Radioisotope Hood	_____																																																																																																																																																																																																																																																																																																																																	
Horizontal Laminar Flow Hood	_____																																																																																																																																																																																																																																																																																																																																	
Biological Safety Cabinet	_____																																																																																																																																																																																																																																																																																																																																	
Snorkel	_____																																																																																																																																																																																																																																																																																																																																	
Canopy Hood	_____																																																																																																																																																																																																																																																																																																																																	
Low Slotted Exhaust	_____																																																																																																																																																																																																																																																																																																																																	
Equipment Exhaust	_____																																																																																																																																																																																																																																																																																																																																	
Other	_____																																																																																																																																																																																																																																																																																																																																	
LABORATORY EQUIPMENT																																																																																																																																																																																																																																																																																																																																		
Vibration Sensitive	_____																																																																																																																																																																																																																																																																																																																																	
Light Sensitive	_____																																																																																																																																																																																																																																																																																																																																	
Vibration Producing	_____																																																																																																																																																																																																																																																																																																																																	
Heat Producing	_____																																																																																																																																																																																																																																																																																																																																	
Noise Producing	_____																																																																																																																																																																																																																																																																																																																																	
PLUMBING																																																																																																																																																																																																																																																																																																																																		
Laboratory Gas (LG)	_____																																																																																																																																																																																																																																																																																																																																	
Laboratory Vacuum (LV)	_____																																																																																																																																																																																																																																																																																																																																	
Laboratory Air (LA)	_____																																																																																																																																																																																																																																																																																																																																	
Compressed Air, 100 psi (A)	_____																																																																																																																																																																																																																																																																																																																																	
Industrial Hot Water (IHW)	_____																																																																																																																																																																																																																																																																																																																																	
Industrial Cold Water (ICW)	_____																																																																																																																																																																																																																																																																																																																																	
Potable Hot Water (HW)	_____																																																																																																																																																																																																																																																																																																																																	
Potable Cold Water (CW)	_____																																																																																																																																																																																																																																																																																																																																	
Purified Water (PW)	_____																																																																																																																																																																																																																																																																																																																																	
Chilled Water (CHW S/R)	_____																																																																																																																																																																																																																																																																																																																																	
Steam	_____																																																																																																																																																																																																																																																																																																																																	
Condensate Return	_____																																																																																																																																																																																																																																																																																																																																	
Carbon Dioxide (CO ₂)	_____																																																																																																																																																																																																																																																																																																																																	
Nitrogen Gas (N ₂)	_____																																																																																																																																																																																																																																																																																																																																	
Cylinder Gases	_____																																																																																																																																																																																																																																																																																																																																	
Inert	_____																																																																																																																																																																																																																																																																																																																																	
Flammable	_____																																																																																																																																																																																																																																																																																																																																	
Toxic	_____																																																																																																																																																																																																																																																																																																																																	
Floor Drain (FD)	_____																																																																																																																																																																																																																																																																																																																																	
Floor Sink (FS)	_____																																																																																																																																																																																																																																																																																																																																	
Safety Shower/Eyewash (SS)	_____																																																																																																																																																																																																																																																																																																																																	
Drench Hose (DH)	_____																																																																																																																																																																																																																																																																																																																																	
ELECTRICAL																																																																																																																																																																																																																																																																																																																																		
110V, 20A, 1 Phase	● _____																																																																																																																																																																																																																																																																																																																																	
208V, 30A, 1 Phase	_____																																																																																																																																																																																																																																																																																																																																	
208V, 30A, 3 Phase	_____																																																																																																																																																																																																																																																																																																																																	
480V, 100A, 3 Phase	_____																																																																																																																																																																																																																																																																																																																																	
Isolated Ground Outlet	_____																																																																																																																																																																																																																																																																																																																																	
Emergency Power	_____																																																																																																																																																																																																																																																																																																																																	
UPS (OFOI)	_____																																																																																																																																																																																																																																																																																																																																	
Phone	_____

ROOM DESCRIPTION																																																																																																																																																																																																																																																																																																																																		
REMARKS																																																																																																																																																																																																																																																																																																																																		

