Research, Service, and Educational Leadership (RSEL) Grant
PROCEDURES AND GUIDELINES

GENERAL GRANT INFORMATION

Funding from the UWL Academic Initiative and Graduate & Extended Learning provides support for graduate student Research, Service, and Educational Leadership (RSEL) projects. There are two types of RSEL grants (full and mini). Applications for RSEL Full Grants are accepted and reviewed by the Graduate Council two times per year. RSEL Mini Grant applications are accepted and reviewed monthly. Single or multidisciplinary proposals from projects with individual or multiple student investigators working collaboratively are accepted. Full and part-time on-campus students, enrolled in a graduate program at UWL and in good academic standing are eligible to apply.

Grant Components Defined

Research
For the purposes of this grant program, the Graduate Council defines the term “research” as any original, investigative, or other type of scholarly activity. The proposed work may include a variety of original and creative efforts directed toward the advancement of knowledge and understanding within any academic discipline. The Council recognizes that methods of inquiry vary among disciplines. Methodologies used in the basic and applied sciences, for example, will likely differ from those in education. Nonetheless, all proposed projects must meet the following criteria: (1) demonstrate a degree of originality and independence on the part of the student/s; (2) have clearly stated research goals; (3) follow a realistic methodology that appropriately addresses the goals; (4) adhere to a clear and reasonable timeline; and (5) produce results or products that have potential for publication, presentation, and/or dissemination through other acceptable means of professional communication or expression.

Service
For the purposes of this grant program, the Graduate Council defines the term “service” as any original project that directly serves the local, regional, national, or international community through the application of a student’s professional knowledge and expertise to a real-world problem or issue. The intent of this part of the grant program is to recognize that some graduate students may undertake major projects that directly benefit governmental and/or non-governmental organizations, but are not “research” as defined above. The rigor of service projects should be comparable to that of research projects and must meet the same standards in that they (1) demonstrate a degree of originality and independence on the part of the student/s; (2) have clearly stated goals; (3) follow a realistic methodology that appropriately addresses the goals; (4) adhere to a clear and reasonable timeline; and (5) produce results or products that not only benefit a service agency, but also have potential for publication, presentation, and/or dissemination through other acceptable means of professional communication or expression.

Educational Leadership
For the purposes of this grant program, the Graduate Council defines “educational leadership” as any activity that enhances or improves the practice within one’s academic discipline. The intent of this part
of the grant program is to recognize that some graduate students may seek an experience that directly improves their practice within their given field or expands current practice (e.g. action research, district initiative, advanced certification), but that are not part of any research project and are not service related. These projects may be designed to enhance licensed school personnel development in educational leadership within a particular district and/or school. Like the research and service projects, educational leadership projects must meet certain criteria as follows: (1) demonstrate a degree of originality in that the activity is not normally attended by the student; (2) have clearly stated goals; (3) follow a realistic methodology and/or action plan that appropriately addresses the goals; (4) adhere to a clear and reasonable timeline; and (5) produce results or products that directly benefit one’s educational practice and also have potential for publication, presentation, and/or dissemination through other acceptable means of professional communication or expression.

Educational leadership opportunities must fall into the category of Diversity, International, or Professional Development as defined below.

**Diversity.** The intent of this part of the grant program is to recognize that some graduate students may benefit from an experience in a more diverse environment than the one in which they are currently studying/working. This experience should directly relate to the degree program of study currently being sought through UWL.

**International.** The intent of this part of the grant program is to recognize that some graduate students may benefit from an international experience. This experience should directly relate to the degree program of study currently being sought through UWL.

**Professional development.** The intent of this part of the grant program is to recognize that graduate students may benefit from attending a workshop, training program, or other relevant professional activity. In order to receive funding, students must clearly show that participation in the activity is directly related to and supportive of culminating/capstone project(s). Within a RSEL grant proposal, expenses for travel related to professional development (e.g., transportation, meals, and lodging) should be limited to $600.

**RSEL Dates and Deadlines**

<table>
<thead>
<tr>
<th></th>
<th>Application Deadline</th>
<th>Notification of Awards</th>

<tbody>
<tr>
<td><strong>Full Grant</strong></td>
<td>Two annual deadlines. Early October (fall)/early February (spring). Actual dates for current academic year can be found on the Graduate Education website.</td>
<td>By mid-December (fall)/mid-April (spring).</td>
<td>By mid-January (fall)/mid-May (spring)</td>
<td>Two weeks prior to graduation/within 30 days of project completion</td>
</tr>
<tr>
<td><strong>Mini Grant</strong></td>
<td>Ongoing acceptance of applications, reviewed on a monthly basis</td>
<td>Within one month of submission.</td>
<td>Within 2 months of submission</td>
<td>Two weeks prior to graduation/within 30 days of project completion</td>
</tr>
</tbody>
</table>

**Restrictions**
• Full and part-time on-campus students, enrolled in a graduate program at UWL and in good academic standing are eligible.

