**Timing:**

- It is recommended that you approve your employee(s) time on the Monday following the end of a pay period.
- Supervisors have until Noon on Tuesday following a pay period to approve employee’s hours.
- If you do NOT approve an employee’s time correctly, they may NOT be paid!
- You should complete these steps in order: review timesheet, approve absences, clean up exceptions, approve payable time.

**Log in:**

- My UW System portal at [https://my.wisconsin.edu/](https://my.wisconsin.edu/).
- A link is available from the HR Home Page or from the UW-L Home Page in the Quick Links drop down menu.
- Go to the “Manager Time and Approval” section on your portal.
- Click on the Manager Self Service - Time Management link.
- If you are already in HRS, use the menu to access Manager Self Service.

**Reviewing time entry:**

- On the “Manager Self Service” menu page in HRS, click the Timesheet link.
- You will now be able to search for your employees.
- You can search by Group ID, Employee ID, or Name.
  - Name searches – use all CAPITAL LETTERS for Last Name, First Name, or both.
  - Group ID searches – use the magnifying glass icon to find your Group ID number.
    - Use Group ID “B” (primary supervisor) or Group ID “C” (back-up supervisor)
  - Tip: you can save your search criteria as a time saver.
- Click the Get Employees button to search using your search criteria.
- Depending on your search criteria, one or more employees will be returned.
- Select the timesheet by clicking the Employee’s Name.
- If you need to view other timesheets for this person, use the Previous Time Period and Next Time Period links.
Reviewing time entry (continued):

Non-exempt employees:

- Time should be reported in quarter-hour increments. (see the following guidelines)
  - 7:53 am to 8:07 am = 8:00 am
  - 8:08 am to 8:22 am = 8:15 am
  - 8:23 am to 8:37 am = 8:30 am
  - 8:38 am to 8:52 am = 8:45 am
  - 8:53 am to 9:07 am = 9:00 am

- Start, stop and lunch times should be in the appropriate boxes. (see examples)
  - For a shift without a break, the first “in” box and the last “out” box should be used.
  - For a shift with a break, the first “in” box and the last “out” box should be used for start/stop times and the center “in” and “out” boxes for the break.

- The “Reported Hours” field will automatically add together the reported time for each day in the pay period. Review this total for accuracy.

Exempt employees:

- Time should be reported as total hours worked per day (see the following example).
- Additional rows will need to be added for differentials. If there are night/weekend differentials, those hours will be included in the “Reported Hours” total.

All employees:

- You will need to review the status of each day to determine whether the employee has submitted their timesheet or if just the pre-filled work schedule is showing. “New” status hours cannot be approved, “submitted” status hours can.
- To review timesheets for other employees, click the Return to Select Employee link to enter new search criteria OR if your previous search pulled up multiple employees use the Next Employee button at the top of the page.
Reviewing exceptions:

- On the Timesheet page, you can see what dates have exceptions by looking for the Exceptions icon. Exceptions need to be corrected or approved before you’re able to approve payable time.

- Exceptions are created when the system detects errors, including: missed punches, incorrectly entering am/pm, hours in a day totaling more than 24, schedule deviations, and more. Exceptions must be either corrected or approved.
  - Correcting exceptions: exceptions that are due to time entry errors will need to be corrected.
    - Example: “punch hours greater than 12” exceptions should be corrected if the exception is due to a missed or incorrect punch (see instructions in ‘Correcting Time Entry’ section).
  - Allowing exceptions: some exceptions are not due to time entry errors and should be approved.
    - Non-exempt example: “Early IN Punch” exceptions should be “allowed” if the employee truly did begin work early than their scheduled start time (see instructions in ‘Allowing Exceptions’ section).
    - Exempt example: “WORKEDPAID over 40hr in a week” exceptions are created when an exempt employee works more than 40 hours in a week. This is a schedule deviation and should be allowed, but the system will only pay the exempt employee for 40 hours per week (unless the exempt overtime TRC is used). (See instructions in ‘Allowing Exceptions’ section.)

- Exceptions need to be resolved before time can be approved.

