

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

Student Senate Agenda

Date: October 19th, 2016

Time and Location: 6:00pm Port O' Call; Cartwright Center

- I. Call to Order
 - a. 6:02
- II. Pledge of Allegiance
- III. Roll Call
- IV. Consent Agenda
 - a. Approval of agenda
 - i. Motion: Garcia, add a resolution to new business, motion: sponsor on resolution
 - ii. Motion: Fish Second: Bentdahl
 1. Approved
- V. Guest Speakers
 - a. Jay Scott
 - i. Greg Reichert wanted to update everyone on scholarship campaign. He was here 3 years ago talking about it to SA. There is a specific scholarship fund that SA needs to think about. Jay will speak on some of the ways that the campaign is being spread and the unique things that the system is giving them the ability to do. 3 years ago scholarship campaign started to raise money with a 15-million-dollar endowment. They are trying to double the amount of scholarship funds available to students. Almost 4 years thru the endowment of 7.9 million dollars used which puts them right on pace to use up 15-million-dollar endowment for scholarships. The foundation gives out 1 million dollars in scholarships this year alone. They are getting a lot of scholarships which are restricted, which means that they are allocated where the donor wants them to go. Scholarship dollars come from alumni, partial to that field. Increase in amount of scholarships that are straight merit or need based, because there wasn't a lot to offer students. Admissions can use that to recruit and retain students to stay at UWL. Don't want students graduating with a lot of debt. 3 years left of endowment. Students who are doing undergraduate research have ability to succeed without debt, trying to raise 1 million dollars to help students do what they want to do. Student teaching semester, clinical, undergraduate research are expensive semesters. Having to find places to live, how can they help students? Fund this through scholarships, trying to raise 1 million dollars. Donor inspired them to find 900,000 dollars more after the 100,000 gift. 10 years ago, SA was asked to help contribute to construction of sports complex, not sure the exact amount. During that process, SA passed a resolution stating that when the 5 suits that are available for lease, after the first 5 years of those leases, 1/3 of those payments will go into building a scholarship endowment. There was no direction to where/ what kind of scholarships those should be. 57000 dollars sitting in that fund and wants SA to say what kind of scholarships we should have those be. Document will be sent out with ideas of scholarship allocations. Roll off 4% of dividend.

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

2000\$ a year for forever. If suites are leased every year, that will grow. What kind of scholarships can we give? There are rules that we have to follow, can't do anything with athletics can't have a review committee because they could be direct recipients. SA couldn't give the scholarship to SA members and have a committee. Any questions about the scholarship campaign?

a. Rondorf: Can scholarships go towards sports management?

1. Yes. Handful of scholarships that mentioned athletics, but then we were on probation for a few years. As a field of study you can give scholarships towards athletic type.

ii. Jay Scott: Senior development officer at UWL. Lives in Milwaukee and outreach to alumni in Milwaukee, Chicago, green bay, Madison and surrounding area. Will travel if its someone he knows. Hall director in drake hall for a couple years in mid-80's, let went to University of Florida, was involved in REC center building in 90's. Moved back to Wisconsin a few years ago and UWL was looking for someone to do his job. 4th tour of duty with Lacrosse. Congratulations the University looks a lot different, what you are all doing academically is really impressive. The whole concept of naming opportunities. Board of regents and chancellors oversee naming operations on campuses. Primary purpose for any time of naming of building/room is to encourage private philanthropy. How its stated in BOR policy, only in unique circumstances are things named without a gift. Two things that are named: Facilities, college of business. could name a program or something physical. Being a public university we didn't depend as much of philanthropy because you have tuition revenue and philanthropy on the side. More and more we are going to depend on it to support university because we need scholarship funds. Private schools have so many buildings rooms named because of philanthropy and a way we can outreach to create those opportunities. For the new student center, we are out talking with our alumni. We follow a policy to how things are named. A dollar amount to each space is assigned. If someone gives 25000 to name a meeting room, then it goes into the endowment, they can then designate what kind of scholarship that will go to. It grows at a rate of 4%, and that fund will grow. With the student center, the potential is about 4.5 million dollars in endowment. That would produce about 220,000 dollars in scholarships for students each year. Examples of folks that would like to be approved, 1. 50,000 to honor a deceased faculty member from her estate, and give that for a scholarship for a grad program. Another example there was some alumni that passed about of heart attack 55 years old he has friends from UWL and they raised 25000 to create a scholarship in the finance department. Started finance club at UWL. Another example is a young alumna is interested in leadership development. 1 scholarship is student leadership and the other is honoring a friend of his who was his roommate when he as a freshman who passed about 2 years ago, education scholarship. Totaling 50,000 scholarship from him. Other folks are considering at different levels to give for the student center.

