NEH Humanities Summer Stipends: UWL Notices of Intent (NOIs) due Aug. 2

The National Endowment for the Humanities (NEH) Summer Stipends program supports individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources. Stipends support full-time work on a humanities project for a period of two months. Projects are supported at any stage of development.
Applicants must be nominated by their institution, and there is a limit of two applicants per institution. **Interested individuals should complete a UWL notice of interest (NOI) form and submit it by August 2.** Before submitting the NOI form, applicants should discuss their project with their department chair and college dean. Submit the completed NOI form to grants@uwlax.edu by the deadline below; include your department chair and college dean in the CC line. ORSP will facilitate review of NOIs, with anticipated notification of nomination by August 16. Please contact ORSP (grants@uwlax.edu) with questions.

**Deadlines:**

- **UWL notice of interest (NOI) form (required)** due to grants@uwlax.edu: August 2, 2019
- NEH proposal submission deadline: September 25, 2019 (annually recurring)

New UW System Intellectual Property & Invention Disclosure Requirements

UW System recently revised its policy (Policy 346: Patents & Inventions) on intellectual property (IP), patents, and inventions for all UW faculty, staff, and students. In order to ensure UWL is compliant with the policy changes, the university’s related requirements have also been updated.

What are the new requirements?

UW System has implemented two main requirements for all UW faculty, staff, and students:

1. **Completion of Intellectual Property (IP) Agreements:** All UW faculty, staff (except clerical and non-technical employees), and student employees working on extramurally funded scholarly projects must sign an IP Agreement. UWL has implemented an electronic agreement in Qualtrics for this purpose. Once completed, an IP Agreement covers all extramurally funded scholarly projects on which an individual works for five years.

2. **Disclosure of Inventions:** All inventions discovered by UW faculty, staff, or students while pursuing their university duties, on university premises, or with university supplies or equipment must be promptly reported via an Invention Disclosure Form submitted to UWL’s WiSys Regional Associate. There are some exceptions for inventions discovered by students during academic coursework or classroom projects, or students funded by some scholarships, fellowships, or training grants.

What happens next?

In July, the Office of Research & Sponsored Programs (ORSP) will be reaching out to faculty and staff who are principal investigators/project directors (PIs/PDs) and co-PIs/PDs of active extramural awards to request that they (1) complete an IP Agreement in Qualtrics and (2) send a list of UWL student employees, faculty, and staff working on the funded project. ORSP will follow-up with identified personnel to have them complete an IP Agreement. As new extramural awards are received, ORSP will prompt project personnel to complete IP Agreements (as applicable) as part of the standard post award account set-up process.

Who can I contact with questions?

All questions about the policy changes and requirements can be directed to ORSP at 785.8007 or grants@uwlax.edu. For more information, please also see UWL’s Intellectual Property, Inventions, and Patents FAQs and UW System’s Policy 346: Patents and Inventions.