Appendix A: Room Data Sheets

Room ID No.: 6B.1-24
 Room Name: Ranked Faculty Office
 Unit: Mathematics Department

Occupancy: 1
 Room Size: 120 ASF x 24

ROOM DESCRIPTION																																																																																																																																																																																																																																																																																																																														
REMARKS																																																																																																																																																																																																																																																																																																																														

Appendix A: Room Data Sheets

Room ID No.: 6C.1-3
 Room Name: Future Ranked Faculty Office
 Unit: Mathematics Department

Occupancy: 1
 Room Size: 120 ASF x 3

ROOM DESCRIPTION																																																																																																																																																																																																																																																																																																																														
REMARKS																																																																																																																																																																																																																																																																																																																														

Appendix A: Room Data Sheets

Room ID No.: 6D.1-5
 Room Name: Lecturer – Full Time
 Unit: Mathematics Department

Occupancy: 1
 Room Size: 120 ASF x 5

<table border="0" style="width: 100%;"> <tr> <td colspan="2" style="background-color: black; color: white; font-weight: bold; padding: 2px;">UTILIZATION</td> </tr> <tr> <td style="padding: 2px;">Hours of Use</td> <td style="padding: 2px;">_____</td> </tr> <tr> <td style="padding: 2px;"> 8 hours/day</td> <td style="padding: 2px;">_____</td> </tr> <tr> <td style="padding: 2px;"> 14 hours/day</td> <td style="padding: 2px;">_____</td> </tr> <tr> <td style="padding: 2px;"> 24 hours/day</td> <td style="padding: 2px;">_____</td> </tr> <tr> <td colspan="2" style="background-color: black; ROOM DESCRIPTION																																																																																																																																																																																																																																																																																																																														
REMARKS																																																																																																																																																																																																																																																																																																																														

Appendix A: Room Data Sheets

Room ID No.: 6E.1-2
 Room Name: Lecturer – Part Time
 Unit: Mathematics Department

Occupancy: 1
 Room Size: 60 ASF x 2

UTILIZATION

Hours of Use
 8 hours/day _____
 14 hours/day _____
 24 hours/day _____

MECHANICAL

Temperature
 68°-75° ± 2°F _____
 Other _____
 Humidity
 Uncontrolled _____
 Other _____
 Minimum Air Changes/Hr. _____
 Air Recirculation _____
 Air Pressure Positive _____
 Air Pressure Negative _____
 Additional Supply Air Filtration _____
 Additional Exhaust Air Filtration _____

HOODS

Chemical Fume Hood _____
 Radioisotope Hood _____
 Horizontal Laminar Flow Hood _____
 Biological Safety Cabinet _____
 Snorkel _____
 Canopy Hood _____
 Low Slotted Exhaust _____
 Equipment Exhaust _____
 Other _____

LABORATORY EQUIPMENT

Vibration Sensitive _____
 Light Sensitive _____
 Vibration Producing _____
 Heat Producing _____
 Noise Producing _____

PLUMBING

Laboratory Gas (LG) _____
 Laboratory Vacuum (LV) _____
 Laboratory Air (LV) _____
 Compressed Air, 100 psi (A) _____
 Industrial Hot Water (IHW) _____
 Industrial Cold Water (ICW) _____
 Potable Hot Water (HW) _____
 Potable Cold Water (CW) _____
 Purified Water (PW) _____
 Chilled Water (CHW S/R) _____
 Steam _____
 Condensate Return _____
 Carbon Dioxide (CO₂) _____
 Nitrogen Gas (N₂) _____
 Cylinder Gases
 Inert _____
 Flammable _____
 Toxic _____
 Floor Drain (FD) _____
 Floor Sink (FS) _____
 Safety Shower/Eyewash (SS) _____
 Drench Hose (DH) _____

