Years Ended December 31, 2020 and 2019

LA CROSSE FOUNDATION

Independent Auditor's Report

University of Wisconsin - La Crosse Foundation, Inc. La Crosse, Wisconsin

We have audited the accompanying financial statements of University of Wisconsin - La Crosse Foundation, Inc., which comprise the statements of financial position as of December 31, 2020 and 2019, and the related statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of University of Wisconsin - La Crosse Foundation, Inc., as of December 31, 2020 and 2019, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States.

Note 1: Summary of Significant Accounting Policies

The Entity

University of Wisconsin - La Crosse Foundation, Inc. (the "Foundation") was formed to solicit and receive gifts and bequests for the development, promotion, and benefit of the University of Wisconsin - La Crosse. The responsibility of the Foundation is gathering and administrating gifts from private sources and directing those funds into areas that best assist the University of Wisconsin - La Crosse in delivering affordable, accessible, and quality educational opportunities.

Basis of Accounting

The financial statements of the Foundation have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States (GAAP).

Change in Accounting Policy

On June 21, 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-08, Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made. The amendments in this ASU assist in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) subject to Subtopic 958-605 or as exchange (reciprocal) transactions subject to Accounting Standards Codification 606 and (2) determining whether a contribution is conditional. The contribution guidance in Subtopic 958-605 requires an entity to determine whether a transaction is conditional, which affects the timing of the revenue recognized. The entity has applied the amendments in this ASU on a modified prospective basis. There was no change on opening balances of net assets.

In May 2014, the FASB issued ASU 2014-09, *Revenue From Contracts with Customers* (Topic 606). The amendments in this ASU, along with numerous clarifications and modifications, require an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The Foundation adopted this guidance as of January 1, 2020 and applied Topic 606 on a modified retrospective basis. There was no change on opening balances of net assets.

Cash and Cash Equivalents

The Foundation considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents.

Note 1: Summary of Significant Accounting Policies (Continued)

Restricted Cash

The Foundation maintains separate accounts for donor-restricted funds, with the exception of donor-restricted funds to the endowment. These amounts are restricted to their use and are in interest bearing accounts. Cash is restricted for the following purposes as of December 31:

	2020	2019
Scholarships, grants, awards and support Endowments subject to endowment spending policy and appropriation for	\$ 3,085,144 \$	3,215,580
scholarships, grants, awards, and support	1,361,779	1,082,897
Totals	\$ 4,446,923 \$	4,298,477

Investments

Investments, which consist primarily of common stocks, bonds, and equity and fixed income mutual funds, are stated at fair value. Interest and dividend income is recognized when earned. Realized gains and losses arising from the sale, collection, or other disposition of investments are determined using the specific-identification method. Unrealized gains and losses are recognized on a current basis.

Promises to Give

Contributions are recognized when the donor makes a promise to give to the Foundation that is, in substance, unconditional. Contributions that are restricted by the donor are reported as increases in donor-restricted net assets. When a restriction expires, donor-restricted net assets are reclassified to net assets without donor restrictions. All promises to give are due to be collected over a period of 1 to 22 years.

Unconditional promises to give are recorded as receivables in the year promised. Conditional promises to give are recognized only when the conditions on which they depend are substantially met. Promises to give whose eventual uses are restricted by the donors are recorded as increases in donor-restricted net assets. Promises without donor restrictions to be collected in future periods are also recorded as an increase to donor-restricted net assets and reclassified to net assets without donor restrictions when received, unless the donor's intention is to support current-period activities.

Management individually reviews all past due promises to give balances and estimates the portion, if any, of the balance that will not be collected. The carrying amounts of promises to give are reduced by allowances that reflect management's estimate of uncollectible amounts. Promises to give are written off when deemed uncollectible.

Unconditional promises to give are carried at fair value using present value techniques incorporating riskadjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset.

Note 1: Summary of Significant Accounting Policies (Continued)

Property, Equipment, and Depreciation

Property and equipment are capitalized at cost or, if donated, at fair value on the date of donation. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The Foundation capitalizes property and equipment with a value greater than or equal to \$2,500 and a useful life of greater than one year.

The Foundation reports gifts of property and equipment as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash and other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, the Foundation reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions - Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions.

