How to use filters in the SRC:

Outside Scholarship Database

Click on the link on the SRC website!

1. That will bring you to the Airtable website with all of our scholarships in an organized database for you to use!

2. Check out the database!
3. Click "Filter" in the top left corner
This will allow you to narrow your search and find scholarships unique to you

4. Click "Add Filter"

5. Click where it says "Name"
This will open a drop down menu with all of the filters we have on our database

6. Start by filtering using your year in school!
The filters for this are:
Prospective (High School)
Freshman
Sophomore
Junior
Senior
Graduate
1. **You'll want to add another filter**, so click "Add Filter" again.

2. Click the box to select it. This makes it so it only shows scholarships that your year in school can apply for.

3. You'll want to add another filter, so click "Add Filter" again.

4. Click "Name" again to bring up the drop down menu. Scroll down to look at all the other filters that we have. To find ones that match your major, choose "Major".

5. Click "Select an option" and scroll to find your major and click on it. They are organized by colleges.
You can then close out of the filter selection tool area, and you will see all of the scholarships that you are eligible for. Go ahead from here and explore them using the descriptions and website links. The award amount and deadlines are also listed with each scholarship.

With the 2 filters that I chose, 52 scholarships are available that fit into those filters.
All of the filters on Airtable
