

## Program Policies & Student Supervision Acknowledgement of Clinical Preceptors & Instructors

### Program Policies

Every year prior to acceptance of each cohort, the UW-L Medical Dosimetry Program posts the current program handbook (policies) on the program website under Policies and Procedures (left side menu bar). The handbook is also posted on the Current Students website under the Academic Resources tab. After the annual handbook is published to the website, any policies that are changed/implemented later are posted to the Preceptor and Current Student websites as stand-alone documents and then updated in the handbook the following year.

Program Website: <https://www.uwlax.edu/academics/grad/medical-dosimetry/>

Current Student Website: <https://www.uwlax.edu/academics/grad/medical-dosimetry/current-students/>

Clinical Preceptor Website: <https://www.uwlax.edu/academics/grad/medical-dosimetry/clinical-preceptors/>

### Student Supervision

The internship site clinical instructors acknowledge that a credentialed practitioner approves all medical dosimetry calculations and treatment plans prior to implementation.

The internship site clinical preceptors and instructors acknowledge that direct patient contact procedures (e.g. simulation, fabrication, and immobilization devices, etc.) are performed under the direct supervision of a credentialed practitioner.

### Acknowledgement

Please print and sign your name to acknowledge you are familiar with the website, program policies, and student supervision.