Net Assets With Donor Restrictions - Net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those which will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Contribution Revenue

Contributions, including promises to give, are considered conditional or unconditional, depending on the nature and existence of any donor or grantor conditions. A contribution or promise to give contains a donor or grantor condition when both of the following are present:

An explicit identifying of a barrier, that is more than trivial, that must be overcome before the revenue can be earned and recognized

An implicit right of return of assets transferred or a right of release of a donor or grantor's obligation to transfer assets promised, if the condition is not met

Conditional contributions are recognized when the barrier(s) to entitlement are overcome. Unconditional contributions are recognized as revenue when received.

Note 1: Summary of Significant Accounting Policies (Continued)

Contribution Revenue (Continued)

Unconditional contributions or conditional contributions in which the conditions have been substantially met or explicitly waived by the donor are recorded as support with or without donor restrictions, depending on the existence and nature of any donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Contributions that are restricted by the donor are reported as increases in net assets without donor restrictions if the restrictions expire in the fiscal year in which the contributions are recognized.

Revenue Recognition

During 2019, the Foundation recognized revenue under FASB ASC Topic 605, Revenue Recognition, from ticket sales, rental space revenue, and concession sales when all significant obligations of the Foundation had been satisfied.

On January 1, 2020, the Foundation adopted the new accounting standard ASC 606, *Revenue from Contracts with Customers*, and all the related amendments. ASC 606 applies to exchange transactions with customers that are bound by contracts or similar arrangements and establishes a performance obligation approach to revenue recognition. The Foundation records the following exchange transaction revenue in its statements of activities and changes in net assets for the years ending December 31, 2020 and 2019.

The Foundation enters into agreements with donors who make contributions to establish an endowment fund. The Foundation's performance obligation to the donors is to hold, invest, and disburse the donors' assets in conjunction with the donors' endowment funds' purpose and restrictions ("endowment management service" or "service"). The endowment management service performance obligation is considered to be a series of distinct service periods (months). In exchange for the Foundation's performance obligation, each donor's fund is assessed a monthly fee of 0.1875% of the fund's proportionate net investment return within the endowment portfolio on a recurring basis, which is considered the transaction price and variable consideration, since the total transaction price is not known until each service period is complete. The performance obligation is satisfied over time, and revenue is recognized as endowment fees, using an output method based on time elapsed (each month) until the donor's fund no longer contains adequate assets available for the purpose(s) of the fund.

The Foundation has determined that the amount and uncertainty of revenue and cash flows are most significantly affected by the adverse impact the COVID-19 pandemic has had on contributions to establish new or add to existing endowment funds.

Note 1: Summary of Significant Accounting Policies (Continued)

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in the statements of activities and changes in net assets. The statements of functional expenses present the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited. The Foundation has allocated all expenditures on an individual basis based on the underlying nature of each transaction's function. Salaries and wages, employee benefits, and payroll taxes are allocated based on the employees' estimated time spent performing activities within each function.

Tax-Exempt Status

As a nonprofit organization, the Foundation is exempt from income taxes under Internal Revenue Code Section 501(c)(3). The tax-exempt status is based on the stated purpose of the operations and supporting evidence presented to the Internal Revenue Service with the application for tax-exempt status. Such status is subject to reevaluation should there be changes in the operations, character, or purpose of the Foundation.

The Foundation assesses the potential outcome of uncertain tax positions. The Foundation's policy for interest and penalties related to income tax exposures is to recognize interest and penalties as other income (expense) in the statements of activities and changes in net assets. As of December 31, 2020 and 2019, management believed the Foundation had no material uncertain tax positions requiring recognition or measurement. The federal and state returns remain open to examination by taxing authorities through their statutory periods.

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. The most sensitive estimates affecting the financial statements are:

- Collectibility of promises to give
- Valuation of promises to give
- Valuation of investments

Subsequent Events

The Foundation has evaluated events and transactions for potential recognition or disclosure in the financial statements through September 2, 2021, which is the date the financial statements were available to be issued.

Note 2: Reclassification

The 2019 financial statements have been reclassified to conform to the 2020 presentation by: increasing restricted cash and decreasing cash and cash equivalents by \$141,281; and increasing contributions with donor restrictions by \$1,745,376 and interest and dividends by \$596,728, and decreasing net appreciation of investments by \$2,342,104. There was no impact to the change in or classification of net assets.

