SA1516-025: Resolution Recommending Larger Cereal Bowls at Whitney Center

DATE: November 11th, 2015

AUTHOR(S): Patrick Brever

SPONSOR(S): Madi Bentdahl, Weston Floerke, Spenser Garcia, Anicka Purath,
Alexander Faust, Jacob Sparks

WHEREAS; the bowls that are supplied to students at the Whitney Dining Center are of insufficient size relative to the food servings of students;

WHEREAS; in years prior, all bowls were substantially larger and could hold a full serving of cereal in them. Due to this, students who wish to have cereal contained within a bowl are given no other choice but to fill up their bowl multiple times for an amount that is sufficient for a one person serving of food;

WHEREAS; larger bowls still are distributed, they now only amount to an extremely small portion of bowls and are specifically for the purpose of soup or salad. At most, only a few dozen of these bowls are available at a given time;

WHEREAS; milk consistently causes bowls to overflow after pouring it in combination with cereal;

THEREFORE BE IT RESOLVED; the Student Association of the University of Wisconsin - La Crosse recommends that the administration look into either resupplying bowls from years prior or supplying bowls that are of equal size to those of years prior.

THEREFORE BE IT RESOLVED; upon its passing, a copy of this resolution is to be sent to the Dining Services Committees.