ELECTRICAL

110V, 20A, 1 Phase _____
 208V, 30A, 1 Phase _____
 208V, 30A, 3 Phase _____
 480V, 100A, 3 Phase _____
 Isolated Ground Outlet _____
 Emergency Power _____
 UPS (OFOI) _____
 Phone _____ ●
 Data _____ ●
 In Use Light _____
 Task Lighting _____ ●
 Lighting Level
 100 fc at bench/desk _____
 75 fc at bench/desk _____
 Safe Light _____
 Special Lighting _____
 Darkenable _____
 Zoned Lighting _____
 Other _____

CHEMICALS

Bases _____
 Acids _____
 Solvents _____
 Radioisotopes _____
 Carcinogens/Regulated _____
 Chemical Waste Storage _____
 Biological Storage _____
 Radioisotope Storage _____
 Chemical Storage _____

ARCHITECTURAL

Floor
 VCT (Chemical Resistant) _____
 VCT _____
 Welded Seam Sheet Vinyl _____
 Epoxy _____
 Carpet _____ ●
 Sealed Concrete _____
 Terrazzo _____
 Tile _____
 Other _____
 Base
 4" Vinyl _____
 Carpet _____ ●
 Integral w/floor _____
 Terrazzo _____
 Tile _____
 Other _____
 Partitions
 Gyp Board, Epoxy Paint _____
 Gyp Board, Paint _____ ●
 Other _____
 Ceiling
 Open _____
 Acoustical Tile _____ ●
 Gyp Board, Epoxy Paint _____
 Height _____ 9'-0" min.
 Doors
 3'-6" x 7' _____
 3'-0" x 7' _____ ●
 1'-6" x 7' _____
 Light Tight Rotating Door _____
 Vision Panel _____ ●
 Natural Daylight _____

TECHNOLOGY

Computer _____ ●
 DVD or Bluray Player _____
 Document Camera _____
 Audio System _____
 Touch-Screen Controls _____
 Lighting _____
 Audio/Visual _____
 Overhead Projector _____
 Projection Screen(s) _____
 Lecture Capture _____
 Flat Panel Monitor _____
 Digital Signage _____
 SMART Board Technology _____

MOVABLE EQUIPMENT

Movable Chairs _____
 Task Chair(s) _____ ●
 Movable Desks _____ ●
 Movable Laboratory Stations _____
 Lounge Seating _____
 Movable Table(s) _____
 Recycling _____
 Bookshelves _____
 Refrigerator _____
 Microwave _____
 Coffeemaker _____
 Copier/Scanner/Printer _____

FIXED EQUIPMENT

Bulletin Board _____
 Marker Board _____
 Clock _____
 Pencil Sharpener _____
 Teaching Podium _____
 Laboratory Workstations _____
 Coat Hook(s) _____ ●

ROOM DESCRIPTION

Appendix A: Room Data Sheets

Room ID No.: 7A
 Room Name: Department Chair's Office
 Unit: Microbiology Department

Occupancy: 1
 Room Size: 120 ASF

ROOM DESCRIPTION																																																																																																																																																																																																																																																																																																																														
REMARKS																																																																																																																																																																																																																																																																																																																														

Appendix A: Room Data Sheets

Room ID No.: 7B.1-6
 Room Name: Ranked Faculty Office
 Unit: Microbiology Department

Occupancy: 1
 Room Size: 120 ASF x 6

<table border="0" style="width: 100%;"> <tr> <td colspan="2" style="background-color: black; color: white; font-weight: bold; padding: 2px;">UTILIZATION</td> </tr> <tr> <td style="padding: 2px;">Hours of Use</td> <td style="padding: 2px;">_____</td> </tr> <tr> <td style="padding: 2px;"> 8 hours/day</td> <td style="padding: 2px;">_____</td> </tr> <tr> <td style="padding: 2px;"> 14 hours/day</td> <td style="padding: 2px;">_____</td> </tr> <tr> <td style="padding: 2px;"> 24 hours/day</td> <td style="padding: 2px;">_____</td> </tr> <tr> <td colspan="2" style="background-color: black; ROOM DESCRIPTION																																																																																																																																																																																																																																																																																																																																		
REMARKS																																																																																																																																																																																																																																																																																																																																		

