

Transfer Credit Equivalency Guide

This guide is designed to assist with understanding your transfer credit report. Once your report is complete, we will notify you via email and direct you to your WINGS Student Center where you can view your transfer credit report.

Note: Criteria such as number of schools attended and/or number of credits earned may extend time necessary to complete your transfer credit report.

A revised General Education Program is in effect beginning Summer of 2025. The following table reflects the new General Education course categories that will appear on your Credit Evaluation in WINGS.

- Codes:** **Explanation:**
- GEL** If GEL (General Elective) is listed, a direct course equivalent does not exist. General elective credits may be applied toward a degree in the same way that a direct course equivalent does.
- TIP** If TIP is listed in the grade column, the course is "Transfer in Progress" or currently in progress at the time the transfer credit report was completed.
- TFO** TFO (two for one) indicates a student has taken two or more transfer courses which are equal to one UWL course.
- 000L or 000U** If 000L is listed in the UWL course number, lower division elective credit will be granted (freshman & sophomore level course work; 100 & 200 numbered courses). If 000U is listed in the UWL course number, upper division elective credit will be granted (junior & senior level course work; 300 & 400 numbered courses). A minimum of 40 credits must be earned at this 300/400 level. These credits do not count towards General Education categories.
- General Education Course Equivalencies** Elective credits that satisfy a General Education requirement are given a six-digit code following the departmental prefix indicating both the level of credit offered (where "L" indicates lower and "U" upper division credit) and corresponding to the appropriate General Education category. Examples:

ECO 000RL = Lower division Economics, Gen Ed 1009
MTH 000EU = Upper division Mathematics, Gen Ed 1004
