Updates to NSF Proposal Requirements Effective Jan. 2019

The National Science Foundation (NSF) has released a new Proposal & Award Policies & Procedures Guide (PAPPG) that applies to proposals submitted on or after January 28, 2019. See the NSF website for a summary of significant changes. Some of the notable revisions include the following:

- Conference proposers are required to have a policy or code of conduct addressing sexual harassment, other forms of harassment, or sexual assault. The policy or code of conduct must be disseminated to conference participants prior to attendance and be made available at the conference itself.
- Grantees are required to implement NSF's new term and condition for notifying the agency in the event there is administrative action or leave taken in relation to a PI or co-PI for sexual harassment, other forms of harassment, and sexual assault. UWL's related policy and procedure can be found on the ORSP compliance web page.
- New guidelines have been added addressing requirements for changes in PI/co-PI effort levels on a project (Chapter VII.B.3).
- Guidelines for synergistic activities in biographical sketches have been revised to specify the list should include up to five distinct examples that demonstrate the broader impact of the individual's professional and scholarly activities, focusing on the integration and transfer of knowledge as well as its creation.