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

iii. Greg: If you have been in Graff, you see the auditorium came with a 500,000-dollar gift, which gives out bigger scholarships. We are trying to do this with several facilities. Looking at the new field house and to see if people are looking to name things in there. Another tool in our belt to raise money to benefit students.

a. Floerke: Just with your experience, how long do you anticipate someone donating that 2 million dollars to the student center or is it just up in the air?

iv. Scott: who has the capacity to do that, are they willing, and are they able? Is UWL at the top of their list. 2-million-dollar gift does not come very often, it's a long process. We have never had one. Are there folks out there that have that potential? Yes. We are working hard to identify those folks and get them back on campus. Development is a team sport, it takes the chancellor, myself and Greg to work towards getting this money. Students are the greatest ambassador. Tell these alums about your student leadership experience and what your dreams are, you help these people want to give money because they want to have an impact on your life.

a. Arney: What is the deadline for the building name for someone to donate?

v. Scott: There is no deadline, we are waiting for someone to give money. What impact are they trying to do? Where do they want their money to go? We work with them to get what they want.

a. Arney: It could open in the spring and not have a name?

1. Scott: It most likely won't have a name

vi. Greg: Eagle hall is generic so we can change the name if someone wants to put their name on it and give money.

vii. Scott: We would like to tour people through and go by these places that are named through philanthropic things. It inspires people that they are joining others. Get the momentum going.

a. Schimmel: Are there any specific rooms that are considered off limits to naming? Students want the rights to name it since it's a student right to name it? Like the student senate chambers? Getting students in the process?

viii. Scott: That is the dollar amount that is assigned by the University, only under unique circumstance are rooms named without a gift. That's the policy. The chancellor needs to come in for something like that. The conversation has been happening, but I would bring the chancellor in on that conversation. We just formally named downstairs in eagle hall to bridge bear and wilder because of the resident's halls being torn down. These halls honored important women, so we should name these rooms that. It was approved, an example of something that was named without a gift because of the history. I would guess that when you think of the student senate chambers that the alum that would give that 75000 dollars that the alum was probably a student senator and they probably benefit

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

someone in student senate. If you think of it that way, it's probably going to be someone who thinks student chambers was an important part of their life.

a. Elvaker: Just to clarify you said there is a 4% increase?

ix. Scott: 4% pay out of 25000 is 1000 dollars, that pays out 1000 dollars to a student in the scholarship. That money stays in the endowment, and you hope that the stock market improves and the money will grow

a. Rondorf: Split the name and each person gives 1 million dollars each?

x. Greg: We would package it as a joint gift, being smith-jones hall. 2million is the amount that is set by the BOR to name buildings.

xi. Scott: There as a group of alums that wanted the college of business to make sure that it stayed that way. They gave billions of dollars from alums because they wanted to keep it.

a. Arney: have you considered doing what you did with eagle for the native American land that it sits on? Naming a lounge area or room after the Hochunk people possibly.

xii. Greg: We haven't considered that, what the process is that it's a honorific name and whoever would like to make that proposal would have to make it thru myself and whose administrator that place would be (athletics to athletic administrator). We would take those to cabinet.

a. Arney: What would a meeting room be like?

xiii. Greg: If its student center it would go thru Paula's group, or in centennial in the provost office.

a. Garcia: Can businesses try to name things? Like Kwik trip?

xiv. Greg: Yes they can, we want to be careful about who gets named, like not any convicted felons, or company that don't practice good business. We are working with a gift from the college of business that would be named after an accounting firm because we have a great partnership and they hire a lot of people. That's a first example of a corporate name.

xv. Scott: Type of signage is similar to centennial. Very nicely done and we want things to look beautiful. We don't want any neon lights and we want to acknowledge the support that people are giving.

a. Kallis: If this goes over really well and people still want to donate, what would we do?

xvi. Scott: As long as that building still exists, the names stay in that building. There are other buildings that people can go to if everything is named in a building. If everything is named in a building, then we have had great success. It's very long work, many visits with the alums. They are making decisions between UWL and 5 or 6 other places. There's a lot of decisions that get made when someone is giving 50,000 dollars. That's a lifetime gift for them that is significant. Change in the culture of higher education. Most specifically higher public education. This is why we are here tonight. It has changed. We hope that we get every room named and we create these wonderful scholarships for students.

