

LIBRARY COUNTS & UTILIZATION

REAL DATA IN REAL TIME

Keeping track of counts and utilization trends is a key measure of your operation. The Connect2 live count and utilization platform can be easily implemented and integrated with your website! Displaying live count facility usage is a great way to provide exceptional service, real time data, manage your capacity counts and educate your patrons.

GATHER

Easily take counts in each location using the iPad or web application on any mobile device!

SHARE

Choose which locations you would like to publish out to your website and/or app.

ANALYZE

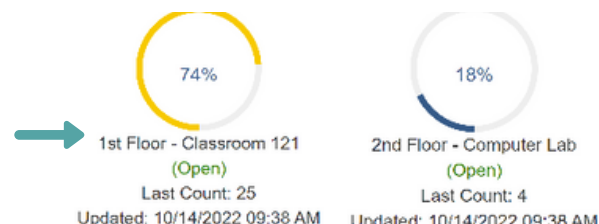

Pull daily count reports and use the capacity report to evaluate peak times and adjust operations/staffing accordingly.

ADJUST & ADAPT

Change capacities in each location on the fly and close areas as needed.
