To: University Marketing & Communications <ucomm@uwlax.edu>

Greetings UWL community,

Over the weekend our campus COVID testing clinic has switched-over to Weber Health Testing. New testing sign-up link is <https://www.wihealthconnect.com/>

What's the same:

- Testing is in same location **Cartwright 3rd floor, 10am- 2pm Monday through Friday**
- Continues to be open to students, employees, and community members.
- You must complete the symptom survey before scheduling an appointment. You will still get a Binax antigen test first.

What's different:

- You will now need to wait on-site for results in case a PCR is needed.
- PCR turn-around time is advertised as 2-3 days, but we are expecting it to be a little faster than that.

In recent weeks we have noticed an uptick in people showing up before 10 a.m. or after 2 p.m. Please take the time to do the symptom survey and schedule your time before showing up, and be sure to arrive during scheduled testing hours.

Weber Health Testing folks are ready to serve you, starting at 10 today. Thank you for your patience in these first few days as this new operation settles-in at UWL.

Thanks so much,
