

San Francisco Veterans Affairs Health Care System

This position involves the coordination of a program for some of our most complex veterans who are currently housed in our on-site skilled nursing facility. The veterans in this cohort have co-occurring mental illness, dementia and physical impairments.

The OT Coordinator will provide oversight of the program through multidisciplinary care planning and partnering with nursing colleagues. The Allen Cognitive Levels will inform the interventions, which will incorporate sensory modalities, life story boards, and role modeling and bedside training for nursing staff.

The perfect candidate for this position will have experience and interest in providing care to adults with mental illness, dementia, and physical impairments, and will have some supervisory or managerial experience. This position is an opportunity for a talented and passionate OT to provide meaningful care to our most vulnerable veterans! Is that you?
