Rewarding Careers in Healthcare

Congratulations on your decision to pursue a degree as an allied therapist!

Prime HealthCare Staffing values your career path decision as you approach your graduation date.

Prime HealthCare Staffing offers travel, and contract assignments throughout the United States. We have assignments in every state, in just about every setting, including; schools, hospitals, outpatient clinics, home health, and skilled nursing facilities. Prime HealthCare Staffing's allied health professionals are among the highest-paid healthcare professionals in the industry. We offer many incentives, rewards, and benefits including comprehensive medical, dental, vision, prescription drug and life insurance, 401(k) retirement plan, free continuing education with our exclusive Medbridge partnership, travel reimbursement, licensure reimbursement, mentorship, and much more.

What is "travel therapy?"

A "traveler," is paid hourly and paid by an agency, but has arrived from out of town for the duration of the assignment and usually qualifies for a tax-free per-diem to pay for the expenses associated with living out of town while maintaining a residence back home while on assignment. Most assignments are 13-26 weeks in length.

What are the advantages of "Travel" placements as a new grad?

13-26 week travel assignments give you a great variety of experiences to learn from. Once you find your favorite setting and location, you can settle down and take a permanent placement with confidence. Additionally, therapists who want to quickly pay back student loans may do so quickly by working in a "travel" job.

What are the chances I'll get the assignment I want?

Your chances are excellent, especially if your professional discipline is in high demand. Even if we don't have your specific position in the location of your choice, we'll contact facilities in that area, present your credentials and search for assignments. We're not happy until you are.

I've found a Prime HealthCare Staffing opportunity I'm interested in! Where do I start?

Contact: Elisabeth Lindsay at 866-991-0900x088 or email: elindsay@primehcs.com

My name is Elisabeth Lindsay and I have been with Prime HealthCare Staffing for 10 years, specializing in creating a positive experience with new graduate therapists across the country!