Note 3: Liquidity and Availability

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the balance sheet date, comprised the following as of December 31:

	2020	2019
Cash and cash equivalents	\$ 754,422 \$	689,739
Restricted cash	4,446,923	4,298,477
Certificates of deposit	374,035	374,035
Investments	33,012,635	29,185,850
Promises to give - net	522,183	702,811
Cash value of life insurance	102,698	85,622
Net assets held in trust	204,271	165,507
Total financial assets as of year end	39,417,167	35,502,041
Less those unavailable for general expenditures within one year due to time or		
purpose restrictions:		
Net assets with donor restrictions	(38,655,255)	(34,807,257)
Total available financial assets as of year-end	\$ 761,912 \$	694,784

The Foundation does not have a formal liquidity policy or management plan as of December 31, 2020 and 2019. The endowment funds held by the Foundation consist of donor-restricted funds. Income from donor-restricted endowments is restricted for specific purposes, with the exception of the annual 2.25% endowment fee charged to each fund, which is available for general use. The endowment fees are appropriated for general expenditure on a monthly basis.

Note 4: Fair Value Measurements

The Foundation measures fair value of its financial instruments using a three-tier hierarchy that prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

Note 4: Fair Value Measurements (Continued)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs, other than quoted prices, that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Foundation at year-end.

Common stocks: Valued at the closing price reported in the active market in which the individual securities are traded.

Money market: Valued at the balance in the account, which approximates fair value.

Greenlight Master Trust: Valued at the NAV as reported by the Master Trust. The assets of the trust consist principally of investments in investment funds.

Skybridge Gii Fund: Value at the NAV as reported by the fund. The fund contains six primary investment strategies: discretionary macro, multi-strategy, distressed corporate credit, structured credit, arbitrage, and hedged equity. The assets of the fund consist principally of investments in portfolios of global asset inflation and currency, convertible bonds, debt obligations, and investment funds.

Frontier Market Select Fund: Valued at the NAV as reported by the fund. The assets of the fund consist principally of investments in pooled investment fund interests and hedge funds.

Wisconsin Super Angel Fund: Valued at the NAV as reported by the fund. The assets of the fund consist principally of investments in early-stage, private companies based in the state of Wisconsin.

Promises to give - net: Valued using present value of future cash flows techniques, incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset.

Note 4: Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Foundation's investments, promises to give - net, and net assets held in trust at fair value as of December 31, 2020 and 2019:

Assets at Fair Value as of December 31, 2020

				otal Assets at

Level 3 Gains and Losses

The following tables set forth a summary of changes in the fair value of the Foundation's Level 3 assets for the years ended December 31, 2020 and 2019:

Year End	ded Deceml	ber 31, 2020
----------	------------	--------------

	ireenlight aster Trust	S	kybridge Gii Fund	Frontier Market Select Fund	Wisconsin uper Angel Fund
Balance - Beginning of year Appreciation (depreciation) Redemptions	\$ 818,740 - (818,740)		348,431 (40,309) -	•	\$ 42,481 - -
Balance - End of year	\$ -	\$	308,122	\$ 229,106	\$ 42,481
Amount of total gains (losses) for the period included in changes in net assets attributable to the change in unrealized gains (losses) relating to assets still held at the reporting date	\$ -	\$	(40,309)	\$ 2,091	\$ <u>-</u>

Year Ended December 31, 2019

Tear cit	aea i	December 3	Ι, Ζ	.019				
		Greenlight aster Trust	S	kybridge Gii Fund	V	Frontier larket Select Fund		Wisconsin Super Angel Fund
Balance - Beginning of year Appreciation (depreciation)	\$	773,709 45,031	\$	285,368 63,063	\$	252,308 (25,293)	•	42,481 -
Balance - End of year	\$	818,740	\$	348,431	\$	227,015	\$	42,481
Amount of total gains (losses) for the period included in changes in net assets attributable to the change in unrealized gains (losses) relating to assets still held at the reporting date	\$	45,031	\$	63,063	\$	(25,293)	\$	-

Note 4: Fair Value Measurements (Continued)

The Greenlight Master Trust, Skybridge Gii Fund, Frontier Market Select Fund, and Wisconsin Super Angel Fund are measured at fair value using NAV per share as a practical expedient. These investments in private entities and principle valuation technique, consistent with prior year, is summarized as follows as of December 31:

	Fair Valu	e				
Private Entity	2020	2019	Unfunded Commitments	Principal Valuation Technique	Unobservable Inputs	
Greenlight Master Trust, Skybridge Gii Fund, Frontier Market Select Fund and Wisconsin Super Angel Fund	\$ 579,709 \$	1,436,667	\$ -	NAV	Net income EBITDA Cost of capital Revenue multiple EBITDA multiple	

The methods described above and shown above for fair value calculations may produce a fair value calculation that may be different from the net realizable value or not reflective of future values expected to be received. The Foundation believes that its valuation methods are appropriate and consistent with other market participants; however, the use of these various methodologies and assumptions may produce results that differ in the estimates of fair value at the financial reporting date.

