*In previous years, non-credit internship information was included with the annual report but is not included in this report.

It is very difficult to get non-credit internship information from students. Previously, all non-credit internship information was recorded by the Internship Coordinator based on information from students requesting for-credit internships for experiences they had begun prior to the term for which they were requesting credit. For example, if a student indicated they began an experience in May but didn't request credit until the fall semester, a summer term, non-credit internship was recorded on behalf of the student. However, this was not a sound method of collecting data and certainly was not a comprehensive method. Therefore, that practice was not used for the 2023 - 2024 academic year.