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

- a. Rondorf: Is there any current students that you are partnering with so that they can try to get more alum to donate?
- xvii. Greg: We have taken students with us to alumni events, we utilize students like on the day of giving like signing the thank you cards and videos shared with them. The alum dont care about us, they do it because they love you. If we can highlight students in any way we can. Students love to share there stories, we are trying to bring a lot more alum to come in a speak to students and share their stories as well. These are alums that we want to come back and be engaged in campus.
 - a. Quashnick: CEO of Cisco?
- xviii. Scott: Tomorrow night at 5ocoock main hall auditorium. Sign up for your ticket online. 600 some students signed up for it. Sponsored by the clearly family.

- b. Jacque Bollinger
 - i. Director of residence life. Thanks Pat and Schimmel for inviting me. I just wanted to introduce myself. I started in July so I am new, but not as new because I have a few months under my belt. Worked at UW Oshkosh for 16 years. Involved with student leadership extensively. I appreciate what you all do here. Updates on residence life: We are still in extended housing. We do not have enough space. Last few years especially. We are hoping to hear about a new residence hall soon, it's been delayed and we don't know how long. Right now we are in this holding pattern that is very frustrated. Another thing is that we are allowing students to sign up to live in Reuter to get more students to live on campus. Beginning in October we allow students to live on campus so we can get more people. Alternative to living off campus. We have a good start and hope to continue. I would like you guys to ask me questions.
 - a. Finco: What renovations would RL do if we don't get new residence hall
 - ii. Bollinger: We hired a consultant, but the problem is that the hvac system and important things that you don't really see. We have a struggle if we don't get a new residence hall because we have to take a hall offline and have even less space. Don't have a solid answer we must look at renovation plan and see what works best. Planning process has to be looked at again.
 - a. Brady: What kind of time line for a new res hall?
 - iii. Bollinger: We don't know. We aren't very optimistic if its going to make it to legislature. Madison had a plan approved for their res halls so something is moving which is good. Any project was dead in the water for quite a while.
 - a. Schimmel: Cost for renovations?

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

iv. Bollinger: I'm not really sure about that.

a. Lenz: What's a higher priority right now? Renovation or new dorm.

v. Bollinger: For me the new hall would be the priority because we can have extra space then take halls offline to renovate. The problem with that is that it backs up our renovation plans. Some of our buildings are quite old, and that puts off renovation a bit longer than we wanted.

a. Floerke: Have you had legislatures come to campus and see what we have to live in?

vi. Bollinger: No we haven't not that I know of. We have certain people lobbying for us. Bob Hetzel is doing his best to get these through.

a. Floerke: Is this something that you possibly want to do? I knew some people who had to live 5 guys in one room which wasn't good.

vii. Bollinger: Once we determine if the project goes forward, then we can decide.

a. Colin: Is there a contingency plan in the works so we can do something else?

viii. Bollinger: The current plan for renovating the halls, we are going to have to back to the drawing board if we cant get a new res hall soon. Next year is the determining factor

a. Ames: Hvac improvements in halls? Individual thermostats?

ix. Bollinger: Hoping to go for efficiency and people are able to control the heat in their rooms. Even in eagle reuter they can control but not fully. RHAC is the place where I go often for advice on what students want, but that doesn't mean it always has to be them. I would love to work with you guys too. My office is in eagle hall.

c. Elaine Anderson

i. I haven't heard from any of you besides Pat and Schimmel, so besides talking about legislation, I'm going to give you nuggets from city hall. Emphasize if you find yourself having questions about things that are going on in our city, please contact me to talk 1:1 about it. Update: Early voting is happening now, starting on Monday. You can go to city clerk's office and vote now because you are going to busy on election day. If you want to get your peers to do it as well to keep the poll lines shorter. Go ahead of time to help out. I can either tell you about the library situation between city county or the Shelby boundary task force agreement. Library won. How many of you have been following it on local news? Just spencer. Last year city contacted Kovari who worked with student body president many years ago. Basically they found that a lot of services are

