Human Rights Policing is an approach to law enforcement that focuses on rights and responsibilities that belong to us as humans, regardless of race, ethnicity, citizenship or socioeconomic status. This valuable training is for law enforcement agencies of all sizes and demographics, and across roles and responsibilities. Policing through the lens of human rights can support law enforcement agents and the communities they protect and serve.

“The content is outstanding in this course! It’s a program that people new to the field should be taking. There is a lot of opportunity for the student to learn new information and take in new content. It reinforces the idea it’s not “us vs. them.” Law enforcement is here to serve the community.”

Your personal experience and reflection on your work in law enforcement shape your learning in this course. You will respond not only to course materials in the online environment, but to the stories of your classmates. Community engagement activities will provide you with insight on how those outside of law enforcement understand human rights and community expectations of how human rights should apply to policing. Assignments are designed to broaden perspectives and help you develop ways to apply human rights to your daily work.

Peter Marina Ph.D.

Associate Professor, Sociology & Criminology
Peter received a Ph.D. in Sociology at the New School for Social Research in New York City. He is an Associate Professor of Sociology & Criminal Justice at the University of Wisconsin–La Crosse.