• Special non-degree graduate students are not eligible for these funds.

• Students must be registered for a minimum of one graduate credit during the term (summer or semester) following the semester of the grant award.

• Students and may receive one Full Grant and one Mini Grant (individually or as a collaborator on a project with multiple investigators) per graduate degree (see Funding Limits for more information).

• If a proposal is not funded during one funding cycle, it may be resubmitted for a subsequent funding cycle.

• RSEL funding cannot be used to fund any work completed prior to awarding of funds.

• Failure on the part of applicants to precisely follow all procedures and guidelines as described in this document will result in automatic disqualification.

Compliance with Regulations

Applicants must be aware of the regulations to which the University must comply. Among the most important to consider are compliance with regulations for responsible conduct of research, protection of human subjects, animal care, and use of hazardous biological and chemical materials. For more information, please visit the Responsible Conduct of Research (RECR) Requirement section on the Graduate Studies website.

UWL has chosen the CITI Program as an ethical training tool. Completion of this program is a requirement of grant funding. A link to the CITI program as well as additional information is available on the Graduate Education website.

*Please note: Each student submitting a RSEL grant application must also submit a “CITI Completion Certificate” (as opposed to a CITI Report).

Funding Limits

A maximum of $2,500 (subject to budgetary restraints) in total RSEL funding may be awarded to a student during his/her status as a graduate student at UWL. Students who have received a full grant may still receive a mini grant, although the total of the two grants must not exceed $2,500. Funds will be made available following award notification, RSEL project related activities may begin only after award notification (assuming compliance with regulations).

Eligible Expenses

1. Actual costs for conducting the project (equipment, consumables, etc.).
   a. If funds are requested for participant incentives, you must adhere to university policies
for this specific type of expense. More information is available at UWL Payment of Incentives to Research Participants.

2. Travel to conduct research. Within any RSEL grant proposal, expenses for travel field sites, training facilities, etc. (e.g., transportation, meals, and lodging) should be limited to $600.

a. If funds are requested for overseas travel, the applicant should provide evidence of consultation with the Office of International Education regarding insurance and other requirements.

b. Graduate Student Professional Travel Grants are available to students interested in attending and/or presenting research at a professional conference. Please visit the Graduate Education website for more details.

APPLICATION PROCEDURES

Proposals are evaluated for potential, significance, suitability, and merit. There is no guarantee of funding. Applications that are missing parts or are poorly written are not likely to be funded. Proposals must consist of the following sections. Completed application items for the Full Grant and the Mini Grant are submitted via Canvas course. Submission link for both grants is available on the Graduate Education website.

RSEL FULL GRANT (award maximum $2500)
Applications solicited twice per academic year and must include:
• RSEL Full-Grant Application Cover Sheet
• Project Budget and Justification Summary Sheet
• Narrative and References & Appendices
• Letter of Support
• Responsible Conduct of Research (CITI Completion Certificate)

RSEL MINI GRANT (award maximum $500)
Applications can be submitted at any time and must include:
• RSEL Mini-Grant Application Cover Sheet
• Project Budget and Justification Summary Sheet
• Narrative and References & Appendices
• Statement of Assurance from faculty mentor
• Responsible Conduct of Research (CITI Completion Certificate)

1. APPLICATION COVER SHEET - required for FULL and MINI GRANT
   with multiple pages must be submitted as a single PDF

   a. Title of Research, Service, or Educational Leadership Project (self-explanatory)

   b. Applicant Information - If the proposal has multiple applicants, supply complete information for each applicant on a separate sheet.

   c. Graduate Faculty Advisor Information - (self-explanatory)

   d. Synopsis of Proposed Project - Be clear, concise, and specific. Avoid jargon and undefined abbreviations. Do not exceed the space provided (10-point minimum font size) and do not submit additional information.

   e. Grant Period - Expected project start and completion dates. Please note: awarded funds requested for current fiscal year, generally become available within 4 weeks of the date on the award letter.
f. **Amount Requested** - Enter the total amount of funding requested on Budget Summary sheet (not to exceed $2,500 for Full Grant and $500 for Mini Grant). This must match your budget page.

g. **Compliance with Regulations** – Failure to complete this section serves as an automatic decrease in possible funding. In addition to completing this section, please note that Responsible Conduct of Research (RECR) training is required of all RSEL grant proposals. This can be completed at [www.uwlax.edu/grants/responsible-conduct-of-research-rcr/](http://www.uwlax.edu/grants/responsible-conduct-of-research-rcr/). A copy of your CITI completion certificate *(not a CITI Report)* should be included as the final page of your RSEL proposal.

h. **Signatures** – Applicants must obtain signatures of Graduate Faculty Advisor and appropriate Department Chair/Program Director (electronic signatures are acceptable).