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

being duplicated and because of that, taxes are higher. One of the areas that was approachable to try to delete that overlap was the library. Looked to explore other options. Wanted to merge city/county library systems. County would be responsible for funding and have control over it. It was pretty contested during the meeting. WE ended up giving the mayor the go ahead so that we can see less duplication there. Lower taxes in the city that doesn't limit the services that we are providing. Memorial pool that was closed this whole summer, but the Grandview Emerson neighborhood association did a study, we will discuss the results first Thursday of next Month in city hall. Last thing that I wanted to talk about is league of Wisconsin municipality that lobbies to state legislatures on behalf of city and municipal governments that put together lobbying priorities for next year at capital. Improved code inspections want to be on there. Landlords not keeping up with their properties. Why would that be a priority to have that on there? It's not students fault that they places are crappy. They want photos of these places. They don't want to get anybody in trouble, but they want to see some photos so that state legislates know that this is a problem. Things that landlords should be taken care of, have them snap some pictures so we can compile evidence.

a. Mason: Do you want any details? Story?

ii. Anderson: If you want to give street address that would maybe get people in trouble. Stories would be great. Email is: Anderson.elai@uwlax.edu I prefer you use this email for photos. You can also email my city email.

a. Garcia: What committees are you on?

iii. Anderson: Housing rehabilitation, housing and personnel, historic preservation, memorial pool.

a. Dani: Time sensitive for the photos?

iv. Not time sensitive. It would be more effective if you told me what you want to hear.

d. Emily Hinman

i. Hinman: Student body president from Viterbo. First I want to ask how many of you know where Viterbo is? Pretty much everyone. It's by Walgreens/the hospital. We are catholic. Only 35% are actually catholic. Over 70 majors on campus as well as graduate and doctorate program as a smaller university. I transferred to Viterbo for nursing. We are facing a lot of renovations projects for our students so we can see better utilization by students. Going to hear student concerns. We have online ways, mailbox, phone number. We don't really hear what students like/don't like, and we want to know. What can we do that they want to see? The biggest thing is we

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

want to hear what students have to say. We want to rep students well, and our university. We collaborate on how to use student fees correctly. We have a lot of student leadership and service opportunities and encourage our students to attend which brings people of different areas of life together. If you have any questions I will take those, but I just wanted to introduce myself. We get a lot of stuff done at our meetings and would love to see you there.

a. Floerke: Do you have student orgs?

ii. We aren't antisocial or anything so yes. Students join clubs over here when at Viterbo. Just have to have an advisor.

a. Fish: Does Viterbo have orgs like hall council or residence life like RHAC?

iii. Hinman: They have RHA, NRHA, not sure what all that entails but we do have those. We don't have hall councils but RAs put on floor meetings. Two freshman dorms, one holds 200 and other one holds 90 students. 3 on campus apartment and 2 off campus apartments. Lots of student stay on campus. There are not any hall councils.

a. Brady: Enrollment rate increased over years?

iv. Hinman: Last year we had decrease, but this year we had an increase. Ungrad pop is 2100 with 800 grad students.

a. Burgess: Discussing renovation, have you discussed it in your organization about potential?

v. Yes, we just started two new projects because students want to see it done. Campus ministry is used so much so we are working to renovate and get a better design lay out. Want a sink. Other project is buy the dorm there is a patio area but its lame and no students sit there, so we are going to remodel it and make it nicer for students.

a. Bhatoya: Viterbo is private right? What's the relationship with state legislature? Do the things you do go to a higher power?

vi. It depends on the project if we have to get it approved. I would say right now we don't have as much power about things that we would like to see done. I know everyone very well on campus so we are able to get the connections and od what we need to do that would need to go to the board of trustees.

a. Bhatoya: So most of the time you guys don't have a relationship with things that revolve around state legislature

vii. Hinman: I have no idea. I know we have to follow some of the same rules? Like the gun control issue wouldn't pertain to Viterbo because we are a private school.