Appendix A: Room Data Sheets

Room ID No.: 7G
 Room Name: Office Storage
 Unit: Microbiology Department

Occupancy:
 Room Size: 120 ASF

UTILIZATION	ELECTRICAL	TECHNOLOGY
Hours of Use	110V, 20A, 1 Phase	Computer
8 hours/day	208V, 30A, 1 Phase	DVD or Bluray Player
14 hours/day	208V, 30A, 3 Phase	Document Camera
24 hours/day	480V, 100A, 3 Phase	Audio System
	Isolated Ground Outlet	Touch-Screen Controls
	Emergency Power	Lighting
	UPS (OFOI)	Audio/Visual
	Phone	Overhead Projector
	Data	Projection Screen(s)
	In Use Light	Lecture Capture
	Task Lighting	Flat Panel Monitor
	Lighting Level	Digital Signage
	100 fc at bench/desk	SMART Board Technology
	75 fc at bench/desk	
	Safe Light	
	Special Lighting	
	Darkenable	
	Zoned Lighting	
	Other	
MECHANICAL	CHEMICALS	MOVABLE EQUIPMENT
Temperature	Bases	Movable Chairs
68°-75° ± 2°F	Acids	Task Chair(s)
Other	Solvents	Movable Desks
Humidity	Radioisotopes	Movable Laboratory Stations
Uncontrolled	Carcinogens/Regulated	Lounge Seating
Other	Chemical Waste Storage	Movable Table(s)
Minimum Air Changes/Hr.	Biological Storage	Recycling
Air Recirculation	Radioisotope Storage	Bookshelves
Air Pressure Positive	Chemical Storage	Refrigerator
Air Pressure Negative		Microwave
Additional Supply Air Filtration		Coffeemaker
Additional Exhaust Air Filtration		Copier/Scanner/Printer
HOODS	ARCHITECTURAL	FIXED EQUIPMENT
Chemical Fume Hood	Floor	Bulletin Board
Radioisotope Hood	VCT (Chemical Resistant)	Marker Board
Horizontal Laminar Flow Hood	VCT	Clock
Biological Safety Cabinet	Welded Seam Sheet Vinyl	Pencil Sharpener
Snorkel	Epoxy	Teaching Podium
Canopy Hood	Carpet	Laboratory Workstations
Low Slotted Exhaust	Carpet	Coat Hook(s)
Equipment Exhaust	Sealed Concrete	
Other	Terrazzo	
	Tile	
	Other	
	Base	
	4" Vinyl	
	Carpet	
	Integral w/floor	
	Terrazzo	
	Tile	
	Other	
	Partitions	
	Gyp Board, Epoxy Paint	
	Gyp Board, Paint	
	Other	
	Ceiling	
	Open	
	Acoustical Tile	
	Gyp Board, Epoxy Paint	
	Height	
	9'-0" min.	
	Doors	
	3'-6" x 7'	
	3'-0" x 7'	
	1'-6" x 7'	
	Light Tight Rotating Door	
	Vision Panel	
	Natural Daylight	
LABORATORY EQUIPMENT	ROOM DESCRIPTION	REMARKS
Vibration Sensitive		1. Metal file cabinets
Light Sensitive		2. Metal storage cabinets
Vibration Producing		
Heat Producing		
Noise Producing		
PLUMBING		
Laboratory Gas (LG)		
Laboratory Vacuum (LV)		
Laboratory Air (LV)		
Compressed Air, 100 psi (A)		
Industrial Hot Water (IHW)		
Industrial Cold Water (ICW)		
Potable Hot Water (HW)		
Potable Cold Water (CW)		
Purified Water (PW)		
Chilled Water (CHW S/R)		
Steam		
Condensate Return		
Carbon Dioxide (CO ₂)		
Nitrogen Gas (N ₂)		
Cylinder Gases		
Inert		
Flammable		
Toxic		
Floor Drain (FD)		
Floor Sink (FS)		
Safety Shower/Eyewash (SS)		
Drench Hose (DH)
