Meeting for the summit planning, meetings for HRF, and whatever other meetings popped up.