The Greenlight Master Trust was fully redeemed during 2020, in accordance with applicable redemption requirements. In January 2020, \$736,625 was redeemed and in May 2020, the remaining redemption of \$82,115 was received.

The Skybridge Gii Fund allows for redemption of shares on a semi-annual basis based on the valuations as of March 31 or September 30. There is no secondary market for the shares, and transfers of shares cannot occur unless authorized by the Skybridge Gii Fund.

The Frontier Market Select Fund allows for redemption as of the last business day of each calendar quarter, or such other day as the Frontier Market Select Fund approves at its sole discretion.

Note 5: Investments

The following is a summary of investments at market value and cost at December 31, 2020 and 2019:

	2020		2019			
	Market Value	Cost I	Market Value Cost			
Mutual funds	\$ 31,678,966 \$	27,096,935 \$	27,105,139 \$ 22,797,943			
Common stocks	374,566	164,291	305,234 152,086			
Wisconsin Super Angel Fund	42,481	42,481	42,481 42,481			
Frontier Market Select Fund	229,106	250,000	227,015 250,000			
Skybridge Gii Fund	308,122	300,000	348,431 300,000			
Greenlight Master Trust	-	-	818,740 499,331			
Money markets	379,394	379,394	338,810 338,810			
Totals	\$ 33,012,635 \$	28,233,101 \$	29,185,850 \$ 24,380,651			

Investments, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Because of the level of risk associated with various investments, it is reasonably possible that changes in the values of certain investments will occur in the near term and that such changes could materially affect the amounts reported on the financial statements.

Note 6: Promises to Give

Unconditional promises to give were estimated to be collected as follows as of December 31, 2020 and 2019:

	2020	2019
Within one year	\$ 253,513 \$	345,032
In one to five years	335,160	507,538
Over five years	18,200	23,800
	606,873	876,370
Less - Discount to net present value at 5.00% rate	(43,783)	(67,619)
Less - Allowance for uncollectible promises to give	(40,907)	(105,940)
Totals	\$ 522,183 \$	702,811

Note 7: Property and Equipment

A summary of property and equipment as of December 31, 2020 and 2019 follows:

	2020	2019
Property and equipment Less - Accumulated depreciation	\$ 271,697 \$ 92,665	181,043 49,847
Totals	\$ 179,032 \$	131,196

Depreciation expense for the years ended December 31, 2020 and 2019, was \$42,818 and \$18,628, respectively.

Note 8: Life Insurance Policies

The Foundation is the owner and beneficiary of seven whole life insurance policies with face values totaling \$540,000 at December 31, 2020. The premiums on these policies are paid by the donors. No cash redemptions were received during 2020 and 2019. The cash surrender values were \$102,698 and \$85,622 at December 31, 2020 and 2019, respectively.

Note 9: Assets Held in Trust

Under GAAP, the Foundation must recognize the net present value designated to the Foundation as beneficiary of the assets held in trust. The Foundation uses a discount rate of 5% in valuing the assets held in trust.

Under the terms of these irrevocable charitable remainder trusts, the Foundation as trustee is required to pay 6% to 7% of the net fair market value annually over the life of the agreements. Payments to the donors in the years ended December 31, 2020 and 2019, were \$3,799 and \$3,497, respectively. Upon the death of the donors, the balance of the trusts is to be distributed to the Foundation as designated in the trust agreement. As of December 31, 2020 and 2019, the Foundation reported that the present value of net assets from its interest in the trusts was \$204,271 and \$165,507, respectively.

Note 10: Related Parties

University of Wisconsin - La Crosse

In exchange for the Foundation promoting the welfare of the University of Wisconsin - La Crosse (the "University"), the University provides and pays for certain services for the benefit of the Foundation. These services are outlined in the articulation agreement between the Foundation and the University. These amounts have not been quantified and are not recognized in the financial statements.

University of Wisconsin - La Crosse Alumni Association

The Foundation provides personnel, office space, support, and other items to the University of Wisconsin - La Crosse Alumni Association (the "Alumni Association") at no charge. These amounts have not been quantified and are not separately identified in the financial statements.

Note 11: Endowments

Donor-restricted net assets have been restricted by donors to be maintained in perpetuity; the income from these assets is expendable to support scholarship programs of the Foundation.

The Foundation's endowments consist of funds that are invested in money market accounts, certificates of deposit, mutual funds, common stocks, and limited partnerships. These endowments include only donor-restricted endowment funds. Net assets associated with the endowment funds are classified and reported on the existence or absence of donor-imposed restrictions.

