## **SA1516-035: Resolution Approving Fall 2015 Green Fund Request, Veterans Memorial Stadium Transition from 32W to 25W halogen lamps**

DATE: 11/17/2015

AUTHOR(S): Jeremy Ames

SPONSOR(S): SUFAC

WHEREAS; The Joint Committee on Environmental Sustainability believed this request fulfilled the requirements of the Green Fund.

WHEREAS; SUFAC is responsible for submitting recommendations to Student Senate

WHEREAS; after discussion, SUFAC denied the request for funding.

WHEREAS; the Student Senate is required to approve all Green Fund Requests and;

THEREFORE BE IT RESOLVED; that the Student Senate fund the request for 400 25W bulbs at \$0.

University of Wisconsin - La Crosse  
Application for Environmental Sustainability Reserve

FALL 2015

*Application must be received by November 8 2015*

---

Please send completed applications to [greenfund@uwlax.edu](mailto:greenfund@uwlax.edu). You will be sent a confirmation e-mail verifying that the proposal was received.

For more information about the Green Fund or the application process please refer to the following; [Green Fund Bylaws](#), Green Fund [webpage](#) or email us at [greenfund@uwlax.edu](mailto:greenfund@uwlax.edu).

**Include the following with this application:**

- At least 3 price comparisons of the item(s) or project.
  - Budget Sheet
  - Other supporting documentation
- 

**Contact Information**

Name: Dan Sweetman

Phone: 608-785-6800

Email: dsweetman@uwlax.edu

Unit/Organization/Department: Facilities Planning and Management

---

**Please give a brief overview of the proposed items or project(s) you are requesting funding. What would be the approximate cost?**

**This \$2,781 Green Fund request** will fund replacement of 32 watt 4-foot fluorescent lamps with 25 watt 4-foot fluorescent lamps in Roger Harring Stadium. The project will replace and recycle approximately 400 fluorescent lamps. All 4-foot fluorescent lamps will be replaced throughout the facility.

**Budget**

Replacement Bulbs (400 @ \$3.25/bulb):	\$1,300
Recycling (400 bulbs at \$0.14/bulb):	\$ 56
Labor (34 Hours at \$34.48/hour):	\$1,172
Contingency (10%):	\$ 253
<b>Total Green Fund Request:</b>	<b>\$2,781</b>

**What is the general timeline for the project? (When do you see this being on campus?)**

The project will commence upon funding approval and be completed by the end of May 2016.

**Please give a detailed explanation on the environmental impact of proposed project? Will this project reduce UW-Ls Carbon Foot print, water usage or electricity consumption? If indirectly please explain how.**

This project will reduce electrical consumption from operating 4 foot fluorescent lamps by 20%. Lowered electrical consumption will reduce emissions resulting from burning of fossil fuels to create electricity. Reduced burning of fossil fuels will lower UWL's carbon footprint.

**How will this project increase student understanding of environmental issues or actions?**

This conversion to lower wattage fluorescent lamps in all UWL buildings is promoted by Facilities Planning and Management as one of the many energy saving/ sustainability initiatives implemented at UW-L. The replacement of bulbs is also promoted as a task that nearly any person can complete to save energy.

**Do you plan to collaborate with other entities? This includes, planning, executing the project through student or community organizations and university departments/offices.**

The simplicity of this project will require no internal or external collaboration.

**Large and complex projects require UWL staff member(s) to be involved, please list designated personnel who are involved in the proposed project or have been contacted to verify project viability.**

Name(s): Ken Weigel, Crafts Worker Supervisor, Facilities Planning and Management, [kweigel@uwlax.edu](mailto:kweigel@uwlax.edu)

Doug Pearson, Executive Director, Facilities Planning and Management, [dpearson@uwlax.edu](mailto:dpearson@uwlax.edu)

Jason Murphy, Roger Haring Stadium Facilities Manager, Athletics, [jmurphy@uwlax.edu](mailto:jmurphy@uwlax.edu)

Dan Sweetman, Program Manager, Facilities Planning and Management, [dsweetman@uwlax.edu](mailto:dsweetman@uwlax.edu)

**Are you receiving additional funding from other university or non-university entities?**

YES:    NO: XX - No additional funding will be received.

**If yes, please state the other sources of funding that you are receiving and the amount received.**

---

**Is there any other relevant information that you would like to add?**

The project budget is based on use of Sylvania product number: 22235, order abbreviation F032/25W/850/XP/SS/ECO3. Price comparisons are readily available on-line. Best pricing is found to be offered through the State of Wisconsin contract with Milwaukee, WI-based Neher Electric.
