Dear campus community:
(This message was sent to all UWL personnel and students)

We continue to be encouraged by the strong vaccination rates of our students, staff and faculty. Thank you for doing your part.

Vaccination clinic: Wednesday – Saturday in Cartwright

This week, we are pleased to host a clinic where eligible campus and community members can receive the first or second dose of their initial vaccination series, or a Pfizer booster shot.

The four-day walk-in clinic, on the second floor of the Cartwright Center, will operate daily Wednesday, Sept. 29, through Saturday, Oct. 2, from noon to 4 p.m. All students, staff, faculty and community members ages 12 and up are welcome.

Pfizer boosters: UWL faculty and staff are eligible

In addition to the initial vaccine series, the clinic will offer booster shots to recipients of the Pfizer vaccine. At this time, booster shots are available to people ages 50–64 years with certain underlying medical conditions, and people ages 18–64 years who are at increased risk for COVID-19 exposure and transmission because of their job or institutional settings who received their full series of the Pfizer vaccine at least six months ago. This includes education staff – instructors, support staff and childcare providers. WI DHS has more information about COVID-19 booster shots.

We appreciate your patience at the vaccination clinic. We anticipate there may be larger demand due to this recent approval for Pfizer boosters. We hope you take advantage of this opportunity to protect yourself and others from COVID-19.

“70 for 70” vaccination incentives: we’re currently at 76% vaccinated. Let’s keep going!

If you’re a student who has been vaccinated and has not yet taken our survey, please do so. The survey takes moments to complete and allows you to be entered into drawings for prizes and scholarships. When we reach 80% another eight $1000 scholarships will be unlocked.

Thank you for all you’ve done, and all you continue to do, to keep our campus and community safe.
