UW-La Crosse's Final Grades
for Importing into WINGS

A
AB
B
BC
C
D
F

Additional university grades that can be entered in Canvas and/or D2L:

Pass/Fail:	
P	pass / 0 (not averaged into GPA)
F	fail / 0 (is averaged into GPA)
Satisfactory/Unsatisfactory:	
S	satisfactory (not averaged into GPA)
U	unsatisfactory (not averaged into GPA)
Audit (can't be used in D2L; must be entered in WINGS):	
AS	audit satisfactory (not averaged into GPA)
AU	audit unsatisfactory (not averaged into GPA)

Grades entered into grade roster in WINGS after importing other grades:

I	Incomplete (not averaged into GPA). A paper form must be submitted with signatures to the Records office. Forms can be gotten from your department's ADA or the Records office.
F01 - F14	Stopped attending (averaged into GPA). Student did not withdraw from the course officially, but failed to participate in course activities through the end of the period. There is insufficient evidence to make possible a meaningful evaluation of academic performance. The appropriate grade from the F01 to F14 range will appear as an "F" on the student record. *For Canvas/D2L, import an F from the learning management software, and then adjust the grade in WINGS before final approval of roster.*
PR	In progress. Only for use with graduate thesis/dissertation/final projects etc.
Grade changes	After rosters are submitted and posted, any changes to grades must be done through the grade change form, either on paper or electronically.

- W's, withdrawals, and in-progress statuses (for dissertations) will be entered by the Records office.
- Rosters submitted where one or more students is missing a final grade will have an "NR" placed as a holding grade for that student until the instructor submits a grade change form (paper). NR grades can only be changed on paper.
- WINGS will not accept minuses (-) or pluses (+) in final grades.