2. **PROJECT BUDGET & JUSTIFICATION SUMMARY SHEET** - required for FULL and MINI GRANT *(for this section, documents with multiple pages must be submitted as a single PDF)*.

   a. The maximum request is $2,500 for a Full Grant and $500 for a Mini Grant.

   b. The funds requested can be used for supplies, travel to conduct research, and other expenses required for completing the project. **Funds cannot be used for student stipends, travel to present results of research, or publishing costs.**

      i. **Graduate Student Professional Travel Grants** are available to students interested in attending and/or presenting research at a professional conference. Please visit the [Graduate Education website](http://www.uwlax.edu/graduate-education) for more details.

   c. An itemized budget request must be included on the Project Budget & Justification Summary sheet. It is very important that applicants carefully assess needs and request funds accordingly. Applicants must relate budget items with materials or expenses discussed in the proposal narrative (e.g., if travel funds are requested, the narrative should explain why the travel is necessary for completion of project). Any non-consumable supplies (i.e., software, books, etc.) become property of the academic department upon completion of project. **Be sure to address how any decrease in funding will influence your ability to complete the project.**

      i. Full Grant Proposals fiscal year disbursement requests – Full Grant recipients have the option to divide the proposed budget into two fiscal years. The fiscal year runs from June-June. On the budget sheet AND in the budget narrative, students must stipulate how much (if any) of the grant will be spent before mid-June and how much (if any) will be spent after July 1. Please be aware that each June, grant funds are swept from departmental budgets. As a result, grant funds awarded but not spent during the corresponding fiscal year will be lost.

   d. Applicants should not include broad categories such as “miscellaneous” or “other” without proper description and justification. These categories will not be considered for funding and may influence the evaluation of the overall proposal. Budget entries should be rounded to the nearest dollar. The Graduate Council reserves the right to adjust budgets.
3. **LETTER OF SUPPORT - required for FULL GRANT.** The signed letter of support may be uploaded and submitted by the student along with the completed grant proposal (multiple pages must be submitted as a single PDF). Alternatively, the faculty advisor may email the Letter of Support directly to Graduate Studies (gradstudies@uw lax.edu).

   a. **Graduate Faculty Advisor letter** (not to exceed 2 pages). The applicant should request a detailed letter of support from their Graduate Faculty Advisor. This letter is included as part of the proposal file given to the Graduate Council and is critical for the Graduate Council Review Committee (who are not necessarily experts in the field of study) in reviewing the proposal. The letter should convey any pertinent, critical information and speak directly to the study. "Boiler plate" letters of support are not sufficient and may result in a reduction or denial of funding. The letter should include the following:

   i. Evaluation of abilities of the student investigator to succeed in the project.

   ii. Clear explanation of how student will act as an independent investigator including a description of the role of student in conducting all phases of project.

   iii. Description of facilities and equipment available to the student. When equipment purchases are requested, the statement should address why the department is unable to provide the equipment.

   iv. Justification of the proposed budget and/or where additional funds beyond those requested would be available.

   v. Statement of how the advisor intends to serve in the role of mentor.

   vi. Estimate of the time required by the student to complete the proposed work.

   vii. Possible scholarly products anticipated as a result of the project.

   b. **Curricular materials requests.** If requesting curricular materials to complete and implement action research in a classroom, a detailed letter from the school district, in support of this request must be included in proposal. The letter should include the following:

   i. Permission for the graduate student to utilize the curricular materials in the classroom as part of action research.

   ii. If desired, the school district could agree to financially support at least 50% of the amount of materials requested by the graduate student. If the school district pays for at least 50% of the materials they will be allowed to keep all materials. If the school district does not contribute monetarily for at least 50% of materials, all materials must be returned to the university.

   c. **Substitute teacher pay requests.** If requesting substitute teacher pay, a detailed letter of support from the school district principal is required. The letter must be included as part of the proposal. The letter should include the following:

   i. Permission for graduate student to be absent from the school district for the proposed rationale of the grant request.
ii. Recognition that the school district would pay for substitute teacher and then be reimbursed for amount agreed upon by grant upon submission of official paperwork.

4. **STATEMENT OF ASSURANCE** - required for MINI GRANT. *(for this section, documents with multiple pages must be submitted as a single PDF).* This form provides confirmation that the faculty advisor has reviewed the grant application and supports the project.