The Board of Directors of the Foundation has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift to the endowment fund (1) absent any explicit donor stipulations that would otherwise dictate the management of contributed funds or (2) subject to the discretionary authority of the Board pursuant to and using the criteria set forth in the Act. The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a dependable method of funding programs supported by the endowment funds while seeking to preserve the purchasing power of the endowment assets. Under this policy, the Foundation invests the endowment assets in a manner that is intended to produce a real return net of inflationary factors, Foundation management fees, and investment management fees. The Foundation realizes that actual returns in any given year may vary.

The Foundation has a Board-approved spending policy that allows for up to 4% of the average market value of endowment funds to be appropriated for specific scholarships, grants, awards, and support. The average market value is calculated based on the previous three year-end balances for the following fiscal year starting July 1 through the subsequent June 30.

Note 11: Endowments (Continued)

Donor-restricted endowments consisted of the following at December 31:

	2020	2019
Donor-restricted endowment funds Original donor-restricted gift amount and amounts required to be maintained		
in perpetuity by donor	\$ 25,390,271 \$	24,037,180
Original donor-restricted gift amount and amounts with time and/or purpose		
restrictions	8,596,289	5,913,104
Totals	\$ 33,986,560 \$	29,950,284

Changes in donor-restricted endowment net assets for the years ended December 31, 2020 and 2019, consisted of the following:

	2020	2019
Endowment net assets at beginning of year	\$ 29,950,284 \$	24,356,848
Net appreciation on investments	3,735,029	3,706,219
Interest and dividends	631,651	590,829
Contributions	1,305,292	3,265,230
Appropriations of endowment assets for expenditures	(1,635,696)	(1,968,842)
		_
Endowment net assets at end of year	\$ 33,986,560 \$	29,950,284

The restoration of previously recorded losses on endowment funds as presented above represents restricted assets whose current fair market value is no longer lower than the original donor-restricted contribution that was to remain in perpetuity. In accordance with GAAP, all dollars originally reclassified to donor-restricted net assets to ensure the original donor contributions remained in perpetuity are now reclassified back to undesignated net assets.

Note 12: Net Assets With Donor Restrictions

Net assets with donor restrictions were restricted for the following purposes or periods as of December 31:

	2020	2019
Subject to expenditure for specified purpose:		
Scholarships, grants, awards and support	\$ 4,434,711 \$	4,608,429
Promises to give, the proceeds from which have been restricted by donors for:		
Scholarships, grants, awards and support	233,984	248,544
	4,668,695	4,856,973
	, ,	, ,
Endowments subject to endowment spending policy and appropriation:		
Scholarships, grants, awards and support	33,647,616	29,374,993
Promises to give - Permanently restricted for scholarship endowment	338,944	575,291
	33,986,560	29,950,284
Totals	\$ 38,655,255 \$	34,807,257

Net assets were released from donor restrictions by incurring expenses satisfying the restricted purpose or by occurrence of the passage of time or other events specified by the donors as follows for the years ended December 31:

	2020		2019
Scholarships, grants, awards and support	\$	3,057,303 \$	2,629,987

Note 13: Pension Benefits

The Foundation sponsors a money purchase pension plan covering substantially all employees. The Foundation contributed 10% of each participant's annual compensation to the plan during 2020 and 2019. Pension costs were \$6,750 and \$7,023 for the years ended December 31, 2020 and 2019, respectively.

Note 14: Contingent Assets and Liabilities

The Foundation has received declarations of intents to give in the form of designation of beneficiary of life insurance policies and will bequests. These declarations of intent are not reflected on the Foundation's statements of financial position because beneficiary designations are revocable or subject to change.

Note 15: Concentration of Credit Risk

The Foundation maintains its cash in bank deposits at various financial institutions. Certain cash balances held by financial institutions exceed Federal Deposit Insurance Corporation (FDIC) limits. Management believes these financial institutions have strong credit ratings and that credit risk related to these deposits is minimal.

Note 16: Risk and Uncertainty

Beginning in March 2020, the United States economy began suffering adverse effects from the COVID 19 pandemic crisis (CV19 Crisis). As of the date of issuance of the financial statements, the Foundation has experienced an adverse impact of the CV19 Crisis in the form of decreased giving received from donors. While management is actively mitigating the impact of the CV19 Crisis on the Foundation, the future impact of the CV19 Crisis cannot be reasonably estimated at this time.