VI. General Student Body Open Forum

VII. Officer Reports

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

- a. President: Jacob Schimmel:
 - i. “Trying to keep it short”. Going to send out an email to discuss what students would like to name the new student center. There have been many tech issues this week that we are trying to figure out before the email is sent. It is going to be in a qualtrics survey format so all of the results will come back in one large document. There will not be any questions, just an open ended: what would you like to name the student center? This is going to go out as soon as possible.
 1. Faust: Is Jay Scott aware that we are trying to name the new student center and will not just be “Student Center” in January?
 - ii. Schimmel: Yes. His discussion with us was focused on the fund raising lens and not the general name for the center. I am also on the hiring committee for the new provost, Betsy is the interim. We are working on solidifying the position descriptions and promotion materials used to attract the candidates. I want to make sure the process and search and screen committee is always keeping students in the front of their mind. This campus is greatly student oriented and we want to make sure we attract provosts that can understand and encourage that on campus. Also considering making a video for candidates to see how true that is! Pat and I have done 2 interviews for inclusivity director, and one more next week. DOC will also be interviewing the candidates and getting back to us with their recommendation. Hopefully we will see them too! We are still working, with Haley, on establishing a general and introductory lobbying day sometime soon. It may be during the school day so it will be hard for some of you to make it but we really need as many of you as possible to make an impact. I am also working on an academic political format. Nov 3, 6pm-7:30 in Port O’Call. We will be bringing in a member of College Dems and College Republicans to give a bit of a pitch on each party’s stance. There will be a professor moderating. Voter registration has come to a close, you all have done amazing!!
- b. Vice President: Patrick Brever:
 - i. Employee video people are looking to make, need an extra student (besides Schimmel) to commit about an hour to help them show the good things and bad things to do when you are a campus employee.
REMEMBER TO PUT SPONSORED BY on all of the publicity you would like to get approved by 212. I would like to collect info on the new senators to get you into the office and Facebook group.
- c. Chief of Staff: Brady Gross:
 - i. Starting to talk to 360 discussing the lease signing date back. By a week at first and hopefully we can move it back up to a month or so. Working on this with Madison and Emily, let me know if you would like to help out! Would like to get all landlords all in the same room with student leaders from here and Viterbo to talk about this and other ideas. Pop by to say hi is happening this Monday instead of last Monday. I would like 3 people per hour and will send an email reminder beforehand.

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

- d. Deputy Chief of Staff: Lauren Mason
 - i. If you can't make it for your office hours, let me know and you can change it. You can hang out and do homework and maybe someone will come in and say hi to you. For those of you around last year, there is an issue last year on how professors sometimes don't get our homework/tests back to us on timely manner, we brought this to Betsy Morgan last year and she wanted to get things done with it. She talked to faculty senate about putting it in syllabus about commitment to getting your stuff back to you. I'm not sure how many did it this year, but we are looking to make it a for sure thing next year. What is the latest you have seen something returned to you? I took an exam in beginning of October and didn't get it back before the final? We need to know about it. If everyone could just write down major, and what department the course was under, and then mention how late it was that you go the grade after you submitted it. I will send an email out so you and your friends can share. I will pass out a piece of paper for people to jot notes down. Longest for a written/ and scantron.
- e. State Affairs Director: Haley Jurecki
- f. Local Affairs Director: Madison Wescott:
 - i. Obviously, the off campus housing fair was very successful with many students being there. However, only 4 rental companies were there so we are trying to compile a comprehensive list of all landlords in the area. We are thinking of talking to student life to determine if they can be a permanent house for the list of landlords in the area and a direct resource for student to consistently go to for questions. There is no office on campus that deals solely with off campus resources. Aaron Bhatoya agrees that this would be a great resource for students and way to foster relationships off campus.

VIII. RHAC Reports

- i. Burgess: Next Meeting is tomorrow and we will have 2 fund requests one from Student Association, in addition to a presentation from Troy Richter about strategic planning. There is also Fallapalooza form 11-2 on Saturday with games and a fundraiser for the national cancer foundation.

IX. Advisor Reports:

Knudson: I Am Larry. Res halls, just following up, I really do think that we need a new res hall. There's nobody on this campus that doesn't believe that. For some reason legislatures are opposed to that. Talk to your legislature and let them know how much that affects campus life here. We will have some new legislatures. Non allocable: 0% increase with increase costs. \$283,000 dollars that we will need to reduce in cost or find new revenues. Operation river watch, 10 years ago partnership with Viterbo/WTC, congratulations on that. Thanks for making that happen and continuing to make it happen. Safety task force first order of business is use of cameras on entire campus, residence halls new student center academic buildings and

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

it will follow up with work on communications. Jauqie will chair that and make sure that we have a student voice.