Correcting time entry:

- If the employee’s timesheet is inaccurate or entered incorrectly, best practice is to have the employee correct the timesheet themselves.
  - If there are exceptions on the employee’s timesheet, allow approximately two hours after correcting/allowing exceptions for HRS processing (after HRS Time Administration process is completed).
- If your employee is unable to correct their own timesheet, you may do it for them.
- When correcting a timesheet (for a non-exempt employee), enter the time using 24 hour time or standard time (see the following examples).

<table>
<thead>
<tr>
<th>24 Hour Time</th>
<th>Morning</th>
<th>Noon</th>
<th>Afternoon</th>
<th>Midnight</th>
</tr>
</thead>
<tbody>
<tr>
<td>0745</td>
<td>1200</td>
<td>1630</td>
<td>0000</td>
<td></td>
</tr>
<tr>
<td>7:45AM</td>
<td>12:00PM</td>
<td>4:30PM</td>
<td>12:00AM</td>
<td></td>
</tr>
</tbody>
</table>

- Use the Submit button to save any changes or corrections that you make. Submitting will update the “reported hours” field.

Allowing exceptions:

- If the exception cannot be resolved by correcting the timesheet, you can allow it by clicking on the exception icon, selecting the exception, and clicking Allow and then Save.

Active check box = allow
Greyed check box = correct
Approving payable time:

- After allowing exceptions and/or correcting the timesheet, you will need to wait until the next Time Administration process is complete before you will be able to approve the payable time. Time Administration runs approximately every 2 hours throughout the day.
- Review the timesheet before you approve time.
- On the “Manager Self Service” menu page in HRS, click the Payable Time link.

- You will now be able to search for your employees and approve their time.
- You can search by Group ID, Employee ID, or Name.
  - Name searches – use all CAPITAL LETTERS for Last Name, First Name, or both.
  - Group ID searches – use the magnifying glass icon to find your Group ID number.
    - Use Group ID “B” (primary supervisor) or Group ID “C” (back-up supervisor).
- Tip: you can save your search criteria as a time saver.
- Click the Get Employees button to search using your search criteria.
- The date range for finding an employee’s submitted time will default to the current pay period. If you need to approve time for a different pay period, contact Human Resources.

- If there is time awaiting your approval, employee’s names will display. Only employees who have time waiting to be approved will be listed. Click on the Employee's Name.
Approving payable time (continued):

- After clicking an Employee's Name, you will see the “Approve Payable Time” page. This page will show you any time that has yet to be approved for that employee. You should make sure that the information appears correct.

- Several items may appear on the “Payable Time” screen and can be distinguished by the “Time Reporting Code” (TRC) field (see list of exempt and non-exempt Time Reporting Codes).

- If anything appears to be incorrect, click on the Adjust Reported Time link to be taken back to the employee’s timesheet. After reviewing the employee’s timesheet, you can return to the “Payable Time” screen by clicking on the Return to Approval Details button.

- If everything is correct, click the Select check box for the days you want to approve or click the Select All button. Click the Approve button to approve an employee's time.

- You will see an Approval Verification message. Click OK if you are sure you want to approve the time.

- Finally, you will see the Save Confirmation page. Click OK again.

- After clicking OK, you will be brought back to the employee’s job for which you just approved time.

- To review timesheets for other employees, click the Return to Approval Summary link to enter new search criteria OR if your previous search pulled up multiple employees use the Previous Employee and/or Next Employee buttons at the top of the page.
Logout:

- Logout and close your browser. It is very important to do this when using shared computers or computer labs.

Supervisor FAQ's:

- My employee does not come up in the “Approve Payable Time” search. Why not?
  - There are 3 reasons this could happen, the employee hasn’t submitted their time, the time admin process hasn’t run since the time was submitted or corrected, or the time has already been approved.

- I’ve already approved time, but now there is additional time to be approved for my employee. Why?
  - Time admin needs to run after corrections are made to timesheet. This could create the need for additional approvals. Verify the timesheet and approve as necessary. HR can assist with questions if you have them.

- My employee made a mistake/error on their timesheet. How do I fix it?
  - Best practice is to have the employee correct errors. If the employee is unable to correct their own timesheet, the supervisor may do so. Be sure to discuss the mistake/error with the employee to avoid future problems. Contact HR for assistance, further training or clarification.