5. **NARRATIVE & REFERENCES AND APPENDICES** - required for FULL and MINI GRANT *(for this section, documents with multiple pages must be submitted as a single PDF)*

   a. **Narrative**

      The Graduate Council Review Committee and the Dean of Graduate and Extended Learning must make comparisons and judgments across academic disciplines and methodologies. Proposal narratives should be directed toward a general audience and avoid excessive use of jargon. All applicants MUST follow general narrative outline provided below:

      - **FULL GRANT** - not to exceed five, single-sided, double-spaced pages, 10-pt font.
      - **MINI GRANT** - not to exceed two, single-sided, double-spaced pages, 10-pt font.

         i. **Statement of the Problem/Significance of the Project** - Be succinct; clearly support statement with documentation and references and include a current review of the relevant literature.

         ii. **Objectives** - Discuss specific outcomes and products of the project. If the anticipated outcomes are quantifiable, explain how they will be measured.

         iii. **Project Methods (Research, Service, or Educational Leadership specific)** - Design a project plan consistent with your academic discipline. This may include scientific research in the physical or biological sciences, use of population samples, experimental and control groups, action research, or other methods of data gathering and statistical analysis. The project plan may include archival research, translations, ethnographic fieldwork, solitary thinking, or other forms of analysis and synthesis of ideas and concepts appropriate to your disciplines. A reference page with supporting sources regarding methodology or plan of action is required.

             a. **Research proposals**: The measures/instruments used to conduct the study must be included in the methods section.

             b. **Service proposals**: The methods section should include: (1) population to be served, (2) specific action steps to be taken during project, and (3) explanation of benefits for the people and/or agency being served.

             c. **Educational leadership proposals**: Detailed description of an action plan and how that plan will be incorporated in a manner consistent with the **Statement of the Problem/Significance of the Project** as outlined earlier.

         iv. **Detailed Budget Explanation** - Provide a detailed explanation of each budget item and explain succinctly why it is necessary for completion of project. Failure to provide a clear rationale for each requested item may result in reduced funding. If additional funds are required, please provide evidence of
where these funds will be obtained.

v. **Final Products and Dissemination** – Describe possible forms of the final product (e.g., publishable manuscript, conference paper, invention, software, exhibit, performance, etc.). Be specific about the methods used to disseminate results to a wide audience (e.g., state the target journal for publication of a manuscript, the conference for presentation of the results, or the site for a performance or exhibition).

a. **UWL Research and Creativity Symposium presentation requirement** - All Research grant recipients are required to present project outcomes at a Research and Creativity Symposium (held each spring semester). Service and Educational Leadership grant recipients are encouraged to present at a Symposium as well, but if the nature of the project makes this approach unreasonable, another form of dissemination with the campus community can be proposed, e.g., a public lecture or a class presentation.

b. All proposals should include a statement acknowledging the importance of dissemination of information to the campus community, as well as a proposed year of Symposium participation.

i. Mid-year graduates may either present “work in progress” during the Symposium event prior to graduation, or return to campus for the Symposium event following their graduation. It is also acceptable for another student or a faculty advisor to substitute and showcase the project. If none of these options are feasible, the student must contact the Dean of Graduate and Extended Learning concerning a possible exception.

ii. While participation in a Symposium is strongly encouraged, the Symposium presentation model may not be realistic for some project types. In these situations, the grant proposal should include details suggesting how the project will be shared with the campus community and a plan for how/when this will be completed.

b. **References and Appendices**

   i. References should be included following the Narrative (on a separate page)

   ii. Appendices should only be included, if absolutely necessary (i.e., essential information/diagrams), on a separate page following the References.

6. **RESPONSIBLE CONDUCT OF RESEARCH (RCR)** - required for FULL and MINI GRANT (for this section, documents with multiple pages must be submitted as a single PDF) – attach CITI Completion Certificate.

**SUBMISSION OF COMPLETED APPLICATION**

Completed RSEL applications must be submitted to Graduate & Extended Learning via Canvas course. Submission link for both grants is available on the [Graduate Education website](#). Applicants
for each grant type (Full or Mini) will upload each of the five required items (detailed above) as separate PDFs. All application materials should be submitted via this system prior to the corresponding application deadline.

**COMPLETION REQUIREMENTS FOR PROPOSALS AWARDED FUNDING**

**Final Report**

Students awarded RSEL grant funds are required to submit a Final Report to Graduate & Extended Learning and to the Department Chair/Program Director listed in the proposal. Final Reports are a requirement for graduation for grant awardees. The report should be submitted upon exhaustion of funds awarded and/or project completion.

1. Reports will vary in content but should include the following items:
   a. Completed RSEL Final Report Cover Sheet
   b. Summary of grant expenditures and project progress to date
   c. Brief description of project. Description should be geared toward a non-academic audience. This description will be used to explain your work to an outside audience.
   d. Additional attachments - may be included (if applicable):
      i. Title of thesis, seminar paper, or other written culminating project.
      ii. Titles of presentations at professional conferences, exhibits, and/or performances.
      iii. Titles of manuscripts accepted and/or published in journals (include a reprint, if available).
      iv. Synopsis of conference/workshop attended and impact of attendance on goals of culminating/capstone project.
