

meeting minutes

Project No.: R3001.405.00 File No.(s): 0.10.0

Date Prepared: November 22, 2017

Meeting Date: November 14, 2017

Project Name: University of Wisconsin-La Crosse- New Student Fieldhouse & Soccer Support Facility (DFD 15121)

Subject: Exercise and Sport Science User Group Meeting

Meeting Attendees: See meeting attendance list attached

Comments, additions, or corrections to this memo should be communicated in writing to RDG Planning & Design within seven (7) days of receipt. If no comments are received within that period, this memo will be assumed accurate and filed as part of the permanent record for this project.

Discussion:

See attached exhibits discussed and marked up during the meeting for additional meeting documentation.

- 1) Liked the relationship of the new building to the existing stadium.
- 2) The "lounge" area shown on Level 2 outside of the Multipurpose rooms would be a good place for blood pressure activities. Currently this is "bonus space" not specifically listed in the Program.
- 3) Multipurpose rooms could be used by ESS for chair aerobics, Pilates and other activities
- 4) Equipment provided by ESS needs to be wheelchair-user/ ADA accessible
 - a) Aerobic
 - b) Stationary Bike
 - c) Semi-Recumbents
 - d) Stair Climber
 - e) Short Treadmills
- 5) Design team requests an inventory of exercise equipment and stored equipment to use for design purposes
- 6) MG requested a fixed desk or counter at Level 2 to use as a "home base" for ESS staff. A location near the elevator and stairs would be best.
- 7) Athletic Training location on Level 1 is OK for ESS. Liked the natural light. Privacy for those in Training (related to views from the exterior) should to be taken into account.
- Blood pressure check is typically one of the first steps for an ESS patron once arriving.
 - a) Blood pressure check-in location near the Control desk is desirable- either in circulation space or south end of the Fieldhouse.
 - b) Stackable chairs would work well for this. Storage for stackable chairs is needed when not in use.
- Would like efficient compact storage.

- 10) MG believed Training as shown is undersized for the largest events like the State Track Meet. Original program area was 500 SF and is currently shown at 1,000 SF.
- 11) ESS requests 20 client parking spaces minimum on site. 25 spaces are desired. MG believed on-street parking is not typically available on Pine street during regular client hours (spaces are already occupied by 8:00am).
- 12) Exterior images: liked small / shallow peaks like at Great Hall & Stadium

END OF MEETING MINUTES

meeting attendance

Date: Nov. 14 & 15, 2017 Time: 3:00 Subject: #55

UWL	Final Completion	July 2022	4 Months

Budget Overview

Current Program shown exceeds \$40 M

- Total Project Cost (all in) = \$45 M

Why above budget?

- Added 8,400 NSF (10,500 GSF) to Program
 - Multiple Locker Rooms
 - Several Support Spaces
 - Customer Service Desk
 - These spaces add ~ \$4 M to Bottom Line
- Fieldhouse (as drawn) 8,000 NSF over target
 - This adds ~ \$2.3 M to Bottom Line
 - Confident we'll extract some extra space
- Also not Site Costs not yet confirmed

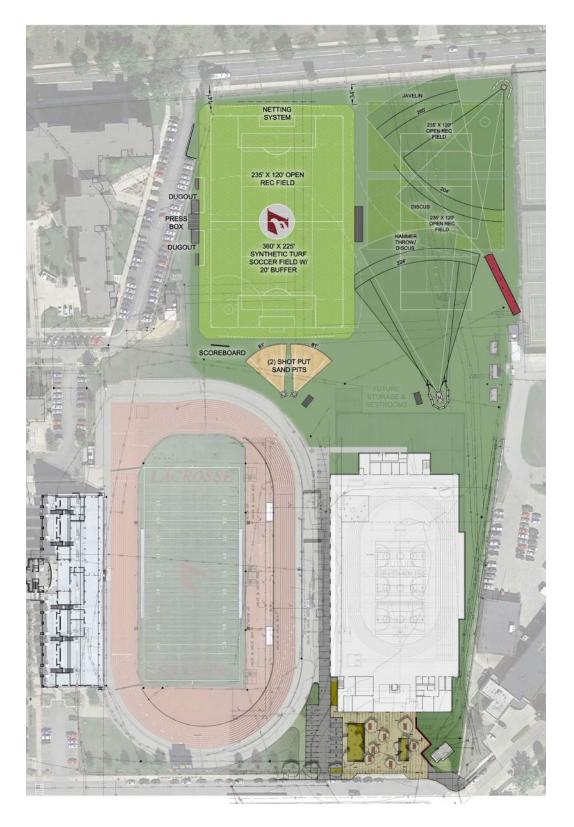

More work to follow . . .

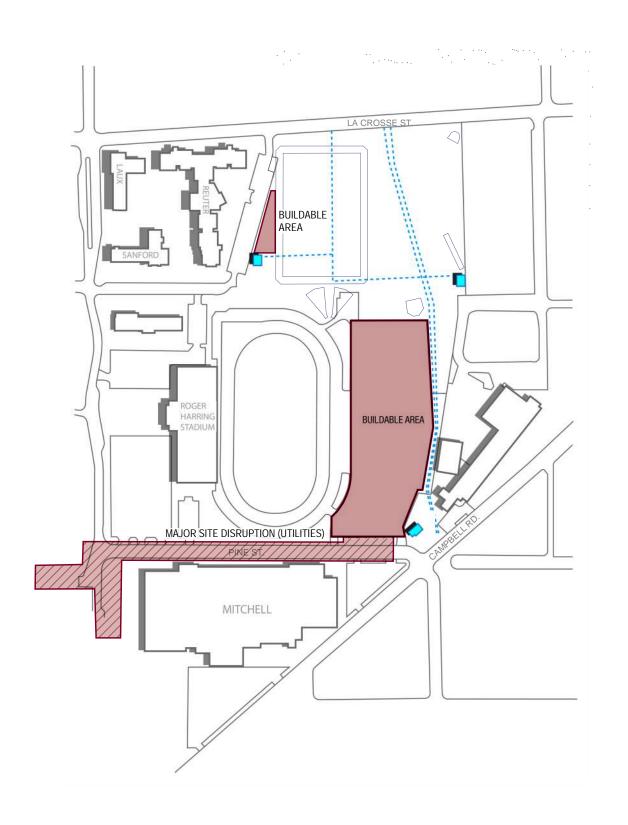

RDg...
