UWL students – now's the time!

(bcc: personnel, for your information)

For many of you, the end of the semester means leaving La Crosse for the summer. For the safety of your families and home communities, public health professionals and campus leaders are urging students to get vaccinated before they go home or to another destination.

- **Students who will be remaining in the La Crosse after finals** should have no issue receiving both shots at the same facility.
- **Students who will be leaving La Crosse after finals** are strongly encouraged to schedule your first dose here, and arrange your second dose at a second location.

Register at <https://vaccinate.wi.gov/en-US/> to get the process started.

To schedule your second dose at a second location, call the Department of Health Services Call Center at 844-684-1064 (toll-free) or go to <https://vaccinate.wi.gov/en-US/> up to a week before their due date (see your Vaccination Card which you'll receive with your first shot).

DHS community-based vaccination clinics are located in the following cities: Janesville, La Crosse, Racine, Rice Lake, Superior, and Wausau.

### DHS Community-Based Vaccination Clinic at Rock County