X. Committee Reports

- i. Quaschnick- graduate curriculum council met. Reviewed syllabuses and gave us a stipulation about slash courses. Syllabuses does not mention the difference between being an under grad and grad, so the differences can cause confusion. None if it is outlined anywhere, and it should be. Higher learning commission said that we need to have this fixed so undergrads aren't taking graduate school classes and so the expectations are reasonable.
- ii. Rizzidlo: JMAC is meeting for second time on Friday morning: Chair has been sporadically sending emails at really random times. Looking to make some resolutions.
- iii. Ames: SUFAC- another 3-hour long meeting. Many groups will be receiving their budgets, with a SUFAC rep with you. Beyond that we talk about the overall rate with a 0% increase. If cuts need to be made, there will a structure at how it goes. One shot fund requests. We allocate money for that. 17000 dollars. Likely we will be taking out 10000 from reserves. In total we will be spending 30,000 on capital goods. The tuba was not voted on. We requested that they look into different tubas that aren't 14000 dollars. All Carryover request were fully funded, except SA laptops got denied. Didn't quote it exact, so yeah.
- iv. Bancker: AIDAC meet had some budget hearings, looked at our budget. Had 100,000 more dollars in requests.
- v. Olp: Student orgs met and talked about grants. The grants will be decided in the next few weeks. 23000 dollars. 54000 was requested. Working with what we have.
- vi. Garcia: Bob hetzel will be at JCES.
- vii. Mason: Marketing and special events met, we are all geared up and ready to go for next week. Monday 11-2 if you have any time to table for photo campaign at Whitney or clock tower. We will need volunteers for next week Friday for its on us flag football game. Form a team!

XI. Organizational Reports

- i. Olp: Lots of stuff in FSL. 3rd sorority join us next semester. 75 people added to the community. First round of philanthropy events put on this weekend. Alpha Phi is having brunch this Sunday for women's heart health.

XII. Unfinished Business

XIII. New Business

- i. Garcia: Move to suspend 2-week rule, Second: Ames
 - a. Pat: Two-week rule means you go back to your people and talk about it and then we come back and vote on it the next week.

XIV. Discussion

UNIVERSITY OF WISCONSIN–LA CROSSE STUDENT ASSOCIATION

235 CARTWRIGHT CENTER 1725 STATE STREET LA CROSSE, WI 54601 (608) 785-8717

- i. Brever: 10-minute cap on discussion
 - ii. Fish: I brought this to people in two classes, they seemed to be more in favor of Driftless commons and one person very set on eagle landing.
 - iii. Dani: Driftless commons was a unanimous vote
 - iv. Ames: I don't know what the purpose of speaking on this now is if we are planning on sending out a survey. Move to postponed discussion. No objections
-
- i. Ames: Had someone bring up to be lack of tampon dispensers in cartwright and on campus. Not sure its within our purview on how to implement this on campus. This is a problem since this issued by everyone on campus.
 - a. Faust: make sure new student center has those
 - 1. Schimmel: This is something that we looked into providing for students. There administration actually funds it. Pilot program put in place kind of already. Students don't really seem to know about that. How can we increase visibility and the amount we are providing?
 - ii. Mason: Has anyone seen them? Outside of residence halls
 - a. Razzidlo: No. Down in pride center it was implemented sometime last school year that has tons of feminine products that are free thru the pride center.
 - b. Dani: it's called menstruation station. There's one in Cowley that is ALWAYS empty.
 - iii. Giles: I had heard that they are available but they should be available in all academic buildings. We need to fill these places
 - iv. Paula: Never heard student government talk about feminine hygiene.
 - a. Schimmel: This is a promising issue is people wanted to look into it. I will look into it again.
 - v. Ames: Make sure to talk to people about it
 - a. Motion: Ames; Second: Schultz

XV. Announcements

- i. Razzidlo: Are we trying to do senate get together weekly?
 - a. Mason: Senate dinners together before meetings, so if anyone wants to
- ii. Quashnick: Are we going to have signup sheet for all of the election day stuff.
 - a. Schimmel: Yes
- iii. Garcia: SFS light up the night scavenger hunt. Not sure if bike lights will be given out. Friday campus close up so super busy with potential students
- iv. Brever: Chancellor is coming last meeting

XVI. Adjournment

- i. Motion: Schultz; Second: Ames
