

Pre-Professional Track

A pre-professional program is a statement of intent on the student's part, not an academic major.

A student who is interested in pursuing an undergraduate degree in forestry will need to transfer to another university. All students should consult the respective catalog of the school to which they intend to transfer.

UWL strongly recommends that students interested in pre-forestry should pursue a biology major with a concentration in plant and fungal biology or a concentration in environmental science during their time at UWL.

RECOMMENDED ELECTIVES

within the biology major – environmental science concentration

BIO 302	Introductory Plant Identification
BIO 337	Plant Physiology
BIO 404	Plant Taxonomy
BIO 405	Aquatic Vascular Plants
BIO 412	Mycology
BIO 429	Evolution
BIO 442	Plant Microbe Interactions
MIC 230	Fundamentals of Microbiology

RECOMMENDED SUPPORT COURSES

CHM 301	Analytical Chemistry
GEO/ESC 345	Remote Sensing of the Environment
GEO/ESC 385	Intro to Geographic Information Systems
MTH 305	Statistical Methods

ADDITIONAL ELECTIVE RECOMMENDATIONS

BIO 437	Plant Growth and Development
ECO 110	Microeconomics and Public Policy
ESC 101	Earth Environments
PHY 103	Fundamental Physics I
PHY 104	Fundamental Physics II
