**Student Name:**

At the beginning of the practicum experience, you worked with your supervisor to identify specific learning outcomes (guided by the ACPA/NASPA competencies), and specific tasks that would help them achieve those outcomes. It is possible, perhaps even likely, that these outcomes or tasks shifted over the course of the semester.

**Please comment on how (if at all) these changed since the beginning of the practicum.**

Based on your most current learning outcomes and tasks, please rank yourself on the following items:

# SAA Practicum Evaluation

The SAA M.S.Ed. program has these five goals for students in all of our programs:

1. **Critically-reflective scholar practitioners** – integrate theoretical frameworks, systems-thinking models, current scholarship in the field, and professional experiences
2. **Social justice and inclusion** – understand broader contexts of systemic inequities and advocate for socially just and inclusive student affairs practices
3. **Humility** - approach work with general and cultural humility
4. **Communication skills** – writing, speaking, listening...attentive to audience (e.g., reflective may be different than scholarly)
5. **ACPA/NASPA Professional Competencies** – achieve at least a beginner level of the ACPA/NASPA Professional Competencies.

Please describe 1-3 ways in which you demonstrated any of these goals in your practicum experience.

What are at least three things you are proud of learning or contributing? (*Think of things you might add to your ePortfolio, share during job interviews or performance reviews, etc.*). What is at least one thing you wish you had done differently?
